- RPL continues to timely service its debt obligations, having paid Rs. 1400 Cr (including principal & interest) in last six quarters (Jan 2020– Jun 2021), including Rs. 200 Cr as prepayment
- Credit Rating Agency - Acuite Ratings & Research Ltd. had assigned Investment Grade to Company:

Rating of (BBB-) to its Long Term debt with "Stable" outlook
 Rating of A3 for its Short Term debt

Company has continued to show sustained performance in the first quarter of FY-22

- Amravati Plant is a Turn-Around Story post Debt Restructuring

Year	EBITDA (Rs Cr)	PAT (Rs Cr)
FY 2016	1,281 [#]	(107.71)
FY 2017	1,116 [#]	(320.71)
FY 2018	1,100 [#]	(418.38)
FY 2019	1,105 [#]	(2791.54)
FY 2020	3,480 [*]	1898.70 [*]
FY 2021	988.22	96.71
Q1 FY 2022	297.98	87.10

Company has posted a healthy EBITDA & PAT , backed by strong operational performance in Q1 FY-22

[#] as per IGAAP
^{*} Includes impact of OTS

Amravati Project : PLF and PAF

- Amravati Plant has commenced operations from Dec'20 after a long hiatus
- Pursuant to MERC Order dated 30 Dec 2020, competitiveness of the Plant has improved significantly wef 01 Jan 2021, as Plant now falls well within 3rd quartile of the Merit Order stack ensuring high PLF and efficient operations in future
- Plant has clocked highest PLF amongst all plants in Maharashtra in last 2 quarters

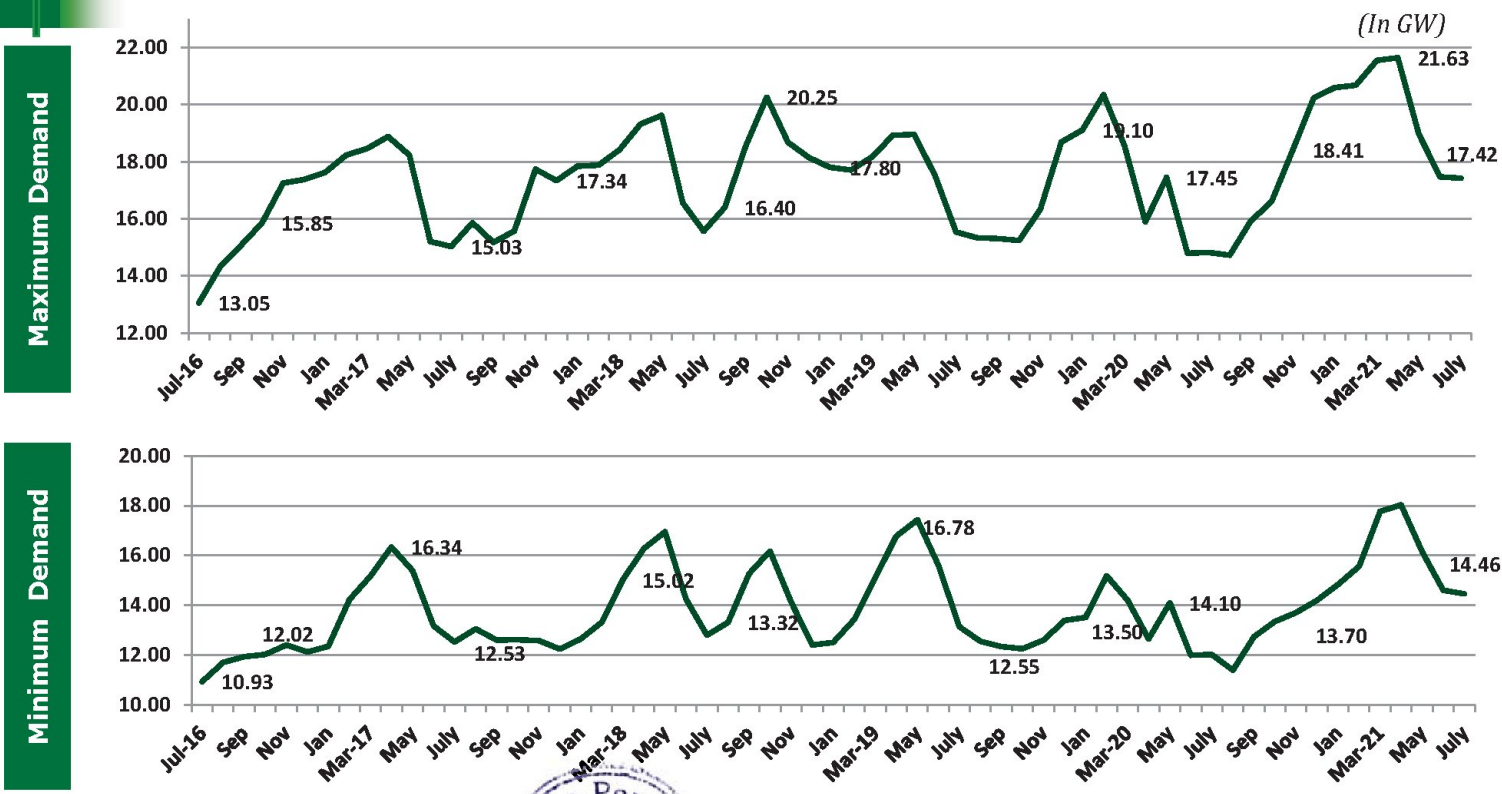

Generation trend of India

Generation Country - (BUs)		
All India	Total	% Growth
FY 10	803	7.69%
FY 11	847	5.42%
FY 12	923	8.99%
FY 13	965	4.61%
FY 14	1,015	5.14%
FY 15	1,105	8.92%
FY 16	1,168	5.69%
FY 17	1,242	6.28%
FY 18	1,307	5.23%
FY 19	1,371	4.95%
FY 20	1,383	0.88%
FY 21	1,364	(1.37%)
FY 22 till Jul	481	

- Country has observed robust generation growth – CAGR of above 5% for last 13 years; however, growth rate has dipped in FY-21 on account of Covid-19 induced impact on the economy.
- The demand has almost retraced its path and has been showing significant growth recently in Q1 FY 2022.
- All India electricity consumption increased by 17% in Q1 FY22 (vs. Q1 FY21), setting new highs in terms of peak demand, clearly indicating revival of economic & business activity.
- In Q1 FY22, all India generation was 367 billion units (BUs), of which 43 BUs (i.e., only ~12%) was from Renewable Energy Sources (RES). Further, the total installed capacity of RES of 97 GW is about 25% of the total installed capacity of 384 GW. Thermal coal-based power plants will continue to be the backbone of the electricity generation in the country

Demand trend of MSEDCL

Power Demand of MSEDCL is at its highest over the last five years during Q-1 of respective years

Source: CEA, MSLDC

APTEL vide Judgment dated 13.11.2020, has decided the principles for pass-through of additional cost for procurement of alternate coal in favour of RPL.

- RPL has filed a remand petition before MERC post the APTEL judgement for recovery of Rs. 472 Cr. (incl. carrying cost till 31 Mar 2021);
- APTEL judgement also requires re-computation of compensation towards Change in Law (CIL) events already settled in past. Revised claim of Rs. 368 Cr. submitted to MSEDCL (computed and including carrying cost till 31 Mar 2021);
- Subsequently, MSEDCL has filed Civil Appeal in Supreme Court (SC) to stay the execution of APTEL Judgment ; however, SC refused to grant the stay;
- MERC has reserved the Order in the remand petition and expected to be issued soon.

APTEL vide Judgment dated 27.04.2021, has dismissed MSEDCL's Appeal challenging the applicable rate of interest in computation of Late Payment Surcharge by upholding SBI PLR and rejecting SBI MCLR, resulting in realisation of long pending overdue from MSEDCL;

- MERC has passed Final Order directing MSEDCL to pay the LPS (till Mar'21) of Rs 107 Cr.;
- MSEDCL's appeal in SC is reserved for Judgment.

Brief update on the Nasik Power Plant

- Currently in active discussions with all the stakeholders of the Project, including the Lenders, for an overall resolution of Nasik Power Plant.

Diluted (Rs.)	0.16	0.12	(0.00)

The Company is involved in the business of generation of electricity, which has been notified as an “essential service” by the Ministry of Power, Govt. of India. The Company has put into place a robust risk-mitigation plan to ensure that the plant is completely ready to generate electricity on demand. Company has taken all necessary steps at its plant site to, not only to ensure the health and safety of the employees and workers but also to ensure adequate supplies of raw materials to meet normative plant load factor.

During the year, the demand for power in the State of Maharashtra did get impacted for some months, however the Company has maintained a healthy Plant Load factor since the plant started operations in December 2020. Even in the event of low dispatches, if applicable, the Company would continue to bill Maharashtra State Electricity Distribution company for the fixed capacity charges as per the term of the Power Purchase Agreement (PPA).

Basis these steps, the management has estimated its cash flows for the future and believes there will be no impact on its ability to meet its liabilities in the long term. However, this is an extremely dynamic and continuously evolving situation and will be continuously reviewed going forward to address any new eventualities.

Earlier, in this context, the Government of India had provided special liquidity facility to the discoms to meet the obligation to pay to the power generators, to alleviate the pain of the power generating companies.

Thank you
