Crisil revises SBHPL rating outlook to 'negative' from 'stable'

FE BUREAU
Mumbai, July 22

CRISIL ON MONDAY revised its rating outlook on the long-term bank facility worth ₹434.49 crore of Sdbhav Bhavanagar Highway (SBHPL) to 'negative' from 'stable', while reaffirming the rating at 'CRISIL A'. The outlook has been revised due to delays in construction progress as a result of encumbrances on right-of-way (ROW).

The rating agency in its detailed rationale said, "The project was to achieve third project milestone corresponding to 75% financial progress on June 22, 2019, after factoring in 174 days extension of time (EOT) from National Highways Authority of India (NHAI). However, the milestone has not been achieved within the extended period, and is now expected to be achieved within the 90-day cure period (by September 22, 2019) given that earth work on 35.78 kilometre (km) out of the total 48 km has been completed and the pending, high-value top layer work takes lesser time to complete. The original commercial operations date (COD) for the project was August 6, 2019, but EOT has been received till January 28, 2020."

The rating continues to reflect inherent benefits of the hybrid annuity model (HAM) such as provisions for unavailability of land, low funding risk, operational experience and financial strength of the sponsor, Sdbhav Infrastructure Projects (SIP), and its need-based support during the construction and operational phases.

Around 68% of the project has been completed as of March

2019 and hence there is moderate implementation risk. The company has missed the third project milestone even within the extended time period, but this is expected to be achieved within the 90-day cure period. The implementation risk is

mitigated by fixed-price, fixed-time contract with, and strong project execution capabilities of, SEL.

However, the rating agency also said, "Construction by SBHPL is currently delayed and the project has missed the third

project milestone date. The rating may be downgraded if the project is unable to achieve the provisional COD in line with the

original COD of August 2019. The outlook may be revised to 'stable' if the project receives timely provisional COD and

approval for delinquency, resulting in full annuities being received as per the original schedule."
