CHAIRMAN'S STATEMENT

Dear Shareholders,

As I reflect upon the extra-ordinary journey we have embarked on together, I am truly overwhelmed and humbled by the events of the past 12 months.

Towards creating value for you - Our Shareholders - we have now fully exited from all our businesses except our holding in IDFC FIRST Bank Limited ("IDFC FIRST Bank"). During the year, we successfully completed (i) merger of three wholly owned subsidiaries of IDFC Limited ("IDFC") with IDFC, (ii) sale of IDFC Asset Management Company and IDFC AMC Trustee Company to Bandhan consortium, and (iii) divestment of IDFC Foundation with underlying two joint venture entities i.e. Delhi Integrated Multi-Modal Transit System Limited ("DIMTS") and Infrastructure Development Corporation (Karnataka) Limited ("iDeCK").

Truly extraordinary achievements in the past year which made it possible to take the final step i.e., merger of IDFC and IDFC Financial Holding Company Limited ("IDFC FHCL") with IDFC FIRST Bank.

Notwithstanding macro and geopolitical challenges during the last fiscal, the IDFC Mutual Fund sale transaction was executed most efficiently at a valuation comparable to the best in the industry (valuation of Rs. 4,500 crore, gross of taxes). The sale was subject to various regulatory approvals which got completed on January 31, 2023.

Most of the sale proceeds were utilized to subscribe to a preferential offer made by IDFC FIRST Bank to provide growth capital for the Bank and to also increase our stake in the Bank from 36.49% to 39.99% investing about Rs. 2,200 crore (at price of about Rs. 58/- per share of the

Bank) and the Board declared a special dividend of Rs. 11/- per share which was paid in February 2023. Thus, IDFC paid a total Rs. 12 per share as dividend during the fiscal year 2023 amounting to Rs. 1,920 crore.

Post above steps, we moved quickly towards the last lap. The Board of Directors of all three entities i.e. IDFC, IDFC FHCL & IDFC FIRST Bank at their respective meetings held on July 3, 2023 approved the amalgamation of IDFC FHCL and IDFC with IDFC FIRST Bank and approved a Share Exchange Ratio of 155 Equity Shares of IDFC FIRST Bank for every 100 Equity Shares of IDFC. The amalgamation is subject to the receipt of all regulatory approvals including stock exchanges, SEBI, RBI, CCI & others as applicable.

Barring any unforeseen circumstances, we believe the proposed amalgamation should be completed in 9-12 months period. On completion, IDFC will cease to exist and we, the Board of IDFC, would have achieved our objective to realize the best value for you - Our Shareholders. It's a matter of great satisfaction for all of us.

Consequently, the holding company discount has come down from over 30% to about 10 - 12%. The market cap of IDFC which was at around Rs. 8,000 crore a year ago, has now increased to Rs. 18,000 crore after paying Rs. 1,920 crore as dividend. I am simply humbled by this experience.

During the fiscal year, the balance sheet size increased from Rs. 9,416 crore as on March 31, 2022 to Rs. 9,570 crore as on March 31, 2023. Profit after tax and other comprehensive income was higher at Rs. 2,029 crore for FY 23 as compared to Rs. 53 crore in FY 22. The net worth of IDFC increased from Rs. 9,391 crore as on March 31, 2022 to Rs. 9,518 crore as on March 31, 2023.

During the year, on 30th September, 2022, Mr. Sunil Kakar completed his tenure as MD & CEO and Mr. Mahendra

N Shah was appointed as the Managing Director. Mr. Mahendra led a very skeleton team and worked hard on completion of the remaining task of corporate simplification. Mr. Mahendra was ably assisted by Mr. Bipin Gemani who has been the CFO of IDFC and the Board has now recommended to elevate him as a Whole Time Director and CFO, subject to your approval at the AGM.

Our Bank continues to do well and its foundation is built on customer-first principles. It continues to invest in laying a strong, modular and contemporary technology architecture that will enable efficiency, resilience, and growth.

Our Bank recorded a PAT of Rs. 2,437 crore in FY 23, with strong Capital Adequacy of 16.82%. The quarterly net profit grew 134% YOY from Rs. 343 crore in Q4-FY22 to Rs. 803 crore in Q4-FY23 driven by strong growth in core operating income.

I take this opportunity to thank all our 6 employees for their relentless efforts during this year.

Finally, I wish to thank each one of you - Our valued Shareholders, for placing your faith and confidence in us. I look forward to your continued guidance & support.

Warmly,

Anil Singhvi

BOARD'S REPORT

Dear Shareholders,

Your Directors have pleasure in presenting the Twenty-Sixth Annual Report on the business and operations of the Company together with the audited financial statements, prepared under Ind-AS, for the financial year ended March 31, 2023.

OPERATIONS REVIEW

Effective October 1, 2015 post demerger of Financing Undertaking into IDFC FIRST Bank Limited (earlier known as IDFC Bank) ("IDFC FIRST Bank" or "the Bank"), IDFC Limited ("IDFC" or "the Company") is operating as an NBFC - Investment Company mainly holding investment in IDFC Financial Holding Company Limited ("IDFC FHCL") which is a non-operative financial holding company. IDFC FHCL in turn holds investments in IDFC FIRST Bank Limited. IDFC has minimal business operations and its main focus is to simplify corporate structure and unlock value for shareholders. During the year, Balance Sheet size increased from Rs. 9,416.45 crore as on March 31, 2022 to Rs. 9,570.64 crore as on March 31, 2023. Profit after tax and other comprehensive income was higher at Rs. 2,029.00 crore for FY23 as compared to Rs. 53.88 crore in FY22. Net worth of the Company increased from Rs. 9,391.06 crore as on March 31, 2022 to Rs. 9,518.64 crore as on March 31, 2023. During the year, the Company transferred

Rs. 405.83 crore to Special Reserve u/s 45-IC of Reserve Bank of India ("RBI") Act, 1934. Details of business overview and outlook of the Company and its subsidiaries are appearing in the chapter Management Discussion and Analysis which forms part of this report.

DIVIDEND

The Board of Directors at its meeting held on February 01, 2023 declared a special dividend of Rs.11/- per share. The same was paid on February 23, 2023. The Board also at its meeting held on April 06, 2022 declared an interim dividend of Re. 1/- per share. The same was paid to the Shareholders on May 02, 2022. The Board has not recommended any final dividend for FY 23.

DIVIDEND DISTRIBUTION POLICY

In accordance with the Regulation 43A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"), IDFC had formulated

a Dividend Distribution Policy. The policy was adopted to set out the parameters and circumstances that will be considered by the Board in determining the distribution of dividend to its Shareholders and / or retaining profits earned by the Company. The said policy is hosted on the website of the Company and can be viewed at http://www.idfclimited.com/investor_relations/corporate_governance_policies.htm.

SUBSIDIARY COMPANIES

The Company has one domestic direct subsidiary & three associate companies as on March 31, 2023 which are given in **Table 1**.

CORPORATE SIMPLIFICATION DURING THE YEAR

Sale of IDFC Asset Management Company Limited (IDFC AMC) and IDFC AMC Trustee Company Limited (IDFC AMC Trustee)

The Board of Directors of IDFC and the Board of Directors of IDFC FHCL at their respective meetings held on April 06, 2022, had inter alia considered binding bids received in connection with divestment of IDFC AMC along with IDFC AMC Trustee and had approved sale of the entire shareholding of IDFC AMC and IDFC AMC Trustee held by IDFC FHCL to a consortium comprising of Bandhan Financial Holding Limited, Lathe Investment Pte. Ltd. (affiliate of GIC), Tangerine Investments Limited and Infinity Partners (affiliates of ChrysCapital). On July 07, 2022, the Shareholders of IDFC through postal ballot had approved the divestment/ sale/ disposal of the IDFC AMC (material subsidiary of IDFC) and IDFC AMC Trustee.

The aforesaid transaction was completed on January 31, 2023 after receipt of all necessary regulatory approvals and completion of mutually agreed closing related actions. On sale of IDFC AMC & IDFC AMC Trustee, IDFC FHCL (a wholly owned subsidiary of IDFC Limited) received sale consideration of Rs. 4,490.50 crore. The sale proceeds of Rs. 4,490.50 crore were utilised to:

- (a) pay income tax of approx.: Rs. 350.00 crore;
- (b) subscribe to preferential offer made by IDFC FIRST Bank @ Rs. 58.18 per share to take our holding in IDFC FIRST Bank from 36.4% to 39.99%, Rs. 2,200.00 crore;

- (c) pay dividend to IDFC's Shareholders Rs. 1,760.00 crore.

As a result of the sale, IDFC AMC and IDFC AMC Trustee ceased to be a part of IDFC Group Companies with immediate effect. Subsequently, on April 19, 2023 name has been changed from IDFC Asset Management Company Limited to Bandhan AMC Limited and IDFC AMC Trustee Company Limited to Bandhand Mutual Fund Trustee Limited.

MANAGEMENT DISCUSSION & ANALYSIS

Business environment during the fiscal continued to remain challenging with inflationary headwinds forcing regulators across the world to raise interest rates and tighten liquidity and geopolitical tensions further exacerbating challenges by disrupting supply chains and constraining availability of resources globally. During the fiscal India navigated these challenges well and in the coming years, with abatement of these macro headwinds hopefully, the India growth story should gain further momentum and be back on track.

As the last step of the journey, the Board of Directors of IDFC, IDFC FHCL and IDFC FIRST Bank at their respective meetings held on July 03, 2023, have inter alia approved Composite Scheme of Amalgamation (“**the Scheme**”) which inter alia envisages the amalgamation of: (i) IDFC FHCL into and with IDFC; and (ii) IDFC into IDFC FIRST Bank, and their respective shareholders, under Sections 230 to 232 of the Act and other applicable laws including the rules and regulations (“**Proposed Transaction**”). subject to statutory and regulatory approvals.

OVERVIEW OF GROUP COMPANY

IDFC FIRST Bank

Key Highlights of FY 2022-23
 Our bank was focused on creating a strong platform during the initial years by consolidating and strengthening the balance sheet through growing assets at a calibrated pace and hastening deposit growth. We moderated overall loan growth during initial years and grew deposits as a faster pace. This phase focused on consolidation is now complete. A strong foundation has been built to launch into a growth phase focused on profitability and asset quality from here on.

Financials
 Our fee income is well diversified. We have launched and scaled up many fee-based products in the last 4 years. Many of these products are in the early stage of their lifecycle and have the potential to grow significantly going forward. 91% of the fee income & other income is from retail banking operations which is granular and sustainable.

During the last three years we had to make significant investments in building liabilities and credit card franchise. Despite this, the cost income issue has come down from 95% to 72% because of the strong incremental unit economics at the bank which is allowing the bank to make the investments as mentioned above. If the high cost legacy borrowings are replaced with current cost of funds, the cost to income for FY23 would be 69.68%. Cost to income will further come down with scale.

Our core pre-provisioning operating profit has improved despite investment in growing the bank. As the retail lending business is profitable with more than 20% incremental ROE, we're able to absorb the expenses needed to invest for building the bank. In Q4-FY23, the Core PPOP was at 2.36% (annualized) as a % of average assets, as compared to 1.86% in Q4-FY22.

Our core PPOP (NII + Fees excluding Trading Gains - Opex) grew by 67% as compared to balance sheet growth of 26% in FY23. This demonstrates the power of incremental profitability in all our businesses.

This phenomenon has played out to bring in growth in core PPOP every quarter and we expect it to continue over the next few years till we reach sustainable ROA / ROE

levels as comparable to the industry. Adjusting for the one-time items in Q4-FY23, the annualized ROA would have been 1.23% and the annualized ROE would have been 12.30% in Q4-FY23, which has improved from 6.67% in Q4-FY22.

In the last 5 years, the Infrastructure financing book as % of overall Loans & Advances has come down from 36.7% to 2.9% as of March 31, 2023.

The significant and growing part of the book, i.e. the Retail and commercial business financing business has low NPA levels because of high-quality underwriting, credit bureaus, technology, cash-flow based lending capabilities. Asset Quality in the Corporate Book too is strong with adequate PCR of 99.84%.

We expect infrastructure book to wind down in due course, hence the Bank level NPA excluding Infrastructure at 1.84% and 0.46% is relevant point to note. Further, the retail and commercial book is well diversified.

Commercial Finance consists of Loans to small business owners and entrepreneurs through products like business installment loans, micro business loans, small business working capital, commercial vehicle, trade advances etc. with most loans < Rs. 5 crore.

Loans & Advances are net of IBPC, Consumer Loans include personal loans, education loan, consumer durable loan and cross sell.

Liabilities

The Bank provides high levels of customer service and becoming a brand with a reputation as a clean and ethical institution, which has helped us grow our deposit base.

The deposits of 31st March 2023 includes Rs. 2,131 crore of Current Account Deposits received for short term during the closing days of FY23 from large Government Banking client. Without the same, the CASA balance would be Rs. 69,852 crore as of 31-Mar-23, 37% YoY growth.

We reduced deposit rates in 2021 from 7% earlier to 4% up to Rs. 10,00,000. Yet, our deposit growth continues to be strong based on strong service levels and image as a clean ethical institution. Without the Rs. 2,131 crore current account mobilized in March 2023 from Government Banking client as mentioned earlier, the CASA Ratio would be 49.0% as of 31-Mar-23.

Total Customer Deposits (Retail Deposits + Wholesale Deposits) has grown strongly by 4 Year CAGR (Mar-19 to Mar-23) of 36%. Without the Rs. 2,131 crore current account

The Bank is well capitalized for growth in future.

mobilized in March 2023 from Government Banking client as mentioned earlier, the total customer deposits would be Rs. 134,681 crore, growth of 44% on YoY basis.

We have transformed the liability profile in 4 years from wholesale to retail. The Retail wholesale Deposits mix has changed from 27 : 73 in Dec-18 to 76 : 24 in Mar-23. Strong growth in retail deposits has significantly reduced dependency of the Bank on the wholesale deposits. Certificate of Deposits (short term money) has come down from Rs. 28,754 crores as of March 31, 2019 to Rs. 7,826 crores as of March 31, 2023, while the total customer deposit base grew from Rs. 40,504 crore to Rs. 1,36,812 crore in this period.

Our strong growth in retail deposits has reduced our dependence on wholesale deposits and has provided greater stability to our liabilities.

SMA 1 is the overdue portfolio in Bucket 31-60 days, and SMA 2 is the overdue portfolio in 61-90 days. SMA 1 (31-60 days overdue) and SMA 2 (61-90 days overdue), put together are around 1.1% of the Book in retail & commercial segment. Based on this, we expect a lower level of NPA formation in future.

Here we share the Gross and Net NPA of individual products in Retail & Commercial Finance. Most of the products have GNPA ratio at less than 2% and NNPA ratio at less than 1% as a result of stringent

underwriting and risk management described earlier. NPA of Loan Against Property is higher because it includes impact of restructuring due to COVID. NPA in this portfolio is expected to come down over time as the COVID affected portfolio runs off.

The Bank has reduced the net stressed assets, both in absolute value and as % of the total assets. This indicates lower NPA levels going forward. The restructured pool of the Bank has reduced by 60% in FY23. It forms 0.59% of the overall Loans & Advances as of March 31, 2023 as compared to 1.84% as of March 31, 2022.

The consistent QoQ growth of the core operating profit showcases the strength of the core operating model, despite the investments in building capabilities including new products, network, people, digital innovations etc. during this phase which has made the organization ready for the next wave of growth.

In Q4-FY23, the Bank had trading gains of Rs. 216 crore and the Bank utilized Rs. 79 crore of the same to increase the PCR. Adjusting for these one-time items, the net profit of the Bank would have been Rs. 701 crore for Q4-FY23. We expect profitability to further improve going forward with scale.

Capital Adequacy

Our bank is strongly capitalized at 16.82% total Capital to Risk (weighted) Assets Ratio (CRAR).

IDFC has in place mechanism to inform the Board about its risk assessment and risk mitigation procedures with periodical reviews to ensure that the Management controls risk through a Board-approved properly defined framework. This is done through its Board-level Risk

Management & It Strategy Committee and it monitors and reviews risk management of the Company on a regular basis.

The committee reviews and monitors mainly three types of risks across the organisation: credit risk, market risk and operational risk and takes note of the Legal & Regulatory updates for all the Non-Bank Entities. The Chairperson of the Committee reports the findings / observations of the Committee to the Board.

D. STAKEHOLDERS' RELATIONSHIP COMMITTEE

The Stakeholders' Relationship Committee ("SRC") was re-constituted on June 22, 2022. The SRC consists of three Directors- Mr. Anil Singhvi as the Chairman, Dr. Jaimini Bhagwati and Mr. Ajay Sondhi as its members with any two Members forming the quorum. The Committee met one time during the year on May 20, 2022. The Committee is empowered to handle Shareholders' and other investors' complaints and grievances. The SRC considers and resolves the grievances of the equity Shareholders of the Company, including complaints related to transfer of equity shares, nonreceipt of annual report, non-receipt of declared dividends, etc. Additionally, it is responsible to perform any other function as stipulated by the Act, Reserve Bank of India, SEBI, Stock Exchanges and any other regulatory authority or under any applicable laws, as amended from time to time.

Additionally, Allotment and Share Transfer Committee ("ASTC") was reconstituted on October 17, 2022, on cessation of Mr. Sunil Kakar as the MD & CEO of the Company w.e.f. September 30, 2022. Ms. Shivangi Mistry was inducted as the Member of the committee w.e.f. October 17, 2022 in place of Mr. Sunil Kakar. ASTC comprising of Dr. Jaimini Bhagwati as the Chairman, Mr. Mahendra N Shah and Ms. Shivangi Mistry as members who look into share allotment, transfer, transmission, name deletion, transposition, re-materialisation and related applications received from Shareholders, with a view to accelerate the transfer procedures. The quorum for any meeting of this Committee is two Members. INDEPENDENT SECRETARIAL AUDITORS' CERTIFICATE ON CORPORATE GOVERNANCE

TO, THE MEMBERS IDFC LIMITED

We have examined the compliance of conditions of Corporate Governance by IDFC Limited ("the Company") for the year ended March 31, 2023, as stipulated in chapter IV of The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["Listing Regulations"].

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring compliance with the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the Financial Statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as specified in chapter IV of the Listing Regulations except in respect of the followings:-

- i. The Company did not have requisite number of directors on its Board during the period from August 16, 2022 to August 23, 2022 and October 01, 2022 to March 31, 2023 as required under Regulation 17(l)(c) of Listing Regulations.

- ii. The Risk Management Committee did not have requisite number of members during the period from August 16, 2022 to August 23, 2022 as required under Regulation 21 of Listing Regulations. Further, the gap between two meetings of Risk Management Committee held on May 6, 2022 and November 11, 2022 exceeded one hundred and eighty days.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF IDFC LIMITED

Report on the audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone Ind AS financial statements of IDFC Limited ('the Company'), which comprise the standalone balance sheet as at 31 March 2023, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information ('the Standalone Financial Statements').
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and its profit and other comprehensive income, changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act, and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Emphasis of Matter

4. We draw attention to note 29(iii) to the Standalone Financial Statements mentioning that the Company is in process of appointing new directors on the Board to comply with Regulation 17(1)(c) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Our opinion on the Standalone Financial Statements is not modified in respect of the above matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How the matter was addressed in our audit
<p>Assessment of valuation of investments measured at fair value for which no listed price in an active market is available and valuation is carried out basis market information and significant unobservable inputs. (Refer note 33 to the standalone financial statements.)</p> <p>The Company has investments in Venture Capital Funds ("VCF") units amounting to ₹ 347.82 crores measured at fair value, where no listed price in an active market is available. The corresponding fair value change is recognised in statement of profit and loss in accordance with related Accounting Standard (Ind-AS 109).</p> <p>In measuring the fair value of these investments, the management considers the net asset value ("NAV") declared by the investment managers of the VCF unit. NAV is considered as a significant unobservable input as the Company does not have direct access to the valuations of the underlying portfolio companies in which the VCFs have invested.</p> <p>The management also reviews the performance of the portfolio companies on a regular basis by tracking the latest available financial statements/financial information, valuation report of independent valuers, investor communications and basis the said assessment determines whether any discount is required to be applied on the NAV communicated by the investment managers of VCF. The assessment made by the management also takes into consideration the illiquidity considering the said investments are not actively traded in the market. The assessment prepared by the management is placed before the Board of Directors for their approval at regular intervals. Considering the inherent subjectivity in the valuation of the above investments, relative significance of these investments to the standalone financial statements and the nature and extent of the audit procedures involved, we determined this to be a key audit matter.</p>	<p>The following procedures were performed by us to test the valuation of investments which are measured at fair value for which no listed price in an active market is available:</p> <ol style="list-style-type: none"> a. We obtained an understanding from the management, assessed and tested the design and operating effectiveness of the Company's control over assessment of fair value of investments. b. We verified that requisite approvals are in place with regards to Management's assessment of fair valuation of investments in VCF. c. We traced the inputs used in the calculation from the source data (Statement of Accounts, NAV declared etc.) to verify the arithmetical accuracy of the calculation of valuation of investments. d. We evaluated the adequacy of the disclosures in the standalone financial statements. <p>Based on our above audit procedures, we consider that the management's assessment of the fair value of the above investments for which no listed price in an active market is available is reasonable.</p>

INDEPENDENT AUDITOR'S REPORT

Other Information

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report but does not include the Standalone Financial Statements and our auditors' report thereon. The Other Information is expected to be made available to us after the date of this auditor's report.
7. Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
8. In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

9. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting standards ('Ind AS') specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
10. In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
11. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Standalone Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.
13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - 13.1. Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - 13.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
 - 13.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
 - 13.4. Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - 13.5. Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
14. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

17. We draw attention to note 24(iii) of the Standalone Financial Statements which highlights that as part of simplification of corporate structure, the Board of Directors of the Company along with the three Wholly Owned Subsidiaries ("WOS") IDFC Alternatives Limited, IDFC Trustee Company Limited and IDFC Projects Limited, approved the merger of WOS into the Company, subject to receiving regulatory approvals from various authorities. Post Board approval, the Company along with its three WOS has filed scheme of amalgamation with Official Liquidator ("OL") - Chennai and Regional Director / Registrar of Companies ("ROC") - Chennai on 06 December 2021. The ROC, Chennai vide its letter dated 01 February 2022 intimated no observation / suggestions to the aforesaid scheme of amalgamation. Also, the OL of Madras High Court vide its letter dated 24 March 2022 communicated no observation to the aforesaid scheme of amalgamation. The Company filed petition with National Company Law Tribunal ("NCLT") - Chennai on 13 April 2022. NCLT heard the petition on 20 October 2022 and passed the order on 22 November 2022 in favour of the Company. Appointed date of the merger being 01 April 2021, the Company has given effect to the Order and have prepared merged accounts for all the periods appearing in the Standalone Financial Statements. Consequently, the previous year numbers presented in the Standalone Financial Statements has been restated. Our opinion on the Standalone Financial Statements is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

18. As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
19. As required by Section 143(3) of the Act, we report that:
 - 19.1. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - 19.2. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - 19.3. The standalone balance sheet, the standalone statement of profit and loss including other comprehensive income, the statement of changes in equity and the standalone cash flow statement dealt with by this Report are in agreement with the books of account.
 - 19.4. In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - 19.5. On the basis of the written representations received from the directors as on 31 March 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2023 from being appointed as a director in terms of Section 164(2) of the Act.
 - 19.6. With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B'.
 - 19.7. In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act.
20. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - 20.1. The Company has disclosed the impact of pending litigations as at 31 March 2023 on its financial position in its Standalone Financial Statements - Refer Note 31 to the Standalone Financial Statements.
 - 20.2. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - 20.3. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - 20.4. The Management has represented, to best of their knowledge and belief, that no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ('Intermediaries'), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in

INDEPENDENT AUDITOR'S REPORT

any manner whatsoever by or on behalf of the Company ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- 20.5. The Management has represented, to best of their knowledge and belief, that no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- 20.6. Based on such audit procedures, that has been considered reasonable and appropriate in the circumstances, performed by us, nothing has come to our notice that has caused us to believe that the representation under para 20.4 and 20.5 contain any material misstatement.
- 20.7. In our opinion and according to the information and explanations given to us, the dividend declared and / or paid during the year by the Company is in compliance with Section 123 of the Act.
- 20.8. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), provides for the feature of recording of audit trail (edit log) facility in the accounting software used by the Company for maintenance of books of account, which is applicable to the Company from financial year beginning 1 April 2023. The reporting under clause (g) of Rule 11 of Companies (Audit and Auditors) Rules, 2014 would be done from financial year 2023-2024 onwards.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF IDFC LIMITED FOR THE YEAR ENDED 31 MARCH 2023

(Referred to in paragraph 18 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment ('PPE').
- (b) The Company has a regular programme of physical verification of its PPE by which all PPE are verified in a phased manner over a period of 2 years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, certain PPE were physically verified by the Management during the year. ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

ANNEXURE "B" TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF IDFC LIMITED FOR THE YEAR ENDED 31 MARCH 2023

(Referred to in paragraph 19.6 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act').

Opinion

1. We have audited the internal financial controls with reference to the Standalone Financial Statements of IDFC Limited as at 31 March 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.
2. In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to the Standalone Financial Statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('the Guidance Note').

Management's responsibility for Internal Financial Controls

3. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

4. Our responsibility is to express an opinion on the Company's internal financial controls with reference to the Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ('SA'), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Standalone Financial Statements. Those SAs and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Standalone Financial Statements were established and maintained and whether such controls operated effectively in all material respects.
5. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to the Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.
6. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to the Standalone Financial Statements

7. A company's internal financial controls with reference to the Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Standalone Financial Statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Inherent Limitations of Internal Financial Controls with reference to the Standalone Financial Statements

8. Because of the inherent limitations of internal financial controls with reference to the Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES**1A. BACKGROUND**

IDFC Limited ('the Company') having CIN "L65191TN1997PLC037415" is a public limited company incorporated in India under the provisions of Companies Act, 2013 applicable in India and is a Non-Banking Finance Company (NBFC) regulated by the Reserve Bank of India ('RBI'). The Company is listed on both the stock exchange (BSE Limited and National Stock exchange of India Limited). The registered office of the Company is located at 4th Floor, Capitale Tower, 555 Anna Salai, Thiru Vi Ka Kudiyiruppu, Teynampet Chennai - 600 018, Tamil Nadu and the corporate office is located at 906/907, 9th Floor, Embassy Centre, Jamnalal Bajaj Road, Nariman Point, Mumbai - 400 021.

The Company had received in principle approval from the RBI to set up a new private sector bank in April 2014. Since October 1, 2015 the Company is operating as NBFC - Investment (NBFC - I).

These standalone financial statements were authorized for issue in accordance with a resolution of the Board of Directors on May 04, 2023.

The Company along with its three wholly owned subsidiaries viz. IDFC Projects Limited, IDFC Trustee Company Limited and IDFC Alternatives Limited had filed scheme of amalgamation with Official Liquidator ('OL') - Chennai on December 06, 2021 and to Regional Director ('RD') /Registrar of Companies ('ROC') - Chennai through GNL-1 form on December 06, 2021 seeking their objections / suggestions to the said scheme under Section 233 (1) (a) of the Companies Act, 2013 and rules made thereunder. Physical copies of the same have also been filed with the ROC on December 08, 2021. Appointed date for the merger in the scheme is April 1, 2021.

The ROC, Chennai vide its letter dated February 01, 2022 intimated it's no observations/suggestions to the aforesaid scheme of amalgamation. Also, the OL of Madras High Court vide its letter dated March 24, 2022, communicated it's no observations to the aforesaid scheme of amalgamation.

The Company filed petition with National Company Law Tribunal (NCLT) - Chennai on April 13, 2022. NCLT heard the petition on October 20, 2022 and passed the order on November 22, 2022 in favor of the Company. The order is effective from December 09, 2022.

Consequently, previous period presented in the statement have been restated.

1B. NEW AND AMENDED STANDARDS ADOPTED

The Company has applied the following amendments to Ind AS for the first time for their annual reporting period commencing April 01, 2022:

- Indian Accounting Standard (Ind AS) 101
- Indian Accounting Standard (Ind AS) 103
- Indian Accounting Standard (Ind AS) 109
- Indian Accounting Standard (Ind AS) 16
- Indian Accounting Standard (Ind AS) 37
- Indian Accounting Standard (Ind AS) 41

1C. Standards issued but not yet effective upto the date of issuance of the financial statements:

Ministry of Corporate affairs have made changes on March 31, 2023, in the following Indian Accounting Standards (Ind AS) amended namely:

- Indian Accounting Standard (Ind AS) 101
- Indian Accounting Standard (Ind AS) 102
- Indian Accounting Standard (Ind AS) 103
- Indian Accounting Standard (Ind AS) 107
- Indian Accounting Standard (Ind AS) 109
- Indian Accounting Standard (Ind AS) 115
- Indian Accounting Standard (Ind AS) 1
- Indian Accounting Standard (Ind AS) 8
- Indian Accounting Standard (Ind AS) 12
- Indian Accounting Standard (Ind AS) 34

These amendments shall be applicable from annual reporting periods beginning on or after April 01, 2023.

2. BASIS OF PREPARATION*(i) Compliance with Ind AS*

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities and contingent consideration is measured at fair value;
- assets held for sale – measured at fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value; and
- share-based payments – measured at fair value.

(iii) Presentation of financial statements

The Company presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in note 35.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and/or its counterparties

3. INVESTMENT IN SUBSIDIARY AND ASSOCIATES

Investment in subsidiaries and associates are measured at cost less accumulated impairment. See note 14 (iii) below for the accounting policy for Impairment of Non-financial assets.

4. REVENUE RECOGNITION

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable.

(i) Interest income

The Company calculates interest income by applying the Effective Interest Rate ('EIR') to the gross carrying amount of financial assets other than credit-impaired assets.

The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance). The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts paid or received that are integral to the effective interest rate, such as origination fees, commitment fees, etc.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

(ii) Dividend income

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably. This is generally when the shareholders of the investee Company approve the dividend.

5. INCOME TAX

The income tax expense or credit for the period is the tax payable on the taxable income of the current period based on the applicable income tax rates adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses.

i. Current Tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

ii. Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

6. GOODS AND SERVICE TAX

Expenses and assets are recognised net of the goods and services tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

7. LEASES

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

(i) Company as a lessee

Leases are recognised as a right-of-use asset and corresponding liability at the date at which the leased asset is available for use by the Company. Contracts may contain both lease and non-lease components. The Company allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Company is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Asset and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the fixed payments (including in-substance fixed payments), less any lease incentives receivable.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If the rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions .

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payment associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

(ii) *Company as a lessor*

Lease income from operating leases where the company is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

8. FINANCIAL INSTRUMENT

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at Fair value through profit or loss are expensed in profit or loss.

Financial assets

(i) **Classification and subsequent measurement of financial assets**

The Company classifies its financial assets in the following measurement categories:

- Fair value through profit and loss (FVTPL)
- Fair value through other comprehensive income (FVOCI)
- Amortised cost

The classification requirements for debt and equity instruments are described below:

Debt Instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective such as venture capital fund units.

For investments in debt instruments, measurement will depend on the classification of debt instruments depending on:

- the Company's business model for managing the asset; and
- the cash flow characteristics of the asset.

Business Model Assessment-

The business model reflects how the Company manages the assets in order to generate cash flows. The business model determines whether the Company's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable or when performance of portfolio of financial assets managed is evaluated on a fair value basis, then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the company in assessing the business model test include-

- Past experience on how the cash flows for these assets were collected
- how the asset's performance and the business model is evaluated and reported to key management personnel,
- the risks that affect the performance of the business model and how these risks are assessed and managed.

Solely payment of principal and Interest Assessment (SPPI)

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments cash flows represent solely payments of principal and interest (the 'SPPI test').

Based on these factors, the Company classifies its debt instruments into one of the following three measurement categories

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognised or impaired.

Fair value through other comprehensive income: Debt instruments that meet the following conditions are subsequently measured at FVOCI:

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets;
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding; and
- that are designated at fair value

Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in profit or loss.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI, are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in profit or loss and presented in the statement of profit and loss within other gains/ (losses) in the period in which it arises. Company's investment in venture capital fund units are classified as financial assets measured at FVTPL.

Equity Instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

Changes in fair value of equity investments at FVTPL are recognised in the statement of profit and loss, except where the Company's management has elected, at initial recognition, to irrevocably designate an equity investment at FVOCI.

Where the management has elected to present gains and losses on equity instruments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to statement of profit and loss. Dividends from such investments are recognised in statement of profit and loss.

Currently, Company's investment in equity instruments has been classified as financial assets measured at FVTPL.

9. FINANCIAL ASSETS AND LIABILITIES

(i) *Bank balance, Loans, Trade receivables and financial investment at amortised cost.*

The Company measures Bank balances, Loans, Trade receivables and other financial investments at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

(ii) *Financial assets held for trading*

The Company classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is an evidence of a recent pattern of short-term profit-taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes. Interest and dividend income or expense is recorded in net gain on fair value changes according to the terms of the contract, or when the right to payment has been established. Included in this classification investments in mutual fund units, debt securities and equities that have been acquired principally for the purpose of selling or repurchasing in the near term.

(iii) *Equity instruments at FVOCI*

The Company subsequently measures all equity investments at fair value through profit or loss, unless the Company's management has elected to classify irrevocably some of its equity investments as equity instruments at FVOCI, when such instruments meet the definition of definition of Equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss. Dividends are recognised in profit or loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

(iv) *Debt instruments and other borrowed funds*

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR. A compound financial instrument which contains both a liability and an equity component is separated at the issue date.

10. RECLASSIFICATION OF FINANCIAL ASSETS AND LIABILITIES

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

11. DERECOGNITION OF FINANCIAL ASSETS

Financial Assets

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred.

- the Company transfers substantially all the risks and rewards of ownership, or
- the Company neither transfers nor retains substantially all the risks and rewards of ownership and the Company has not retained control.

12. DERECOGNITION OF FINANCIAL LIABILITIES

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred are adjusted to the carrying amount of the liability and are amortised over the remaining term of the modified liability.

13. IMPAIRMENT OF FINANCIAL ASSET

(i) Overview of the ECL principles

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 34 details how the Company determines whether there has been a significant increase in credit risk.

The ECL allowance is based on the credit losses expected to arise over the life of the asset, unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12m ECL). The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. This is further explained in Note 34.

At each reporting date, the Company assesses whether the above financial assets are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. The Company's ECL calculations are outputs of statistical models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies such as macroeconomic scenarios.

The Company assesses on a forward-looking basis the ECL associated with its financial instrument. The Company recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money, and

Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

(ii) Trade receivables and contract assets

For trade receivables only, the Company applies the simplified approach required by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated for changes in the forward-looking estimates.

Trade receivable are initially recognised at transaction price.

14. IMPAIRMENT OF NON-FINANCIAL ASSET

- (i) Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

(ii) Impairment of investment in subsidiary and Associates

The Company is required to assess on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. As per IND AS 36 investments are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. In assessing whether there is any impairment management considers indications through external and internal sources of information.

15. DETERMINATION OF FAIR VALUE

The Company measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The mutual funds are valued using the closing NAV.

Level 2 financial instruments the fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 - If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period. This is further explained in Note 33.

16. CASH AND CASH EQUIVALENTS

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

17. STATEMENT OF CASH FLOWS

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i. changes during the period in inventories and operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses, and undistributed profits of associates and joint ventures; and
- iii. all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

18. PROPERTY, PLANT AND EQUIPMENT

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

(i) *Depreciation methods, estimated useful lives and residual value*

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives prescribed in Schedule II to the Companies Act, 2013 except in respect of following categories of assets, in which case life of asset has been assessed based on the technical assessment.

(ii) Transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

23. SHARE-BASED PAYMENTS

The Company has formulated Employee Stock Option Schemes ('the ESOS') in accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 ('the Guidelines'). The ESOS provides for grant of stock options to employees (including employees of subsidiary companies) to acquire equity shares of the Company that vest in a graded manner and that are to be exercised within a specified period.

The fair value of options granted under the ESOS is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

24. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

25. ROUNDING OFF

All amounts disclosed in the financial statements and notes have been rounded off to the nearest "crores" as per the requirement of Schedule III, unless otherwise stated.

26. CONTRIBUTED EQUITY

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceed.

27. DIVIDENDS

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

Note 2: Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please see Note 33.

2. Provision and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company considers a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- i. estimated amount of contracts remaining to be executed on capital account and not provided for;
- ii. uncalled liability on shares and other investments partly paid;
- iii. other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

* Investment in subsidiaries and associates are measured at cost in accordance with Ind AS 27.

@ The above investments in venture capital units are subject to restrictive covenants.

- a) IDFC Foundation a wholly owned subsidiary of IDFC Limited, being a Section 8 company prohibits payment of dividend and/or repatriation of capital to its members. In continuation of corporate structure simplification, Board of Directors at their meeting held on October 27, 2022 have approved and donated its entire equity held in IDFC Foundation along with underlying investments in joint venture entities (Delhi Integrated Multi Modal Transit Systems Limited and Infrastructure Development Corporation (Karnataka) Limited) to Upajeevan Sangathan Foundation (a not for profit organisation formed under Section 8 of Companies Act, 2013). Accordingly, IDFC Foundation has ceased to be a subsidiary of the Company.
- b) The Company has diluted 13.85% stake in Novopay Solutions Private Limited ('NSPL') (erstwhile associate of the company) for ₹ 8.72 crore on August 31, 2022 and 4.16 % stake for ₹ 2.49 crore on March 31, 2023. After the dilution, NSPL is no longer an associate of the Company.
- c) Impairment loss allowance
 - (i) The Company holds 26% stake in Jetpur Somnath Tollways Limited ("JSTPL"). JSTPL, an associate of the Company has terminated its operations since November, 2016 due to certain disputes with National Highway Authority of India ("NHAI") and surrendered the same to NHAI. The dispute was referred to arbitration panel by JSTPL along with its lender on NHAI, verdict of which has come in favour of JSTPL. NHAI filed petition under section 34 of the Arbitration and Conciliation Act with Hon'ble High Court. Moreover, net- worth of JSTPL has eroded substantially as on March 31, 2023. In view of entire net-worth being eroded, on prudent basis, the Company continues with the provision created against investment in JSTPL.
 - (ii) The Company had made provision of ₹ 35.62 crore on Novopay (associate of the Company in preceding year). Performance of Novopay had lead to substantial erosion of its net worth. Accordingly, investment was completely impaired.
 - (iii) IDFC Foundation, wholly owned subsidiary of the Company was a section 8 company under Companies Act, 2013. Upon winding up or dissolution of IDFC Foundation, if there remains, after satisfaction of all debts and liabilities, any surplus whatsoever, the same would have not been distributed to IDFC Limited but would have been transferred to such other company having objects similar to the objects of IDFC Foundation. Accordingly, in the preceding years, the entire investment of ₹ 13 crores in IDFC Foundation was full provided for by the Company.

More information regarding the valuation methodologies are disclosed in Note 33.

16C. NATURE AND PURPOSE OF SPECIAL RESERVES

a) Securities premium

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

b) General reserve

Under the erstwhile Companies Act, 1956, general reserve was created through an annual transfer of net income at specified percentage in accordance with applicable regulations. The purpose of these transfer was to ensure that if dividend distribution in the given year is more than 10% of paid up capital of the Company of that year, then the total dividend distribution is less than the

NOTES TO STANDALONE FINANCIAL STATEMENT

FOR THE YEAR ENDED MARCH 31, 2023

total distributable results of the year. Consequent to introduction of Companies Act, 2013, the requirement to transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of the Companies Act, 2013.

c) Special reserves u/s. 45-IC of RBI Act, 1934

As per section 45-IC of RBI Act, 1934, Every non-banking financial company (NBFC) shall create a reserve fund and transfer therein a sum not less than twenty per cent (20%) of its net profit every year as disclosed in the profit and loss account and before any dividend is declared. No appropriation of any sum from the reserve fund shall be made by the non-banking financial company except for the purpose as may be specified by RBI.

d) Share options outstanding account

The share options outstanding account is used to recognise the grant date fair value of options issued to employees under Employee Stock Option Scheme (ESOS) over the vesting period. (Refer Note 36).

e) Special reserve u/s. 36(1)(viii) of the Income-tax Act, 1961

As per section 36(1)(viii) of Income tax act, 1961, deduction shall be allowed in respect of any special reserve created and maintained by specified entities, for an amount not exceeding twenty percent (20%) of the profits derived from eligible business computed under the head "Profits and gains of business or profession" (before making any deduction under this clause) carried to such reserve account.

Provided that where the aggregate of the amounts carried to such reserve account from time to time exceeds twice the amount of the paid up share capital and of the general reserves of the specified entity, no allowance under this clause shall be made in respect of such excess.

Superannuation fund	0.01	0.02
Total	0.56	0.69

b) Defined benefit plans

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for Indian employees, which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the said act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

i) Balance Sheet

	- Deposit and money market securities	7.77%	15.06%
	- Debentures / bonds	40.44%	33.93%
	- Equity shares	5.43%	5.36%
	Total	100.00%	100.00%
iv) Actuarial assumptions			
With the objective of presenting the plan assets and plan liabilities of the defined benefits plans and post retirement medical benefits at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.			
		As at March 31, 2023	As at March 31, 2022
	Discount rate	7.20%	4.40%
	Salary escalation rate*	5%	5%
* takes into account the inflation, seniority, promotions and other relevant factors			
v) Risks			
Interest rate risk:			
The risk of government security yields falling due to which the corresponding discount rate used for valuing liabilities falls. Such a fall in discount rate will result in a larger value placed on the future benefit cash flows whilst computing the liability and thereby requiring higher accounting provisioning.			
Longevity risks:			
Longevity risks arises when the quantum of benefits payable under the plan is based on how long the employee lives post cessation of service with the company. The gratuity plan provides the benefit in a lump sum form and since the benefit is not payable as an annuity for the rest of the lives of the employees, there is no longevity risks.			
Salary risks:			
The gratuity benefits under the plan are related to the employee's last drawn salary. Consequently, any unusual rise in future salary of the employee raises the quantum of benefit payable by the company, which results in a higher liability for the company and is therefore a plan risk for the company.			

NOTES TO STANDALONE FINANCIAL STATEMENT

FOR THE YEAR ENDED MARCH 31, 2023

vi) Demographic assumptions

Mortality in Service : Indian Assured Lives Mortality (2012-14)

vii) Sensitivity

As at March 31, 2023	Change in assumption	Impact on defined benefit obligation	
		Increase	Decrease
Discount rate	0.50%	(0.32%)	0.35%
Salary escalation rate	0.50%	0.35%	(0.33%)

As at March 31, 2022	Change in assumption	Impact on defined benefit obligation	
		Increase	Decrease
Discount rate	0.50%	(0.23%)	0.26%
Salary escalation rate	0.50%	0.25%	(0.23%)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

viii) Maturity

The defined benefit obligations shall mature after year end as follows:

	₹ in crore)	
	As at March 31, 2023	As at March 31, 2022

Between 2-5 years	0.04	0.03
Between 5-10 years	0.04	0.03
Beyond 10 years	0.22	0.16

The weighted average duration to the payment of these cash flows is 0.66 years (preceding year 0.49 years).

27. ASSET HELD FOR SALE

As per the Share Purchase Agreement (SPA) signed by the Company and Novopay Solutions Private Limited ('NSPL') (erstwhile associate of the Company) on August 08, 2022, NSPL shall purchase shares totalling to 227,145 of Novopay held by IDFC Limited for a total consideration aggregating to ₹ 15.00 crore. The Company has diluted 13.85% stake (131,999 shares) in NSPL for ₹ 8.72 crore on August 31, 2022 and 4.16% stake (39,624 shares) for ₹ 2.49 crore on March 31, 2023. JSTPL had executed the concession agreement with National Highway Authority of India ("NHAI") for the purpose of four laning of 123.45 km Jetputur Somnath Section of NH-8D in the state of Gujarat under NHDP phase III on Build Operate Transfer (BOT) (TOLL) on DBFO pattern. Due to certain disputes, NHAI terminated the Concession Agreement in November 2016. Matter was referred to Arbitration. Arbitral Tribunal on March 31, 2021 passed an award in favour of JSTPL for ₹ 1,019.43 crore. JSTPL filed an appeal with Hon'ble Delhi High Court for enforcement of the award dated March 31, 2021. Hon'ble High Court directed NHAI to deposit the entire decretal amount along with interest till the date of payment with court on February 27, 2023. The next hearing is fixed for May 11, 2023.
- d) At the time of sale of IDFC AMC and IDFC AMC Trustee company to Bandhan consortium, IDFC as a seller had given various warranties. These includes Business / General warranty, Tax warranty and Fundamental Warranty.
- e) The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and postemployment received Indian Parliament approval and Presidential assent in September 2020. The Code has been published in the Gazette of India and subsequently on November 13, 2020 draft rules were published and invited for stakeholders' suggestions. However, the date on which the Code will come into effect has not been notified. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

32. CAPITAL MANAGEMENT

The Company maintains a capital base to cover risks inherent in the business and is meeting capital adequacy requirements of the regulator, Reserve Bank of India (RBI) of India. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI. Company has complied in full with all its externally imposed capital requirements over the reported period. The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the preceding years. However, they are under constant review by the Board.

a) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the standalone financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

As at March 31, 2023						(₹ in crore)

- i) There are no transfers between levels 1, 2 and 3 during the year.
- ii) The Companies policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

The Company uses the following hierarchy for determining and disclosing the fair value of financial assets by valuation technique:

The fair value of financial instruments are classified into three categories i.e. Level 1, 2 or 3 depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements).

The hierarchies used are as follows:

Level 1: Hierarchy includes financial instruments measured using quoted prices in an active market.

Level 2: The fair value of financial instruments that are not traded in an active market (such as mutual fund units) is determined using observable market data and not the entity specific estimates. These investments are valued at closing Net Asset Value (NAV), which represents the repurchase price at which the issuer will redeem the units from investors. Since all significant inputs required to fair value an instrument are observable, the investments are included in Level 2.

Level 3: Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

b) Valuation technique used to determine fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

Specific valuation techniques used to value financial instruments include:

- the fair value of the mutual fund units is determined using observable NAV at the reporting date as declared by the issuer.
- the fair value of the venture capital units (VCFs) is determined using NAV at the reporting date as declared by the issuer. ^
- the fair value of unlisted equity shares are has been valued by an independent valuer.

^ Considering the illiquidity discount, the Company has provided for additional diminution over and above the NAV communicated by the VCFs in order to appropriately reflect the fair value as on March 31, 2022.

c) Valuation Process

In order to assess Level 3 valuations as per Company's investment policy, the management relies on the NAVs issued by the VCF's.

NOTES TO STANDALONE FINANCIAL STATEMENT

FOR THE YEAR ENDED MARCH 31, 2023

The finance team performs the above process and reports directly to the Chief Financial Officer (CFO) of the Company. Discussions of valuation processes and results are held between the finance team and CFO on regular basis. Investment valuation is placed before the members of the board at least once every three months which is in line with the Company's quarterly reporting periods.

d) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the year ended March 31, 2023 and March 31, 2022:

	(₹ in crore)	
	Venture capital fund units	Total
Year ended March 31, 2021	197.85	197.85
Acquisitions (net) during the year	28.84	28.84
Gains recognised in profit and loss	74.57	74.57
Year ended March 31, 2022	301.26	301.26
Acquisitions (net) during the year	(25.65)	(25.65)
Gains recognised in profit and loss	72.21	72.21
Year ended March 31, 2023	347.82	347.82

e) Valuation inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements. See (b) above for the valuation techniques adopted.

	Fair Value as at 31 st March 2023	Fair Value as at 31 st March 2022	Significant unobservable inputs	Probability- weighted range	Sensitivity
Venture capital fund units	347.82	301.26	Net Asset Value	10%	Whilst these investments are not traded on any market, they are exposed to price risk in respect of their underlying investments. 10% is the sensitivity rate used when reporting price risk internally to key management personnel and represents management's assessment of the possible net change in underlying prices. A 10% increase/(decrease) in the net asset value would increase/(decrease) the Company's gain/(loss) by ₹ 26.03 crores. (March 31, 2022 - 22.54 crores).

f) Fair value of financial assets and liabilities measured at amortised cost

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts are a reasonable approximation of their fair value. Such instruments include cash and bank balances, bank deposits, security deposits, trade and other receivables, and trade and other payable.

Advance to related parties and security deposits are evaluated by the Company based on parameters such as interest rates and individual creditworthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these financial assets. Accordingly, fair value of such instruments is not materially different from their carrying amounts

34. FINANCIAL RISK MANAGEMENT

Risk management is an integral part of the business practices of the Company. The Company's senior management has the overall responsibility for the establishment and oversight of the Company's risk policies. These risk management policies are reviewed regularly to reflect changes in market conditions and the Company's activities.

The objective is that these financial risks are identified, measured and managed in accordance with the Company's policies in a timely manner. The activities are designed to:

- protect the Company's financial results and position from financial risks;
- maintain market risks within acceptable parameters, while optimising returns;
- protect the Company's financial investments, while maximising returns.

a) Credit risk

Credit risk is the risk of suffering financial loss, should any of the Company's customers, clients or market counterparties fail to fulfil their contractual obligations to the Company. Credit risk arises mainly from cash and cash equivalents, deposits with banks, trade and other receivable, loans measured at amortised cost.

Expected credit loss methodology:

Ind As 109 outlines a "three-stage" model for impairment based on changes in credit quality since initial recognition as summarised below:

- Stage 1 - A financial instrument that is not credit impaired on initial recognition is classified in 'Stage 1' and has its credit risk continuously monitored by the Company. The Company has established credit quality review process which considers net asset position, financial strength and leverage; operational & financial performance; cash flows, etc. in identification of creditworthiness of counterparties.
- Stage 2 - Financial instruments with significant increase in credit risk, but not yet deemed to be credit impaired are moved to Stage 2.
- Stage 3 - Credit impaired financial instruments are moved to stage 3.

The Company performs internal risk assessment on an individual basis and not on a portfolio basis due to the limited number of counterparties involved. The assessment of credit risk of a loans (including loan commitments) entails estimations as to the likelihood of loss occurring due to default of counterparties. The estimation of credit exposure for risk management purposes is complex and considers expected cash flows and the passage of time.

Default and credit-impaired asset:

The Company defines a financial asset as in default or credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

The borrower is more than 90 days past due on its contractual payments to be considered in default.

Qualitative criteria:

The borrower meets unlikeliness to pay criteria, which indicates the borrower is in significant financial difficulty.

For all financial instruments held by the Company, if the borrower is on the watch list and/or the instrument meets one or more of the following criteria:

- Significant increase in credit spread
- Significant adverse changes in business, financial and/or economic conditions in which the borrower operates
- Actual or expected forbearance or restructuring
- Actual or expected significant adverse change in operating results of the borrower
- Significant change in collateral value (secured facilities only) which is expected to increase risk of default
- Early signs of cash flow/liquidity problems such as delay in servicing of trade creditors/loans

Policy for write-off of financial assets

All loans which in the opinion of management are not recoverable are written off. The Company may write off financial assets that are still subject to enforcement activity. The Company still seeks to recover amounts it is legally owed in full, but which have been written off due to no reasonable expectation of full recovery.

Explanation of inputs and assumptions considered in the ECL model:

PD Estimation:

- "Probability of default" (PD) is defined as the probability of whether the borrowers will default on their obligations in the future. For Stage 1, 12 month PD are calculated.

For Stage 2, Lifetime PD are calculated by considering the survival rate of the counterparty for the remaining maturity. For Stage 3, Lifetime PD is taken as 100%.

Exposure at default:

- "Exposure at default" (EAD) represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Company.

For the loan commitments, the exposure at default (EAD) is predicted by aggregating total unfunded credit exposure and applying a "credit conversion factor (CCF)" which considers any further amount that is expected to be lent under arrangement at the time of default. CCF denotes the probability of off-balance sheet exposure (i.e. loan commitment) becoming credit exposure shifting onto the balance sheet if the loan commitment is called.

Loss given default:

- “Loss given default” (LGD) is an estimate of loss from a transaction given that a default occurs. LGD varies by type of counterparty, type and seniority of claim. LGD is expressed as a percentage loss per unit of exposure at the time of default (EAD). LGD is calculated on a 12-month or lifetime basis, where 12-month LGD is the percentage of loss expected to be made if the default occurs in the next 12 months and Lifetime LGD is the percentage of loss expected to be made if the default occurs over the remaining expected lifetime of the loan.

The Expected Credit Loss (ECL) is measured either on a 12-month (12M) or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit impaired. Expected credit losses are the product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD).

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

In determining the ECL, management assesses a range of possible outcomes, taking into account past events, current conditions and the economic outlook. Additional facts and circumstances, that in management’s judgment are considered to have been inadequately addressed in the ECL Model, are taken into consideration through the application of a management overlay framework. ECL adjustments arising from the exercise of the management overlay are subject to a review.

i) Trade and other receivables

Concentrations of credit risk with respect to trade and other receivables are limited, due to the customer base being limited. All trade receivables are reviewed and assessed for default on a individual basis. Historical experience of collecting receivables of the Company is supported by low level of past default and hence the credit risk is perceived to be low.

Reconciliation of impairment allowance on trade and other receivables

Reconciliation of impairment allowance on trade and other receivables

	₹ in crore
Impairment allowance as at March 31, 2021	5.90
Add/(less): changes in loss allowance	(5.90)
Impairment allowance as at March 31, 2022	-
Add/(less): changes in loss allowance	-
Impairment allowance as at March 31, 2023	-

ii) Other financial assets

The Company maintains exposure in cash and cash equivalents, deposits with banks. Cash and cash equivalents and bank deposits are held with only high rated banks/financial institutions only, therefore credit risk is perceived to be low.

For investment in mutual fund units and venture capital fund units carried at fair value through profit and loss, the Company does not have significant concentration of credit risk.

The maximum exposure at the end of the reporting period is the carrying amount of these investments is ₹ 347.82 crores (March 31, 2022: ₹ 301.26 crores).

b) Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the value of a financial asset. The value of a financial asset may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments.

i) Fair value interest rate risk:

Interest rate risk is the risk where the company is exposed to the risk that the fair value or future cash flows of its financial instruments will fluctuate as a result of a changes in market interest rates.

The Company is exposed to interest rate risk from investments held in debt oriented mutual fund units. These funds invests in debt securities. Sensitivity analysis for exposure to interest rate risk in case of units backed by debt securities is not disclosed as there are no investments outstanding as on March 31, 2023 and March 31, 2022.

ii) Foreign currency risk:

The Company does not have any foreign currency exposures in respect of financial assets and financial liabilities as at the balance sheet date.

iii) Price risk:

The price risk arises from investments in venture capital fund units classified in the balance sheet as financial instruments measured at fair value through profit and loss. The future uncertain changes in the Net Asset Value of the Company's investment exposes the Company to the price risk.

Exposure	(₹ in crore)	
	As at March 31, 2023	As at March 31, 2022
Investment in venture capital fund units	347.82	301.26
Total	347.82	301.26

Sensitivity - Investment in venture capital fund

The table below summarises the impact of increases/decreases in the net asset value of Company's investment in venture capital fund units.

	Impact on profit after tax*	Impact on profit after tax*
	Year ended March 31, 2023	Year ended March 31, 2022
Investment in venture capital fund units:		
- Increase 10% (preceding year 10%)	26.03	22.54
- Decrease 10% (preceding year 10%)	(26.03)	(22.54)

*Profit for the year would change as a result of gain/loss on financial instruments classified as at fair value through profit and loss.

c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Prudent liquidity risk management implies maintaining sufficient cash and liquid investments. The Company believes that current cash and bank balances, bank deposits and investments in liquid investments are sufficient to meet liquidity requirements since Company has no external borrowings. Accordingly, liquidity risk is perceived to be low.

Maturity analysis:

The following table shows the maturity analysis of financial liabilities of the Company based on contractually agreed undiscounted cash flows as at the balance sheet date:

36. EMPLOYEE SHARE BASED PAYMENTS

a) Employee stock option scheme (equity settled) - IDFC Limited

The Company introduced IDFC Employee Stock Option Scheme, 2016 ("IDFC ESOS - 2016") to enable the employees of the Company and its subsidiaries / associates to participate in the future growth and financial success of the IDFC Group. The scheme is in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014. The ESOS provides for grant of stock options to employees [including employees of subsidiary companies and IDFC FIRST Bank Limited (an associate of the Company)] to acquire equity shares of the Company, that will vest in a graded manner and that are to be exercised within a specified period.

The fair value of options granted to the employees of the Company under the ESOS is recognised as an employee benefits expense with a corresponding increase in 'Share Option Outstanding Account' under 'Other Equity'. The fair value of options granted to the employees of subsidiaries or associate of the Company is recognised as an increase in the investment in the respective subsidiaries or associate, with a corresponding credit to 'Share Option Outstanding Account' under 'Other Equity' in accordance with group share based payment guidance under Ind AS 102.

Options are granted under the plan carry no dividend or voting rights. When exercisable, each option is convertible into one ordinary share of the Company. The options granted will vest upon the completion of service condition as specified in scheme in a graded manner. Vested options are exercisable for the period of five years after the vesting.

i) Set out below is a summary of options granted under the plan:

	Year ended March 31, 2023		Year ended March 31, 2022

iii) Fair value of options granted

The fair value at grant date is determined using the Black Scholes Model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the stock option.

1,200,000 ESOPS were granted during the year ended March 31, 2022.

The Assumptions used in the model are as follows:

Sr. No.	Variables	Year ended March 31, 2023	Year ended March 31, 2022
1	Risk Free Interest Rate	-	4.71%
2	Expected Life	-	2.50
3	Expected Volatility	-	50.28%
4	Dividend Yield	-	0.00%
5	Price of the underlying share in market at the time of the option grant. (₹)	-	53.60

b) Employee stock option scheme (equity settled) - IDFC FIRST Bank Limited

IDFC FIRST Bank Limited (earlier known as IDFC Bank Limited), an indirect associate of the Company, got demerged from the Company under the sanctioned scheme of arrangement in October 2015. Pursuant to Scheme of Demerger, IDFC FIRST Bank Limited has allotted employee stock options to the employees of the Company and its subsidiaries. The employee share based payments arrangement between the Company and its associate is outside the scope of Ind AS 102 - Group share based payment arrangement, as associate is not a part of the same group. However, under Ind AS 8, the Company has taken a policy choice to account the said employee share based payments arrangement as per the provisions of Ind AS 102.

Applying Ind AS 102 - Group share based payments arrangement guidance, the fair value of options granted to the employees of the Company is recognised as an employee benefits expense with a corresponding decrease in investment in associate. However, the fair value of options granted to the employees of subsidiaries of the Company is recognised as an increase in the investment in the respective subsidiaries and a decrease in investment in associate.

c) Amounts recognised in statement of profit and loss and investment in subsidiary:

The Company had established an intermediate Non-Operating Financial Holding Company (NOFHC) (i.e. IDFC Financial Holding Company Limited) to hold the investment in IDFC FIRST Bank Limited (an associate of the Company) and other subsidiaries of the Company due to regulatory requirements of RBI. Since the Company does not hold direct investment in its associate and other subsidiaries involved in group, the Company increases or decreases its investment in IDFC Financial Holding Company Limited, to give the effect of increase or decrease in the investment in subsidiary or associate for accounting employee stock options.

- Total expenses arising from share-based payment transactions recognised in statement of profit and loss as part of employee benefit expense for the year ended March 31, 2023 is ₹ 0.24 crores (preceding year ₹ 2.01 crores).
- Reversal of expense on account of cancel / lapse of employee stock option of IDFC FIRST Bank Limited which has been recognised in statement of profit and loss as part of employee benefit expense for the year ended March 31, 2023 is ₹ (2.34 crore) (preceding year ₹ (0.47 crore)).

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF IDFC LIMITED

Report on the audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated Ind AS financial statements of IDFC Limited ('the Holding Company' or 'the Parent') and its subsidiaries (the Parent and its subsidiaries together referred to as 'the Group'), its associates and joint ventures, which comprise the consolidated balance sheet as at 31 March 2023 and the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information ('the Consolidated Financial Statements').
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries, associates and joint ventures as were audited by the other auditors, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and joint ventures as at 31 March 2023, and its consolidated profit and other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act, and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained along with the consideration of audit reports of the other auditors referred to in the 'Other Matters' paragraph below is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

Emphasis of Matter

4. We draw attention to note 35(f)(i) to the Consolidated Financial Statements mentioning that the Holding Company is in process of appointing new directors on its Board to comply with Regulation 17(1)(c) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Our opinion on the Consolidated Financial Statements is not modified in respect of the above matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current year. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How the matter was addressed in our audit
<p>Assessment of valuation of investments measured at fair value for which no listed price in an active market is available and valuation is carried out basis market information and significant unobservable inputs. (Refer note 38 to the Consolidated Financial Statements.)</p> <p>The Group has investments in Venture Capital Funds ("VCF") units amounting to Rs. 347.82 crores measured at fair value, where no listed price in an active market is available. The corresponding fair value change is recognised in statement of profit and loss in accordance with related Accounting Standard (Ind-AS 109).</p> <p>In measuring the fair value of these investments, the management considers the net asset value ("NAV") declared by the investment managers of the VCF unit. NAV is considered as a significant unobservable input as the Group does not have direct access to the valuations of the underlying portfolio companies in which the VCFs have invested.</p>	<p>The following procedures were performed by us to test the valuation of investments which are measured at fair value for which no listed price in an active market is available:</p> <ol style="list-style-type: none">a. We obtained an understanding from the management, assessed and tested the design and operating effectiveness of the Group's control over assessment of fair value of investments.b. We verified that requisite approvals are in place with regards to Management's assessment of fair valuation of investments in VCF.c. We traced the inputs used in the calculation from the source data (Statement of Accounts, NAV declared etc.) to verify the arithmetical accuracy of the calculation of valuation of investments.d. We evaluated the adequacy of the disclosures in the consolidated financial statements. <p>Based on our above audit procedures, we consider that the management's assessment of the fair value of the above investments for which no listed price in an active market is available is reasonable.</p>

INDEPENDENT AUDITOR'S REPORT

<p>The management also reviews the performance of the portfolio companies on a regular basis by tracking the latest available financial statements/financial information, valuation report of independent valuers, investor communications and basis the said assessment determines whether any discount is required to be applied on the NAV communicated by the investment managers of VCF. The assessment made by the management also takes into consideration the illiquidity considering the said investments are not actively traded in the market. The assessment prepared by the management is placed before the Board of Directors for their approval at regular intervals. Considering the inherent subjectivity in the valuation of the above investments, relative significance of these investments to the consolidated financial statements and the nature and extent of the audit procedures involved, we determined this to be a key audit matter.</p>

Other Information

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the Consolidated Financial Statements and our auditors' report thereon. The Other Information is expected to be made available to us after the date of this auditor's report.
7. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
8. In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done / audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

9. The Holding Company's Board of Directors are responsible for the preparation and presentation of these Consolidated Financial Statements, that give a true and fair view of the consolidated state of affairs, consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group, its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group, its associates and joint ventures and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.
10. In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group, its associates and joint ventures are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
11. The respective Board of Directors of the companies included in the Group, its associates and joint ventures are responsible for overseeing the financial reporting process of the Group, its associates and joint ventures.

Auditor's responsibilities for the audit of the Consolidated Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.
13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - 13.1. Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

- 13.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to the Consolidated Financial Statements and the operating effectiveness of such controls.
- 13.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- 13.4. Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group, its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group, its associates and joint ventures to cease to continue as a going concern.
- 13.5. Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 13.6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, its associates and joint ventures to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
14. We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

17. We draw attention to note 35(a) of the Consolidated Financial Statements which highlights that as part of simplification of corporate structure, the Board of Directors of the Parent along with its three Wholly Owned Subsidiaries ("WOS") IDFC Alternatives Limited, IDFC Trustee Company Limited and IDFC Projects Limited, approved the merger of WOS into the Parent, subject to receiving regulatory approvals from various authorities. Post Board approval, the Parent along with its three WOS has filed scheme of amalgamation with Official Liquidator ("OL") - Chennai and Regional Director / Registrar of Companies ("ROC") - Chennai on 06 December 2021. The ROC, Chennai vide its letter dated 01 February 2022 intimated no observation / suggestions to the aforesaid scheme of amalgamation. Also, the OL of Madras High Court vide its letter dated 24 March 2022 communicated no observation to the aforesaid scheme of amalgamation. The Parent filed petition with National Company Law Tribunal ("NCLT") - Chennai on 13 April 2022. NCLT heard the petition on 20 October 2022 and passed the order on 22 November 2022 in favour of the Parent. Appointed date of the merger is 01 April 2021. Our opinion on the Consolidated Financial Statements is not modified in respect of this matter.
18. We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of Rs. 10,822.44 crores (before consolidation adjustment) as at 31 March 2023, total revenues of Rs. 3,676.31 crores (before consolidation adjustment) and net cash outflow amounting to Rs.1,930.36 crores (before consolidation adjustment) for the year ended on that date, as considered in the Consolidated Financial Statements. The Consolidated Financial Statements also include the Group's share of net profit of Rs. 974.18 crores for the year ended 31 March 2023, as considered in the Consolidated Financial Statements, in respect of three associates, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary and associates, and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid subsidiary and associates, is based solely on the reports of the other auditors.
19. The Consolidated Financial Statements also include the Group's share of net profit of Rs. Nil for the year ended 31 March 2023, as considered in the Consolidated Financial Statements, in respect of two associates and three joint ventures, whose financial information have not been audited by us. These financial information are unaudited and have been furnished to us by the Management

INDEPENDENT AUDITOR'S REPORT

and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these joint venture and associates, and our report in terms of section 143(3) of the Act in so far as it relates to the aforesaid joint venture and associates, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial information are not material to the Group.

20. The consolidated financial statements also include profit after tax from discontinued operation amounting to Rs. 87.16 crores pertaining to four subsidiaries whose financial statements, upto the date of sale, have not been audited by their auditors. This unaudited financial information have been furnished to us by the Board of Directors and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Board of Directors, since the investment in these subsidiaries is sold and consideration has been received by the Parent on 31 January 2023, the impact of the financial information of these subsidiaries is not material to the Group.
21. Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

22. As required by section 143(3) of the Act, based on our audit and on the consideration of audit reports of the other auditors on separate financial statements of such subsidiaries, associates and joint ventures as were audited by other auditors, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:
 - 22.1. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - 22.2. In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - 22.3.  - 22.4. In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - 22.5. On the basis of the written representations received from the directors of the Holding Company as on 31 March 2023, taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, associate companies and joint ventures incorporated in India, none of the directors of the Group companies, its associate companies and joint ventures incorporated in India are disqualified as on 31 March 2023 from being appointed as a director in terms of Section 164(2) of the Act.
 - 22.6. With respect to the adequacy of internal financial controls with reference to the Consolidated Financial Statements of the Holding Company, its subsidiary companies, associate companies and joint ventures incorporated in India and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'.
 - 22.7. In our opinion and according to the information and explanations given to us and based on the reports of the statutory auditors of such subsidiary companies, associate companies and joint ventures incorporated in India which were not audited by us, the remuneration paid during the current year by the Holding Company, its subsidiary companies, associate companies and joint ventures incorporated in India to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company, its subsidiary companies, associate companies and joint ventures incorporated in India is not in excess of the limit laid down under Section 197 of the Act.
23. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of audit reports of the other auditors on separate financial statements of such subsidiaries, associates and joint ventures, as noted in the 'Other Matters' paragraph:
 - 23.1. The Consolidated Financial Statements disclose the impact of pending litigations as at 31 March 2023 on the consolidated financial position of the Group, its associates and joint ventures - Refer Note 32 to the consolidated financial statements.
 - 23.2. The Group, its associates and joint ventures did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - 23.3. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Holding Company and/or its subsidiary companies, associate companies and joint ventures incorporated in India during the year ended 31 March 2023.
 - 23.4. The respective managements of the Holding Company, its subsidiaries, associates and joint ventures incorporated in India

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF IDFC LIMITED FOR THE YEAR ENDED 31 MARCH 2023

(Referred to in paragraph '22.6' under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

Opinion

1. In conjunction with our audit of the Consolidated Financial Statements of IDFC Limited as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to the Consolidated Financial Statements of IDFC Limited ('the Holding Company') and its subsidiary companies its associate companies and joint ventures, which are companies incorporated in India, as of that date.
2. In our opinion, the Holding Company and its subsidiary companies, and its associate companies and joint ventures, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to the Consolidated Financial Statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal controls over financial reporting criteria established by the respective companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('the Guidance Note').

Management's responsibility for Internal Financial Controls

3. The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal controls over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

4. Our responsibility is to express an opinion on the Holding Company, its subsidiaries, its associates and joint ventures, which are companies incorporated in India, internal financial controls with reference to the Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ('SA'), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Consolidated Financial Statements. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Consolidated Financial Statements were established and maintained and if such controls operated effectively in all material respects.
5. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to the Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.
6. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the 'Other Matters' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the Consolidated Financial Statements.

Meaning of Internal Financial controls with reference to the Consolidated Financial Statements

7. A company's internal financial controls with reference to the Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to the Consolidated Financial Statements

8. Because of the inherent limitations of internal financial controls with reference to the Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Consolidated

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

9. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls system with reference to the Consolidated Financial Statements in so far as it relates to one subsidiary company and three associate companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiary and associates incorporated in India.

The Company had received in principle approval from the RBI to set up a new private sector bank in April 2014. Since October 1, 2015 the Company is operating as NBFC - Investment (NBFC - I).

These financial statements are for the group consisting the Company, its subsidiaries and associates. The Group has interests in Banking and Asset Management business. In accordance with RBI guideline on licensing of new bank in private sector, the Group has implemented Holding Company structure through its 100% subsidiary, IDFC Financial Holding Company Limited ('IDFC FHCL'). Under the guidelines, all regulated financial services entities should be held through a Non-Operating Financial Holding Company. Non-financial services entities i.e. IDFC Projects Limited, IDFC Alternatives Limited, IDFC Trustee Company Limited and IDFC Foundation are direct subsidiaries of the Company.

All investment in regulated financial subsidiaries i.e. IDFC Asset Management Company Limited and IDFC AMC Trustee Company Limited are held through its wholly owned subsidiary, IDFC FHCL. Investments in associates comprise of IDFC First Bank Limited which is also held through IDFC FHCL.

The shares of the Company and its associate IDFC First Bank Limited are listed on National Stock Exchange of India (NSE) Limited and Bombay Stock Exchange (BSE) Limited.

These consolidated financial statements were authorised for issue by the Board of Directors on May 04, 2023.

The Group along with its three wholly owned subsidiaries viz. IDFC Projects Limited, IDFC Trustee Company Limited and IDFC Alternatives Limited had filed scheme of amalgamation with Official Liquidator ('OL') - Chennai on December 06, 2021 and to Regional Director ('RD') /Registrar of Companies ('ROC') - Chennai through GNL-1 form on December 06, 2021 seeking their objections / suggestions to the said scheme under Section 233 (1) (a) of the Companies Act, 2013 and rules made thereunder. Physical copies of the same have also been filed with the ROC on December 08, 2021. Appointed date for the merger in the scheme is April 1, 2021.

The ROC, Chennai vide its letter dated February 01, 2022 intimated it's no observations/suggestions to the aforesaid scheme of amalgamation. Also, the OL of Madras High Court vide its letter dated March 24, 2022, communicated it's no observations to the aforesaid scheme of amalgamation.

The Company filed petition with National Company Law Tribunal (NCLT) - Chennai on April 13, 2022. NCLT heard the petition on October 20, 2022 and passed the order on November 22, 2022 in favor of the Company. The order is effective from December 09, 2022.

Post approval from NCLT, IDFC Alternatives Limited, IDFC Trustee Company Limited and IDFC Projects Limited are merged with the Holding Company and are no more subsidiaries of the Group.

1. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of preparation*(i) Compliance with Ind AS*

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amounts:

- certain financial assets and liabilities (including derivative instruments) are measured at fair value;
- assets held for sale - measured at fair value less cost to sell;
- defined benefit plans - plan assets measured at fair value; and
- share-based payments.

(iii) Order of liquidity

The Group is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. Pursuant to Ind AS 1 and amendment to Division III of Schedule III to the Companies Act, 2013 on October 11, 2018, the Group presents its balance sheet in the order of liquidity. This is since the Group does not supply goods or services within a clearly identifiable operating cycle, therefore making such presentation more

relevant. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in Note 37.

b) Principles of consolidation and equity accounting

(i) *Subsidiaries*

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and can affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group uses the acquisition method of accounting to account for business combinations.

The Group combines the financial statements of the Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions within Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

Refer Note 2 for significant judgements and assumptions made in determining that the Group does not have control over certain entities it even though it holds more than half of their voting rights.

(ii) *Associates*

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Refer Note 2 for significant judgements and assumptions made in determining that the Group has significant influence over certain entities it even though it holds less than 20% of their voting.

(iii) *Joint ventures*

Under Ind AS 111 *Joint Arrangements*, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

(iv) *Equity method*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note e (ii) below.

(v) *Changes in ownership interests*

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying

amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The board of directors of IDFC Limited assesses the financial performance and position of the Group and makes strategic decisions. The board of directors, which has been identified as being the chief operating decision maker, consists of the directors of the Group (both executive and independent). Refer note 30 for segment information presented.

d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian Rupee (INR), which is IDFC Limited's functional and presentation currency.

(ii) Transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency at the spot rate of ex-change ruling at the date of the transaction. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot rate of exchange at the reporting date. All differences arising on non-trading activities are taken to other income/expense in the statement of profit and loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

(iii) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

e) Financial instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss.

Financial assets**(i) Classification and subsequent measurement of financial assets:**

The Group classifies its financial assets in the following measurement categories:

- Fair value through profit and loss (FVTPL)
- Fair value through other comprehensive income (FVTOCI)
- Amortised cost

The classification requirements for debt and equity instruments are described below:

Debt Instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective such as loans, mutual fund units, venture capital fund and corporate bonds.

For investments in debt instruments, measurement will depend on the classification of debt instruments depending on:

- (i) the Group's business model for managing the asset; and
- (ii) the cash flow characteristics of the asset.

Business model assessment

The business model reflects how the Group manages the assets to generate cash flows. The business model determines whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable or when performance of portfolio of financial assets managed is evaluated on a fair value basis, then the financial assets are classified as part of 'other' business model and measured at FVTPL. A portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis is neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- experience on how the cash flows for these assets were collected,
- how the asset's performance and the business model is evaluated and reported to key management personnel,
- the risks that affect the performance of the business model and how these risks are assessed and managed,
- how managers are compensated.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Solely Payment of Principle and Interest ("SPPI") Assessment

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk associated with the principal amount outstanding, other basic lending risks (for e.g. liquidity risk) and a profit margin that is consistent with a basic lending arrangement. When assessing a financial asset with a modified time value of money element, the Group consider both qualitative and quantitative characteristics to determine whether the modified time value of money element provides consideration for just the passage of time.

Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Group reclassifies debt investments when and only when its business model for managing those assets changes. Such changes are expected to be very infrequent and none occurred during the period.

Based on these factors, the Group classifies its debt instruments into one of the following three measurement categories:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost e.g. debentures, bonds etc. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognised

or impaired. Interest income from these financial assets is included in investment income using the effective interest rate method.

Fair value through other comprehensive income: Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost that are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in 'Net Investment income'. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method, considering any discount/ premium and qualifying transaction costs being an integral part of instrument.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or fair value through OCI, are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented in the statement of profit and loss within other gains/(losses) in the period in which it arises.

Equity Instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Group measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. When this election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

The Group has designated at FVOCI investments in a small portfolio of equity securities. The Group chose this presentation alternative because the investments were made for strategic purposes rather than with a view to profit on a subsequent sale, and there are no plans to dispose of these investments in the short or medium term.

Gains and losses on equity investments at FVTPL are included in the statement of profit or loss.

(ii) Impairment

The Group assesses on a forward-looking basis the expected credit loss ('ECL') associated with its financial instrument. The Group recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money, and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Note 39 provides more detail of how the expected credit loss allowance is measured.

Trade receivables and contract assets

For trade receivables, the Group applies the simplified approach required by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses a provision matrix to determine impairment loss allowance on its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated for changes in the forward-looking estimates.

Trade receivable are initially recognised at transaction price.

Interest Income

The Group calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance). The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts paid or received that are integral to the effective interest rate, such as origination fees, commitment fees, etc.

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial asset is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognised in profit or loss.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Group calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the Group reverts to calculating interest income on a gross basis.

(iii) Modification of loans

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Group assesses whether the new terms are substantially different to the original terms. The Group does this by considering, among others, the following factors:

- if the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- significant extension of the loan term when the borrower is not in financial difficulty.
- significant change in the interest rate.
- change in the currency the loan is denominated in.
- insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Group derecognises the original financial asset, recognises a 'new' asset at fair value, and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate.

(iv) De-recognition of financial assets

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either

- (i) the Group transfers substantially all the risks and rewards of ownership, or
- (ii) the Group neither transfers nor retains substantially all the risks and rewards of ownership and the Group has not retained control.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Financial liabilities and equity instruments

(i) Classification as debt or equity:

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

(ii) **Classification and subsequent measurement**

Financial liabilities (including borrowings and debt securities) are subsequently measured at amortised cost using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees.

(iii) **De-recognition of financial liabilities**

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. A substantial modification of the terms of an existing financial liability (whether attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration.

If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred are adjusted to the carrying amount of the liability and are amortised over the remaining term of the modified liability.

f) Derivative financial instruments

The Group holds derivative financial instruments to meet the investment objective of the fund or the product. Derivatives are initially recognised at fair value at the date the derivative contracts are entered and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately.

g) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

h) Revenue recognition

Revenue is measured at fair value of the consideration received or receivable. Ind AS 115, *Revenue from contracts with customers* outlines a single comprehensive model of accounting for revenue arising from contracts with customers. The standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer. A five-step process must be applied before revenue can be recognised:

- *identify contracts with customers*
- *identify the separate performance obligation*
- *determine the transaction price of the contract*
- *allocate the transaction price to each of the separate performance obligations, and*
- *recognise the revenue as each performance obligation is satisfied.*

(i) *Brokerage fees income*

a) Brokerage fees – over time

Fees earned for the provision of services are recognised over time as the customer simultaneously receives and consumes the benefits, as the services are rendered. These include brokerage fees which is fixed at inception irrespective of number of transactions executed. The revenue for such contracts is recognised over the term of the contract.

b) Brokerage fees – point in time

Revenue from contract with customer is recognised point in time when performance obligation is satisfied (when the trade is executed). These include brokerage fees which is charged per transaction executed.

(ii) *Interest Income*

Interest income is recognised using effective interest rate method.

(iii) *Dividend income*

Dividend income (including from FVOCI investments) is recognised when the Group's right to receive the payment is

established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend.

(iv) *Fees, commission and other income*

Fees and commission income and expense that are integral to the effective interest rate on a financial asset or financial liability are included in the effective interest rate. Fees and commission that are not integral to effective interest rate are recognised on accrual basis over the life of instrument.

Fees integral to the effective interest rate include origination fees, commissions received or paid by the Group relating to the creation or acquisition of a financial asset or issuance of a financial liability. Loan origination fees is deferred as a part of interest income under the effective interest rate method.

All other fees, commissions and other income and expense items are generally recognised on an accrual basis by reference to completion of the specific transaction assessed based on the actual service provided as a proportion of the total services to be provided, except guarantee commission which is recognised pro-rata over the period of the guarantee.

Asset management and other service fees principally includes asset-based asset management fees, which are recognized in the period in which the services are performed. In certain asset management fee arrangements, the Group is entitled to receive performance-based incentive fees when the return on assets under management exceeds certain benchmark returns or other performance targets. The Group may be required to return all, or part, of such performance-based incentive fee depending on future performance of these assets relative to performance benchmarks. The Group records performance-based incentive fee revenue when the contractual terms of the asset management fee arrangement have been satisfied such that the performance fee is no longer subject to claw back or contingency. Under this principle the Group records a deferred performance-based incentive fee liability to the extent it receives cash related to the performance-based incentive fee prior to meeting the revenue recognition criteria delineated above.

i) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

(i) *Current tax*

The current income tax charge is calculated based on the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate based on amounts expected to be paid to the tax authorities.

(ii) *Deferred tax*

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that enough taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the way the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

j) Goods and service tax

Expenses and assets are recognised net of the goods and services tax paid, except:

- (i) when the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case,

the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable

(ii) when receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

k) Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

For arrangements entered into prior to April 1, 2017, the Group has determined whether the arrangement contains lease on the basis of facts and circumstances existing on the date of transition.

Group as a lessee

From April 1, 2019, leases are recognised as a right-of-use asset and corresponding liability at the date at which the leased asset is available for use by the Group. Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Asset and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the fixed payments (including in-substance fixed payments), less any lease incentives receivable.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If the rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group uses a indicative AAA equivalent borrowing rate.

Lease payment are allocated between principal and finance cost. The finance cost is charged to profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payment associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Group as a lessor

Lease income from operating leases where the group is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

l) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not more than any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

m) Cash and cash equivalents

For presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

n) Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i. changes during the period in inventories and operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses, and undistributed profits of associates and joint ventures; and
- iii. all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

o) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

(i) Depreciation methods estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives prescribed in Schedule II to the Companies Act, 2013 except in respect of following categories of assets, in which case life of asset has been assessed based on the technical advice.

- | | |
|---------------------------|-------------------------|
| a) Mobile Phone – 2 years | b) Motor Cars – 4 years |
|---------------------------|-------------------------|

Depreciation on additions during the year is provided on a pro-rata basis. Assets costing less than ₹ 5,000 each are fully depreciated in the year of capitalisation.

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount.

p) Intangible assets

(i) Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised, but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

(ii) *Computer Software*

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the asset to its working condition, less accumulated amortisation. Any technology support cost or annual maintenance cost for such software is recognised as an expense when incurred. The Group amortises intangible assets using straight-line method over a period of three years.

q) Impairment of non-financial asset

i). As per IND AS 36 investments are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. In assessing whether there is any impairment management considers indications through external and internal sources of information. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

ii) Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

r) Retirement and other employee benefits(i) *Defined contribution plan*

The contribution to provident fund, superannuation fund and pension fund are considered as defined contribution plans and are charged to the Statement of Profit and Loss as they fall due, based on the amount of contribution required to be made as and when services are rendered. The group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

(ii) *Defined benefit plan*

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(iii) *Compensated absences*

Based on the leave rules of the Group companies, employees are not permitted to accumulate leave. Any unvested privilege leave to the extent encashable is paid to the employees and charged to the Statement of Profit and Loss for the year. Short term compensated absences are provided based on estimates of avilment / encashment of leaves.

s) Provisions, contingent liabilities and Commitments

Provisions are recognised when the Group has a present obligation (legal or constructive) because of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Group determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liability is disclosed in case of:

- i. a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- ii. a present obligation arising from past events when no reliable estimate is possible.

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- i. estimated amount of contracts remaining to be executed on capital account and not provided for;
- ii. uncalled liability on shares and other investments partly paid;
- iii. other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

t) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

u) Share-based payments

The Holding Company and two of its subsidiaries has formulated Employee Stock Option Schemes ('the ESOS') in accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 / 2014 ('the Guidelines'). The ESOS provides for grant of stock options to employees (including employees of subsidiary companies) to acquire equity shares of the Holding Company / Subsidiary Company that vest in a graded manner and that are to be exercised within a specified period.

Fair value is determined by using option valuation models, which consider the exercise price of the option, the current share price, the risk-free interest rate, the expected volatility of the share price over the life of the option and other relevant factors. When the options are exercised, the exercise price proceeds together with the amount initially recorded in equity are credited to common shares.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

For cash-settled share-based payments, the fair value of the amount payable to employees is recognised as 'employee benefit expenses' with a corresponding increase in liabilities, over the period of non-market vesting conditions getting fulfilled. The liability is remeasured at each reporting period up to, and including the settlement date, with changes in fair value recognised in employee benefits expenses. Refer Note 40 for details.

v) Earnings per share

- (i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to consider:

- the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

w) Contributed Equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceed.

x) Dividends

Provision is made for any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

y) Rounding off

All amounts disclosed in the financial statements and notes have been rounded off to the nearest "crores" as per the requirement of Schedule III, unless otherwise stated.

z) New and amended standards adopted

The Company has applied the following amendments to Ind AS for the first time for their annual reporting period commencing April 01, 2022:

- Indian Accounting Standard (Ind AS) 101
- Indian Accounting Standard (Ind AS) 103
- Indian Accounting Standard (Ind AS) 109

2. SIGNIFICANT ACCOUNTING JUDGMENTS ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please see Note 39.

b) Consolidation decision

For details regarding consolidation of;

- i) Entity where shareholding is more than 50%, as an associate, and
- ii) Section 8 company, as a subsidiary, Refer note 42.

19C. Nature and purpose of reserve

a) **Securities premium**

It is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

b) **General reserve**

Under the erstwhile Companies Act, 1956, general reserve was created through an annual transfer of net income at specified percentage in accordance with applicable regulations. The purpose of these transfer was to ensure that if dividend distribution in the given year is more than 10% of paid up capital of the Company of that year, then the total dividend distribution is less than the total distributable results of the year. Consequent to introduction of Companies Act, 2013, the requirement to transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of the Companies Act, 2013.

c) **FVOCI - equity investments**

The Group has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVOCI - equity investments reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

d) **Special reserves u/s. 45-IC of RBI Act, 1934**

As per section 45-IC of RBI Act, 1934, every non-banking financial company (NBFC) shall create a reserve fund and transfer therein a sum not less than twenty per cent (20%) of its net profit every year as disclosed in the statement of profit or loss and before any dividend is declared. No appropriation of any sum from the reserve fund shall be made by the non-banking financial company except for the purpose as may be specified by RBI.

e) **Share options outstanding account**

The share options outstanding account is used to recognise the grant date fair value of options issued to employees under Employee Stock Option Scheme (ESOS) over the vesting period. (Refer Note 40)

NOTES TO CONSOLIDATED FINANCIAL STATEMENT

FOR THE YEAR ENDED MARCH 31, 2023

f) Special reserve u/s. 36(1)(viii) of the Income-tax Act, 1961

As per section 36(1)(viii) of Income tax act, 1961, deduction shall be allowed in respect of any special reserve created and maintained by specified entities, for an amount not exceeding twenty percent (20%) of the profits derived from eligible business (computed under the head "Profits and gains of business or profession" (before making any deduction under this clause) carried to such reserve account.

Provided that where the aggregate of the amounts carried to such reserve account from time to time exceeds twice the amount of the paid up share capital and of the general reserves of the specified entity, no allowance under this clause shall be made in respect of such excess.

g) Foreign currency translation reserve

Exchange difference arising on translation of foreign operations are recognised in other comprehensive income as described in accounting policy are accumulated in special reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed off.

b) Reconciliation of the total tax charge

The tax charge shown in the statement of profit and loss differs from the tax charge that would apply if all profits had been charged at India corporate tax rate. A reconciliation between the tax expense and the accounting profit multiplied by India's domestic tax rate for the years ended March 31, 2023 and March 31, 2022 is as follows:

	(₹ in crore)	
	Year ended March 31, 2023	Year ended March 31, 2022

- Undistributed earnings of subsidiary*	701.44	181.00
- Unrecognised deferred tax liabilities relating to the above temporary differences	176.55	45.56

* Certain subsidiaries of the Group have undistributed earnings of ₹ 701.44 crores (March 31, 2022: ₹ 181 Crores) which, if paid out as dividends, would be subject to tax in the hands of the recipient. An assessable temporary difference exists, but no deferred tax liability has been recognised as the Holding Company has ability to control the timing of distributions from these subsidiaries.

28. EMPLOYEE BENEFIT OBLIGATIONS

a) Defined contribution plans

The Company has recognised the following amounts in the statement of profit and loss towards contribution to defined contribution plans which are included under contribution to provident and other funds:

	(₹ in crore)	
	Year ended March 31, 2023	Year ended March 31, 2022
Provident fund	0.32	0.38
Pension fund	0.23	0.29
Superannuation fund	0.01	0.02
Total	0.56	0.69

b) Defined benefit plans

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for Indian employees, which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the said act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

NOTES TO CONSOLIDATED FINANCIAL STATEMENT

FOR THE YEAR ENDED MARCH 31, 2023

iv) Actuarial assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans and post retirement medical benefits at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

	As at March 31, 2023	As at March 31, 2022
Discount rate	7.20%	4.40%
Salary escalation rate*	5%	5%

* takes into account the inflation, seniority, promotions and other relevant factors.

v) Risks

Interest rate risk:

The risk of government security yields falling due to which the corresponding discount rate used for valuing liabilities falls. Such a fall in discount rate will result in a larger value placed on the future benefit cash flows whilst computing the liability and thereby requiring higher accounting provisioning.

Longevity risks:

Longevity risks arises when the quantum of benefits payable under the plan is based on how long the employee lives post cessation of service with the company. The gratuity plan provides the benefit in a lump sum form and since the benefit is not payable as an annuity for the rest of the lives of the employees, there is no longevity risks.

Salary risks:

The gratuity benefits under the plan are related to the employee's last drawn salary. Consequently, any unusual rise in future salary of the employee raises the quantum of benefit payable by the company, which results in a higher liability for the company and is therefore a plan risk for the company.

vi) Demographic assumptions

Mortality in Service : Indian Assured Lives Mortality (2012-14)

vii) Sensitivity

As at March 31, 2023	Change in assumption	Impact on defined benefit obligation	
		Increase	Decrease
Discount rate	0.50%	(0.32%)	0.35%
Salary escalation rate	0.50%	0.35%	(0.33%)

As at March 31, 2022	Change in assumption	Impact on defined benefit obligation	
		Increase	Decrease
Discount rate	0.50%	(0.23%)	0.26%
Salary escalation rate	0.50%	0.25%	(0.23%)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

viii) Maturity

The defined benefit obligations shall mature after year end as follows:

	(₹ in crore)	
	As at March 31, 2023	As at March 31, 2022
within 12 months	1.81	2.89
Between 2-5 years	0.04	0.03
Between 5-10 years	0.04	0.03
Beyond 10 years	0.22	0.16

The weighted average duration to the payment of these cash flows is 0.66 years (preceding year 0.49 years).

29. DISCONTINUED OPERATION

a) IDFC Asset Management Company Limited and IDFC AMC Trustee Company Limited

The Board of Directors of the Holding Company and IDFC FHCL at their respective meetings held on April 06, 2022, had inter alia considered binding bids received in connection with divestment of IDFC Asset Management Company Limited ('IDFC AMC') along with IDFC AMC Trustee Company Limited ('IDFC AMC Trustee') and had approved sale of the entire shareholding of IDFC AMC and IDFC AMC Trustee held by IDFC FHCL to a consortium comprising of Bandhan Financial Holding Limited, Lathe Investment Pte. Ltd. (affiliate of GIC), Tangerine Investments Limited, Infinity Partners (affiliates of ChrysCapital) ('Proposed Transaction'). The consideration for the Proposed Transaction of IDFC AMC was ₹ 4,500 crores on a fully diluted basis and subject to customary price adjustments at the closure and ₹ 0.50 crore for IDFC AMC Trustee.

It was highly probable that the said sale transaction would be completed in the next 12 months. Accordingly the investment in IDFC AMC and IDFC AMC Trustee along with their subsidiaries IDFC IEH Conservative Fund, IDFC Investment Managers (Mauritius) Limited and India Multi - Avenues Fund Limited were classified as assets held for sale as on March 31, 2022.

Figures for the year ended March 31, 2023 and March 31, 2022 include ₹ 89.16 crores and ₹ 171.88 crore as net profit after tax from discontinued operations pertaining to these entities.

All the requisite regulatory and other approvals, as applicable have been received and the Proposed Transaction is completed on January 31, 2023. IDFC FHCL sold 27,636,940 shares (including 846,490 shares purchased from employees on exercise of ESOPs at a price of ₹ 1,625 per share) in IDFC AMC and 50,000 shares in IDFC AMC Trustee to the consortium for consideration of ₹ 4,490 crore and ₹ 0.50 crore respectively. With the conclusion of the transaction, post January 31, 2023, IDFC AMC, IDFC AMC Trustee and IDFC Investment Managers (Mauritius) Limited are no more subsidiaries of the Group.

b) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

As at March 31, 2023						(In ₹ crore)
Assets and liabilities measured at fair value - recurring fair value measurements	Note	Level 1	Level 2	Level 3	Total	
Financial assets						
Financial Investments at FVTPL

- Asset held for sale	29	-	-	3.79	3.79	
Total financial assets		-	-	351.61	351.61	

As at March 31, 2022						(In ₹ crore)
Assets and liabilities measured at fair value - recurring fair value measurements	Note	Level 1	Level 2	Level 3	Total	
Financial assets						
Financial Investments at FVTPL	6					
- Venture capital fund units		-	-	301.26	301.26	
Total financial assets		-	-	301.26	301.26	

- There are no transfers between levels 1, 2 and 3 during the year.
- The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

The Group uses the following hierarchy for determining and disclosing the fair value of financial assets by valuation technique:

The fair value of financial instruments are classified into three categories i.e. Level 1, 2 or 3 depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements).

The hierarchies used are as follows:

Level 1: Hierarchy includes financial instruments measured using quoted prices in an active market.

Level 2: The fair value of financial instruments that are not traded in an active market (such as mutual fund units) is determined using observable market data and not the entity specific estimates. These investments are valued at closing Net Asset Value (NAV), which represents the repurchase price at which the issuer will redeem the units from investors. Since all significant inputs required to fair value an instrument are observable, the investments are included in Level 2.

Level 3: Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market

transactions in the same instrument nor are they based on available market data.

c) Valuation technique used to determine fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices for listed equity instruments, future contracts and option contracts.
- the fair value of the mutual fund units is determined using observable NAV at the reporting date as declared by the issuer.
- the fair value of the venture capital units is determined using NAV at the reporting date as declared by the issuer. ^
- the fair values of derivative instruments are valued at the settlement price provided by the respective stock exchange.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis, market comparable method and based on recent transactions.

^ Considering the illiquidity discount, the Company has provided for additional diminution over and above the NAV communicated by the VCFs in order to appropriately reflect the fair value as on March 31, 2022.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

d) Valuation Process

In order to assess Level 3 valuations as per Group's investment policy, the management relies on the NAVs issued by the VCF's.

The finance team performs the above process and reports directly to the Chief Financial Officer (CFO) of the Group. Discussions of valuation processes and results are held between the finance team and CFO on regular basis. Investment valuation is placed before the members of the board at least once every three months which is in line with the Group's quarterly reporting periods.

e) Fair value of financial assets and liabilities measured at amortised cost

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts are a reasonable approximation of their fair value. Such instruments include, cash and bank balances, bank deposits, trade and other receivables, other financial assets, trade and other payables, and other financial liabilities.

f) Fair value measurement using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the years ended March 31, 2023 and March 31, 2022:

	(In ₹ crore)	
	Venture capital units	Total
As at March 31, 2021	197.85	197.85
Acquisitions (net)	28.84	28.84
Gains/(losses) recognised profit and loss	74.57	74.57
As at March 31, 2022	301.26	301.26
Acquisitions (net)	(25.65)	(25.65)
Gains/(losses) recognised profit and loss	72.21	72.21
As at March 31, 2023	347.82	347.82

g) Valuation inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements. See (b) above for the valuation techniques adopted.

	Fair value as at March 31, 2023	Fair value as at March 31, 2022	Significant unobservable inputs*	Probability-weighted range	Sensitivity
Venture Capital Funds	347.82	301.26	Net asset Value	10%	Whilst these investments are not traded on any market, they are exposed to price risk in respect of their underlying investments. 10% is the sensitivity rate used when reporting price risk internally to key management's assessment of the possible net change in underlying prices. A 10% increase / (decrease) in the net asset value would increase/ (decrease) in the Groups' gain / (loss) by ₹ 26.03 crore (March 31, 2022 : ₹ 22.54 crore)

39. FINANCIAL RISK MANAGEMENT

39.1 Introduction

Risk management is an integral part of the business practices of the Group. The framework of risk management concentrates on formalising a system to deal with the most relevant risks, building on existing management practices, knowledge and structures. The process of risk management is paramount to the Group and each employee is accountable for risks relating to his/her responsibilities. The key risk management tenets adopted by the Group includes maker- checker principle and three levels of defence (first level - employee, second level - risk team, third level - internal audit). The Group is exposed to credit risk, interest rate risk, liquidity risk, price risk and operations risk through its business operations.

39.2 Risk management structure

The Group has set up a robust risk governance framework based on the following key principles:

- The Board has ultimate responsibility for the Group’s risk management framework. The board is principally responsible for approving the Group’s risk related strategies and policies.
- To ensure that the Group has appropriate system of risk management and internal controls in place, the board has established a risk committee. The risk committee assists the board in relation to the oversight and review of the Group’s risk management principles and policies, strategies, appetite, processes and controls. The risk committee has direct access to the Group’s management and has open communication with them.
- Policies, processes and systems are put in place for effective risk management.
- The Group’s Resources team is primarily responsible for funding and liquidity risks and is guided by the asset liability management policy. The market risks of the Group are supervised by the asset liability committee.
- The Business team monitors project assets on regular basis and highlights pending compliances to senior management on quarterly basis. It also conducts annual site visits and monitors financial covenants.
- Annual review of financial and operational performance of projects and their re-rating is conducted by the risk team.
- Risk management processes are also audited half yearly by internal audit and findings and recommendations are provided to the audit committee.

39.3 Credit risk

Credit risk is the risk of suffering financial loss, should any of the Group’s customers, clients or market counterparties fail to fulfil their contractual obligations to the Group. Credit risk arises mainly from cash and cash equivalents, deposits with banks, trade and other receivable, loans measured at amortised cost and investment measured at FVTPL.

a) Expected credit loss methodology

Ind AS 109 outlines a ‘three-stage’ model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit-impaired on initial recognition is classified in ‘Stage 1’ and has its credit risk continuously monitored by the Group.
- If a significant increase in credit risk (‘SICR’) since initial recognition is identified, the financial instrument is moved to ‘Stage 2’ but is not yet deemed to be credit-impaired. Refer note 39(b)(i) below for a description of how the Group determines when a significant increase in credit risk has occurred.
- If the financial instrument is credit-impaired, the financial instrument is then moved to ‘Stage 3’. Refer note 39(b)(i) below for a description of how the Group defines credit-impaired and default.
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with Ind AS 109 is that it should consider forward-looking information.

The following diagram summarises the impairment requirements under Ind AS 109:

i) Significant increase in credit risk (SICR)

The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the quantitative, qualitative or backstop criteria have been met.

Quantitative criteria:

The borrower is more than 90 days past due on its contractual payments to be considered in default.

Qualitative criteria:

For all financial instruments held by the Group, if the borrower is on the watch list and/or the instrument meets one or more of the following criteria:

- Significant increase in credit spread
- Significant adverse changes in business, financial and/or economic conditions in which the borrower operates
- Actual or expected forbearance or restructuring
- Actual or expected significant adverse change in operating results of the borrower
- Significant change in collateral value (secured facilities only) which is expected to increase risk of default
- Early signs of cash flow/liquidity problems such as delay in servicing of trade creditors/loans

The assessment of SICR incorporates forward-looking information and is performed on a regular basis for all financial instruments held by the Group. In relation to financial instruments, where a watch list is used to monitor credit risk, this assessment is performed at the counterparty level and on a periodic basis. The criteria used to identify SICR are monitored and reviewed periodically for appropriateness by the risk committee.

ii) Policy for write-off of financial assets

All loans which in the opinion of management are not recoverable are written off. The Group may write off financial assets that are still subject to enforcement activity. The Group still seeks to recover amounts it is legally owed in full, but which have been written off due to no reasonable expectation of full recovery.

iii) Measuring ECL - Explanation of inputs, assumptions and estimation techniques

The Expected Credit Loss (ECL) is measured on either a 12-month (12M) or Lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are the discounted product of the probability of default (PD), exposure at default (EAD), and loss given default (LGD), defined as follows:

PD Estimation:

- "Probability of default" (PD) is defined as the probability of whether the borrowers will default on their obligations in the future.
- For Stage 1, 12 month PD are calculated.
- For Stage 2, Lifetime PD are calculated by considering the survival rate of the counterparty for the remaining maturity.
- For Stage 3, Lifetime PD is taken as 100%.

Exposure at default:

EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining lifetime (Lifetime EAD).

Loss given default:

Loss Given Default (LGD) represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default (EAD). LGD is calculated on a 12-month or lifetime basis, where 12-month LGD is the percentage of loss expected to be made if the default occurs in the next 12 months and Lifetime LGD is the percentage of loss expected to be made if the default occurs over the remaining expected lifetime of the loan.

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default. These vary by product type and security coverage.

In case of re-financing of operating road project, the Group enters into a tripartite agreement with the concessionaire and NHAI/any other project authority for ensuring a compulsory buyout with termination payments. The LGD for road project loans is taken as nil since the entire credit exposure arising out of loan agreement is secured by way of tripartite agreement with Government authorities.

ECL computation:

The ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month).

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

b) Credit risk exposure

(i) Trade and other receivables

Concentrations of credit risk with respect to trade and other receivables are limited, due to the customer base being limited. All trade receivables are reviewed and assessed for default on a individual basis. Historical experience of collecting receivables of the Group is supported by low level of past default and hence the credit risk is perceived to be low.

The following table explains the changes in the loss allowance on trade and other receivables between the beginning and at the end of the annual period due to various factors:

	(₹ in crore)
Loss allowance as at March 31, 2021	5.90
Add/(less): changes during the year	(5.90)
Loss allowance as at March 31, 2022	-
Add/(less): changes during the year	-
Loss allowance as at March 31, 2023	-

39.3.1 Other financial assets

The Group has credit risk exposure in cash and cash equivalents, deposits with banks, and other financial assets. Cash and cash equivalents and bank deposits are held with only high rated banks/financial institutions only, therefore credit risk is perceived to be low. The Group has no significant concentration of credit risk.

39.4 Liquidity risk

Liquidity risk is defined as the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Group might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. To limit this risk, management has adopted a policy of managing assets with liquidity in mind and monitoring future cash flows. The Group has developed internal control processes for managing liquidity risk.

Prudent liquidity risk management implies maintaining sufficient cash and liquid investments. The Group maintains investments in highly marketable securities that are assumed to be easily liquidated in the event of an unforeseen interruption in cash flow.

The table below summarises the maturity profile of the undiscounted cash flows of the Group's financial liabilities balance sheet date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

	(₹ in crore)		
As at March 31, 2023	Within 12 months	More than 12 months	Total
Financial liabilities			
Trade payables	40.71	-	40.71
Other financial liabilities	5.02	-	5.02
Total undiscounted financial liabilities	45.73	-	45.73
As at March 31, 2022	Within 12 months	More than 12 months	Total
Financial liabilities			
Trade payables	4.53	-	4.53
Other financial liabilities	3.25	-	3.25
Total undiscounted financial liabilities	7.78	-	7.78

39.5 Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and prices.

39.5.1 Interest Rate Risk - Investment in debt oriented mutual fund

Interest rate risk is the risk where the Group is exposed to the risk that the fair value or future cash flows of its financial instruments will fluctuate as a result of a changes in market interest rates.

The Group is exposed to interest rate risk from investments held in debt oriented mutual fund units. These funds invests in debt securities. Sensitivity analysis for exposure to interest rate risk in case of units backed by debt securities is not disclosed as there are no investments outstanding as on March 31, 2023 and March 31, 2022.

39.5.2 Price risk

Price risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices caused by factor affecting all similar instruments traded in the market.

The price risk arises due to uncertainties about the future Net Asset Values (NAV)/market price of investments. To manage its price risk arising from investments, the Group diversifies its investment portfolio. Diversification is done in accordance with the guidelines set by the Group's-Risk Management Policies as approved by the Board of Directors.

The Group's exposure to the price risk arises from investment in equity instrument classified as FVTPL or FVOCI, investments in units of equity-oriented mutual funds, venture capital funds, debt securities and derivative contracts (i.e. equity options and futures) measured at FVTPL as at reporting date. The following table explains Group's exposure to price risk is as follows:

39.5.2.1 Exposure

	(₹ in crore)	
	As at March 31, 2023	As at March 31, 2022
Investment in venture capital fund units	347.82	301.26
Total	347.82	301.26

39.5.2.2 Sensitivity

The table below summarises the impact of increases/decreases of the benchmark on the Group's equity and profit for the period:

	Impact on profit after tax ⁽¹⁾		Impact on OCI ⁽¹⁾	
	Year ended March 31, 2023	Year ended March 31, 2022	Year ended March 31, 2023	Year ended March 31, 2022
Investment in Venture Capital Units				
Benchmark: Increase 100 bps (previous year 100 bps)	26.03	22.54	-	-
Benchmark: Decrease 100 bps (previous year 100 bps)	(26.03)	(22.54)	-	-

⁽¹⁾ Profit for the period would increase/ (decrease) as a result of gains/(losses) on investments classified as at fair value through profit or loss. Other components of equity would increase/(decrease) as a result of gains/(losses) on investments classified as at fair value through other comprehensive income.

39.5.3 Foreign currency risk:

The Group does not have any foreign currency exposures in respect of financial assets and financial liabilities as at the balance sheet date. This mitigates the foreign currency risk exposure for the Group.

40. Employee share based payments

a) IDFC Limited - Employee stock option scheme (equity settled):

The Group has introduced IDFC Employee Stock Option Scheme to enable the employees of the all the Group companies participate in the future growth and financial success of the IDFC Group. The scheme is in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014. The ESOS provides for grant of stock options to employees [including employees of subsidiary companies and IDFC FIRST Bank Limited (an associate of the Company)] to acquire equity shares of the Company, that will vest in a graded manner and that are to be exercised within a specified period.

The fair value of options granted to the employees of the Group under the ESOS is recognised as an employee benefits expense with a corresponding increase in share option outstanding account under other equity. However, the fair value of options granted to the employees of associate of the Group is recognised as an increase in the investment in associate and a credit to share option outstanding account under other equity as per the Group share based payment guidance under Ind AS 102.

Options are granted under the plan carry no dividend or voting rights. When exercisable, each option is convertible into one ordinary equity share of the Company. The options granted will vest upon the completion of service condition as specified in scheme in graded manner. Vested options are exercisable for the period of five years after the vesting.

Set out below is a summary of options granted under the plan:

	Year ended March 31, 2023		Year ended March 31, 2022	
	Average exercise price	Number of options	Average exercise price	Number of options
Opening balance	55.11	3,846,498	56.82	10,604,778
Granted during the year	-	-	53.60	1,200,000
Exercised during the year	54.76	(3,548,494)	49.84	(77,626)
Forfeited during the year	60.35	(28,966)	89.21	(418,690)
Lapsed/expired during the year	59.22	(269,038)	55.44	(7,461,964)
Closing balance	-	-	55.11	3,846,498
Vested and exercisable	-	-	55.80	2,646,498
Unvested	-	-	53.60	1,200,000

The weighted average share price at the date of exercise of options exercised during the year ended March 31, 2023 was ₹ 54.76 (preceding year ₹ 49.84).

Share options outstanding at the end of the year have the following expiry date and exercise prices:

Grant date	Expiry date	Exercise price	Outstanding as at March 31, 2023	Outstanding as at March 31, 2022
05-Oct-15	18-Apr-17 to 05-Oct-23	60.35	-	809,270
05-Feb-16	05-Feb-22 to 05-Feb-24	41.15	-	210,000
29-Apr-16	14-Jul-17 to 29-Apr-23	43.40	-	70,000
26-Jul-16	14-Jul-17 to 26-Jul-23	53.90	-	111,128
14-Sep-16	14-Sep-22 to 14-Sep-24	59.20	-	100,000
14-Mär-17	14-Mar-23 to 14-Mar-25	51.85	-	42,600
09-May-17	31-May-18 to 09-May-24	63.25	-	103,500
27-Apr-18	27-Apr-23	55.40	-	1,200,000
10-May-21	09-May-25	53.60	-	1,200,000
Total			-	3,846,498
Weighted average remaining contractual life of options outstanding at end of period			-	2.32

Fair value of options granted:

The fair value at grant date is determined using the Black Scholes Model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

12,00,000 ESOPS were granted during the year ended March 31, 2022.

The Assumptions used in the model are as follows:

Sr. No.	Variables	Year ended March 31, 2023	Year ended March 31, 2022
1	Risk Free Interest Rate	-	4.71%
2	Expected Life	-	2.50
3	Expected Volatility	-	50.28%
4	Dividend Yield	-	0.00%
5	Price of the underlying share in market at the time of the option grant.(₹)	-	53.60

b) IDFC AMC - Employee stock option scheme (cash settled):

(i) IDFC Asset Management Company Limited ("IDFC AMC"), a subsidiary of IDFC group, introduced IDFC AMC Employee Stock Option Scheme, 2020 ("ESOS 2020") to enable the employees of IDFC AMC to participate in the future growth and financial success of the IDFC AMC. The scheme restricts the transferability of shares exercised by the employees. IDFC Financial Holding Company Limited (Holding Company of IDFC AMC) will have right to buyback the shares from the employees as per the terms of the scheme. After applying the guidance under Ind AS 102 - Group share based payments, the said employee stock option scheme is classified as "Cash settled share based payments" in the consolidated financial statements of the Group.

c) IDFC FIRST Bank Limited - Employee stock option scheme (equity settled)

IDFC FIRST Bank Limited (earlier known as IDFC Bank Limited), an associate of the Group, got demerged from the IDFC Limited under the sanctioned scheme of arrangement in October 2015. Pursuant to Scheme of Demerger, IDFC FIRST Bank Limited has allotted certain employee stock option over its shares to the employees of the IDFC Group. The employee share based payments arrangement between the Group and its associate is outside the scope of Ind AS 102 - Group share based payment arrangement, as associate is not a part of the same group. However, under Ind AS 8, the Group has taken a policy choice to account the said employee share based payments arrangement as per the provisions of Ind AS 102.

Applying Ind AS 102 - Group share based payments arrangement guidance, the fair value of options granted to the employees of the Group is recognised as an employee benefits expense with a corresponding decrease in investment in associate.

d) Expense arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised in profit or loss as part of employee benefit expense were as follows:

	(₹ in crore)	
	Year ended March 31, 2023	Year ended March 31, 2022

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF IDFC FINANCIAL HOLDING COMPANY LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of IDFC Financial Holding Company Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of matter

We draw your attention to Note no. 19(i) of the Financial Statement regarding the merger of the Company with IDFC Limited eventually with IDFC First Bank Limited which is subject to regulatory approval. Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITOR'S REPORT

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in "**Annexure A**", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date to the Members of IDFC FINANCIAL HOLDING COMPANY LIMITED on the Ind AS financial statements for the year ended March 31, 2023)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub- section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

We have audited the internal financial controls over financial reporting of **IDFC FINANCIAL HOLDING COMPANY LIMITED** (the “Company”) as of March 31, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2023

1A. BACKGROUND

IDFC Financial Holding Company Limited - a non-operative financial holding company (NOFHC) ('the Company') is a public company, incorporated in India. The Company is a wholly owned subsidiary of IDFC Limited. The Company has received certificate of registration for NBFC NOFHC from Reserve Bank of India (RBI), on June 18, 2015. As per the Guidelines for Licensing of New Banks in the Private sector issued by RBI, the company, holds investment in IDFC FIRST Bank Limited as well as all other financial services entities of the group regulated by RBI or other financial sector regulators.

These financial statements were authorised for issue by the Board of Directors on April 25, 2023.

1B. SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

i) Compliance with Ind AS

These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended)] and other relevant provisions of the Act.

ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for following financial asset which are measured at fair value:

- Certain financial assets and liabilities (including contingent consideration receivable) - measured at fair value;
- Assets held for sale - measured at lower of carrying value or fair value less cost to sell;
- Share-based payments - measured at fair value.

iii) New and amended standards adopted

The Company has applied the following amendments to Ind AS for the first time for their annual reporting period

- Indian Accounting Standard (Ind AS) 101
- Indian Accounting Standard (Ind AS) 103
- Indian Accounting Standard (Ind AS) 109
- Indian Accounting Standard (Ind AS) 16
- Indian Accounting Standard (Ind AS) 37
- Indian Accounting Standard (Ind AS) 41

iv) Standards issued but not yet effective upto the date of issuance of the financial statements :

Ministry of Corporate affairs have made changes on March 31, 2023, in the following Indian Accounting Standards (Ind AS) amended namely:

- Indian Accounting Standard (Ind AS) 101
- Indian Accounting Standard (Ind AS) 102
- Indian Accounting Standard (Ind AS) 103
- Indian Accounting Standard (Ind AS) 107
- Indian Accounting Standard (Ind AS) 109
- Indian Accounting Standard (Ind AS) 115
- Indian Accounting Standard (Ind AS) 1
- Indian Accounting Standard (Ind AS) 8
- Indian Accounting Standard (Ind AS) 12
- Indian Accounting Standard (Ind AS) 34

These amendments shall be applicable from annual reporting periods beginning on or after April 01, 2023.

v) Order of liquidity

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. Pursuant to Schedule III-Division III of the Companies Act, 2013, the Company presents its balance sheet in the order of liquidity. This is since the Company does not supply goods or services within a clearly identifiable operating cycle, therefore making such presentation more relevant. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in Note 27(ii).

vi) Consolidation

The following set of financial statements represents the standalone financial statements of the Company. The exemption under para 4 (a) (iv) of Ind AS 110 has been applied and consolidated financial statements have not been prepared. The Company is included in the consolidated financial statements of IDFC Limited (holding company) for the year ended March 31, 2023.

a) Investment in subsidiary and Associates

Investment in subsidiaries and associates are measured at cost less accumulated impairment. See note (h) below for the accounting policy for Impairment of financial assets.

b) Revenue recognition

Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue and two approaches to recognizing revenue: at a point in time or over time and supersedes current revenue recognition guidance found within Ind AS. Revenue is measured at fair value of the consideration received or receivable.

- i) Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend.
- ii) Interest income on bank deposits are accounted on accrual basis using effective interest rate method and recognised in the statement of profit and loss as a part of other income.

c) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cash in bank, demand deposits with banks and other deposits with bank with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

d) Financial assets

i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through statement of profit and loss (FVTPL); and
- those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will be recorded in statement of profit and loss.

Debt instruments

For financial assets other than equity, the classification will depend on contractual terms of the cash flows and on the business model in which the financial asset is held.

Equity instruments

The Company measures all equity investments at fair value through profit or loss, except where the Company has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income.

Currently, the Company does not hold any investments in equity instruments other than investment in subsidiaries and associates.

ii) Recognition

Regular way purchase and sale of financials assets are recognised on trade date, the date on which the Company commits to purchase or sell the financial asset.

iii) Initial recognition

At initial recognition, in the case of a financial asset not at fair value through profit and loss, the Company measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit or loss.

iv) Subsequent measurement

Debt instruments

Measured at amortised cost: Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the statement of profit and loss.

Measured at fair value through statement of profit and loss: A financial asset not classified as amortised cost, is

classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest and dividend income, recognised as in the statement of profit and loss.

Equity instruments

The Company subsequently measures all equity investments at fair value. Changes in the fair value of financial assets measured at fair value through statement of profit and loss or through statement of other comprehensive income depending upon the irrevocable election made at the time of initial recognition.

v) Impairment of financial assets

The Company is required to assess on a forward looking basis the expected credit losses associated with its assets carried at amortised cost.

vi) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

e) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

f) Financial liabilities:

i) Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at its fair value plus or minus transaction costs that are directly attributable to the issue of the financial liability.

The Company has no financial liabilities that are measured at fair value through statement of profit and loss.

ii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of a financial liability. The calculation includes transaction costs or premiums paid that are integral to the effective interest rate.

iii) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

g) Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits and financial assets, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

h) Impairment of assets

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount

exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Nonfinancial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

i) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in India. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

j) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in balance sheet where there is legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

l) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at best estimate of the future expenditure required to settle the present obligation at the balance sheet date.

m) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

n) Employee Stock Option (ESOP)

IDFC Asset Management Company Limited ("IDFC AMC"), a subsidiary of the Company, introduced IDFC AMC Employee Stock Option Scheme, 2020 ("ESOS 2020") to enable the employees of IDFC AMC to participate in the future growth and financial success of the IDFC AMC. IDFC Financial Holding Limited (an immediate parent of IDFC AMC) has right to buy back the shares from the employees as per the terms of the scheme. On applying the guidance under Ind AS 102 the said scheme is classified as "cash settled" in the standalone financial statements of the Company.

However, the employees of IDFC AMC are not providing services to the Company; so there is no share-based payment remuneration expense recorded in the IDFC FHCL's separate financial statements. Instead, the share-based payment transaction results in a debit to 'investment in subsidiary'; and a corresponding liability is recorded at fair value at each reporting date using the principles of Cash settled share based payments under Ind AS 102.

o) Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

p) Earnings per share

i) Basic earnings per share is calculated by dividing:

- the profit attributable to equity shareholders of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

ii) Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

q) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. See note 21 for segment information presented.

r) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest "Lakhs" as per the requirement of Schedule III, unless otherwise stated.

s) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

t) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

u) Use of estimates

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised. The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

The areas involving critical estimates or judgements are:

- estimation of current tax expense and current tax payable (see note 17)

(i) Investment in subsidiaries

- a) The Board of Directors of IDFC Limited ('Holding Company') and IDFC FHCL ('the Company') at their respective meetings held on April 06, 2022, have inter alia considered binding bids received in connection with divestment of IDFC Asset Management Company Limited ('IDFC AMC') along with IDFC AMC Trustee Company Limited ('IDFC AMC Trustee') and have approved sale of the entire shareholding of IDFC AMC and IDFC AMC Trustee held by the Company to a consortium comprising of Bandhan Financial Holding Limited, Lathe Investment Pte. Ltd. (affiliate of GIC), Tangerine Investments Limited, Infinity Partners (affiliates of ChrysCapital) ('Proposed Transaction'). The consideration for the Proposed Transaction is ₹ 450,000 lakhs on a fully diluted basis and subject to customary price adjustments at the closure. This consideration is in addition to receipt of ₹ 24,915 lakhs as dividend from IDFC AMC in March 2022.

It was highly probable that the said sale transaction would be completed in the next 12 months. Accordingly the investment in IDFC AMC and IDFC AMC trustee was classified as assets held for sale as on March 31, 2022.

All the requisite regulatory and other approvals, as applicable have been received and the Proposed Transaction is completed on January 31, 2023. IDFC FHCL sold 27,636,940 shares (including 846,490 shares purchased from employees on exercise of ESOPs at a price of ₹ 1,625 per share) in IDFC AMC and 50,000 shares in IDFC AMC Trustee to the consortium for consideration of ₹ 449,000 lakhs and ₹ 50 lakhs respectively. With the conclusion of the transaction, post January 31, 2023, IDFC AMC, IDFC AMC Trustee and IDFC Investment Managers (Mauritius) Limited are no more subsidiaries of the Company.

- b) The Board of Directors of the Company vide its approval dated January 05, 2023 approved purchase of 861,560 equity shares of IDFC AMC offered by IDFC AMC employees at a price of ₹ 1,625 per share. The Company then purchased total 846,490 shares from employees at ₹ 1,625 per share amounting to ₹ 13,755 lakhs. Total no.of shares in IDFC AMC stood at 27,636,940 shares on the date of sale.

The Equity instruments in subsidiaries and associates are measured at cost and not included in the above table.

b) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. The fair value of financial assets are classified into three categories i.e. Level 1, 2 or 3 depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements).

All financial assets and liabilities are measured at amortised cost and are classified under level 3. Being short term in nature, their carrying amount is considered a reasonable approximation of their fair value.

24 FINANCIAL RISK MANAGEMENT

The Company is exposed primarily to liquidity risks which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities.

NOTES TO FINANCIAL STATEMENTS

3.	Scheme of Amalgamation between IDFC Financial Holding Company Limited, IDFC Limited and IDFC FIRST Bank Limited	July 03, 2023

Based on the recommendation of the NRC and subject to approval of the shareholders at this meeting, the Board of Directors of the Company, at its meeting held on July 17, 2023 approved the re-appointment of Mr. Mahendra N Shah as the MD of IDFC from October 01, 2023 till September 30, 2024 on such terms and conditions as mentioned in the resolution set out in item no. 3.

Mr. Mahendra N Shah has confirmed that he satisfies the conditions provided under Part I of Schedule V to the Companies Act, 2013 and is not disqualified from being appointed as a Director in terms of Section 164 of the Companies Act, 2013 and has consented to act as Director of the company. He is not debarred from holding office of Director by virtue of any SEBI order or any other authority.

The profile of Mr. Mahendra N Shah in terms of the Secretarial Standards on General Meetings (SS-2) issued by the Institute of Company Secretaries of India and details of his remuneration last drawn have been provided in the Exhibit to this Notice.

This resolution for re-appointment of Mr. Shah is a separate Resolution and is in addition to the Resolution No. 4 for approving his remuneration.

Mr. Mahendra N Shah is a qualified professional and is not related to any Director / major Shareholder.

Except Mr. Mahendra N Shah, none of the Directors or Key Managerial Personnel and / or their relatives, are in any way, financial or otherwise, interested or concerned in this resolution.

The Board of Directors recommend passing of **Ordinary Resolution** as set out in Item No. 3 for approval of the Shareholders.

Item no. 4

Pursuant to Section 197 of the Companies Act, 2013 (the Act), the total managerial remuneration payable by a public company, to its Directors, including Managing Director and Whole Time Director, and its Manager in respect of any financial year, shall not exceed 11% of net profits of that Company for that financial year computed as per provisions of Section 198 of the Act, as detailed hereunder:

NOTICE (continued)

A. To Managing Director / Whole-time Director / Manager:

Condition	Maximum Remuneration in any financial year
Company with one Managing Director (MD)/ Whole-time Director (WTD)/ Manager	5% of the net profits of the company.
Company with more than one MD/WTD/ Manager	10% of the net profits of the company.

B. To other Directors who are neither Managing Directors nor Whole-time Directors:

Condition	Maximum Remuneration in any financial year
If there is a MD/WTD/Manager	1% of the net profits of the company.
If there is no MD/WTD/Manager	3% of the net profits of the company.

As per the Companies (Amendment) Act, 2017, w.e.f. 12th September 2018, the companies may pay remuneration exceeding the aforesaid limit of 11%, subject to the provisions of Schedule V to the Act, as well as other above limits, with the approval of the members of the Company in general meeting by way of Special Resolution.

The Shareholders of the Company, at its 25th AGM held on September 27, 2022, appointed Mr. Mahendra N Shah (DIN: 00124629) as the Managing Director with effect from October 01, 2022 till September 30, 2023. The term of Mr. Mahendra N Shah will expire on September 30, 2023. Mr. Mahendra N Shah took over the charge as MD after resignation of Mr. Sunil Kakar. He has been able to execute the strategic plans of the Company as decided by the Board and shareholders. The Company needs to unlock the value for shareholders of IDFC and to do corporate restructuring as per the directions / approvals of the regulatory authority. Mr. Shah has a key role for proposed restructuring. The shareholders had approved the variable pay to Mr. Shah not exceeding 50% of fixed remuneration CTC. Considering his performance, Nomination and Remuneration Committee ("NRC") and the Board at its meeting held on April 18, 2023 and May 04, 2023 respectively considered and approved Rs. 2 crore as variable pay for FY 2022-23 subject to approval of the Shareholders at the ensuing AGM. It was also agreed that his variable pay for FY 2023-24 will be decided by NRC and the Board.

Based on above facts, the NRC recommended the remuneration payable to the Managing Director w.e.f. October 01, 2023 till September 30, 2024. Considering the recommendation of the NRC, subject to approval of the shareholders at this meeting, the Board of Directors of the Company, at its meeting held on July 17, 2023 approved the re-appointment of Mr. Mahendra N Shah as the MD of IDFC Limited from October 01, 2023 till September 30, 2024 and his remuneration on such terms and conditions as mentioned in the resolution set out in item no. 3 and 4.

The Company is only a Holding / Investment Company and does not have any business / operations. The strategic plan for the company is to simplify the corporate structure and unlock value for the shareholders. In the process, the Company may / may not have adequate profits for each financial year. Accordingly, approval of the shareholders is sought by way of special resolution so that,

in case the Company has no profits or inadequate profits at the end of any financial year, the remuneration as decided by the Board or any Committee thereof from time to time, may be paid to Mr. Mahendra N Shah as per the provisions of the Companies Act, 2013 read with the applicable provisions of Schedule V of the Companies Act, 2013 and Rules made thereunder from time to time.
