## 3i Infotech Partners with Databricks to Drive Business Value with the Lakehouse Platform

*The company to leverage AAA, Cloud, and Future Tech services built on Databricks' Lakehouse Platform to provide domain-led value-add unique offerings across global markets.*

**Mumbai, October 18, 2023** – [3i Infotech Limited](#) (BSE: 532628, NSE: 3IINFOLD), a global Information Technology company, committed to accelerating business transformation, today announced their partnership with Databricks, the Data and AI company. The partnership aims to drive business value by unifying data and artificial intelligence (AI) on a single platform. Through this announcement, 3i Infotech with its strong foothold in the BFSI industry across the globe furthers its goals towards becoming the one-stop business solution to provide desired outcomes for Databricks' cognitive services.

Through 3i Infotech's strengthened traction and delivery in technology like Application Automation Analytics (AAA), Cloud and Future Tech, this announcement anchors on the inherited value by providing strong capability to the Databricks platform. As a result of the partnership, enterprise organizations will be able to realize the full potential of their data-driven initiatives. Together, 3i Infotech and Databricks Lakehouse will offer a comprehensive solution that accelerates digital transformation, enhances data-driven decision-making, and drives innovation.

Databricks pioneered the data lakehouse, which unifies data, analytics and AI on a single platform so that customers can govern, manage and derive insights from enterprise data and build their own AI solutions faster.

Speaking on this important partnership, **Rishi Agrawal, Chief Technology Officer, 3i Infotech**, said, "We are very excited to provide a unified and unique solution in the market by leveraging in-house domain capability with data platforms provided by Databricks. Through this strategic partnership with a data lakehouse leader like Databricks, we will be able to deploy a very differentiated offering to our customers. Our primary focus will be initially to serve India and the Middle East markets where we have a huge footprint of BFSI customers, while also scaling our services across the country's key sectors and businesses. Subsequently, we will take this offering to our other global markets in the US, Europe, among others."

**Anil Bhasin, Vice President and Country Manager for Databricks India** said, "We believe the country's transformation lies within the transformation of core sectors and businesses in India. We are thrilled to be partnering with 3i Infotech to help scale our data and AI capabilities to more businesses across the country while also accessing the global markets through this collaboration. We look forward to combining our expertise to help more Indian companies move from legacy to innovation and to ultimately improve their revenue growth."

### About 3i Infotech

Headquartered in Mumbai, India, since its inception in 1993, 3i Infotech has been committed to driving business value across multiple industry verticals. 3i Infotech, today, has emerged as a leading name in propelling the current wave of digital transformation initiatives, with deep domain expertise across BFSI, Healthcare, Manufacturing, Education, Telecom, Media & Entertainment, Retail and Government sectors.
