MESSAGE FROM CHAIRMAN

Dear Stakeholders,

I hope that you and your loved ones are keeping safe, healthy and happy. As the country slowly recovers from the disastrous consequences of the COVID-19 pandemic, it is of utmost importance that we take care of ourselves and our families.

As the Chairman of the Company, I feel privileged to communicate with you through this 38th Annual Report of the Company.

Friends, we are in the midst of recovering from the deadly second wave of coronavirus which gripped the entire nation. In this period, so many of us have lost our loved ones and suffered from the disease first-hand. While we continue to take precautions to avoid the occurrence of a third wave, even mundane tasks such as stepping out of our homes has become dangerous. I must acknowledge the strength and perseverance displayed by all the workers and employees of Omax. It is hard to fathom the daily struggle of our team who diligently show up to work every day, and I would like to commend their dedication and will-power in helping us all get through these difficult times together. It is difficult to look for a silver lining during this depressing period, however, our family at Omax has proven that they are ready to tackle every challenge that life throws at them.

The pandemic continues to be an unpredictable force of nature leaving death and despair in its wake. The Company is deploying significant efforts to alleviate the adverse effects of the same. Due to the nationwide lockdown, all the units of the company were closed. The Company has a long way to go in attaining normalcy, but gradually things are bound to improve. The shutdown of economic activities has impeded in much of the company's operational activities, but the management is confident its prowess to combat the situation.

Honesty is an ideal which we shall always seek to uphold. Thus, it is in our best interest to portray the financial status of the Company in its entirety. There is no hiding the fact that the Indian Auto Industry has suffered greatly at the hands of the coronavirus pandemic. Despite the harrowing circumstances, the Company has faced challenges during the year 2020-21. The Company has ended the year in March 2021 with a loss of Rs. 10.10 crores. However, this figure is a significant improvement from the profit and loss situation of the Company in December 2020. Gradually as things improve, the financial condition of the Company is likely to take a turn for the upswing as well.

Research and Development has been the major focus area of the management. Company has its own in-house R&D Centers, which are effortlessly working on developing new products for our customers. The management is striving hard to add new product lines to its business.

Friends, the way we react to different situations is what is most important. The Company has faced the challenge of the pandemic head on, and the management is confident that with your support, recovery for the Company is guaranteed. Now that most of the general populace is vaccinated, the country is on its way to achieving immunity from this deadly disease. Hopefully, the situation will slowly normalize within a few months. Since we have two new plants and one project Long Member (LM Project) has started its operations, the Company is expected to soon return to its growth path. So, let us stay positive and hope for the best while working hard towards a brighter future.

I would like to conclude this speech by extending my heartfelt gratitude to all the customers, vendors, shareholders, Central and State Governments and all other stakeholders for their unconditional support to the Company. I wish all stakeholders a very healthy and safe festive season ahead. At the end of every storm, there comes a rainbow, and on this positive note I would like to assert my belief that good things are ahead of us.

Mr. Bharat Kaushal
(Chairman)

MESSAGE FROM MANAGING DIRECTOR

Dear Stakeholders,

I hope that all of you are safe and healthy. During these difficult times, it is imperative to take care of yourselves and your family members. The COVID-19 pandemic continues to rage on, and we are emerging from the aftermath of the deadly second wave. Adhering to COVID-19 precautionary guidelines and getting ourselves vaccinated is the need of the hour. Although vaccines have provided a welcome respite and newfound hope of containing the virus, renewed waves and new variants of the virus continue to pose a significant threat to mankind and economy. The previous year has taken a huge toll on all of us, yet I am pleased to observe that every member of the Company has been resolute in the face of adversity. I hope that we can continue to display this magnitude of strength and patience in the future as well.

It is my pleasure to connect with you through this 38th Annual Report of the Company. I would like to mark the passing of another challenging year. The fiscal year 2020-21 posed numerous challenges for the company. The declining trend in the auto industry was a culmination of factors such as rise in cost of vehicles, electric vehicles, high fuel costs and lack of financing options. The COVID-19 pandemic exacerbated the situation due to the total economic and social nationwide lockdown. Customer sentiment has been adversely impacted, Customer Vehicle and Passenger Vehicle business has registered a de-growth. The Railway component of the Company's business is doing relatively well.

The Global Economy recorded its lowest growth of the decade in 2020, but it was projected to grow 6.0% in 2020-21 and 4.9% in 2021-22 according to the World Economic Outlook Update. However, the strength of the recovery from the economic wreckage of the COVID-19 pandemic varies significantly across nations depending on access to medical interventions, effectiveness of policy support, exposure to cross-country spreading of the virus, and structural characteristics.

As far as the growth of the Indian economy is concerned, the World Bank has stated that the Indian economy was estimated to contract by 7.3% in the fiscal year 2020-21 due to a sharp drop in household spending and private investment, and that the growth is expected to recover to 8.3% in 2021-22.

The Company's performance in last fiscal year of 2020-21 has not been very satisfactory, and a net loss of Rs. 10.10 crore has occurred. The Company had already exited from its 2W business, and the automotive industry has particularly suffered in the light of the economic shutdown. However, in December 2020 quarter, the Company had suffered a loss of Rs. 13.56 crores, and in March 2021 quarter, the Company has achieved a profit of Rs. 20.19 crores. As the situation with respect to COVID-19 improves and the economy slowly gets back on its feet, it is expected that the Company would also return to its glorious days.

The Company came up with two state of the art manufacturing units at Luknow-Raibareli Road, Uttar Pradesh to fulfil the demands of CV customer and Railways. The Company is planning further new ventures and consolidating new plants to increase the overall profitability of the Company and rationalize the costs.

Due to the COVID-19 crisis, the world has undergone so many changes that it is hard to garner information for summing up the entire plethora of challenges that we have faced. However, the zeal and enthusiasm of the employees of the Company has restored my faith that we shall rise up from this time of adversity. The Company is fortunate to have been blessed with talented and passionate people who give their best efforts in ensuring that the Company reaches new heights in terms of growth and performance.

Acknowledgement

I thank all our bankers, lenders and financiers who placed their belief in us and generously extended their credit lines. They will always remain a valuable part of our growth stories.

My special thanks to all the employees, who have steadfastly supported the Company in trying times. They have shown tremendous ability in adapting to varying circumstances, such as adjusting to a work from home model, and then returning to the workplace with due precautions. The lessons learnt during this time shall continue to serve the Company long after the pandemic is over, and I will always hold the employees in extremely high regard as they are the building blocks of the Company.

I also thank all our Customers, Vendors, Shareholders, Central and State Governments and other stakeholders who remained very much a part of our journey during these tumultuous times. We seek their continuous support in all the years to come. I would like to congratulate each member of the Omax family for their continuous support to the Company.

Mr. Jatender Kumar Mehta

(Vice Chairman cum Managing Director)

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

ITEM NO. 3 - To ratify the remuneration of Cost Auditor for the financial year ending 31st March, 2022

The Board, on the recommendation of the Audit Committee, at their Meeting held on 14th August, 2021, has approved the appointment of M/s. JSN & Co., Cost Accountants (Firm Registration No. 000455), as Cost Auditors to conduct the audit of the cost records of the Company for the financial year ending 31st March, 2022 at a remuneration of Rs. 1,20,000/- (Rupees One Lac Twenty Thousand only) plus out of pocket expenses as actual, if any and applicable taxes.

In accordance with the provisions of Section 148 of the Act read with the Companies (Audit and Auditors) Rules, 2014, as amended, the remuneration payable to the Cost Auditors is required to be ratified by the members of the Company.

Accordingly, consent of the members is sought by passing an ordinary resolution as set out at Item No. 3 of the Notice of the AGM for ratification of remuneration payable to the Cost Auditors for the financial year ending 31st March, 2022.

None of the Directors, Key Managerial Personnel and their relatives are, in any way, concerned or interested, financially or otherwise, in the proposed resolution except to the extent of their shareholding in the Company, if any.

The Board recommends the passing of the resolution as set out at Item No. 3 of the Notice of the AGM as an ordinary resolution.

ITEM NO. 4 -To approve the re-appointment of Mr. Jatender Kumar Mehta (DIN: 00028207) as Vice Chairman cum Managing Director of the Company.

Pursuant to the provisions of the Companies Act, 2013 ("Act") and rules made thereunder and the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, the Shareholders of the Company through postal ballot in 2016 had approved the reappointment of Mr. Jatender Kumar Mehta as Managing Director of the Company for a period of 5 (Five) years from 1 January, 2016 to 31st December, 2020. Presently, he has attained the age exceeding 70 years and as per the Companies, Act, 2013 ('the Act') read with Schedule V of the Act, approval of the members will also be required by way of a special resolution.

Accordingly, the term of Mr. Mehta as Vice Chairman cum Managing Director ended on 31 December, 2020. The Board of Directors, at its meeting held on 12th November, 2020 upon the recommendation of Nomination and Remuneration Committee and Audit Committee and pursuant to the Nomination

and Remuneration Policy of the Company, has re-appointed Mr. Jatender Kumar Mehta as Managing Director of the Company for another term of five consecutive years commencing from 1 January, 2021 up to 31st December, 2025, subject to approval of the members of the Company and further Mr. Mehta was re-designated as Vice Chairman cum Managing Director at board meeting held on 11th February, 2021.

Mr. Jatender Kumar Mehta (DIN: 00028207), a technocrat, is the main promoter of the Company. He has wide industrial, operational and administrative experience with a western outlook to industrialization and a flair for identifying new products and ideas with huge potential. He has widely travelled and got substantial exposure in all functional areas of the auto component industry.

Mr. Mehta has more than 46 years of Experience in Automobile and Automobile Components Industry. Mr. Mehta has been the promoter, founder and mentor of the Company since its inception. He devotes his full time for the overall performance of the Company and is instrumental in diversification and expansion of the Company. He has been exponential in the growth and development of the Company. Under his leadership, the company has changed its focus area from being a build to print manufacturing company to become a value engineering company. Recently, the company has undertaken various business expansion and product diversification plans. However, due to current Covid crisis coupled with economic downturn, the company is going through a tough time. At this crucial juncture, the continued service of Mr. Mehta is considered essential and justified for the sustained growth and future prospects of the Company.

Hence, the Board recommends the appointment of Mr. Jatender Kumar Mehta, as Vice Chairman cum Managing Director of the Company for a period of five consecutive years – from 1st January, 2021 to 31st December, 2025.

The Company has received requisite disclosures/declaration from Mr. Mehta for being re-appointed as Vice Chairman cum Managing Director of the Company. Mr. Jatender Kumar Mehta is not debarred from holding the office of the Director by virtue of any SEBI order or any other such authority pursuant to BSE Circular LIST/COMP/14/2018-19 dated June 20, 2018 and NSE circular NSE/CML/2018/24 dated June 20, 2018. Further, the details as required under the Secretarial Standard and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, have been provided separately at the end of this statement.

MATERIAL CHANGES AND COMMITMENTS IF ANY, AFFECTING THE FINANCIAL POSITION OF THE COMPANY BETWEEN THE END OF THE FINANCIAL YEAR UNDER REVIEW TO WHICH THE FINANCIAL STATEMENTS RELATE AND THE DATE OF THIS REPORT.

The onset of COVID – 19 pandemic and consequent lockdowns and restrictions imposed on various industrial and economic activities in 2020-21 and 2021-22, have posed several challenges to all the business units of the Company. When the national and state lockdown were declared, all the units located across India and corporate office were closed. As the Company is dealing in manufacture and supply of auto-components and heavily dependent on business from only few customers, the revenue is also heavily hampered due to low business volume from customers. There was no revenue during the complete lockdown period and there has been marginal growth in revenue in all the units since then up to the date of reporting. However, the company expects the situation to improve soon.

In opinion of the Board, except the above mentioned

matters, there have been no material changes and commitments affecting the financial position of the Company which have occurred between the end of the financial year under review to which the financial statements relate and the date of this Report.

CHANGE IN THE NATURE OF BUSINESS

During the year under review, there has been no change in the nature of business of the Company. The main business activity of the Company primarily continues to be manufacturing and supply of sheet metal components. The Company is continuously exploring the possibility of venturing into new business areas to minimize its business risks.

STATE OF THE COMPANY'S AFFAIRS, OPERATIONS AND FUTURE PROSPECTS

During the financial year 2020-21, the total revenue of the Company was Rs. 183.53 Crores as compared to total revenue of Rs. Rs. 488.33 Crores during the previous financial year 2019-20, thus witnessed huge decline over previous year mainly on account of closure of Company's two 2W plants and declining automotive demand across the country and Covid-19 pandemic. And therefore, Profit before tax for the year under review was also declined i.e. Rs. -11.54 Crore as against Rs. 46.52 Crore for the previous financial year.

Financial year 2020-21 was a challenging year for the Company. The automotive demand has declined across the country due to negative impact of COVID-19 pandemic and Omax is not untouched as company has faced tremendously decline in demand. The management is continuously working on to increase its customer base & product portfolio for Indian Railways, passenger car manufacturers and CV manufacturers.

SHARE CAPITAL

The Authorised Share Capital of the Company is Rs. 30,00,00,000 (Rupees Thirty Crores Only) divided into 2,65,00,000 equity shares of Rs. 10 each; 20,00,000 equity shares with differential voting rights of Rs. 10 each and 1,50,000 Optionally Convertible Cumulative Preference Shares (12%) of Rs. 100 each. The paid up share capital of the Company, as on 31st March, 2021, was Rs. 21,38,82,130 divided into 2,13,88,213 equity shares of Rs. 10 each.

The Company has not issued any shares with differential voting rights or sweat equity shares. As on 31st March, 2021, none of the Directors of your Company hold instruments convertible into equity shares of the Company.

During the year under review, there was no change in the share capital of the Company from the last financial year.

The shares are actively traded on BSE and NSE and have not been suspended from trading.

Report on Corporate Governance

1. THE COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE:

Corporate Governance is a set of systems and practices to ensure that the affairs of the Company are being managed in such a way which ensures accountability, transparency, fairness in all its transactions in the widest sense and to meet its stakeholders' aspiration and societal expectations. Omax Autos Limited ("Company") is committed to the adoption of best governance practices and its adherence in the true spirit, at all times. Our Governance practices stems from an inherent desire to improve, innovate and reflects the culture of trusteeship that is deeply ingrained in our value system and forms part of the strategic thought process. The Company's Corporate Governance initiative since time has always been following four core principles:

- i. Management must have the executive freedom to drive the organization forward without undue restraints.
- ii. This freedom of management, however, should be exercised within a framework of effective accountability and transparency.
- iii. Rights, Interests and Equitable Treatment of Shareholders should always be the key focus.
- iv. Integrity, Disclosures, Transparency and Ethical Behavior.

The Company believes that any meaningful policy on Corporate Governance must provide empowerment to the executive management of the Company and simultaneously create a mechanism of checks and balances, which ensure that the decision-making powers vested in the executive management are used with care and responsibility and not misused. The Company's governance philosophy embraces the tenets of trusteeship, transparency, empowerment and accountability, control and ethical corporate citizenship. The Company believes that the practice of each of these tenets would lead to the creation of the right corporate culture in which the Company is managed in a manner that fulfils the purpose of Corporate Governance. Trusteeship recognizes that large corporations have both an economic and a social purpose, thereby casting the responsibility on the Board of Directors of the Company to protect and enhance shareholders' value, as well as fulfilling obligations of other stakeholders.

Transparency requires that the Company makes appropriate disclosures wherever necessary and explains the basis of its policies and actions to all those who are affected by them.

Empowerment is a process used to unleash creativity and innovation throughout the organization by decentralizing and delegating the decision-making powers at the most appropriate levels.

Control ensures that freedom of management is exercised within a framework of check and balances and is designed to prevent misuse of power, facilitate timely response to change and ensure effective management of risks.

The Company's Corporate Governance process continuously reinforce and helps in actualizing the Company's belief in ethical corporate citizenship and is manifested through exemplary standards of ethical behavior, both within the organization as well as in external relationships.

The Governance Structure:

The practice of Corporate Governance in the Company is at three interlinked levels:

- i. Strategic Supervision - by the Board of Directors
- ii. Strategic management - by the Executive Committee
- iii. Executive management - by the Divisional Head of the business

This three-tier structure ensures that strategic supervision on behalf of the shareholders being free from the task of strategic management can be conducted by the Board with objectivity thereby sharpening accountability of the management. The structure also ensures that executive management of the divisions, being free from the collective strategic responsibilities for the Company as a whole, is focused on enhancing the quality, efficiency and effectiveness of each business.

The core roles of the key entities flow from the structure. The core roles, in turn, determine the core responsibilities of each entity. In order to discharge such responsibilities, each entity is empowered formally with requisite powers. The structure, process and practice of governance in the Company enable to focus on the corporate purpose while simultaneously facilitating effective management of the diverse businesses within the portfolio.

2. BOARD OF DIRECTORS

The Board of Directors ("the Board") of the Company is the flag bearer of the corporate governance principle and practice and it oversees and ensures that long term interest of all the stakeholders are protected. The Company understands that good and quality governance is a powerful instrument to achieve economic and social progress and its wellbeing. The Board being

the trustee of the Company is responsible for the establishment of cultural, ethical and accountable growth of the Company, is constituted with a high level of integrated, knowledgeable and committed professionals.

COMPOSITION OF THE BOARD:

The Board has an optimum combination of executive directors, non-executive directors, woman director and independent directors with varied professional backgrounds, representing a judicious mix of professionalism, knowledge and experience. The Board is adequately represented by independent directors. Further, the committees of the Board are also represented and chaired by independent directors. Also, in the opinion of the Board, the Independent Directors fulfill the conditions specified in the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and are independent from the management.

The Board comprises of an optimal complement of independent professionals as well as Company executives having in-depth knowledge of business. As on the 31st March, 2021, there were 9 Directors on the Board of the Company comprising the following:

- Three Managing Directors-Promoters Groups
- One Whole-time Director-Professional
- Five Non-Executive Independent Directors

None of the Directors on the Board holds the office of director in more than 20 companies or membership of committees of the Board in more than 10 committees or chairmanship of more than 5 committees. Further, No director on the Board holds directorship in more than seven listed entities and no Independent Director on the Board act as an independent director in more than seven listed entities.

BOARD MEETINGS

The Company convened minimum one (01) Board Meeting in each quarter and maximum gap between two consecutive meetings did not exceed one hundred & twenty (120) days.

During the financial year under review, 6 (Six) meetings of the Board were held on 29th June, 2020, 25th August, 2020, 14th September, 2020, 12th November, 2020, 23rd January, 2020 and 11th February, 2021. MANAGEMENT DISCUSSION AND ANALYSIS

Your directors have pleasure in presenting the Management Discussion and Analysis Report for the financial year ended on 31st March, 2021.

A. INDUSTRY STRUCTURE AND DEVELOPMENTS

Globally, the automotive industry had run into some hurdles even before the COVID-19 pandemic struck in the last quarter of FY 2019-20. During the year under review, countrywide lockdowns and plummeting automobile sales wreaked havoc on the already weak automotive sector. The manufacturing sector was also severely affected by the pandemic. Original Equipment Manufacturers (OEMs) and auto part manufacturers are still trying to reach optimum manufacturing capacities. Massive disruptions to supply chains, depressed demand, laggard sales and continuous delays in new launches affected the sector further. Moreover, stricter CO2 emission requirements and increased investment in emerging technologies continue to weigh heavily on the auto sector. With the resumption of economic activity and gradual unlocking of the economy, sales of vehicles began showing a month-on-month improvement since the second quarter of FY 20-21.

The Company continues to operate in sheet metal component manufacture and supply, supplying primarily to auto-manufactures and railways. The Indian auto-components industry can be broadly classified into the organized and unorganized sectors. The organized sector caters to the OEMs and consists of high-value precision components while the un-organized sector consists of low-valued products and caters mostly to the aftermarket customers.

The auto-component industry by and large depends upon the automotive industry. Its growth is broadly synonymous with the growth of automotive industry. Indian Automotive industry has been one of the largest automotive industries in the world. Most of the major car manufactures are present and manufacture in India; the Indian Auto Component industry has become an attractive supplier base for global markets.

The Indian auto-components industry has experienced healthy growth over the last few years. The auto-components industry accounts for more than 2.3% of India's GDP and employs about more than 1.5 million people directly and indirectly. The overall industry is putting efforts immensely to become the 3rd largest in the world by 2025. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favorable destination for investment. In recent years, various global automobile OEMs have made their footprints in India. Their increased presence in the Indian manufacturing landscape has significantly increased the localization of their components in the country. India has become the preferred designing and manufacturing hub for global auto OEMs for local sourcing and exports.

The Company also supplies sheet metal components to Indian Railways. Indian Railways has shown steady growth over the years. Freight and Passenger earnings are the two largest components of revenues for Indian Railways. With increasing participation expected from private players, both domestic and foreign, due to favorable policy measures, both passenger and freight traffic is expected to grow rapidly over the medium to long term. Government of India's focus on infrastructure is a major factor which will accelerate growth of railways. The Company hopes to benefit from the same.

Impact of COVID-19:

The onset of COVID – 19 pandemic and consequent lockdowns and restrictions imposed on various industrial and economic activities have posed several challenges to all the business units of the Company.

The COVID-19 pandemic started spreading in India in March 2020, forcing the central government to order a complete lockdown of all but essential outdoor activities from end-March 2020. Your Company had to close its offices, factories and warehouses, as did its channel partners and dealer networks, during the first quarter of the financial year 2020-21. The Company's operations were hit substantially from last week of March, 2020. Few of the units as an abundant precaution, were closed from earlier date also.

Later, towards 1st week of May, 2020, various plants and units resumed operations, but, with drastically reduced capacity. As the company is dealing in manufacture and supply of auto-components and heavily dependent on business from few customers, the business also hampered due to low business volume from these customers due to complete shutdown during lockdown.

Even if various units resumed operations in 1st week of May, due to restrictions on economic activities and movement, various units could run only one shift only and production could only increase in phased manner. Hence, the revenue is hit in the first quarter of the current financial year. However, the situation has eased a bit in the second quarter of the current financial year. Hence, the revenue in the current financial year may be little lower than normal. The company expects the situation to improve more as we find a control over this pandemic.

The COVID-19 pandemic's resurgence in India from March 2021 could derail any economic recovery if it deepens and spreads for a longer period. The full impact of COVID-19 for the current financial year 2020-21 is difficult to establish and quantify at this moment, as we are still in its grip. Impact assessment is a continuing process given the uncertainties associated with the pandemic's nature and duration.

The Company has two new plants in Uttar Pradesh which were expected to be operational in the current financial year. However, One plant, Long Member (LM Plant) has started its operation but due to lockdown and restrictions on

import, got delayed. Other Plant, New Railway Plant (NR Plant) is under the process of setup. Hence, completion of this one new projects is now expected to be delayed for some more time.

B. OPPORTUNITIES AND THREATS

In the advent of growing concerns of excessive use of fossil fuels and increasing pollution level, the government has pushed for shifting to electric vehicles. The Government of India has plans to make a major shift to electric vehicles by 2030. Globally, countries have already started shifting to electric vehicles. Hence, the relevance of internal combustion engines run by fossil fuels would lose relevance in long run. Hence, the electric vehicle segment would throw a big opportunity for Indian manufactures. India can be a global manufacturing hub for electric vehicles. Manufacturers may look at not only producing EV models for domestic market but also for exports. Electric vehicles are a sunrise opportunity as India has over 70 per cent two-wheelers and these could be made into electronic vehicles. Government has proposed that two-wheelers and three-wheelers sold in the country to be shifted to electric ones in a phased manner. There is a huge opportunity in this segment.

The global transportation industry, has now made a shifting towards electric, electronic and hybrid cars, which are considered more fuel efficient, safe, environment friendly and reliable mode of transportation. In coming times, this will open up new segments and opportunities for auto-component manufacturers. The industry has to be prepared for this and need to adapt itself to the changes through systematic Research and Development of new products and technologies.

In the past two years, the government has taken number of initiatives to capture the sector's real growth potential. Under the Union Budget 2021-22, the government allocated Rs. 110,054.64 crore (US\$ 15.19 billion) to the Ministry of Railways. Under the Union Budget 2021-22, the government allotted Rs. 1,803.01 crore (US\$ 249.07 million) for gauge conversion, Rs. 3,000 crore (US\$ 414.43 million) for doubling tracks, Rs. 6,815.36 crore (US\$ 941.51 million) for rolling stock and Rs. 2,448.30 crore (US\$ 338.22 million) for signalling and telecom.

The Ministry of Railways plans to monetize assets including Eastern and Western Dedicated Freight Corridors after commissioning, induction of 150 modern rakes through PPP, station redevelopment through PPP, railway land parcels, multifunctional complexes (MFC), railway colonies, hill railways and stadiums.

With increasing participation expected from private players, domestic and foreign, due to favourable policy measures, both passenger and freight traffic is expected to grow rapidly over the medium to long term. The Government of India's focus on infrastructure is a major factor which will accelerate growth of railways. Railway infrastructure plans to invest Rs 50 lakh crore (US\$ 715.41 billion) by 2030. In May 2021,

the Government of India and European Investment Bank (EIB) signed a finance contract for the second tranche of US\$ 182.30 million for the Pune Metro Rail project.

In last few years, metro rails in India has made rapid strides and has become first choice in urban transport and mobility. Currently, ten cities have metro railways and as many as fifteen new cities may have metro rail connectivity in the near future. Hence, there is huge scope of growth in this segment. The Company currently catering to Indian Railways, have scope to venture into supplying parts and components for metro railways. The Company has made some headways in this area.

Presence of such a large number of players in the Automobile industry results into extensive competition, every company eating into others share leaving little scope for new players. Further, currently, global economic slowdown and industry crisis in automotive industry due to Covid pandemic, increasing fuel prices, low financing options due to NBFC crisis, new emission norms, and policy uncertainty about electric vehicles are some of the impeding factors for slowdown in the industry. Low economic activities due to Covid crisis, subdued demand and recent investments made for transition from BS IV to BS VI emission norms, lack of clarity on electric vehicle (EV) policy, have added to the woes of the industry.

A. SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The Company operates in single segment of metal sheet components and parts.

Two-Wheelers

Due to continuous low business from customers, the company has already exited from two-wheelers business. There was some minor revenue generated from the sale of Idle Asset and material sale.

Commercial Vehicles

Due to Covid 19 direct impact and downturn in the economy and slump in Auto Industry, the Commercial Vehicle business did not do well during 2020-21. During 2020-21, the turnover was Rs. 78.33 Crores as against Rs. Rs. 171.25 Crores. The turnover is expected to remain stagnant in 2021-22 as well, due to Covid crisis and consequent economic slowdown.

Passenger Cars

The Passenger Car business also witnessed the same down trends in financial year 2020-21. This PC business recorded a turnover of Rs. 13.89 Lacs in 2020-21 as against Rs. 80.12 Crores in the previous year.

Railways

Railway business has shown high decline in sales during the years as there was suspension of railway services due to Covid-19. The Railway business recorded a turnover of Rs. 65.30 Crores in 2020-21, compared to Rs. 202.84 Crores in 2019-20.

D. OUTLOOK

Due to onset of Covid pandemic, and consequent extended lockdown in India, the economic activities have shrunk drastically. As an imminent solution to this pandemic is remote, the slump is expected to continue for some time. Government has taken many steps to revive the economy. Various financial stimulus has also been declared by the government. RBI has also relaxed certain lending norms for banks, to improve the liquidity situation. The Company is hopeful the economy will revive in few months.

Currently, the slowdown in domestic economy is quite visible. Auto Industry has also slowed down significantly. The slowdown in the auto sector has its cascading effect on auto component sectors also. As major auto OEMs are cutting their production, auto-component manufactures is also facing sharp production cuts which will continue for some time. Due to technological changes in the industry they have to face cost pressures also. The comparative revenue growth has also declined for many of the auto-component manufacturers. There is also uncertainty due to change in emission norms from BS IV to BS VI. There will be also cost pressure due to this new technology and will also impact profit margins. Further, global automobile demand has also been remained subdued. Due to looming slowdown in foreign market, export business may also be hurt. Hence, the outlook for auto sector will remain subdued in short to medium term.

In railway sector, the position would be slightly better. The Indian Railway network is growing at a healthy rate. In the next few years, the Indian railway market is expected to be one of the largest markets. Indian Railways is targeting to increase its passenger and freight traffic significantly. Government has also announced significant investment outlay in railway infrastructure. It would boost railway sector significantly. Once the Covid situation eases, this business would gain momentum.

Baring the impact of Covid 19, the industry's long-term growth prospects in India will continue to be healthy. The management of the Company is optimistic about the outlook of the company in medium to long term. With reduction in costs and increasing operational efficiency, the Company is expected to perform reasonably in 2021-22.

E. RISKS AND CONCERNS

The Company is an automotive component manufacturer; hence, its business is largely dependent on the health of the automotive sectors. The health of automotive sector and auto component sector is dependent on various factors viz. general economy of the country, global economy, disposable income with consumers, interest rate, fuel prices, finance options, regulatory norms, input costs etc. Given the fact that the Indian economy and also the automobile sector are experiencing a slowdown, its impact would be felt in auto-component industry and on the Company as well. Further, aftermath of the Covid crisis it will be seen how the industry and economy revive themselves. This would have direct bearings on the business of the OEMs and the Company also.

The Company's customer base is not very broad. The Company's major turnover comes from very few customers. Any significant business risks to these customers can have consequent impact on the Company. The management is putting its best effort to widen its customer base.

Auto industry is driven by technology and the same is undergoing very rapid change. A technology may make existing technology obsolete in very short period of time. Whoever cannot adapt to the pace of technology, may miss the bus. If it impacts any of the major customers of the Company, it may impact the Company as well.

The Company being an auto component manufacturer, it uses Steel and Cast iron sheets as major raw materials. Prices of these raw materials used in manufacturing have become increasingly volatile in recent years. The auto component manufacturers typically have low bargaining power and find it difficult to pass on the price increases to the price-sensitive customers. An increase in the price of these input materials could severely impact the profitability of the company.

The Company is largely into the business of manufacture of automotive components. This sector has already been very competitive. Lack of diversification into new business segments may also have impact on the future prospects of the Company.

The Company currently has a sound product base catering to the demand of the customers. Considering that technologies are changing very fast and new products and technologies are being developed rapidly, the Company will also face the risk of new product development or new technology development. The business of the Company may hamper if Company fails to keep pace with the new product or technology requirements of its customers.

F. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

For the purposes of effective internal financial control, the Company has adopted various policies and procedures for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information.

In respect of adequacy of internal financial controls with reference to the Financial Statements, the Company has, inter alia, established various control systems which have been already reported in the last Annual Report. There have not been any significant changes in such control systems. The control systems are reviewed by the management regularly. The same are also reviewed by the Statutory Auditors and Internal Auditors from time to time. The Company has also adopted various policies and procedures to safeguard the interest of the Company. These policies and procedures are reviewed from time to time. There has also been proper reporting mechanism implemented in the

organization for reporting any deviation from the policies and procedures. Compliance audit is also conducted from time to time by external agencies on various areas of operations.

G. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial performance of the Company during the year under reference fell short of expectations. The Company achieved a turnover of Rs. 18,353.22 Lacs compared to Rs. 48,833.21 Lacs for the previous year. The decline is primarily due to exit from the 2W business in the previous and due to the threat posed by COVID-19. The Company recorded decrease in the PBT from Rs. 695.25 Lacs in the previous year to Rs. -5,935.19 Lacs Cr. in the current year. Operationally, Company had challenging year during 2020-21. There was no other setback for the Company during 2020-21, except for the impact of Covid 19 during the financial year. However, the Railway business, CV and PC business did not do so well. The PC business has been witnessing decline in turnover due to down turn in the economy and slump in auto sectors. The CV business could not do enough business to maintain the level. This was mainly due to low business volume from the customers. The company has set up two manufacturing units in Uttar Pradesh for its CV and Railways business. Long Member Plant (LM Plant) has started its operations but New Railway Plant (NR Plant) is under the process of being setting up and will start its operation soon. Overall, the operational performance of the Company was satisfactory during 2020-21.

H. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED.

The company recognizes the importance of human values and ensures that proper encouragement both moral and financial is extended to employees to motivate them and can curb the threat posed by COVID-19. The human resources received commensurate attention during the year considering the growth of the organization and the need arising therefrom.

Due to very low customer demand, the Company had to reduce its production plan. Hence, unwillingly the Company had to reduce its manpower in some plants to rationalize the cost. The Company had generally cordial relationship with its human resources.

The Company has initiated many programs on up-skilling / training its manpower. As an ongoing exercise, the Company has continued to look at, identify, create and execute seamlessly, initiatives which enhance productivity and efficiency. The Company continues to invest in people through various initiatives which enable the work force to meet the production requirements and challenges related thereto and to infuse positive enthusiasm towards the organization. The Company's strength of employees stood at 229 as on 31st March, 2021.

I. DETAILS OF SIGNIFICANT CHANGES IN KEY FINANCIAL RATIOS:

There are no significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios except as discussed hereinafter. The Debtors Turnover Ratio has been 2.16 times for 2020-21 compared to 3.79 times for 2019-20, a decrease of 43%. This is majorly due to sharp fall in Revenue as compared to debtors which subsidised gradually due to Covid-19 situation / lockdowns leading to delay in recoveries. The Inventory turnover ratio has been 4.23 times for 2020-21 compared to 7.76 for 2019-20, a decrease of 45.5%, reason being again the same due to sudden outburst of Covid-19 leading to lockdowns the inventories got stuck in plants and with severe fall in Sales also reduced the pace of Inventory turn another reason for reduced inventory turn is the introduction of new products, which will catch up the pace in near future. The interest coverage ratio is -1.36 times for 2020-21 compared to 1.29 times for 2019-20 a change of 205%, the steep fall was due to dent in company earnings due to Sales loss. Operating profit margins stood at -19.90% in 2020-21 as compared to 6.87%, a decrease of 390% and Return on Net worth stood at -3.08% for 2020-21 as compared to 16.87% for 2019-20, a change of 118%, again the lockdowns and non-utilisation of capacities having the adverse effect on the earning capacity.

INDEPENDENT AUDITOR'S REPORT

To the Members of Omax Autos Limited Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Omax Autos Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the statement of changes in equity and the Statement of Cash Flows for the year then ended and notes to the financial statements including a summary of significant accounting policies and other explanatory information (herein referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its loss and total Comprehensive loss for the year ended on that date, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and Rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Audit Response
<p>Inventory</p> <p>The Company has large quantities of inventory at different plants. The Company produces large number of products for which variety of raw material is acquired and stored at different locations. The entity is in a customer specific industry and it may have slow moving/damaged inventory due to model discontinuation or excess production accumulated at different locations. Different products have various variants due to which there is a possibility of gap in actual and recorded consumption of raw materials resulting in shortage/excess of quantities of raw material inventory. For these reasons, inventory has been considered as key audit matter.</p>	<p>Our audit procedure included, among others: We obtained copies of physical verification reports of inventory conducted:</p> <ul style="list-style-type: none"> Selected a sample of inventory items and compared the quantities as per physical verification to the quantities recorded. Made enquiries regarding obsolete inventory items and inspected the condition of items counted and proper provision has been made wherever necessary. Our audit procedures included testing of the inventory provisions made by the Company and also the basis of management assumptions with the understanding and challenging the key assumptions. Evaluate the future usage of inventory in case of discontinued models based on past experience of movement of material and products used in other plants; We have also evaluated a selection of controls over inventory existence across the Company.

<p>Recognition of revenues</p> <p>The Company manufactures different kind of products for different customers at various plants. The delivery time of products to customers varies from 1 day to 20 days depending on location of customer. As per terms of underlying contract, control is transferred upon delivery at agreed location. This requires proper cut-off procedures regarding recognition of revenue from sale of goods. Considering large number of locations and customers, cut-off testing has been considered as a significant audit matter.</p>	<p>Our audit procedure included, among others:</p> <ul style="list-style-type: none"> • We examined all key contracts and enquired with the entity for each of these contracts to understand the specific terms and risks, which in turn allowed us to assess the recognition of revenue. • We evaluated and assessed the operating effectiveness of internal controls over the accuracy and timing of revenue recognized in the financial statements; • For the material contracts with a delivery schedule of greater than 2 days we performed the following procedures: <ul style="list-style-type: none"> – Understood the process of performance and transfer of control to the other party. – Assessed the actual position of transactions recorded, including inventory in transit at the end of the reporting period by verifying their delivery dates; – Assessed the Entity's accounting policies and the adequacy of its related disclosure in the financial statements
<p>Valuation of Trade Receivables</p> <p>The nature of company's operations requires periodic revision in rates charged from customers as well as various claims in the normal course of business. Such price revisions and claims are affected both prospectively and retrospectively. Such claims are also recorded on provisional basis, subject to confirmation by customers. Considering overall low operating margins in the industry, such revisions and claims have a significant impact on company's profitability. Due to these reasons, valuation of trade receivables has been considered a key audit matter.</p>	<p>Our audit procedure included, among others:</p> <ul style="list-style-type: none"> • We assessed the validity of material outstanding receivables by obtaining third-party confirmations and reconciliations of amounts to assure the completeness and recording of all claims filed by the customers. • We also considered payments received subsequent to year-end, past payment history and unusual patterns to identify potentially unacknowledged/unconfirmed balances • We assessed the appropriateness of the allowance of doubtful receivables considering various audit procedures across the plants including: <ul style="list-style-type: none"> – Consideration and concurrence of the agreed payment terms; – Verification of receipts from trade receivables subsequent to year end; • Where there were indicators that trade receivables were unlikely to be collected, we assessed the adequacy of the allowance for impairment of trade receivables. We assessed the ageing of trade receivables, disputes with customers and the past payment history of the customer

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report 2020-21 but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors and Management are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind' AS) specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial

statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the annual financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- (1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- (2) As required by section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income) and the statement of changes in equity, and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.
 - d. In our opinion, the aforesaid financial statements read with notes thereto comply with the Indian Accounting Standards specified under section 133 of the Act read with relevant rules issued thereunder;

- e. On the basis of the written representations received from the directors as on March 31, 2021, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of section 164(2) of the Act;

Building	1	Freehold	982.16	982.07

- (ii) The inventory, except goods in transit, has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable. Discrepancies noticed on physical verification carried out during the year have been properly dealt with in the books of accounts
- (iii) The Company has in earlier years granted unsecured loans to companies covered in the register maintained under Section 189 of the Act.
 - (a) According to the information and explanations given to us and based on the audit procedures conducted by us, there was no loan granted or renewed during the year to the parties covered in register maintained under section 189 of the Act.
 - (b) The schedule of repayment of principal and payment of interest in respect of such loans has been stipulated and the repayments or receipts are regular
 - (c) In respect of the aforesaid loans, there is no overdue amount of loans granted to companies, firms, Limited Liability Partnerships, or other parties listed in the register maintained under Section 189 of the Act.
- (iv) In our opinion and according to the information and explanation given to us in respect of loans, investments, guarantees and securities, the Company has complied with the provisions of Section 185 and 186 of the Act.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the provisions of Sections 73 to 76 of the Act and the rules framed there under.
- (vi) We have broadly reviewed the books of account maintained by the Company in respect of products where the maintenance of cost records has been specified by the Central Government under sub- section (1) of Section 148 of the Act and the rules framed there under and we are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

- (vii) (a) The Company is generally regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees' state insurance, income tax, goods and services tax, customs duty and any other material statutory dues applicable to it.

According to the information and explanations given to us and based on the audit procedures conducted by us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, goods and services tax, customs duty and any other material statutory dues applicable to it, were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) According to the information and explanation given to us, the dues outstanding with respect to, income tax, sales tax, goods and services tax, service tax, value added tax, customs duty, excise duty on account of any dispute, are as follows:

Name of the statute	Nature of dues	Amount Disputed (Rs. in lacs)	Amount paid under protest	Period to which the amount relates	Forum where dispute is pending

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Omax Autos Limited on the financial statements for the year ended March 31, 2021

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Omax Autos Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

3. ACCOUNTING CONVENTION:

The financial statements have been prepared on an accrual and historical cost basis **except for the following items:**

- **Certain financial assets and liabilities (including derivative instruments) that are measured at fair value;**
- **Net defined benefit (asset)/liability – present value of defined benefit obligations less fair value of plan assets.**

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Based on the nature of products/ activities of the Company and the normal time between acquisition of

assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Measurement of fair values

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable -inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

4. SIGNIFICANT ACCOUNTING POLICIES:

Use of estimates and judgment:

In preparing the financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These policies have been consistently applied to all the years presented, unless otherwise stated.

Revenue Recognition:

- i. Revenue from sale of goods is recognized when an entity transfers the control of goods and services to the customer at an amount to which the entity expect to be entitled following a five step model.

Sale of goods (including scrap): Revenue from sale of goods is recognised at the point of time when control of the goods is transferred to the customer, generally on delivery of the goods. The Company considers whether there are

other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties). Revenue is measured based on the transaction price as specified in the contract with the customer.

- ii. Export benefits are accounted for on accrual basis if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are reasonably expected to be fulfilled.
- iii. Other income including rent etc. is recognised on accrual basis. Interest income is recognised using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.
- iv. Sale of Services: In contracts involving the rendering of services, revenue is measured using the proportionate completion method and are recognized net of goods and service tax.
- v. Dividend income from investments is recognised when the shareholder's right to receive payment, has been established.

Property, Plant and Equipment:

Property, plant and equipment (including furniture, fixtures, vehicles, etc.) held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation.

Cost of acquisition is inclusive of freight, duties, taxes and other incidental expenses, net of cenvat / GST credit, wherever applicable that is directly attributable to the acquisition of the items.

Freehold land is carried at cost of acquisition.

Cost represents all expenses directly attributable to bringing the asset to its working condition capable of operating in the manner intended.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Land and buildings acquired/constructed are categorised as Land and buildings.

Intangible assets:

Intangible assets acquired separately-

Intangible assets that are acquired separately are carried at cost less accumulated amortisation and amortised on a straight line method over a period of 4 years.

Internally-generated intangible assets - research and development expenditure-

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, it will be available for use or sale and probable future economic benefits will be generated from that asset.

Depreciation and amortisation

Depreciation on assets belonging to Company and established on leasehold land is charged over the period of agreement. Improvements to leased premises are depreciated over the balance tenure of leasehold land.

Depreciation is charged on a pro-rata basis at the straight line method over estimated economic useful lives of its property, plant and equipment generally in accordance with that provided in the Part C of Schedule II of the Companies Act, 2013 other than assets mentioned below –

Particulars	Life (in years)
Dies, Tools & Fixtures	3
Rack, Bins, & Trolleys	5

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

Impairment of tangible and intangible assets

At each balance sheet date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the carrying amount of the asset (or cash-generating unit) exceeds its recoverable amount an impairment loss is recognised in the Statement of Profit & Loss to the extent the carrying amount exceeds the recoverable amount.

Inventories:

Stores & spares parts and loose tools are stated at cost.

Raw material & components, finished goods and work in progress are valued at cost or net realisable value whichever is lower.

Scrap is valued at net realisable value.

The basis for determining the cost of various inventories is as under:

Particulars	Basis of valuation
Raw material, Stores & Tools	At weighted average cost
Work in Progress	Material cost plus appropriate portion of labour and production overheads.
Finished Goods & Goods in transit	At cost or net realisable value whichever is less.

Finished Goods and Scrap are exclusive of applicable taxes thereon, wherever applicable.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cash and cash equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and demand deposits with an original maturity of three months or less and highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Assets held for sale:

Assets of disposal groups (non-current assets) that is available for immediate sale and where the sale is highly probable of being completed within one year from the date of classification are considered and classified as assets held for sale.

The assets which are reclassified as current assets as "Assets Held for Sales" are not depreciated or amortized.

Government grants:

Grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the years in which the Company recognises as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

The benefit of a government loan at a below-market rate of interest and effect of this favourable interest is treated as a government grant. The Loan or assistance is initially recognized at fair value and balance the government grant is measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates. Later on Grant recognised to the Statement of Profit and Loss as an notional income on a systematic basis over the years of loan in which the Company also recognises notional finance cost as an expenses over fair value of the loan, net impact of same become equivalent to overall loan initially received and payable after expiry of loan tenure as per the accounting policy applicable to financial liabilities.

Financial instruments:

Financial assets and financial liabilities are recognised when we becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at book value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the book value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, loans & advances and other contractual rights to receive cash or other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights.

De-recognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

Financial liabilities

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

Financial liabilities that are not held-for-trading are measured at amortised cost at the end of subsequent accounting periods.

De-recognition of financial liabilities

The Company derecognises financial liabilities when its obligations are discharged, cancelled or have expired.

Foreign Currency Transactions:

Transactions denominated in foreign currencies are normally recorded at the exchange rates prevailing on the date of transaction.

Exchange differences arising on foreign currency transaction settled during the year are recognized in the Profit & Loss Account for the year except to the extent, exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings for specific assets/ project asset, are capitalised as part of borrowing costs.

All the monetary items denominated in foreign currency outstanding at the yearend are translated at exchange rates prevailing on the date of balance sheet. The resulting exchange differences whether any income or expenses on account of exchange difference either on settlement or on translation are recognised in Profit & Loss Account for the year.

In case of Forward contracts, the proportionate differences till end of reporting period between the forward rate and the exchange rate on the date of the transaction are recognized in the profit & loss account except to the extent, proportionate differences which are regarded as an adjustment to foreign currency transaction for specific assets/ project asset, are capitalised as part of borrowing costs.

Borrowing Costs:

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the extent the expenditures incurred on that asset.

Borrowing cost includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

Taxation:

Income Tax Expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity.

Provision and contingent liability:

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

On an ongoing basis, the Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Contingent liabilities are not recognised in the statements but disclosed as notes to the accounts in the financial statements. Contingent Gain are not recognized until the contingency has been resolved and amounts are received or receivable.

Employee benefit Plans:

The details of various employee benefits provided to employees are as under:

Defined Benefit Plan and other long term benefits

The liability of gratuity plan is provided based on actuarial valuation under Projected Unit Credit Method at the end of each financial year. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates.

Company contributes the ascertained liability worked out by Life Insurance Corporation of India with whom the plan assets are maintained.

Provision for due earned leaves is determined using Projected Unit Cost method, with actuarial valuation being carried out at Balance Sheet date.

Defined Contribution Plans

Liability for superannuation fund is computed on the basis of the premium calculated and paid to LIC of India in respect of employees covered under Superannuation Fund Policy.

Provident Fund liabilities are recognised on the basis of actual liability accrued and paid to respective authorities.

Other comprehensive income:

Under Ind AS, all items of income and expense recognized in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise.

Items of income or expense that are not recognized in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' include re-measurement of defined benefit plans, foreign currency translation differences arising on translation of foreign operations and fair value gains or (losses) on equity instruments.

Leases:

The Company assesses at inception of contract whether it contains a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The

Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-Use Assets

The Company recognises right-of-use assets ("RoU Assets") at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lower of the lease term and the estimated useful life of the assets. If ownership of the leased asset transferred to the company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right of-use assets are also subject to impairment.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments to be paid to lessor over the period of lease. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date. Accordingly, after the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset. Lease liabilities has been presented under the head "Non-Current Financial Liabilities".

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption that are considered to be low value. Lease payments on short term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Service concession arrangements:

Under Appendix D to Ind AS 115 – Service Concession Arrangements applies to public-to private service

concession arrangements if:

The grantor controls or regulates what services the operator must provide with the infrastructure, to whom it must provide them, and at what prices: and

The grantor controls through ownership, beneficial entitlement or otherwise any significant residual interest in the infrastructure at the end of the term of the arrangement.

Infrastructure used in a public-to-private service concession arrangement for its entire useful life (whole life of assets) is within the scope of this Appendix if the conditions in (a) above are met.

Cost Recognition:

Costs and expenses are recognised when incurred and are classified according to their nature. Expenditure capitalised represents employee costs, stores, admin, travelling, borrowing, manufacturing supplies, and other expenses incurred for construction including successful product development undertaken by the Company.

Investment properties:

Investment properties are properties (land and buildings) that are held for long-term rental yields and/or for capital appreciation. Investment properties are measured initially at cost, including related transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. Any repair and maintenance cost are expensed when they are incurred.

Hedge accounting:

The Company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The accounting is done in accordance with Ind AS 109.

Earnings per Share:

Basic earnings per share has been computed by dividing net income by the weighted average number of shares outstanding during the year. Partly paid up shares are included as fully paid equivalents according to the fraction paid up. Diluted earnings per share has been computed using the weighted average number of shares and dilutive potential shares, except where the result would be anti-dilutive.

q) Financial risk management :

The Company manages the financial risks relating to the operations of the Company. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company seeks to minimise the effects of these risks by using credit limits to hedge risk exposures. The use of financial instruments is governed by the Company's policies on foreign exchange risk and the investment. The Company does not enter into agreements for trade financial instruments, including derivative financial instruments, for speculative purposes.

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates risk/ liquidity which impact returns on investments. Keeping in mind the overall small exposure, the company does not enters into derivative financial instruments to manage its exposure to foreign currency risk including export receivables and import payables. Future specific market movements cannot be normally predicted with reasonable accuracy.

Foreign Currency Risk Management

The Company undertakes transactions denominated in foreign currencies, consequently exposures to exchange rate fluctuations arise. The Company's significant exposure to foreign currency risk at the end of the reported periods expressed in INR are as follows:

₹ in lac

Foreign currency exposure		As at March 31, 2021	As at March 31, 2020
Trade Receivables	USD	-	48.30
Term loans	USD	1,645.32	301.34
Term loans	EUR	3,511.54	3,130.52
Forward contract	USD	-	544.68
Forward contract	EUR	-	-
Net Exposure	USD	1,645.32	894.32
	EUR	3,511.54	3,130.52

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in foreign currency rates, while all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material.

Currency	Change in Currency Exchange Rate	As at March 31, 2021	As at March 31, 2020
USD	Increase 5%	82.27	44.72
EUR	Increase 5%	175.58	156.53
Net exposure		257.84	201.25

A decrease of 5% in the above currency's exchange rates would result in an equivalent reciprocal effect.

Credit Risk

Credit risk is the risk that counterparty will not able to meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade and other receivables) and from its financing activities, including deposits with banks and other financial instruments.

Trade Receivables

The Company follows a 'simplified approach' (i.e. based on lifetime ECL) for recognition of impairment loss allowance on its trade receivables. For the purpose of measuring lifetime ECL allowance for trade receivables, the Company estimates irrecoverable amounts based on the ageing of the receivable balances, clubbed with, historical experience with the customer and/or the industry in which the customer operates and assessment of litigation, if applicable. Receivables are written off when they are no more deemed collectable.
