LIC Housing waiting for bourses response on Rs. 2,334 cr preferential issue

Kolkata, Aug 2: LIC Housing Finance Ltd is still awaiting for clearances from the stock exchanges before it could go ahead with the Rs 2,334 crore preferential issue to its parent Life Insurance Corporation even though capital market regulator SEBI had not raised any query and the mortgage lender denied approaching the Securities Appellate Tribunal (SAT) in this regard, LIC HFL sources said.

BSE and NSE sought clarifications on why the valuation report of a registered value had not been considered while determining the price of such shares on allotment to LIC.

"Only the stock exchanges had raised queries and we have responded and are waiting for

their feedback. The bourses had asked us not to release the voting results on this agenda which we have abided by. There is no query from SEBI so far and we have not approached SAT in this regard," the sources told PTI.

LIC Housing Finance (LIC HFL) was supposed to issue shares at Rs 514.25 apiece having a face value of Rs 2 each to its promoter. LIC's shareholding in the housing financier post the proposed allotment of shares will go up to 45.24 per cent from over 40.31 per cent currently.

"The company had received an email dated July 12, 2021 from, BSE Ltd and National Stock Exchange of India Ltd seeking clarifications on compliance with the provisions of Articles of Association (AOA) of the company

regarding the process arrived for the valuation at which the said equity shares are offered to LIC," they said.

"The company had provided the clarification that there is no violation of the provisions of AOA as the price has been duly determined in accordance with the relevant provisions of the AOA as well as the Companies Act, 2013 and SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018," the sources said, adding that LIC Housing had informed the bourses.

LIC Housing reported an 81 per cent decline in its standalone net profit at Rs 153.44 crore in the first quarter of FY22 ending June due to increased provisioning for non-performing loans.

Seeing Yourself In The Selfie..!

At this very moment, there are more selfies being taken than cameramen or professional photographers taking pictures! Two months ago, while walking down the streets of New York I found selfie sticks being sold for less than five dollars! But along with progress comes danger. There have been hundreds of cases of selfie accidents: Terrible accidents as the person taking a selfie can't see what is behind, whether precipice, gorge or valley! Can't see what's coming from the side, maybe an approaching train, maybe a killer wave!

The selfie taker is so intent on taking his own picture he notices nothing else!

I thought about this today: I realised to the selfie photographer the only object he can see is within the camera frame, or since it is most often a phone, within his phone screen!

Anything outside the frame

remains unseen to him. His whole concentration is the way he looks, his smile, his or her hair in place, lipstick not smudged, eyes twinkling, and maybe the mountain or sea as a background! All else ceases to be of interest!

Even the sound of a train horn, the impending doom of a cliff edge do not register to his senses because they do not appear on his little screen!

His frame is the event!

The next moment the train can crush him, the cliff edge can make him or her plunge down to their death, but for that moment they do not see this or even know it can happen!

Who sees the big picture? Someone who is looking at the selfie taker and also looking at the danger around him. Sometimes they shout, they warn the selfie taker, but quite often when the taker of the

picture is alone, he is crushed or falls to his death.

How like prayer this is! We pray for something looking only at the immediate need, which is us! We pray for wealth, but God sees the big picture and sees how we are not yet ready for wealth as that wealth could destroy us or our relationship with others or with God and so doesn't give it to us immediately. We pray for relief from a pain, but God knows that the pain is caused by some bigger problem and the same pain we want healing for, could be a symptom telling you that you need to exercise or need a full check-up, and doesn't take it away till the bigger picture happens of a probe or medical investigation.

We are all selfie takers, just looking into the frame, God answers prayer, seeing the big picture..!

Pizza Hut opens 500th store

Chennai, Aug 2:

Pizza Hut, India's most loved and trusted pizza brand today announced the landmark launch of its 500th store in the country. Pizza Hut's 500th store was inaugurated in Moga, Punjab by actor and philanthropist Sonu Sood. The company also shared that it has ambitious expansion plans to considerably increase their footprint in India in the next five years. Pizza Hut has been on a steady growth trajectory and plans to enter several new cities by the end of 2021 to expand its presence in tier-2 and tier-3 cities alongside metros.

On the occasion, Merrill Pereyra, Managing Director, Pizza Hut Indian Subcontinent said, "We are truly humbled and grateful for the unwavering love and trust of our customers and thank them for this momentous achievement. We are deeply invested in India and look forward to growing the brand aggressively in the next few years."

Jawa, Indian Army partner for 'Dhruva Kargil Ride 2021'

Chennai, Aug 2:

Shortly after the launch of Khakhi and Midnight Grey colours of its Jawa model as a tribute to the 50 years of 1971 war victory, Classic Legends has commenced a series of celebratory rides in association with the Indian Army. The 'Dhruva Kargil Ride' (#DhruvaKargilRide) is the first in this series and celebrates

the 22nd 'Kargil Vijay Diwas' as well as the 75th year of Indian independence.

The Dhruva Kargil Ride saw a total of 75 Jawa motorcycles led by the new Khakhi and Midnight Grey colours leading the pack with riders from the Indian Army, spread across four groups. The main ride was flagged-off from Dhruva War Memorial by

Subedar Sanjay Kumar, PVC under the aegis of Headquarter Northern Command in Udhampur, comprising of 25 riders on Jawa motorcycles led by Lt. General YK Joshi, (UYSM, AVSM, VrC, SM, ADC) GOC-in-C, Northern Command, who rode all the way up to the finishing point at Kargil War Memorial in Drass.

Audi unveils 3 electric SUVs

Chennai, Aug 2:

Audi, the German luxury car manufacturer, today made a giant leap in its journey of electric mobility with the launch of 3 electric SUVs - the Audi e-tron 50, Audi e-tron 55 and Audi e-tron Sportback 55. Powered by two incredibly dynamic electric motors in the front and rear, the Audi e-tron and the Audi e-tron Sportback offer a completely novel driving experience.

Commenting on the launch, Balbir Singh Dhillon, Head of Audi India, said, "The Audi e-tron 50, the Audi e-tron 55, and the Audi e-tron Sportback 55 are the perfect confluence of luxury, zero emissions, performance and everyday usability. With

the three offerings, we have a proposition for every type of EV customer in the small but growing luxury SUV space. To ease the transition to elec-

tric mobility - we are offering several benefits and packages including after-sales, charging and ownership. To take it a step forward, we are also offering a best-in-

class 3 year buyback. This is just the start of Audi India's electric journey and you will hear from us very, very shortly on our next EV offering."

Instagram launches parents guide to help young people be safe on the platform

Chennai, Aug 2: Furthering the commitment to the safety of young people in India, Instagram today launched a Parents Guide in Tamil for people across Tamil Nadu to learn from. The Guide is aimed at helping young people be safe, by informing parents about all the safety features that exist on the platform.

The Parents Guide is a resource from Instagram, available across

many countries, to provide parents with a better understanding of the changing digital landscape. It acts as a conversation starter with their children, as it provides information about tools that exist to keep their child safe on Instagram. The Guide has inputs from key organisations working actively on the rights and safety of children - Center for Social Research, CyberPeace Foundation, Aarambh India Initia-

tive, Young Leaders for Activity Citizenship, It's Ok To Talk and Suicide Prevention India Foundation.

Tara Bedi, Public Policy and Community Outreach Manager for Instagram in India, said, "As we spend more time online, especially young people, it is important for parents to be well informed about the products and features that are used by their children. This understanding can help par-

ents feel more comfortable with their children using it to showcase their creativity, because they would know the safety features available to them. This is what we're aiming to accomplish with the Parents Guide for Instagram."

This Guide from Instagram is another step towards fostering a safe and supportive environment on the platform.

GST revenue collection for July at over Rs. 1.16 lakh cr

New Delhi, Aug 2:

In signs of acceleration in economic activity, India's tax collections on goods sold and services rendered returned to over Rs 1 lakh crore in July after the second wave of Covid-related restrictions caused a blip in the previous month.

Goods and Services Tax (GST) mop-up grew 33 per cent year-on-year in July to over Rs 1.16 lakh crore, indicating that the economy is recovering at a fast pace. In July 2020, the collection was Rs 87,422 crore.

This is the second highest collection so far this fiscal after a record Rs 1.41 lakh crore mop-up in April.

The finance ministry in a statement said robust GST revenues are likely to continue in the coming months as well.

The gross GST revenue collected in the month of July 2021 is Rs 1,16,393 crore of which Central GST is Rs 22,197 crore, State GST is Rs 28,541 crore, Integrated GST is Rs 57,864 crore (including Rs 27,900 crore collected on import of goods) and Cess is Rs 7,790 crore (including

Rs 815 crore collected on import of goods).

The revenues for the month of July 2021 are 33 per cent higher than the GST revenues in the same month last year and include GST returns filed between July 1-31 as well as IGST and cess collected from imports for the same period.

GST tax collections had topped Rs 1 lakh crore market for 8 straight months before the onset of the second wave of COVID-19 infections led to the re-imposition of lockdowns in different states, muting economic activity.

"GST collection... dropped below Rs 1 lakh crore in June 2021 as the collections during the month of June 2021 predominantly related to the month of May 2021; and during May 2021, most of the states/UTs were under either complete or partial lockdown due to COVID. With the easing out of COVID restrictions, GST collection for July 2021 has again crossed Rs 1 lakh crore, which clearly indicates that the economy is recovering at a fast pace. The robust GST

revenues are likely to continue in the coming months too," the ministry said in a statement.

In the current fiscal, GST mop-up touched a record high of over Rs 1.41 lakh crore in April, but fell to over Rs 1.02 lakh crore in May after the outbreak of second wave. In June, collection slipped below the psychological Rs 1 lakh crore mark to Rs 92,849 crore followed by a sharp rebound in July to Rs 1.16 lakh crore.

The GST collections in July 2021 are primarily for supplies and sales made in June, when the states were easing the lockdown restrictions. In the months of April and May, most states were under different levels of lockdown, which reduced business activity.

Deloitte India Senior Director M S Mani said the sharp increase in the collections indicates the resumption of economic activities in June and will raise expectations of better collections in the coming months. The improvement in GST collections both on domestic transactions and imports, accompanied by

the fact that major producing states have shown significant increases, would indicate that the economic activities have resumed across the country," Mani said.

Shardul Amarchand Mangaldas & Co Partner Rajat Bose said collections are higher on the back of economic revival due to the unlocking of businesses in June. "If the country is able to resist the third wave, the GST collections should increase from hereon, Bose said.

EY Tax Partner Abhishek Jain said this collection number is a definite indicator of economic recovery and the uptrend is expected to continue in the coming months.

Singhania's GST Consultancy Co Partner Aditya Singhania said "with simultaneous increase in vaccination, easing out of Covid restrictions, data analytics in place, sequential spurt in e-waybill generation, GST rate rationalisation on cards, etc, we may see acceleration in revenue from GST in coming months".
