KAKA INDUSTRIES LIMITED
(Formerly Known as 'KAKA INDUSTRIES PRIVATE LIMITED')

Kaka Industries Ltd.

New Gujarat Plant fully commissioned with receipt of dedicated power supply

2nd January 2025– *"Happy New Year to all our stakeholders!"* On this New Year Eve, we are delighted to announce that Kaka Industries Limited, a leading manufacturer and supplier of PVC-based products, proudly **announces the full commissioning of its advanced manufacturing facility** in Village Lasundra, Tehsil Kathlal, District Kheda, Gujarat. This milestone comes after successfully resolving a persistent power supply issue that had limited the plant's operational capacity for the past six months.

The facility spans an impressive total land area of approximately 8,00,000 square feet, with 4,00,000 square feet dedicated to constructed and under-construction zones. Designed to deliver a **remarkable capacity utilization of 40,000 metric tons per annum (MTPA)**, the plant's output will exceed the current capacity utilization of 18,000 MTPA by more than 120% over the next 2 to 3 years.

Power Supply Issue Resolved

The plant faced significant challenges due to inconsistent power supply over the last six months. However, with effect from 2nd Jan 2025, **Kaka Industries Limited has started using uninterrupted power supply** from Madhya Gujarat Vij Company Limited (MGVCL). Additionally, **the power line infrastructure has been completed**. With this issue resolved, the plant is poised to operate at full capacity, marking a new era of productivity and efficiency for the company.

CA Chintan Bodar, CFO at Kaka Industries Limited, stated,

*"We are thrilled to announce the full commissioning of operations at our state-of-the-art manufacturing plant in Gujarat and we **expect the turnover of company to double by the End of FY 2027**. The lack of uninterrupted power supply was impacting our operations, which have now been resolved with immediate effect. All the equipment from other ancillary plant (old units) have now been shifted to this new facility, which will allow us to go full steam ahead and reach utilisation levels of 40,000 MTPA eventually versus 18,000 MTPA at present. This will allow us to double our revenue over the next 2 years with potential to*
