1. Automotive - MLL offers fully integrated solutions spanning multi-modal transportation (inbound & outbound), warehousing solutions, stores and linefeed services, yard management, large contractual workforce management, just-in-time services, aftermarket logistics, return logistics, and layout & process design support, among others, for the automotive industry. With industry expertise, an extensive partner network and state of the art technology, Mahindra Logistics creates value across different sub-sectors of the auto industry. We provide efficiencies derived from bespoke solutions design, customised technology and specialised skill building. We optimise cost, quality, and speed for some of the largest OEMs in the auto sector. Our resources and expertise span across sub-segments of auto, such as two-wheeler, four-wheeler, heavy vehicles, tractor & farm, auto components, and auto aftermarket & spares, among others, with footprints all over India.
2. Engineering & Manufacturing - MLL provides services to the Manufacturing & Engineering industries to significantly boost both productivity and effectiveness, through various offerings that encompass everything

from order management, logistics solutions, production support, and lean warehousing. We ensure our customers consistently meet and exceed expectations at every touchpoint through benchmarking, developing quality and compliance strategies across the entire value chain. We help our customers redefine their solution vision so that the impact is much greater than their expectations. Our resources and expertise are spread across segments like capital goods, heavy machinery/equipment, light engineering products such as castings, forgings, and fasteners, semiconductors, power generation & transmission equipment, and ferrous & non-ferrous metal products & parts, among others, with footprints all over India.

3. FMCG & Consumer Durables - MLL offers integrated solutions from design to deliver, managing warehousing and distribution centres, secondary and last-mile transportation, while optimising distribution systems and networks for FMCG, consumer durables, apparels and large retailers. We provide a whole suite of multi-channel and direct-to-market offerings using best-in-class technology.
4. Pharma - MLL provides differentiated and customised logistics solutions at every step of the supply chain to pharmaceutical and life sciences companies. Our solutions for the pharma industry range from the delivery of raw materials into the manufacturing process to the delivery of finished drugs and medical equipment. From freight forwarding, customs clearance, transportation, and warehousing to responsible destruction of expired products and refurbishment, we provide integrated solutions to meet the logistics needs of the industry.
5. Telecom - MLL offers a broad base of logistics solutions for network operators of large telecom firms in India. From services, such as storage, distributions, and returns, to highly specialised and technical offerings, such as maintenance, network expansion, and critical parts delivery, we offer end-to-end logistics services to the telecom industry. Our pan-India reach, and unique sector experience make us the preferred supply chain partner in the telecom industry.

6. Ecommerce - MLL offers complete end-to-end logistics solutions with a focus on speed, safety, and reliable nation-wide delivery services for the e-commerce industry. Understanding scalability, flexibility, focus on customer experience, and leveraging the right technology has made us one of the largest partners in the e-commerce industry. Be it storage and processing, automation and robotics, transportation, and last-mile deliveries, we provide integrated solutions with the highest levels of performance and reach, creating an unmatched blend of capabilities and offerings for the industry. Our solutions come with the advantages of agility and scalability, which gives us the capacity to handle high volumes of e-commerce transactions during peak season.
7. Commodities - MLL offers customised transportation services as per the requirements and logistics planning for a wide variety of commodities & heavy industries. We apply a blend of network redesign, the best in telematics, and transportation management for cost optimisation and maximising efficiency. We also provide consulting services uniquely designed for each of our customers, coupled with control tower operations for various industries. Our experiences over the years have helped us understand the businesses of our clients effectively. We are equipped to deliver innovative and unique transportation and warehousing solutions. And by understanding the specific requirement, we design a tailor-made solution, combining the required logistics components. The solution can range from a simple freight forwarding service to a highly sophisticated and integrated end-to-end logistics solution.

24. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
1	Climate, environment and GHG	R	Transportation being the main activity, we are conscious of our contributions to climate change in the form of emissions.	We are a signatory to the Science Based Target initiative (SBTi) and are committed to becoming carbon neutral by 2040.	Negative: Increased operating costs in meeting the environmental standards.
2	Customer satisfaction	O	It is among the top priorities and is very important for our continued and growing business.	Continuous formal and informal interactions with customers and annual customer satisfaction surveys assist in understanding the exact requirement.	Positive: Improve competitiveness and adapt to client expectations by leveraging our expertise in low-carbon solutions.
3	Energy efficiency	O	Energy efficiency helps organisations in both aspects of environmental impact and cost.	This is addressed through our ACE energy efficiency project implemented across locations with targets.	Positive: Cost and environmental impact.
4	Employee training and development	O	Well-trained employees contribute positively to the operational performance of the organisation.	Training needs are identified at the start of the year, and it is ensured that relevant trainings are imparted to the employees.	Positive: Facilitate a best-in-class employee experience, thereby impacting our ability to attract, hire, train, engage and retain talent.
5	Ethics and Code of Conduct	R	Employees deviating from the norms of ethics and the code of conduct may have a serious effect on the organisation's reputation.	MLL's CoC is a wholesome document and covers all aspects, with regular trainings imparted to employees.	Negative: Impact on the Company's reputation and stakeholder trust.
6	Focus on renewable energy	O	RE helps organisations reduce their environmental impact.	All our new BTS facilities have solar installations.	Positive: Ensuring sustainable growth of the Company.
7	Occupational health and safety	R	Health & safety is among the top priorities, as any accident has a major impact in terms of cost, life, and reputation, among others.	MLL is ISO 45001 certified, and regular trainings are imparted to employees across locations.	Negative: Impact on the Company's reputation and employees & partners' trust in the organisation.
8	Corporate governance	R	Strong corporate governance helps achieve the organisation's purpose and mission and mitigates risk that undermines stakeholder trust, reputation and disrupts business.	Corporate governance framework	Negative: Impact on the Company's reputation and stakeholder trust.

PRINCIPLE 4 - BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL ITS STAKEHOLDERS

ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity.

Stakeholder engagement for us is about collaborating and working together with them to ensure a win-win for them, our Customers and our Company. Being a third-party logistics provider, the stakeholders in the value chain are very critical for the sustainable growth of the Company. Hence, understanding and satisfying the needs and aspirations of stakeholders is an important factor in the process of our service delivery. During the year, a detailed exercise was carried out to ensure that all our stakeholders were effectively covered, and that the engagement process brought value to the Company as well as each stakeholder group. Wherever required, each stakeholder group was further divided into sub-groups depending on the needs of the business vertical and the role they play in ensuring a high level of customer service. An internal survey was conducted during the year, based on which the stakeholders were identified.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

'Expand the ESG mandate' is a part of our CEO policy and priorities, which are cascaded to all business verticals with targets. Consultation with stakeholders on ESG topics is conducted by business leaders within the organisation, who are also responsible for engaging with stakeholders continuously. Material issues for the business are prioritised based on their impact on our stakeholders and our business. ESG updates, along with scores of customer satisfaction and M-Cares employee engagement, forms an agenda for all board meetings.

Read our ESG aspirations at <https://mahindralogistics.com/csr-and-sustainability/>

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. Our ESG aspirations are based on material topics based on our stakeholder consultations. The top material topics were shortlisted and prioritised based on their impact on our stakeholders and our business.

For 2022-23, senior leaders of the organisation were engaged for the materiality matrix refresh with a view to gain their perspectives on the key issues pertaining to ESG and build their buy-in. As a part of this exercise, questionnaires were shared with the leaders of the organisation, asking for their views on the topics that were material to the organisation. The material issues identified after this exercise were used in this report and other strategic decisions of the organisation.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

Over the last few years, MLL has been focusing on the initiative of building gender diversity and making the workplace more inclusive and conducive for all its employees. MLL has been proactive in recruiting as well as developing diversity groups across levels in the organisation. There are several initiatives taken in this regard, some of these are outlined below:

Audit and Assessments

- Infrastructure Accessibility audit has been conducted at the Head Office as phase one to identify barriers to the inclusion of PWDs. The detailed report is awaited.

A Gender-Neutral Washroom at HO has been opened to foster the inclusion and comfort of various gender identities and expressions. An FAQ and announcement will be provided to help employees understand this new initiative.

Recruitment

- **Udaan** - The Second Career Internship Programme, focusses on enabling women on a career break to continue their work journey at MLL.
- **VEER** - The Veteran Employment Engagement and Retention (V.E.E.R) programme was conceptualised to provide armed forces veterans from the enlisted

cadre (retd. JCO/NCOs) with opportunities in the operations function. Considering that they are highly disciplined and face challenges in seeking relevant job opportunities based on the skills that they bring to the table, the organisation provides them with a one year programme where they undergo extensive training, functional onboarding, site level orientation, mentoring, and shadowing. The organisation has inducted the third batch of candidates from the V.E.E.R programme with armed forces veterans and trained them to join our ground operations, which brings the total number of VEER veterans inducted to 30.

- **Women in operations through diversity feeder programmes** (Mission 100 women) - To increase the supply of talent into the workforce, the organisation recruited 55 women trainees as Management and Graduate Engineer Trainees, which would help drive gender diversity at the operational band. The focused campus programme for hiring women trainees for operations was intended to train women in warehouses, stores and linefeed, and transportation operations before assigning them specific roles.
- **Persons with Disabilities inclusion** - MLL is focused on the recruitment of persons with disabilities. Roles were identified at the corporate office as well as various operations sites for Persons with Disabilities, so that they could be provided with an opportunity to develop their careers in their respective areas of specialisation. The organisation identified and engaged with specific partners, specialising in hiring and sensitisation with respect to Persons with Disabilities. To ensure that the work environment was conducive, infrastructural modifications were made on the basis of an audit conducted by an external consultant.
- **LGBTQIA+ community inclusion** - There are focused efforts to hire professionals from the community. There are various sensitization and awareness trainings conducted for all employees. The LGBTQ inclusion policy was created in 2020-21, to create an enabling workplace for employees from the LGBTQ community, by covering them in adoption leave, compassionate leave, mediclaim for same-sex partners and the anti-sexual harassment policy. Before hiring candidates from the community, a leadership sensitisation session was conducted to create awareness about the community, which was followed by ground level sensitisation and the fulfilment of infrastructure requirements.

Programmes: Awareness & Sensitisation

- **Diversity Circles/Employee Circles**
An initiative to connect with groups, such as women, PRIDE, PWD, and veterans. The aim is to provide a safe and trusted space for them to share their experiences, offer suggestions for cultural improvement, and collaborate cross-functionally with peers. Our intent is to conduct these circles every quarter with the support of HRBPs at sites and subsidiary companies, ensuring that discussions are structured and standardised to uniformly collect insights.
- DEIA Sensitisation sessions are also conducted around gender and other aspects of diversity and inclusion, the prevention of sexual harassment etc.
- **Prevention of Sexual Harassment at the Workplace (POSH)** - MLL takes POSH compliance very seriously, and to ensure this, everyone undergoes mandatory training and there are sessions conducted at all MLL warehouses and plants. The IC committee was revamped recently with 50% women's appointments. The POSH policy not only covers harassment against women but also includes our LGBTQ employees and all other gender identities at MLL.
- **Women specific sessions and facilities** - Periodic sessions around menopause and other women's health-related subjects are conducted for all MLL women employees. There is also a facility for sanitary napkins at MLL's warehouses and plants for all its women employees.

Employee Work - Life Initiatives

- **Employee Assistance Program** - In an attempt to nurture and enhance the emotional and psychological well-being of our employees, MLL introduced Inner Sight, an employee assistance programme that allows all employees to undergo counselling/consulting with professional well-being experts in a non-judgmental and confidential environment. This programme is also extended to the employee's immediate family members.
- **Birth & beyond programme** - Women, through the course of their careers, go through various life stages, maternity being one of them. The programme 'Birth & Beyond' has been conceptualised and launched with the aim of making motherhood smoother and happier. It encompasses creation of a conducive work environment for women employees throughout the maternity continuum (during early motherhood) - pre-maternity, maternity & post-maternity, by giving them flexibility in their work schedules and workloads. The programme includes providing them all possible support including child-care options, counselling and phase back programme, to reduce stress about managing both, their motherhood and career priorities.
- **Medical benefits for same-sex partners** - While we focus on diversity, it is equally important to have inclusive policies and processes in place for our diverse set of employees. MLL covers its LGBTQIA+ employees and their same-sex partners under its group medical insurance.
- **Compassionate leave** - This leave of four days is also extended to our LGBTQIA+ employees and may be availed of on the demise of an immediate family member/same-sex partner.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

An employee grievance redressal policy has been formulated, which ensures that there is a platform for any employee to raise any genuine problem, concern, or grievance about their working environment or working relationship that they wish to seek redressal through a workflow mechanism. An employee who has experienced a particular grievance at the workplace that has not been addressed in a reasonable time should escalate the grievance making use of the options at his/her disposal. Employees can raise grievances during the 'Location HR Connect' sessions conducted at the location by the location HR and regional HR on a monthly basis. In addition to this, there are Zonal Redressal Committees as well as a National Redressal Committee to redress the same. Employees can raise any work, behavioural and hygiene-related grievance if any, by making use of the Zonal grievance committee. The employee should write an e-mail to the respective Zonal redressal Committee, making use of dedicated e-mail ID describing the nature of grievance. If the Zonal Redressal committee is unable to resolve any grievances, then they should consult the National Redressal Committee for a resolution.

6. Number of complaints on the following made by employees and workers:

	2022-23			2021-22		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Sexual harassment	4	0	Nil	4	1	Nil
Discrimination at workplace	0	0	Nil	14	0	Nil
Child labour	0	0	Nil	0	0	Nil
Forced Labour/involuntary labour	0	0	Nil	0	0	Nil
Wages	0	0	Nil	0	0	Nil
Other human rights-related issues	0	0	Nil	5	5	Nil

7. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The grievance redressal mechanism ensures that confidentiality is critical in ensuring that no reprisal or retaliatory action is taken against an employee who has reported the same.

8. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes.

9. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third-parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%

10. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

None.

LEADERSHIP INDICATORS

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.

The organisation has launched the Employee Code of Conduct (COC) that covers necessary sections pertaining to human rights grievances/complaints. The Code of Conduct outlines necessary behaviours that are permissible and those which are not. In addition to this, the organisation also has the Speak Up platform wherein if any employee witnesses or suspects unethical behaviour, including any violation of the MLL COC or a Company policy, the employee can reach out to the Ethics Helpline. The Mahindra Group (including MLL) has partnered with an external global company, Convercent, which offers a secure and confidential platform to report issues related to MLL COC violations. This platform ensures an open and transparent culture by providing a secure, independent, and transparent mode of logging complaints.

2. Details of the scope and coverage of any Human rights due-diligence conducted.

None.

3. Is the premise/office of the entity accessible to differently-abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes. Provisions have been made at specific sites/offices where differently-abled employees operate.

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Child labour	It is ensured that all clauses on human rights-related aspects like prevention of child labour, forced labour, sexual harassment, and discrimination at workplace are part of the Vendor Code of Conduct. Each value chain partner must sign the Vendor Code of Conduct and abide by the clauses.
Forced/involuntary labour	
Sexual harassment	
Discrimination at workplace	
Wages	

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

None

PRINCIPLE 6 - BUSINESSES SHOULD RESPECT AND MAKE EFFORTS TO PROTECT AND RESTORE THE ENVIRONMENT

ESSENTIAL INDICATORS

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Parameter	Please specify unit	2022-23	2021-22
Total electricity consumption (A)	GJ	9,908	5,163
Total fuel consumption (B)	GJ	712	222
Energy consumption through other sources © (Solar On-site)	GJ	296	0
Total energy consumption (A+B+C)	GJ	10,916	5,385
Energy intensity per rupee of turnover (Total energy consumption/ turnover in rupees) (GJ/INR Cr)	(GJ/INR Cr)	2.45	1.48
Energy intensity (optional) - the metric selected by the entity is (GJ/FTE)	(GJ/FTE)	2.766	1.297

* As a growing 3PL business, our focus has been to maintain adequate scope of reporting across years. Customer demand necessitates setting up of operations in newer geographies which often results in closure of old and opening of new operational facilities. In order to enhance the scope of reporting in FY 22-23, we added our new state-of-the-art, large BTS warehouses (Built to Suit) into the scope of sustainability reporting, and therefore the performance on most parameters is not comparable with previous year's performance.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N). If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any

Not applicable.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	2022-23 (in kl)	2021-22 (in kl)
Water withdrawal by source (in kiloliters)		
(i) Surface water	NA	NA
(ii) Groundwater	0	1,574
(iii) Third party water	1,915	668
(iv) Seawater / desalinated water	NA	NA
(v) Others (Municipality Water Supply)	7,259	6,164
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	9,174	8,406
Total volume of water consumption (in kilolitres)	9,174	8,406
Water intensity per rupee of turnover (Water consumed / turnover) (kl/INR Cr)	2.05	2.31
Water intensity (optional) - the metric selected by the entity is (kl/FTE)	2.33	2.02

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N). If yes, name of the external agency.

No.

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

No.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

At our select state-of-the-art warehouses, we have established monitoring measures. These measures include warehouse air circulation, DG air emission monitoring, temperature, energy, and water usage in conjunction with heat mapping on the air emission movement of trucks and people throughout the warehouse for operational control. The air emissions due to our warehouse operations are insignificant.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	2022-23 (in tCO ₂ e)	2021-22 (in tCO ₂ e)
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	53.7	16.7
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	1,954	1,043
Total Scope 1 and Scope 2 emissions per rupee of turnover (tCO ₂ e/INR Cr)	0.45	0.29
Total Scope 1 and Scope 2 emission intensity (optional) - the relevant metric may be selected by the entity (tCO ₂ e/FTE)	0.508	0.249

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

7. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes. We are committed to becoming Carbon Neutral by 2040. Our strategy to achieve carbon neutrality is guided by our climate change policy, which focuses on enhancing energy productivity, increasing the renewable energy mix, refining our emissions targets and carbon offsetting. MLL has aligned with SBTi targets on reducing GHG emissions. Some of these measures include:

1. Optimisation of energy utilization and replacing conventional lighting and other energy equipment with technologically advanced energy efficient equipment. This has resulted in saving of 17 lakh kWh amounting to reduction of GHG emissions of around 1228 tCO₂e.
2. Electrifying the last mile through eDel and EV deployment in our Mobility business.
3. Reducing customer carbon footprint with dedicated low carbon solutions.
4. Setting up Solar PV at warehouses.
5. Evaluating shift in fuel usage from diesel to alternate fuels like CNG/ biodiesel/LNG.
6. Shift in modes of transport i.e. road to rail.
7. Large scale afforestation.

8. Provide details related to waste management by the entity, in the following format:

Waste management is an important aspect of our warehousing operations which is limited to waste collection, segregation and disposal to authorised vendors. However, the waste collected is majorly non-hazardous in nature and quantities are insignificant.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Being in the service industry at the core, our products are customised logistics solutions catered across a diverse set of industries. Our operations are not waste intensive.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Not applicable. MLL has operational facilities and offices across 28 Indian States. None of these facilities or offices are in ecologically sensitive areas.

11. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Not applicable. Being a service industry at the core, our products are customised logistics solutions catered across a diverse set of industries. We do not deal into larger projects that need environmental impact assessments.

12. Is the entity compliant with the applicable environmental law/regulations/guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N).

Yes. As a service provider operating on an asset-light model, the consent to establish or operate is not applicable to the Company.

If not, provide details of all such non-compliances, in the following format:

Not applicable

LEADERSHIP INDICATORS

1. Provide break-up of the total energy consumed (in Joules or multiples) from renewable and non-renewable sources, in the following format:

Parameter	Please specify unit	2022-23	2021-22
From renewable sources			
Total electricity consumption (A)	GJ	296	0
Total fuel consumption (B)	GJ	0	0
Energy consumption through other sources (C)	GJ	0	0
Total energy consumed from renewable sources (A+B+C)	GJ	296	0
From non-renewable sources			
Total electricity consumption (D)	GJ	9,908	5,163
Total fuel consumption (E)	GJ	712	222
Energy consumption through other sources (F)	GJ	0	0
Total energy consumed from non-renewable sources (D+E+F)	GJ	10,620	5,385

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

2. Provide the following details related to water discharged:

Parameter	2022-23 (in kl)	2021-22 (in kl)
Water discharge by destination and level of treatment (in kilolitres)		
(i) To Surface water		
- No treatment		
- With treatment - please specify level of treatment		
(ii) To Groundwater		
- No treatment)		
- With treatment - please specify level of treatment		
(iii) To Seawater		
- No treatment		
- With treatment - please specify level of treatment		
(iv) Sent to third-parties		
- No treatment		
- With treatment - please specify level of treatment		
(v) Others		
- No treatment		
- With treatment - please specify level of treatment		
Total water discharged (in kilolitres)		

At our BTS warehouses and stock yards, waste water generated is treated in sewage treatment plants and reused for internal domestic purposes and landscaping.

Note: Indicate if any independent assessment / evaluation /assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

3. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

MLL has planned an internal research-based study to evaluate its presence in water-stressed areas in India. As a result of the study, a detailed plan will be prepared to determine and guide the consumption patterns in these regions.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

4. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	2022-23	2021-22
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	tCO ₂ e	4,29,525	2,08,771
Total Scope 3 emissions per rupee of turnover	tCO ₂ e/INR Cr	96.32	57.49
Total Scope 3 emission intensity (optional) - the metric selected by the entity is (tCO ₂ e/Mn km)	tCO ₂ e/Mn km	168	105

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not applicable.

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Refer Annexure 7: Conservation of Energy, Technology Absorption.

7. Does the entity have a business continuity and disaster management plan?

Yes.

Give details in 100 words/ web-link.

The MLL Business Continuity Plan (BCP) contains the information required to recover defined critical services in the event of a disaster or emergency. More than anything else, the BCP is a living document. It requires maintenance as the applications and technologies we deploy increase in sophistication and complexity. Continued changes in the scope and depth of services provided by MLL must be continually reflected in the contents of the BCP. Its design will reduce the confusion that is inevitable with a disaster or emergency and ensure necessary information and materials for recovery will be available. Identifying requirements and documenting roles and responsibilities before the disaster or emergency (and its confusion) occurs will provide organisational structure and well-defined teams throughout the recovery process. Establishing the priority of actions and events in advance improves decision-making processes and supports personnel who are quite possibly fulfilling unfamiliar roles in a challenging and uncertain environment. Additionally, it identifies anticipated activities that require advance knowledge and planning by MLL employees. This establishes realistic expectations and promotes the teamwork essential to a successful recovery process. A disaster or emergency is an unforeseen event, whether man-made or natural, that prevents normal operations and results in potentially ruinous damage to the business, personnel, unless corrective actions are taken. The plan is a guide to ensure the 'Business Continuity' of MLL and our customers' automated applications within documented guidelines by means of providing for emergency management and recovery strategies until critical services approaching normalcy are resumed. Purpose The primary purpose of this document is to provide pre-agreed actions for the employees of MLL to respond effectively in the event of a disaster or emergency. The main purpose of this document is to enable the Emergency Response Team to effectively respond to any of the identified or unidentified threats to our business. The responsibilities of the Management Team and other relevant sectional/departmental heads have been identified.

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

Transportation being the main activity of the business undertaken by MLL and working on the asset light model, i.e., it relies heavily on the value chain partners for the assets required for transportation and is very well aware of their contributions to climate change in the form of emissions. As a result, our value chain partners are undertaking initiatives like the incorporation of EVs in their fleets, fuel shift from diesel to CNG, and planting trees, among others.

9. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

- Business Associates are implementing sustainability-related projects at their facilities, which they share on a regular basis and that are in turn reported in our Internal BA Newsletter. These initiatives are also shared with other BAs during visits, with the objective of inspiring them undertake similar initiatives. However, no assessment for environmental impact was done for our partners.
- 23 BA are identified for the Sustainable Supplier Impact Programme for 2023-24 with the assistance of the United Nations Global Compact (UNGC) and Accenture.

Control Tower manages and resolves customers queries and complaints in a timely manner and delivers consistent support. Control Tower has a dedicated helpdesk team for handling customer queries and complaints through channels like apps and over emails. Customer feedback and complaints can be addressed through e-mails to enquiries-ml@mahindra.com.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about Environmental and social parameters relevant to the product, Safe and responsible usage, Recycling and / or safe disposal.

Not applicable

3. Number of consumer complaints in respect of the following:

There are no consumer complaints with respect to data privacy, advertising, cyber security, delivery of essential services, restrictive trade practices, and unfair trade practices.

4. Details of instances of product recalls on account of safety issues:

Not applicable

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No)

Yes. MLL manages information security in conformance with the ISO 27001 standard.

If available, provide a web-link of the policy.

Not available in the public domain.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

We did not face any issues related to advertising, delivery of essential services, cyber security, and data privacy of customers. To ensure cyber safety for the organisation, we are maintaining a secure infrastructure to protect the confidentiality, integrity, and availability of business-critical data. This includes data security, application security, end-point security, network security, and perimeter security. We use advanced security tools and solutions like next-generation firewalls, border routers, IDS, IPS, anti-malware protection, DLP, encryption, and dual factor authentication, among others, at each layer to ensure highest level of security. This year's UEM programme was launched by M&M, which included the deployment of advanced security tools like DLP and endpoint security with EDR and MDR. Besides these security measures, we have taken initiative to raise cyber awareness among the end-users to make them understand the nature of cyber security threats, how threats can jeopardise organisational security, and what employees should do if they encounter a threat.

LEADERSHIP INDICATORS

1. Channels / platforms where information on products and services of the entity can be accessed (provide web-link, if available).
