REF: DRONEACHARYA AERIAL INNOVATION LIMITED (SECURITY ID.: DRONACHRYA, SECURITY CODE: 543713)

Dear Sir / Ma'am,

With reference to the captioned subject, **DroneAacharya Aerial Innovations Limited** ("the Company") is thrilled to announce a groundbreaking **Memorandum of Understanding (MoU) with Yashwantrao Chavan Maharashtra Open University (YCMOU)**, opening up new horizons in the world of education and technology. This partnership aims to introduce credit-based Drone-centric courses to equip YCMOU students with the skills and knowledge they need for a successful career in the ever - evolving field of Drone Technology.

YCMOU, the fifth Open University in the country, is renowned for its commitment to excellence in education and has earned an A Grade accreditation from the National Assessment and Accreditation Council (NAAC). The collaboration will provide a great exposure in Drone Technology to the students of YCMOU, which has a staggering yearly intake of up to 2.5 lakh students in undergraduate, postgraduate, certificate, and various other courses across eight schools of study. Additionally, enhance YCMOU's educational offerings and further empower its students to pursue promising careers in the disruptive world of drones.

The collaboration between DroneAacharya and YCMOU seeks to bridge this gap by introducing a range of credit - based courses centered on drone technology. These courses will provide students with practical knowledge and hands-on experience, ensuring they are well-prepared to meet the challenges of the future job market. Graduates from these programs will be poised to lead the way in this dynamic field, creating a brighter future for themselves and the industries they serve.

DroneAcharya Signs MoU with Yashwantrao Chavan Maharashtra Open University (YCMOU) to Pave the Way for an Exciting Future in Drone Technology

In an exciting development, DroneAcharya is thrilled to announce a groundbreaking Memorandum of Understanding (MoU) with Yashwantrao Chavan Maharashtra Open University (YCMOU), opening up new horizons in the world of education and technology. This partnership aims to introduce credit-based Drone-centric courses to equip YCMOU students with the skills and knowledge they need for a successful career in the ever-evolving field of Drone Technology.

YCMOU, the fifth Open University in the country, is renowned for its commitment to excellence in education and has earned an A Grade accreditation from the National Assessment and Accreditation Council (NAAC). The collaboration will provide a great exposure in Drone Technology to the students of YCMOU, which has a staggering yearly intake of up to 2.5 lakh students in undergraduate, postgraduate, certificate, and various other courses across eight schools of study. Additionally, enhance YCMOU's educational offerings and further empower its students to pursue promising careers in the disruptive world of drones.

The world of technology is evolving at an unprecedented pace, and drones have emerged as a transformative force across various industries. Drone technology is used in agriculture, environmental monitoring, delivery services, cinematography, disaster management, and more. As drones become increasingly integrated into our daily lives, the demand for skilled professionals who can design, operate, and maintain these unmanned aerial vehicles is skyrocketing. Our Honorable Civil Aviation Minister Shri Jyotiraditya Scindia was quoted saying that India needs one lakh drone pilots, whereas, as of today, there are only 7,974 DGCA certified drone pilots in India. This itself reflects a huge potential of a lucrative career in the booming Drone Industry.

The collaboration between DroneAcharya and YCMOU seeks to bridge this gap by introducing a range of credit - based courses centered on drone technology. These courses will provide students with practical knowledge and hands-on experience, ensuring they are well-prepared to meet the challenges of the future job market. Graduates from these programs will be poised to lead the way in this dynamic field, creating a brighter future for themselves and the industries they serve.

The leadership team at DroneAcharya expressed their enthusiasm for this partnership. Lt Col Sunil Sharma, President - Business & Strategy at DroneAcharya, stated, "We are thrilled to join hands with YCMOU, a distinguished institution dedicated to providing quality education to a vast number of students. This collaboration aligns perfectly with our mission to nurture the next generation of professionals in drone technology and achieve the vision of our Honorable Prime Minister Shri Narendra Modi, of making India a Global Drone Hub by 2030. Together, we will empower students with the knowledge and skills required to excel in this exciting and transformative field."

As the world takes flight into the era of drones, this partnership between DroneAcharya and YCMOU holds the promise of a brighter future for students, industries, and society at large. With a strong emphasis on practical knowledge and experience, the students of Yashwantrao Chavan Maharashtra Open University are poised to become the drone technology leaders of tomorrow, further solidifying India's position in the global tech landscape.
