hased manner.”

The Centre has come under greater pressure to provide some relief to the state governments that are staring at a revenue shock, with many BJP-ruled states also joining the chorus for extension of the GST compensation mechanism. A five-year, constitutionally guaranteed compensation ended on June 30. Under the mechanism, the Centre provided for the release of compensation against 4% year-on-year growth over revenues in 2015-16 from taxes subsumed in GST.

All-India average revenue shortfall from the protected level declined to about 27% in FY22 from about 38% in FY21 and it may come down to 15% in FY23, the official said. After the GST was implemented from July 1, 2017, it gave a compounded annual growth rate about 10-11% till FY22, which is lower than the 14% that was promised.

“If the current (revenue growth) trend continues, then I think in about two to three years time we would have achieved the CAGR of 14%,” Johri said. The gross GST collections grew by 30.5% on-year in FY22 and has grown by 37% on-year in Q1 FY23.
