PRESS RELEASE

Shree Cement commissions one of the largest Kiln with a capacity of 11,500 Tons per day at its new integrated plant at Nawalgarh, Rajasthan, taking company's cement capacity to 53.4 million tons

Shree Cement Limited, one of India's largest cement group, proudly announces commissioning of the kiln at its new integrated production facility in Nawalgarh, Rajasthan. Boasting a remarkable rated capacity of 11,500 tonnes per day, this kiln stands among one of the highest capacity units in world. Equipped with cutting-edge technology, the kiln facilitates multi-fuel operations, including usage of alternative fuels and ensures energy efficiency.

Established with an investment of approximately ₹3,500 crore, the plant has a capacity to produce 3.5 million tonnes of Cement per annum. The company has invested on a 33 MW waste heat recovery-based power plant which contributes to electricity generation without consuming fossil fuels, utilizing waste gases from the clinkerisation process. Strategically situated in the North-Eastern part of Rajasthan, bordering the State of Haryana, the plant provides a strong logistical advantage and will help in reducing the delivered cost. This marks the start of the company's fifth integrated production facility, reinforcing its commitment to technological excellence and sustainable practices while developing above 80 million ton cement capacity.

On this occasion, **Mr. Neeraj Akhoury, Managing Director, Shree Cement Ltd.** said, *"In our pursuit to become a 80 million tonnes company by year 2028, we are excited to announce commissioning the kiln in our new integrated facility at Nawalgarh, Rajasthan. This state-of-the-art facility is the most modern plant of the Company and shall significantly boost the operational performance of the Company. Owing to its proximity, this facility is well suited to cater the high consumption cement markets of National Capital Region, Punjab and Haryana apart from strengthening the Company's customer servicing capability in Rajasthan."*

Following this expansion, Shree Cement Limited boasts a network of five integrated facilities spanning Rajasthan, Chhattisgarh, and Karnataka. With the commencement of cement production at the Nawalgarh facility, the company's total cement production capacity in India has risen from 49.9 MTPA to 53.4 MTPA, solidifying its position as a key player in the cement industry.

About Shree Cement Limited

One of the leading cement groups in India, Shree Cement Limited ('SCL') (BSE: **500387**/ NSE: **SHREECEM**) is known for its industry leading green credentials, cutting edge innovative practices and cost leadership.
