# Stay healthy with Prestige's Tattva Copper bottle

Chennai, Sep 8: A growing number of Indians are now going back to their roots and following the path of their ancestors by drinking water from a copper vessel. Clearly our forefathers knew a thing or two about the magic benefits of copper from a health perspective.

And with an increasing number of people of all ages becoming health conscious, it is no wonder that copper is now gaining prominence. However, unlike our ancestors, we now get to enjoy Indian tradition married with modern technology with the launch of the Prestige Tattva Copper bottle. Available in four different variants, the Tattva Copper bottle has been launched by Prestige CleanHome, the home cleaning business of TTK Prestige.

According to Ayurveda, it is said that water stored in a copper container has the ability to balance all the three doshas in your body, (vata, kapha and pitta) and it does so by positively charging the water.
