RattanIndia backed Revolt opens 15th dealership store in Vizag

November 22, 2021: RattanIndia backed Revolt, India's market leader in electric motorcycles is pleased to announce opening of its dealership in Vizag. This is their first store in the Andhra Pradesh region and 15th retail store across India.

With the rising petrol prices and an aim to fulfill the consumer demand, the company has plans to expand its sales network and strengthen retail presence further by entering 60 new cities in India including Kolkata, Chandigarh, Lucknow & NCR by early 2022. Last month, Revolt Motors opened retail stores in Bengaluru, Jaipur & Surat and announced the bookings for RV400 across 70 cities.

All the new stores will be set up by retail partners across the key cities. Buoyed by the surge in demand for Revolt's bikes, the new stores will focus on India-centric, flexible and cost-effective innovations that will drive the growth of electric mobility, in-line with making India self-reliant. The new centres will not only act as sales points for the company, but also give the customers a chance to experience the vehicle and go through the design, the charging process and how the installation of the charging points take place. Customers can also get a sense of their riding patterns after the test ride.

Revolt Motors has witnessed a phenomenal response from buyers for its flagship RV400 which was sold out within minutes of going on sale every time. In addition to this, the company is also leveraging AI, to upscale and provide an in-house developed contactless experience for its customers. The brand is currently operational in Bengaluru, Jaipur, Surat, Delhi, Mumbai, Pune, Chennai, Ahmedabad and Hyderabad.

Revolt's flagship model, the RV400 comes with a 3KW (Mid Drive) motor, powered by a 72V, 3.24KWh Lithium-Ion battery that can churn out a top speed of 85km/h. The bike can be operated through the MyRevolt App, which offers connectivity features such as bike locator/Geo fencing, customised sounds that you can change with just a tap on the screen, complete bike diagnostics, battery status, historical data on your rides and KMs done, and also the option of locating the nearest Revolt Switch Station to swap your Revolt's battery.

The bike features three riding modes - Eco, Normal and Sport – each suiting to the riding style and needs of the driver. RV400 comes with Upside Down (USD) forks up-front and a fully-adjustable monoshock at the rear to give an unparalleled riding experience.

Revolt Intellicorp

Revolt Intellicorp is the next-gen mobility company, created for the smart world. Revolt is working with a vision of democratizing clean commutes using next-gen mobility solutions and a mission to create a future of next-gen mobility with 100% accessibility and 0% fuel residue. With technology at its roots and class-apart products, Revolt has introduced India's first AI-enabled motorcycle without compromising on the performance or aesthetics of a regular ride.

Revolt Intellicorp commenced operations in 2019. The company offers two EV models in India currently, in addition to a full range of genuine parts and accessories available through its authorized dealerships. For more details, visit www.revoltmotors.com.
