<u>Re: Information under Regulation 30 with regards to debottlenecking / expansion of existing plant capacity.</u>

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosures Requirements, Regulation 2015, Sadhana Nitro Chem Limited ("SNCL") would like to intimate your good office as under :-

I. ODB2 (THERMAL PAPER COLOUR FORMER)

On account of strong global demand of our ODB2, SNCL is increasing its ODB2 capacity from its Existing 550 TPA to 2000 TPA.

SNCL plans to increase utilisation of ODB2 plant expanded capacity in Q4 of FY 2022-23 to 60% and in Q1 of FY 2023-24 to over 90%.

II. PAP (PARA AMINO PHENOL)

SNCL has started successfully manufacturing PAP achieving desired quality and output level under batch process. Multiple local and export clients have approved our quality and all material (albeit small quantities, of product) manufactured through batch process manufacturing has been sold out.

SNCL now plans to migrate manufacturing of PAP from batch process to continuous process to attain full production capacity in the existing plant. It is expected that this migration will be completed by mid-December, 2022 and the continuous manufacturing PAP process will be operational from middle to end December, 2022.

III. The above debottlenecking, expansion and migration will be done within the CAPEX plan intimated earlier. Kindly take the same on record.

Thanking you, Yours faithfully,

For Sadhana Nitro Chem Limited

ABHISHEK ASIT JAVERI

Abhishek A. Javeri Managing Director **DIN: 00273030**
