PRESS RELEASE

Mumbai, 15 August 2020

INTRASOFT TECHNOLOGIES LIMITED **PROVIDES COVID UPDATE**

IntraSoft Technologies Ltd. (BSE: 533181, NSE: ISFT) today provided an update on its business performance and the impact of COVID-19.

COVID 19 Update

- Unaudited Revenue for Q1FY21 is \$28.2 million, a growth of ~68% QoQ and ~16% YoY.

The April-June quarter was a period of strong growth for the Company, as we worked hard to service customers who continue to accelerate the online shift of purchase habits. We continue to see great progress in the current quarter (to date) as well.

Our investments in technology have enabled us to grow the business during these challenging times, increasing the dependence of our brand partners on us to grow their business. More than 90% of our brand partners' warehouses are operational, and more and more continue to become operational every day.

With a focus on safety & well-being, our teams, in both India and the US, will continue to work remotely for the foreseeable future. As our technology scales on the cloud, we are well equipped to continue working remotely.

Looking forward, we remain confident in the success of our business, as one our key categories (Home) is seeing accelerated online migration and we continue to proactively invest in our future.

Notes

The Company's primary business is in the area of E-Commerce, carried out by its wholly owned subsidiary in the United States of America. Accordingly, the updates for E-Commerce reflect the consolidated performance of the E-Commerce division only, and not the consolidated operations of IntraSoft Technologies Ltd.
