CORPORATE SOCIAL RESPONSIBILITY ACTIVITIES

The last few years have seen a plethora of companies increase their Corporate Social Responsibility (CSR) contribution in compliance with the Companies Act 2013. Our mission has been to identify the basic needs and requirements in the community and try to address them through cohesive efforts of our NGO partners.

Federal-Mogul Goetze (India) Ltd. commits itself to contribute to the society, discharging its corporate social responsibilities through initiatives that have positive impact on society at large, especially the community in the neighbourhood of its operations by improving the quality of life of the people.

Education is the building block for achieving national objectives and breaking the poverty cycle which denies millions a better life. Our education initiatives are, therefore, designed to encourage higher enrolment into schools through a multi-pronged approach focusing on infrastructure, educational material and capacity building.

In response to the Government's 'Swachh Bharat Abhiyan', we conducted 'Clean India' and 'Tree Plantation' drives at various locations. Being a part of the bigger picture, the Company has realised the need of the hour which is to ensure environmental sustainability and focus on conservation of natural resources.

Sustainable development of India could happen only through greater economic empowerment and equal participation of women in the economic activities which require creation of opportunities to earn livelihoods. Empowering Women and encouraging their entrepreneurial spirit is a vital aspect of our CSR objectives.

Through our skill development programme, we have revolutionised education sector with skill integration. We have set up a well equipped workshop providing practical training by full time trainer hired by the Company.

OUR RESPONSE TO COVID - 19

As the COVID -19 pandemic continues to impact people around the world, we are seeing a more acute impact on businesses every day. Most of our major customers had to shut down plants, reduce spending and take steps to weather this sudden and unprecedented storm. The India leadership team is closely monitoring the COVID -19 situation, listening carefully to the advice and direction from government authorities, health agencies, our customers and our team members during this unprecedented time.

These are difficult times for our industry, our company, our communities and our families and we are confident that we can and we will overcome this challenge.

FMGIL is also working with various NGO's to provide support to vulnerable families, children and communities who are in desperate need of lifesaving support including PPE (Personal Protection Equipment), Sanitizing kits, cooked meals at Rehabilitation Centres and Grocery kits (containing Rice, Flour, Dals, Masala, Onion and Oil) at various locations.

Corona Virus Awareness Campaign

- With COVID - 19 threatening to spread like wildfire, we are sure everyone is taking the necessary precautions and preventive actions. While everyone including the Government agencies are taking all possible steps to ensure safety, the company had launched the Corona Virus Awareness Campaign at various locations with the support of various NGOs.

- In the schools managed by the NGO's in Gurugram, Bangaluru and Parwanoo, the Instructors / teachers shared crucial information about this virus with the students.

They were then assigned the roles of the 'Good Samaritan', which makes it a mandate for them to share the information received at school from teachers and from the display boards put up in the campus, with their families and neighbours.

We appreciate efforts made by our NGO Partners by helping in spreading the awareness regarding Corona Virus.

Life at SOS Children’s Village during COVID -19 at the units taken over by the company at Bengaluru and Rajpura

With schools temporarily shut down and outdoor activities prohibited, it is important that an alternative academic calendar is followed to keep the children engaged. The children were kept involved through various educational and creative sessions conducted as detailed below:

- Session on hygiene & safe hand washing practices
- Session on Preventive Measures for COVID -19
- Daily activities ranging far and wide from Yoga, traditional games, recital of shlokas, storytelling, cooking to kitchen gardening and a lot more.
- Connecting children with the nature, engaging them into drawing and painting.
- The walls and surroundings in the Village have become a showcase of their artworks and imaginations which went beyond the little brains.
- Senior children are attending their classes through class rooms.

Apart from this a team at National Office has been formed to ensure complete safety of all children and co-workers. The village is complying with directives of Government under the lockdown.

Virtual Learning During COVID - 19 At Vidya

- Due to the postponement of examinations of NIOS students, Vidya continues to engage and encourage the students to stay focused and effectively utilize this time. NIOS, Gurugram Centre conducted online classes through SWAYAM App to assist them in their preparation for the exams.
- The Remedial Education program at IIT, Delhi has created WhatsApp Group for Grade X & XII NIOS students enrolled in our program. The teachers are diligently working and making the most of this extra time. They are answering the students’ queries and uploading last years’ question papers in their respective groups.

During the COVID crisis, the NGO Prayas was connected with each and every child. They personally contacted with each family to provide them with the 'Family Ration Kit' comprising of Rice-10 Kg, Wheat-10 kg, Pulses-5 kg, Sugar-2 Kg, Salt-1 Pkt, Spices (Dhaniya-100 gm, Haldi-100 gm and Mirchi-100 gm), Tea Packet-500 gm, 3 Dettol Soap and Sanitary Pads, Face Mask for the family size of 6 people for two weeks.

ONGOING PROJECTS IN THE YEAR 2019-2020

The Company continues its support to all the existing projects in Education, Rural Development, Preventive Health Care, Women Empowerment and Employment Enhancing Vocational skill.

Women Empowerment

i) Driving Lessons

You would be proud to know that the Company has launched the Taxshe programme in Gurgaon under its women empowerment programme. It's a car service featuring only women drivers and catering only to women and children. We are training women from low income backgrounds to not only become drivers but also entrepreneurs.

We are pleased to inform that Ford India has reinforced our noble cause by donating 2 vehicles, Ford Figo and Ford Aspire to Neeva Foundation. After receiving the simulator driven classroom training at Maruti's Driving school, the women can now practice vehicle controls on road, to get confidence to drive independently.

Training Summary 2019 - 20	Completed
Total Trainees (- dropouts)	51
In Training	28
Offered Job On Completion	23
Employed with Taxshe	8
Employed with Others	15
Did Not accept any offer	0
Total	23

ii) Setting up Production Unit at Bhiwadi in association with NGO Khushii

- This project is aimed at empowering women to make them self-sufficient, self-reliant, financially independent and eventually an entrepreneur. Some women have already started their own uniform stitching shop and others have joined together to form SHG and are getting plenty of tailoring orders from corporate.
- Ladies of Vocational Training Centre Bhiwadi got the opportunity to kick start their journey of financial independence with "Go Green" project, which is an initiative taken by FMGIL. This was covered by the local newspapers too.

SHG Women also got an order from HCL Foundation, Noida for stitching 5000 Nos. Marteen Cloth Bags to support HCL's 'Save Environment' drive. This has boosted their skills as well as selfconfidence to perform professionally.

Women Empowerment

iii) School uniform stitching order for SHG Ladies –

The Production unit also had orders from various schools for stitching school uniforms. With whole hearted efforts the said order was completed in scheduled time framework while maintaining quality of stitching.

iv) Convocation Ceremony at Tailoring centre

The Convocation Ceremony of the 3rd & 4th Batch of Tailoring Training Center at Bhiwadi was organized in the premises of Govt. Primary School, Harchandpur. Course completion certificates were distributed to all 66 women along with Electric Iron as a motivational gift. School children and women spread the message of Environmental Protection through cultural performance.

Mr. Anil Kaushik - Chief District Education Officer Alwar, Shri Ram Dayal, School Headmaster, Senior Executives from FMGIL System Protection, Team FMGIL Bhiwadi, Khushii NGO's volunteers, teachers and other dignitaries from Harchandpur village were present at this event.

School Uniforms were also distributed to all the students of Govt Primary School Harchandpur. These uniforms too were stitched by our SHG Group.

Vocational Training Centre at Bengaluru & Bhiwadi received Mask stitching order daily 1000Nos from local vendors.

Women Empowerment

iv) Vidya Silai Centre at Gurugram

This year the Silai Centre in Gurugram saw significant growth, both in terms of outreach and the skills imparted. Our beneficiaries at the Silai program learned two major art forms, kantha and crochet, along with their basic training in sewing and tailoring. The women were grouped together to begin their own production work and exhibited their artifacts at many places like at the PNBHFL Diwali Mela, ELSA's Basant Mela and Deutsche Bank's International Conference.

In our efforts to transform lives through the continuous enhancement of knowledge and empowerment, FMGIL continued its funding to the schools being run for under privileged children.

Ghar Angna

We have been supporting this NGO since 2015. Besides giving basic education, the aim is to give an all around experience to these children. We have started a new initiative effective 2nd July 2019 for running evening sessions to support children who are unable to attend usual school timings; 40 new students have enrolled to this program.

Prayas

Prayas was able to introduce 'Smart Classes' with support of our company.

Education

Ishwar

We have completed one year of association with NGO Ishwar. Besides offering Non-Formal Education (NFE) for non-school-going children, we have adopted a holistic approach covering school curriculum, sports, dance, drama, music and participating in District / State / National competitions.

Chess - Children at Ishwar learn Chess under the guidance of Tania Sachdev, Women Grandmaster and their children have competed in many Chess Competitions.

ISHWAR tied up with Shiamak Davar's Institute of Performing Arts to impart specialised dance training to our children. They are also given an opportunity to showcase their dancing skills on stage during the Summer & Winter Funk Shows of Shiamak Davar.

Vidya IIT Campus

Its amazing to see youth with the fire in their belly, fighting the scorching summer sun and coming all the way from different areas to our VIDYA's community center at IIT Delhi to study. If you ever get to interact with our students who are enrolled in the NIOS programme at IIT, you will definitely see how ambitious they are, the zeal they have to grow and excel in life, fighting the odds that life throws at them. They have come a long way with the right guidance and support from our lovely teachers at VIDYA. Each one of them holds immense potential ready to be unleashed, to create their own bright future, shaping them into sensible, sensitive and responsible youth of our Nation.

Vidya - Accreditation of Vidya NIOS School

Our Vidya School have secured accreditation for admitting 300 students in the NIOS Program commencing from April 1, 2019. It has now become an official exam center for Open School.

The VIDYA NIOS Bridge Course gives youth who have dropped out of school a second chance at completing their education up till class XII. Besides regular classes, students participate in extracurricular activities of sports, dance, drama, computer basics, English speaking and other awareness programs.

We are proud to share that Britt World Wide Global, one of the largest education and training companies with its headquarters in South Carolina and with a presence in 80 countries, identified Vidya for the 'Inspire Parivartan Award' in the youth empowerment category.

This award is a great encouragement towards acknowledging our efforts and rewarding the accomplishments and contributions of our Vidya Team for effective implementation of our youth empowerment programs namely NIOS, Vidyadeep and computer NIIT initiatives being supported by FMGIL.

Employment Enhancing Vocational Skills

Visit to Plant by Students of Technical Training centre at SNS Gurgaon

With an aim to go beyond academics, our students from Technical Training Centre at SNS Foundation visited our Patiala Plant. This valuable visit enhanced our students knowledge on engine, they understood the concept of piston, piston ring, piston pin & also got awareness on safety hazards. Students returned very motivated to see our state-of-the-art shop floors.

Industrial visits provide students a practical perspective of the work place. It provided them with an opportunity to learn through interaction, working methods and employment practices. It also helps to combine theoretical knowledge with practical knowledge.

We wish these trainees a successful career ahead.

Preventive Health Care

Development of subsidiary Health Centre at Bahadurgarh

While the tertiary care in India has developed substantially, primary care needs to grow significantly. Primary healthcare denotes the first level of contact between individuals and families with the health system. Private hospitals provide excellent care but are beyond the reach of common people. Public hospitals are affordable but are terribly overcrowded and lack responsiveness.

To bridge this gap, Patiala Plant constructed a community dispensary in Bahadurgarh village under our CSR initiative. The dispensary is built on the land allocated by government for this purpose.

This subsidiary health center is providing a healthcare facility to 14 villages with population of around 30,000 and will help the residents to meet their medical needs.

Preventive Health Care

Rural Development – Earth Saviours Foundation

In our endeavour to care for the elderly, the company constructed latest style semi-automized kitchen at 'The Earth Saviours Foundation', which is home to around 350 senior citizens and mentally challenged people. The Kitchen cooks nutritious food daily for the socially unprotected elderly people living below the poverty line.

The kitchen was inaugurated by the FMGIL Team on November 4, 2019.

Supporting Government Initiatives

Clean India Drive - Bhiwadi

A clean India would be the best tribute India could pay to Mahatma Gandhi. Swachh Bharat Abhiyan is a new nation-wide campaign in India that aims to clean up the streets, roads and infrastructure of India's cities, towns, urban and rural areas.

Like previous years, Team Khushii Bhiwadi & FMGIL Celebrated *Gandhi Jayanti* at Govt Primary School Harchandpur. Students of our Bhiwadi School made clean India poster and organized Awareness Rally on "Say No To Plastic". A sense of responsibility was evoked among the Community people to actively participate in cleanliness drive. A Rally was also carried out in Harchandpur village to give the message to stop usage of single-use plastic.

Trainees of our Vocational Training Centre and other community women participated in this event with full enthusiasm and took pledge to put in efforts towards environmental protection.

कपड़े के थैले वितरित, पर्यावरण संरक्षण पर जोर

मिवाड़ी. राजकीय हरचंदपुर प्राथमिक पाठशाला में नौ प्लास्टिक दिवस मनाया गया। इस मौके पर स्कूल में विभिन्न कार्यक्रम किए गए। बच्चों ने पोस्टर के माध्यम से सिंगल यूज प्लास्टिक के इस्तेमाल से पर्यावरण को होने वाले नुकसान के बारे में बताया। आसपास के गांव के लोगों को जागरूक करने के लिए स्कूल के विद्यार्थियों, प्रयागोध्यापिका काला यादव व सुखी संस्था के अध्यक्षों ने रैली निकालकर क्षेत्र के लोगों को प्लास्टिक की चीजों का प्रयोग न करने को प्रोत्साहित किया। इस अवसर पर उन्हें सुखी के सिलाई प्रशिक्षण केंद्र पर सिले गए कपड़े के बैग वितरित किए गए। सुखी संस्था की प्रोजेक्ट कॉर्डिनेटर कुसुम धायल सूर्या ने बतवता कि सुखी संस्था पर्यावरण के प्रति हमेशा सजग रहकर समाज को सही दिशा देने का कार्य कर रही है, क्योंकि पर्यावरण ही हमारे जीवन का मौलिक आधार है और हमें हमेशा पर्यावरण संरक्षण पर विशेष ध्यान देना चाहिए। उन्होंने कहा कि केंद्र सरकार की प्लास्टिक के सामान का प्रयोग न करने की मुहिम को सुखी संस्था आमजन तक पहुंचाने का कार्य कर रही है। लोगों को इसके प्रति जागरूक करने के लिए प्रसिद्ध है।

MANAGEMENT DISCUSSION AND ANALYSIS:

(a) Industry structures and developments

Automotive Industry, globally, as well as in India, is one of the key sectors of the economy. Demographically and economically, India's automotive industry is well-positioned for growth, servicing both domestic demand and, increasingly export opportunities. Due to its deep forward and backward linkages with several key segments of the economy, automotive industry has a strong multiplier effect and acts as one of the drivers of economic growth.

The auto industry is highly competitive, consisting of organized as well as unorganized sectors and is highly fragmented with a significant number of small and medium-sized companies because of which the business rules are changing to meet the tough competition prevailing in the industry. Innovation, technological upgradation and cost saving hold the key to success to meet the expectations of the exigent competitive circumstances. The Indian auto component industry has been navigating through a period of challenges.

During the financial year 2019-20, the industry produced a total 26,362,282 vehicles including Passenger Vehicles, Commercial Vehicles, Three Wheelers, Two Wheelers and Quadricycle as against 30,914,874 in April-March 2019, registering a de-growth of -14.7 percent over the same period last year.

The domestic sale of Passenger Vehicles declined by 17.9 percent in April-March

2020 over the same period last year. The overall Commercial Vehicles segment declined by 28.8 percent in April-March 2020 as compared to the same period last year. Medium & Heavy Commercial Vehicles (M&HCVs) declined by 42.5 percent and Light Commercial Vehicles declined by 20.1 percent in April-March 2020 over the same period last year.

Three Wheelers domestic sales declined by 9.2 percent in April- March 2020 over the same period last year. Within the Three Wheelers, Passenger Carrier & Goods Carrier sales declined by 8.3 percent and 13.3 percent respectively in April-March 2020 over April-March 2019.

Two Wheelers sales registered de-growth at 17.8 percent in April-March 2020 over April-March 2019. Within the Two Wheelers segment, Scooters declined by (-) 16.9 and Motorcycles declined by 17.5 percent, while Mopeds declined by 27.6 percent in April-March 2020 over April-March 2019.

In April-March 2020, overall automobile exports increased by 2.95 percent. Two Wheelers Segments registered a growth of 7.3 percent and Three wheelers declined by 11.5 percent, while Passenger Vehicles were flat at 0.2 percent and Commercial Vehicles declined by 39.2 percent in April-March 2020 over the same period last year.

The year under review witnessed an overall slowdown in the economy, liquidity crunch, the crisis in the non-banking finance companies (NBFC) sector, almost drying up credit for dealers and customers. Nearly half the vehicles sold in rural markets, a segment that has been witnessing a higher growth rate in comparison to urban markets, are financed by NBFCs. The increase in third party insurance, road tax and safety regulations, the consequent hike in the cost of vehicle acquisition, uncertainty arising out of inventory liquidation prior to the BS-VI transition and expectations of a possible GST reduction were the primary reasons for the prolonged slowdown this year.

Currently there is uncertainty on the pace of recovery, but Management is making sure that the organization remains fully energized during the period and ready to bounce back on the next opportunity.

(b) Opportunities and Threats

The parent company continues to support the Company with its technical expertise. With widely recognized brands, superior technology, strong distribution network and a committed team of employees, the Company is well positioned to take advantage of the opportunities and withstand the market challenges.

Major regulatory interventions, such as the accelerated transition from BS IV to BS VI, adoption of electric vehicles, safety rules and stringent vehicle standards are leading to a shift in vehicle technology. This is creating significant challenges and your Company perceives these challenges as potential opportunities.

Your Company competes with many independent manufacturers and distributors of component parts. Management continues to develop and execute initiatives to meet the challenges of the industry and to achieve its strategy for sustainable global profitable growth.

There are limited sets of customers in our business, that is, the automobile manufacturers. Competition is intense, as we compete with suppliers both in the organized and unorganized segments. Technical edge, specialization, innovation and networking will determine the success of the Company in this competitive environment. Further, the policies of the Government play a key role in the development of the automobile sector. Your Company has been employing the practices to proactively map the impact of its activities on its performance and profitability from economic environment and social perspectives.

C) Segment wise or product wise performance

The Company deals principally in only one segment i.e. automotive components. Therefore, segment-wise performance is not applicable. The Company is inter alia engaged in the manufacturing and sale of Pistons, Piston rings, Pins, valve seats and guides the performance whereof is as under:

Details of finished goods sold	Rs. In lacs	
	31 st March 2020	31 st March 2019
Pistons,	91,883.61	115,311.90
Piston rings and pistons pins		
Valve train and	11,614.69	12,561.06
Structural components		

(d) Outlook

The impact of COVID-19 situation has devastated the auto industry with pinching effects on the Indian auto industry.

Rural wages and rising unemployment contributed to low demand for goods and services. Uncertainty in employment impacted consumer, investor and corporate confidence. There has been a significant downturn in the demand for new vehicles forcing automakers to substantially cut production. Auto component industry is fully dependent on the automotive industry. The future is fairly unpredictable. Market sentiments are unpleasant.

The recovery in vehicle demand will also be drawn out, due to the pandemic's deep and enduring impact on the economy, which is expected to take few years to return to pre-COVID-19 levels. The recovery in vehicle production is set to be gradual and not necessarily linear. Given the uncertainty of the current situation, the forecast risks largely skew to the downside, the Management expects double digit volume decline in Indian automobile industry during the year 2020-21.

During the current difficult situation, your Company has been minutely reviewing every element of cost and has been continuously working on cash conservation and elimination/deferment of cost, wherever possible.

The Company will endeavor to revitalize in near future as consumers regain confidence and vehicle demand improves. To remain competitive in the challenging and demanding environment, the benchmark has to be high in anticipation of the stated and unstated need of the customers and markets.

(e) Risks and concern

The Company operates in an environment, which is affected by various risks, some of which are controllable while some are outside the control of the Company. However, the Company has been taking appropriate measures to mitigate these risks on a continuous basis. Some of the risks that are potentially significant in nature and need careful monitoring are listed hereunder:

Pandemic: Significant deterioration in demand due to COVID-19 has emerged as a major business risk.

Economic slowdown: Slowdown in the Indian and global economy due to the outbreak of COVID-19 is likely to adversely impact the auto industry in the medium and short-term.

Raw material prices: Our profitability and cost effectiveness may be affected due to change in the prices of raw materials and other inputs.

Foreign Currency Risks: Exchange rate fluctuations may have an adverse impact on the Company

Technical Intensive Industry: The automobile industry is a technical intensive industry and thus faced with a constant demand for new designs, knowledge of nascent technology to meet market requirements.

Increasing competition: Increasing competition in the auto equipment sector, may put some pressure on the market share.

(f) Adequacy of Internal Control Systems

The Company has an Audit Committee headed by a non-executive independent director, inter-alia, to oversee the Company's financial reporting process, disclosure of financial information, performance of statutory and internal auditors, functions, internal control systems, related party transactions, investigation relating to suspected fraud or failure of internal audit control, to name a few, as well as other areas requiring mandatory review as per provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, with the stock exchanges. ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (“CSR”) ACTIVITIES 2019-20

1. A brief outline of the Company’s CSR policy, including overview of the projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs

Federal-Mogul is proactively fulfilling its social responsibilities as a member of society. Beyond legal compliance and keeping our promises to our customers, we think broadly about how we can contribute to society through our business and put these ideas into action of our own will.

For our part, we have set five priority areas to create a prosperous society filled with people with smiling faces taking advantage of our strengths and those of our like-minded group companies. Our endeavor is to address social issues to create a society where people can enjoy comfortable and convenient lives.

Our social investment programmes focus on:

Promotion of Education – Promoting quality education amongst less privileged children, especially girl child, to bring about a social change.

Preventive Health care – To directly and indirectly improve the health of fellow citizens, especially the socially and economically marginalized groups by working actively in the areas of preventive health and sanitation and making available safe drinking water.

Rural Development Project– To contribute to economic development while improving the quality of life of the workforce and their families as well as of the community and society at large by supporting local schools & hospitals i.e. community development.

Employment Enhancing Vocational Skills – The biggest challenge that the Industry is facing today is the availability of trained and skilled Manpower. Industries see this as a major bottleneck in their expansion plans. They also face challenges to maintain the desired output and quality due to lack of availability of skilled manpower. We plan to launch series of programmes to provide technical and vocational training with an ultimate aim of creating world class skilled work force and making the potential employees ‘Job Ready’ before they embark upon their professional career.

Women Empowerment – To equip women, with skills and resources to build a better future for themselves.

INDEPENDENT AUDITOR'S REPORT

To the Members of Federal Mogul Goetze (India) Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Federal Mogul Goetze (India) Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian

Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2020, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is

sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 49 of the accompanying financial statements, which describes the uncertainties due to the outbreak of Covid-19 pandemic and the management's evaluation of the impact on the financial statements of the Company as at the balance sheet date. Our opinion is not modified in respect of this matter.

Key Audit Matter

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters

6. We have determined the matter described below to be the key audit matters to be communicated in our report.

Key audit matter

Provisions and contingent liabilities relating to litigations

As disclosed in Note 37 to the standalone financial statements, the Company is involved in various direct taxes, indirect taxes, labour laws and other litigations ('litigations') that are pending with various tax authorities and courts. The Company has recognised provisions aggregating to Rs. 1,517.08 lacs and disclosed contingent liabilities of Rs. 5,747.70 Lacs related to these litigations.

Whether a liability is recognised as a provision or disclosed as a contingent liability in the financial statements is inherently judgmental dependent on a number of significant assumptions and assessments. These include assumptions relating to the likelihood and/or timing of the cash outflows from the business and the interpretation of local laws and pending assessments at various levels of the statute. We placed specific focus on the judgements in respect to these demands against the Company.

How our audit addressed the key audit matter

Our audit procedures in relation to the provisions and contingent liabilities relating to litigations, included, but were not limited to, the following:

- Obtained an understanding of the management process for:
 - identification of legal and tax matters initiated against the Company,
 - assessment of accounting treatment for each such litigation identified under accounting principles of Ind AS 37
 - Provisions, Contingent Liabilities and Contingent Assets, and
 - measurement of amounts involved.
- Evaluated the design and tested the operating effectiveness of key controls around above process.

Test of details included, but were not limited to, the following-

- Obtained an understanding of the nature of litigations pending against the company and discussed the key developments during the year for key litigations with the management and respective legal counsels handling such cases on behalf of the Company.
- Assessed the Company's assumptions and estimates in respect of litigations, including the liabilities or provisions recognised or contingent liabilities disclosed in the financial statements. This involved assessing the probability of an unfavorable outcome of a given proceeding and the reliability of estimates of related amounts;

The amounts involved are potentially significant and due to the range of possible outcomes and considerable uncertainty around the various litigations the determination of the need for creating a provision in the financial statements is inherently subjective/judgmental and therefore is considered to be a key audit matter in the current year

- Assessed management’s conclusions through discussions held with the in house legal counsel and understanding precedents set in similar cases;
- Obtained and evaluating the responses in the independent confirmations obtained from the consultants representing the Company before the various authorities;
- For cases represented by consultants, reviewed each attorney’s response obtained as above to ensure that the conclusions reached by the management are supported by sufficient legal rationale and adequate information is included for the management to determine the appropriate accounting treatment of such cases in the financial statements;
- Involved auditor’s experts to assess the Company’s interpretation and application of relevant tax laws to evaluate the appropriateness of key assumptions used and the reasonableness of estimates in relation to uncertain tax positions, taking into account past precedents;
- Evaluated the disclosures made relating to provisions and contingent liabilities for their appropriateness.

We have determined that there are no other key audit matters to communicate in our report.

Information other than the financial statements and Auditor Report thereon

7. The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the standalone financial statements and our auditor’s report thereon. The Annual Report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

8. The accompanying standalone financial statements have been approved by the Company’s Board of Directors. The Company’s Board of Directors is

responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to

liquidate the Company or to cease operations, or has no realistic alternative but to do so.

10. Those Board of Directors is also responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is

sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships

and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

17. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.

18. Further to our comments in Annexure A, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:

a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;

b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

c) the standalone financial statements dealt with by this report are in agreement with the books of account;

d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;

e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of

the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of section 164(2) of the Act;

f) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 26 June 2020 as per Annexure B expressed an unmodified opinion; and

g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. the Company, as detailed in note 37 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2020;

ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;

iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2020; and

iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Federal Mogul Goetze (India) Limited ('the Company') as at and for the year ended 31 March 2020, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of Internal Control stated in the Guidance note on the Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by The Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with

reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide

reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note issued by the ICAI.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

1. Corporate information

Federal-Mogul Goetze (India) Limited ('FMGIL' or 'the Company'), is inter-alia engaged mainly in the manufacture, supply and distribution of 'automotive components' used in two/three/four wheeler automobiles.

The principal facilities of the Company are located at Patiala (Punjab), Bengaluru (Karnataka) and Bhiwadi (Rajasthan), with its registered office in Delhi. The Company is listed at National Stock Exchange of India Limited and Bombay Stock Exchange.

Federal Mogul Holdings Limited, Mauritius, is the immediate parent company and ultimate parent company is Tenneco Inc., USA (from 01 October 2018, erstwhile parent Federal Mogul LLC, USA).

Statement of significant accounting policies

2.1 Statement of compliance with Ind AS

These financial statements ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015, as amended and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2020 were authorised and approved for issue by the Board of Directors on 26 June 2020.

2.2 Summary of Significant Accounting Policies

a) Overall consideration

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below. These were used throughout all periods presented in the financial statements.

Basis of preparation

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies.

b) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Act. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

c) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the year. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognised in the current and future periods.

d) Property, plant and equipment

Recognition and initial measurement

Property plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Subsequent measurement (depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on a straight-line basis, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Companies Act, 2013:

Asset Class	Estimated useful life (in years)
Plant & Machinery	5 to 21 years
Furniture and fixtures	3 to 10 years
Vehicles	8 to 10 years
Computers	3 years
Building	20 to 30 years
Leasehold land	99 years

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

e) Intangible assets

Recognition and initial measurement

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (amortisation)

The cost of capitalised software is amortised over a period in the range of 5 years from the date of its acquisition.

f) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

g) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

h) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

Non-derivative financial assets

Subsequent measurement

- i. **Financial assets carried at amortised cost** – a financial asset is measured at the amortised cost if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.
- ii. **Investments in equity instruments of subsidiaries**– Investments in equity instruments of subsidiaries are accounted for at cost in accordance with Ind AS 27 *Separate Financial Statements*.

Non-derivative financial liabilities

Subsequent measurement

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020**i) Fair Value of financial instrument**

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal Market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1: Quoted prices for identical instruments in an active market;
- Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and
- Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

i) Leases**Transition**

Effective 1 April 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on 1 April 2019 using the modified retrospective method and elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition. Comparatives as at and for the year ended 31 March 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended 31 March 2019.

Refer note 39 for details.

The Company as a lessee

The Company's leased asset classes primarily consist of leases for land and Building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on the remaining term of the lease.

Certain lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

The Company as a lessor

Leases for which the Company is a lessor are classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

k) Inventories

Inventories are valued as follows:

Raw materials, components, stores and spares and bought out tools.	Lower of cost and net realisable value. Cost represents purchase price and other direct costs and is determined on a moving weighted average cost basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
Constructed Tools	Lower of cost and net realisable value. Cost represents material, labour and appropriate allocation of overheads. Cost is determined on a weighted average basis.
Work-in-progress	Lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads. Cost is determined on a weighted average basis.
Finished Goods: - Manufactured	Lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads. Cost is determined on a weighted average basis.
- Traded	Lower of cost and net realisable value. Cost represents purchase price and other direct costs and is determined on a moving weighted average cost basis.
Reusable scrap	At lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Provision for obsolescence is determined based on management's assessment and is charged to profit and loss account.

l) Revenue Recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. A performance obligation is a promise in a contract to transfer a distinct good (or a bundle of goods) to the customer and is the unit of account in Ind AS 115. A contract's transaction price is allocated to each distinct performance obligation and recognised as revenue, as or when, the performance obligation is satisfied. The Company recognises revenue when it transfers control of a product to a customer. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payments and excludes tax and duties collected on behalf of the government. The Company recognises revenue from the following major sources:

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020**i) Sale of products**

Revenue from sale of products is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. It is measured at fair value consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The Company recognises revenue when it transfers control over a product to a customer i.e. when goods are delivered at the delivery point, as per terms of the agreement, which could be either customer premises or carrier premises who will deliver goods to the customer. When payments received from customers exceed revenue recognised to date on a particular contract, any excess (a contract liability) is reported in the Balance Sheet under other current liabilities (refer note).

Satisfaction of performance obligations

The Company's revenue is derived from the single performance obligation to transfer primarily products under arrangements in which the transfer of control of the products and the fulfilment of the Company's performance obligation occur at the same time. Revenue from the sale of goods is recognised when the Company has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Company will collect the consideration to which it is entitled to in exchange for the goods.

Whether the customer has obtained control over the asset depends on when the goods are made available to the carrier or the buyer takes possession of the goods, depending on the delivery terms. For the Company, generally the criteria to recognise revenue has been met when its products are delivered to its customers or to a carrier who will transport the goods to its customers, this is the point in time when the Company has completed its performance obligations. Revenue is measured at the transaction price of the consideration received or receivable, the amount the Company expects to be entitled to.

Payment terms

The sale of goods is typically made under credit payment terms differing from customer to customer and ranges between 30-60 days.

Variable considerations associated with such sales

Periodically, the Company launches various volume or other rebate programs where once a certain volume or other conditions are met, it gives the customer as volume discount some portion of the amounts previously billed or paid. For such arrangements, the Company only recognises revenue for the amounts it ultimately expects to realise from the customer. The Company estimates the variable consideration for these programs using the most likely amount method or the expected value method, whichever approach best predicts the amount of the consideration based on the terms of the contract and available information and updates its estimates each reporting period.

ii) Job Work:

Income from job work is accrued when right of revenue is established, which relates to effort completed.

iii) Interest:

Interest income is recorded on accrual basis using the effective interest rate (EIR) method

iv) Dividends:

Revenue is recognised when the shareholders' right to receive payment is established by the balance sheet date.

v) Commission:

Commission income is accrued when due, as per the agreed terms.

vi) Export Benefits/Incentives:

Export entitlements under the Duty Entitlement Pass Book (DEPB) Scheme/ Duty Drawback scheme are recognised in the profit and loss account when the right to receive credit as per the terms of the scheme is established in respect of exports made.

vii) Management support charges:

Income from management support charges is recognised as per the terms of the agreement based upon the services completed.

viii) Lease income:

Rental income is recognised on a straight-line basis over the term of the lease, except for contingent rental income which is recognised when

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020**m) Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary interruption.

n) Foreign Currency Transactions*Functional and presentation currency*

The financial statements are presented in Indian Rupee ('INR') which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items outstanding at the balance sheet date are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transactions.

Exchange differences arising on such conversion and settlement at rates different from those at which they were initially recorded, are recognised in the statement of profit and loss in the year in which they arise.

o) Retirement and other employee benefits

(i) Provident fund contributions are charged to profit and loss account, when contributions paid/payable are due to "Goetze India Limited Provident Fund Trust", administered by the trustees and to the Regional Provident Fund Commissioners. The Company accrues for the deficit in the Provident Fund trust as per the books of accounts of the Trust.

(ii) Gratuity liability under the Payment of Gratuity Act is accrued on the basis of an actuarial valuation made at the end of each financial year. The actuarial valuation is done as per projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to other comprehensive income in the year in which such gains or losses are determined.

(iii) Short term compensated absences are provided for based on estimates. Long term compensation liability for leave encashment is determined in accordance with company policy and is measured on the basis of valuation by an independent actuary at the end of the financial year. The actuarial valuation is done as per projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to statement of profit and loss in the year in which such gains or losses are determined.

(iv) Superannuation Benefit

The Company has superannuation obligation administered with Life Insurance Corporation of India (LIC). Contributions to the defined contribution scheme are charged to profit and loss account when contributions paid/ payable are due to such fund. There are no other obligations other than the contribution payable to the respective trusts.

(v) National Pension Scheme

The Company makes specified monthly contributions towards national pension scheme to government administered scheme which is a defined contribution plan. The Company's contribution is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020**p) Income Taxes**

Tax expense recognised in the statement of profit and loss comprises of deferred tax and current tax not recognised in Other Comprehensive Income (OCI) or directly in equity.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India.

Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits (including Minimum Alternate Tax ('MAT') credit entitlement) or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Tax expense relating to items recognised in OCI or directly in equity is recognised outside profit or loss (in OCI or equity).

q) Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

r) Provisions, contingent liabilities and contingent assets

Provisions are recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are discounted to their present values, where the time value of money is material. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no provision is recognised.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

s) Cash and Cash Equivalents

Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

t) Segment Reporting Policies

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors assess the financial performance and position of the Company, and makes strategic decisions and therefore the board would be the chief operating decision maker. The Company's primary business segment is manufacturing and trading of auto components. Considering the nature of Company's business and operations, there is only one reportable business segment.

u) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgments, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below:

Significant management judgements

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Impairment of financial assets – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding financial assets.

Contingent Liabilities - The Company is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Company often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Company accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Provision for warranties – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from this judgement.

Significant estimates

Recoverability of advances/receivables - At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

31 Fair value disclosures
i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are classified into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

- (ii) Company has only one investment carried at fair value through profit and loss account. The fair value of investment in GI Power Corporation Limited is determined to be zero. There are no other financial assets or liabilities carried at fair value.

(iii) Fair value of instruments measured at amortised cost

Cash and cash equivalents, other bank balances, trade receivables, other current financial assets, trade payables, current borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- The fair values of the long term borrowings are determined by using discounted cash flow method using the appropriate discount rate. The discount rate is determined using other similar instruments incorporating the risk associated.
- The fair values of the unquoted investments in Shares of Vyshali Energy Private Limited is shown at cost as in accordance with agreement with parties.
- Loans are shown at cost as the same are given to government authorities till perpetuity.

ii) Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

A) Credit risk

"Credit risk is the risk that a counter party fails to discharge an obligation to the company. The Company is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Company's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables,
- loans & receivables measured at amortised cost, and
- deposits with banks"

a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counter parties, identified either individually or by the company, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

Assets under credit risk –

Credit rating	Particulars	As at	As at
		31 March 2020	31 March 2019
A: Low	Cash and cash equivalents	2,869.92	942.21

	Trade receivables (gross of expected credit loss)	18,446.40	23,002.76
	Loan	1,350.09	1,318.91
C: High	Trade receivables	172.07	166.83

Cash and cash equivalents & Bank deposit

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks across the country.

Trade Receivables

The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due and default is considered to have occurred when amounts receivable become six months past due.

Other finance assets measured at amortised cost

Other financial assets measured at amortised cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

(All amounts in Rs. lacs, unless otherwise stated)

b) Expected credit losses

The Company provides for expected credit losses based on the following:

The company recognizes lifetime expected credit losses on trade receivables using a simplified approach, wherein Company has defined percentage of provision by analysing historical trend of default based on the criteria defined above. And such provision percentage determined have been considered to recognise life time expected credit losses on trade receivables.

Impairment loss recognised/reversed during the year	(37.36)
Amounts written off	-
Loss allowance as on 31 March 2020	248.24

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Maturities of financial liabilities

The tables below analyses the Company's financial liabilities into relevant maturity classification based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. For balances due within 12 months amounts equal their carrying values as the impact of discounting is not significant.

C) Market Risk

a) Foreign currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, Euro and Japanese Yen. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of the Company. Considering the low volume of foreign currency transactions, the Company's exposure to foreign currency risk is limited and the Company hence does not use any derivative instruments to manage its exposure. Also, the Company does not use forward contracts and swaps for speculative purposes.

b) Interest rate risk
i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. As at 31 March 2020, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Company's investments in fixed deposits pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

Particulars	As at 31 March 2020	As at 31 March 2019
Variable rate borrowing	-	1.45
Fixed rate borrowing	-	6,701.18
Total borrowings	-	6,702.63

Interest sensitivity*		
Interest rates – increase by 50 bp basis points	-	(0.01)
Interest rates – decrease by 50 bp basis points	-	0.01

* Holding all other variables constant

ii) Assets

The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

The Company does not have any significant investments in equity instruments which create an exposure to price risk.

33 Capital management

The Company's capital management objectives are

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

Particulars	As at 31 March 2020	As at 31 March 2019
Total debt	-	6,702.63

Notes to the Standalone Financial Statements for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

The company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The following are the amounts recognised in profit or loss:

Particulars	Year ended 31 March 2020
Depreciation expense of right-of-use assets	223.30
Interest expense on lease liabilities	20.87
Expense relating to short term leases (included in other Exps.)	99.28
	343.45

(ii) Lease related disclosures

- A The Company has leases for Land and buildings and Office equipment. With the exception of short-term leases and leases of low-value underlying assets, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets in a consistent manner to its Land and buildings and Office equipment.
- B Total cash outflow for leases for the year ended 31 March 2020 was Rs.230.98 lacs.
- C The company has short term lease agreements in which there are no lock in periods. The disclosure requirement related to total commitment of short term leases is thus not applicable to the company.
- D Information about extension and termination options

Right of use assets	Number of leases	Range of remaining term	Average remaining lease term	Number of leases with extension option	Number of leases with purchase option	Number of leases with termination option
Land	2	75 Years	75 Years	1	-	1
Buildings	4	6-17 months	11 months	4	-	4
Office Equipment	1	27 months	27 months	1	-	1

- E There are no leases which are yet to commence as on 31 March 2020.
- F Impact on transition
- Effective 1 April 2019, the Company has adopted Ind AS 116 "Leases" and applied modified retrospective approach to all lease contracts existing as at 1 April 2019. On transition, the adoption of new standard resulted in recognition of lease liability of Rs. 357.29 lacs and corresponding right of use asset of Rs. 357.29 lacs.
 - The Company has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of Ind AS 116, being 1 April 2019.
 - Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Company has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116.
 - On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets the Company has applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense over the remaining lease term.
 - On transition to Ind AS 116 the weighted average incremental borrowing rate applied to lease liabilities recognised was 8.25%

b) Assets given under operating lease

- Uncollectible minimum lease payments receivable at the Balance sheet date
- Future minimum lease payments receivable:

42 Revenue related disclosures

a) Revenue from Contracts with Customers

Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

The Company has applied Ind AS 115 prospectively from 1 April 2018 and the adoption of this standard did not have a material impact on the financial statements of the Company.

b) Disaggregation of revenue

Revenue recognised mainly comprises of sale of products which majorly comprises of piston, piston rings and other auto components. Set out below is the disaggregation of the Company's revenue from contracts with customers:

Particulars	Rs. in lacs	
	Year Ended 31 March 2020	Year Ended 31 March 2019

e Satisfaction of performance obligations

The Company's revenue is derived from the single performance obligation to transfer primarily its products under arrangements in which the transfer of control of the products and the fulfilment of the Company's performance obligation occur at the same time. Revenue from the sale of goods is recognized when the Company has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Company will collect the consideration to which it is entitled to in exchange for the goods. Whether the customer has obtained control over the asset depends on when the goods are made available to the carrier or the buyer takes possession of the goods, depending on the delivery terms. Revenue is measured at the transaction price of the consideration received or receivable, the amount the Company expects to be entitled to.

f Payment terms

The sale of goods is typically made under credit payment terms differing from customer to customer and ranges between 30-60 days (excluding transit days).

g Variable considerations associated with such sales

Periodically, the Company announces various volume and other rebate programs, where once a certain volume or other conditions are met, it refunds the customer some portion of the amounts previously billed or paid. For such arrangements, the Company only recognizes revenue for the amounts it ultimately expects to realize from the customer. The Company estimates the variable consideration for these programs using the most likely amount method or the expected value method, whichever approach best predicts the amount of the consideration based on the terms of the contract and available information and updates its estimates each reporting period.

44. Provision for regulatory matters

The Company is continuously evaluating processes for regulatory matters at its factories based on more accurate evidences available, a provision, towards costs to be incurred to remediate these matters, of Rs.212.95 lacs is included under Note no.14 for provisions which are net of amounts utilized of Rs.121.83 lacs during the year towards remediation.

In addition to the above, the provision for regulatory matters includes a provision of Rs.1,304.13 lacs towards certain other regulatory matters.

The Company is actively seeking to resolve these actual and potential statutory, taxation, regulatory and contractual obligations. In accordance with requirements of Indian Accounting Standard (Ind AS) 37 on 'Provisions, Contingent liability and Contingent assets' issued by the Institute of Chartered Accountants of India, although difficult to quantify based on the complexity of the issues, the Company has accrued amounts corresponding to its best estimate of the costs associated with such regulatory and contractual obligations on the basis of available information and best professional judgment of experts appointed for this exercise.

Based on consultations obtained from the experts in respect of the said matters, in management's view, no further costs are expected to be incurred for which a provision would be required at this stage and considers the provisions made to be adequate.

45. Management support charges

"During the financial year 2019-20, the company has paid the Management Support charges under Cost Allocation Agreement with Federal Mogul Holding Deutschland GmbH to Rs. 2,654.11 lacs (Previous year 2018-19 Rs.3,211.68 lacs).

These charges are availment of centralised services pertaining to all the products of the company and, inter-alia, include Technical Support, Operations Management, Applications Engineering, Global Executive Management Services, Purchasing, Key Accounts Sales Management. This charge is based on actual services received by the company on cost basis without any mark up and is at an arm's length basis."

46. Per transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961, the Company is required to use certain specific methods in computing arm's length prices of international transactions with associated enterprises and maintain adequate documentation in this respect. Since law requires existence of such information and documentation to be contemporaneous in nature, the Company has appointed independent consultants for conducting a Transfer Pricing Study (the 'Study') to determine whether the transactions with associate enterprises undertaken during the financial year are on an "arms length basis". Management is of the opinion that the Company's international transactions are at arm's length and that the results of the on-going study will not have any impact on the financial statements and the independent consultants appointed have also preliminarily confirmed that they do not expect any transfer pricing adjustments.

49. COVID-19 continues to spread across the globe including India, which has contributed to a significant decline and volatility in global and Indian financial markets and a significant decrease in global and local economic activities. In view of the highly uncertain economic environment, the extent to which the COVID-19 pandemic will impact the business of the Company depends upon future developments that cannot be predicted reliably at this stage. However, based on the preliminary estimates, the Company does not foresee any significant incremental risk to the recoverability of its assets or in meeting its financial obligations over the foreseeable future, given early and required steps taken to contain, protect and mitigate the exposure. Pursuant to the relaxed guidelines, the Company has now resumed its operations, partially. Since the situation is continuously evolving, the impact assessed in future may be different from the estimates made as at the date of approval of these financial results. The Company will continue to closely monitor any material changes arising due to the impact of this pandemic/future economic conditions impacting the financial and operational performance of the Company and take necessary measures to address the situation

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY ("CSR") ACTIVITIES FOR THE FINANCIAL YEAR 2019-20
1. A brief outline of the Company's CSR policy, including overview of the projects or programs undertaken and proposed to be undertaken

We believe we must live up to our responsibilities, honour our commitments and be accountable to those we serve and to the communities in which we operate. The bond between community and business is symbiotic and mutually advantageous; one cannot exist effectively without the other. We are driven to strengthen that relationship through our responsible management approach to the benefit of all of our stakeholders. We also want to have a positive impact locally – making connections with those in every city where we have employees and operations – and giving back in meaningful ways based on local needs.

Our social investment programs focus on five areas where we believe we can add the most value and make a significant and lasting impact.

- **Promotion of Education** – Promoting quality education among less privileged children, especially girl child, to bring about a social change.
- **Preventive Health care** – To directly and indirectly improve the health of fellow citizens, especially the socially and economically marginalized groups by working actively in areas of preventive health and sanitation and making available safe drinking water.
- **Rural Development Project**– We undertake to maintain our commitment to contribute to economic development while improving the quality of life of the workforce and their families as well as of the community and society at large by supporting local schools & hospitals i.e. community development.
- **Employment Enhancing Vocational Skills** – The biggest challenge that the Industry is facing today is the availability of trained and skilled Manpower. Industries see this as a major bottleneck in their expansion plans. They also face challenges to maintain the desired output and quality due to lack of availability of skilled manpower. We plan to launch series of programmes to provide technical and vocational training with an ultimate aim of creating world class skilled work force and making the potential employees 'Job Ready' before they embark upon their professional career.
- **Women Empowerment** – Equip people, particularly women, with skills and resources to build a better future for themselves.

The CSR activities are taken up primarily in and around areas of Company's location, within a radius of 15- 30 Km.

Independent Auditor's Report

To the Members of Federal-Mogul TPR (India) Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Federal-Mogul TPR (India) Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2020, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 42 of the accompanying financial statements, which describes the uncertainties due to the outbreak of Covid-19 pandemic and the management's evaluation of the impact on the financial statements of the Company as at the balance sheet date. Our opinion is not modified in respect of this matter.

Information other than the Financial Statements and Auditor's Report thereon

5. The Company's Board of Directors is responsible for the other information. The other information obtained at the date of this auditor's report is information included in the directors' report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

6. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial

performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

8. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they

FEDERAL-MOGUL TPR (INDIA) LIMITED

could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

10. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation,

structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

12. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

13. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.

14. Further to our comments in Annexure A, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) the financial statements dealt with by this report are in agreement with the books of account;
- d) in our opinion, the aforesaid financial statements comply with Ind AS specified under section 133 of the Act;
- e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of

section 164(2) of the Act;

f) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 25 June 2020 as per Annexure B expressed an unmodified opinion; and

g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

- i. the Company, as detailed in note 28 to the financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2020;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;
- iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2020; and
- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

**Annexure A to the Independent Auditor's Report of even date to the members of Federal-Mogul TPR(India) Limited, on the financial statements for the year ended 31 March 2020****Annexure A**

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (I) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, intangible assets and right of use assets.
- (b) The Company has a regular program of physical verification of its property, plant and equipment under which property, plant and equipment are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain property, plant and equipment were verified during the year and no material discrepancies were noticed on such verification.
- (c) The Company does not hold any immovable property (in the nature of 'property, plant and equipment'). Accordingly, the provisions of clause 3(i) (c) of the Order are not applicable.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit. No material discrepancies were noticed on the aforesaid verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Section 186 in respect of loan. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and Section 186 of the Act in respect of investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) The Company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, to the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

**Annexure B to the Independent Auditor's Report of even date to the members of Federal-Mogul TPR (India) Limited on the financial statements for the year ended 31 March 2020****Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')**

1. In conjunction with our audit of the financial statements of Federal-Mogul TPR (India) Limited ('the Company') as at and for the year ended 31 March 2020, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of Internal Control stated in the Guidance note on the Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by The Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- 8 In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note issued by the ICAI.

**Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020**

(All amounts in Rs. lacs, unless otherwise stated)

1. Corporate information

Federal-Mogul TPR (India) Limited (the 'Company') is a subsidiary of Federal-Mogul Goetze (India) Limited.

The Company in technical collaboration with Teikoku Piston Ring Co. Ltd, Japan and Federal Mogul UK Investments Limited, a group company of Tenneco Inc., USA (from 01 October 2018, erstwhile parent Federal Mogul LLC, USA), manufactures steel rings used in passenger vehicles automobiles.

At the yearend, 51% of the shares of the Company are held by Federal-Mogul Goetze (India) Limited, 40% held by Teikoku Piston Ring Co. Ltd and 9% held by Federal Mogul UK Investments Limited, a group company of Tenneco Inc., USA (from 01 October 2018, erstwhile parent Federal Mogul LLC, USA).

2. Statement of significant accounting policies**2.1 Statement of compliance with Ind AS**

These financial statements ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015, as amended and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2020 were authorized and approved for issue by the Board of Directors on 25 June 2020.

2.2 Summary of Significant Accounting Policies**a) Overall consideration**

The financial statements have been prepared using the significant accounting policies and measurement bases summarized below. These were used throughout all periods presented in the financial statements.

Basis of preparation

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies.

b) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Act. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

c) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the year. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognised in the current and future periods.

d) Property, plant and equipment*Recognition and initial measurement*

Property plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate

asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

FEDERAL-MOGUL TPR (INDIA) LIMITED

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

Subsequent measurement (depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on a straight-line basis, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Companies Act, 2013:

Asset Class	Estimated useful life (in years)
Plant & Machinery	7.5 to 21 years
Computers	3 years
Furniture and fixtures	10 years
Vehicles	8 Years

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

e) Intangible assets

Recognition and initial measurement

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (amortisation)

The cost of capitalised software is amortised over a period in the range of 5 years from the date of its acquisition.

f) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

g) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

h) Financial instruments*Initial recognition and measurement*

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below

Non-derivative financial assets*Subsequent measurement*

i. Financial assets carried at amortised cost – a financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Non-derivative financial liabilities*Subsequent measurement*

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

FEDERAL-MOGUL TPR (INDIA) LIMITED

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

i) Leases

Transition

Effective 1 April 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on 1 April 2019 using the modified retrospective method and elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition. Comparatives as at and for the year ended 31 March 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended 31 March 2019.

Refer note 30 for details.

The Company as a lessee

The Company's leased asset classes primarily consist of leases for land and Building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on the remaining term of the lease.

Certain lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

j) Inventories

Inventories are valued as follows:

Raw materials, components, stores and spares and bought out tools.	Lower of cost and net realisable value. Cost represents purchase price and other direct costs and is determined on a moving weighted average cost basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
Work-in-progress	Lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads. Cost is determined on a weighted average basis.

(All amounts in Rs. lacs, unless otherwise stated)

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Provision for obsolescence is determined based on management's assessment and is charged to profit and loss account.

k) Revenue Recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. A performance obligation is a promise in a contract to transfer a distinct good (or a bundle of goods) to the customer and is the unit of account in Ind AS 115. A contract's transaction price is allocated to each distinct performance obligation and recognised as revenue, as or when, the performance obligation is satisfied. The Company recognises revenue when it transfers control of a product to a customer. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payments and excludes tax and duties collected on behalf of the government. The Company recognises revenue from the following major sources:

(i) Sale of products:

Revenue from sale of products is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. It is measured at fair value consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The Company recognises revenue when it transfers control over a product to a customer i.e. when goods are delivered at the delivery point, as per terms of the agreement, which could be either customer premises or carrier premises who will deliver goods to the customer. When payments received from customers exceed revenue recognised to date on a particular contract, any excess (a contract liability) is reported in the Balance Sheet under other current liabilities (refer note).

Satisfaction of performance obligations

The Company's revenue is derived from the single performance obligation to transfer primarily products under arrangements in which the transfer of control of the products and the fulfilment of the Company's performance obligation occur at the same time. Revenue from the sale of goods is recognised when the Company has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Company will collect the consideration to which it is entitled to in exchange for the goods.

Whether the customer has obtained control over the asset depends on when the goods are made available to the carrier or the buyer takes possession of the goods, depending on the delivery terms. For the Company, generally the criteria to recognise revenue has been met when its products are delivered to its customers or to a carrier who will transport the goods to its customers, this is the point in time when the Company has completed its performance obligations. Revenue is measured at the transaction price of the consideration received or receivable, the amount the Company expects to be entitled to.

Payment terms

The sale of goods is typically made under credit payment terms differing from customer to customer and ranges between 30-60 days.

Variable considerations associated with such sales

Periodically, the Company launches various volume or other rebate programs where once a certain volume or other conditions are met, it gives the customer as volume discount some portion of the amounts previously billed or paid. For such arrangements, the Company only recognises revenue for the amounts it ultimately expects to realize from the customer. The Company estimates the variable consideration for these programs using the most likely amount method or the expected value method, whichever approach best predicts the amount of the consideration based on the terms of the contract and available information and updates its estimates each reporting period.

(ii) Interest:

Interest income is recorded on accrual basis using the effective interest rate (EIR) method

l) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial

(All amounts in Rs. lacs, unless otherwise stated)

period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary, interruption.

m) Foreign Currency Transactions

Functional and presentation currency

The financial statements are presented in Indian Rupee ('INR or Rs') which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items outstanding at the balance sheet date are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transactions.

Exchange differences arising on such conversion and settlement at rates different from those at which they were initially recorded, are recognised in the statement of profit and loss in the year in which they arise.

n) Retirement and other employee benefits

(i) Provident fund contributions are charged to profit and loss account, when contributions paid/payable are due to "Goetze India Limited Provident Fund Trust", administered by the trustees and to the Regional Provident Fund Commissioners. The Company accrues for the deficit in the Provident Fund trust as per the books of accounts of the Trust.

(ii) Gratuity liability under the Payment of Gratuity Act is accrued on the basis of an actuarial valuation made at the end of each financial year. The actuarial valuation is done as per projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to other comprehensive income in the year in which such gains or losses are determined.

(iii) Short term compensated absences are provided for based on estimates. Long term compensation liability for leave encashment is determined in accordance with company policy and is measured on the basis of valuation by an independent actuary at the end of the financial year. The actuarial valuation is done as per projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the year in which such gains or losses are determined.

(iv) Superannuation Benefit

The Company has superannuation obligation administered with Life Insurance Corporation of India (LIC). Contributions to the defined contribution scheme are charged to profit and loss account when contributions paid/ payable are due to such fund. There are no other obligations other than the contribution payable to the respective trusts.

(v) National Pension Scheme:

The Company makes specified monthly contributions towards national pension scheme to government administered scheme which is a defined contribution plan. The Company's contribution is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

o) Income Taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

p) Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

q) Provisions, contingent liabilities and contingent assets

Provisions are recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are discounted to their present values, where the time value of money is material. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no provision is recognised.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

r) Cash and Cash Equivalents

Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

s) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

Significant management judgements

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Impairment of financial assets – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding financial assets.

Contingent Liabilities - The Company is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Company often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Company accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Provisions – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from this judgement.

Significant estimates

Recoverability of advances/receivables - At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

FEDERAL-MOGUL TPR (INDIA) LIMITED

Notes to financial statement for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

The following are the amounts recognised in profit or loss:

Particulars	As at March 2020
Depreciation expense of right-of-use assets	85.46
Interest expense on lease liabilities	22.72
Expense relating to short term lease (included in other expenses)	13.00
	121.18

(ii) Lease related disclosures

- A The Company has leases for Land and buildings. With the exception of short-term leases and leases of low-value underlying assets, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets in a consistent manner to its Land and buildings.
- B Total cash outflow for leases for the year ended 31 March 2020 was Rs. 99.08 lacs.
- C The company has short term lease agreements in which there are no lock in periods. The disclosure requirement related to total commitment of short term leases is thus not applicable to the company.
- D Information about extension and termination options

Right of use assets	Number of leases	Range of remaining term	Average remaining lease term	Number of leases with extension option	Number of leases with purchase option	Number of leases with termination option
Buildings	1	33 months	33 months	1	-	1

E There are no leases which are yet to commence as on 31 March 2020.

F Impact on transition

- 1 Effective 1 April 2019, the Company has adopted Ind AS 116 "Leases" and applied modified retrospective approach to all lease contracts existing as at 1 April 2019. On transition, the adoption of new standard resulted in recognition of lease liability of Rs. 320.34 lacs and corresponding right of use asset of Rs. 320.34 lacs.
- 2 The Company has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of Ind AS 116, being 1 April 2019.
- 3 Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Company has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116.
- 4 On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets the Company has applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense over the remaining lease term.
- 5 On transition to Ind AS 116 the weighted average incremental borrowing rate applied to lease liabilities recognised was 8.25%.

31. Per transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961, the Company is required to use certain specific methods in computing arm's length prices of international transactions with associated enterprises and maintain adequate documentation in this respect. Since law requires existence of such information and documentation to be contemporaneous in nature, the Company has appointed independent consultants for conducting a Transfer Pricing Study (the 'Study') to determine whether the transactions with associate enterprises undertaken during the financial year are on an "arms length basis". Management is of the opinion that the Company's international transactions are at arm's length and that the results of the on-going study will not have any impact on the financial statements and the independent consultants appointed have also preliminarily confirmed that they do not expect any transfer pricing adjustments.

34 Fair value disclosures**i) Fair values hierarchy**

Financial assets and financial liabilities measured at fair value in the statement of financial position are classified into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

FEDERAL-MOGUL TPR (INDIA) LIMITED

Notes to financial statement for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

(ii) Financial assets and liabilities measured at fair value - recurring fair value measurements

The Company does not have any financial instruments which are measured at Fair value either through statement of profit and loss or through other comprehensive income.

(iii) Fair value of instruments measured at amortised cost

The management assessed that cash and cash equivalents, trade receivables, other receivables, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

ii) Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the company. The Company is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The company's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables and
- deposits with banks and financial institutions.
- intercorporate deposits

a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the company, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

- A: Low
- B: Medium
- C: High

	Trade receivables	2,851.48	2,431.41
C: High	Trade receivables	12.52	11.32

Cash & cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks across the country.

Trade receivables

The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The trade receivables are considered of high quality and accordingly no life time expected credit losses are recognised on such receivables.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes security deposits, intercorporate deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

b) Expected credit losses

The Company provides for expected credit losses based on the following:

The company recognizes lifetime expected credit losses on trade receivables using a simplified approach, wherein Company has defined percentage of provision by analysing historical trend of default based on the criteria defined above. And such provision percentage determined have been considered to recognise life time expected credit losses on trade receivables.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity classification based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

C) Market Risk

a) Foreign currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, Euro and Japanese Yen. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of the Company entities. Considering the low volume of foreign currency transactions, the Company's exposure to foreign currency risk is limited and the Company hence does not use any derivative instruments to manage its exposure. Also, the Company does not use forward contracts and swaps for speculative purposes.

b) Interest rate risk

i) Liabilities

The company does not have any borrowings and hence there is no interest rate risk.

ii) Assets

The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

The Company does not have significant investments in equity instruments which create an exposure to price risk.

36. Capital management

The Company's capital management objectives are

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

38 Revenue related disclosures

a. Revenue from Contracts with Customers

Revenue from Contracts with Customers Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach: (i) Identify the contract(s) with customer; (ii) Identify separate performance obligations in the contract; (iii) Determine the transaction price; (iv) Allocate the transaction price to the performance obligations; and (v) Recognise revenue when a performance obligation is satisfied. The Company has applied Ind AS 115 prospectively from 1 April 2018 and the adoption of this standard did not have a material impact on the financial statements of the Company.

b. Disaggregation of revenue

Revenue recognised mainly comprises of sale of products which majorly comprises of piston, piston rings and other auto components. Set out below is the disaggregation of the Company's revenue from contracts with customers:

Particulars	Year Ended 31 March 2020	Year Ended 31 March 2019
Revenue from contracts with customers		
Sale of products	9,490.55	10,672.34
Other operating income	9.28	12.69
Total revenue covered under Ind AS 115	9,499.83	10,685.03

c. Contract balances

The following table provides information about receivables, contract assets and contract liabilities from contract with customers:

Particulars	As at 31 March 2020	As at 31 March 2019
Contract liabilities		
Advances from consumers	4.17	10.12
Total contract liabilities	4.17	10.12
Receivables		
Trade receivables	2,864.00	2,442.73
Less : Allowances for expected credit loss	(12.52)	(16.40)
Net receivables	2,851.48	2,426.33

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

**Notes to financial statement for the year ended 31 March 2020**

(All amounts in Rs. lacs, unless otherwise stated)

d. Significant changes in the contract assets and the contract liabilities balances during the year are as follows:

Particulars	Year Ended	Year Ended
	31 March 2020	31 March 2019
	Contract Liabilities	Contract Liabilities
	Advances from customers	Advances from customers
Opening balance	10.12	19.72
Addition during the year	1.49	6.14
Revenue recognised during the year/ amount refunded/adjusted during the year	(7.44)	(15.74)
Closing balance	4.17	10.12

e Satisfaction of performance obligations

The Company's revenue is derived from the single performance obligation to transfer primarily its products under arrangements in which the transfer of control of the products and the fulfilment of the Company's performance obligation occur at the same time. Revenue from the sale of goods is recognized when the Company has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Company will collect the consideration to which it is entitled to in exchange for the goods. Whether the customer has obtained control over the asset depends on when the goods are made available to the carrier or the buyer takes possession of the goods, depending on the delivery terms. Revenue is measured at the transaction price of the consideration received or receivable, the amount the Company expects to be entitled to.

f Payment terms

The sale of goods is typically made under credit payment terms differing from customer to customer and ranges between 30-60 days (excluding transit period).

g Variable considerations associated with such sales

Periodically, the Company announces various volume and other rebate programs, where once a certain volume or other conditions are met, it refunds the customer some portion of the amounts previously billed or paid. For such arrangements, the Company only recognizes revenue for the amounts it ultimately expects to realize from the customer. The Company estimates the variable consideration for these programs using the most likely amount method or the expected value method, whichever approach best predicts the amount of the consideration based on the terms of the contract and available information and updates its estimates each reporting period.

42 COVID-19 continues to spread across the globe including India, which has contributed to a significant decline and volatility in global and Indian financial markets and a significant decrease in global and local economic activities. In view of the highly uncertain economic environment, the extent to which the COVID-19 pandemic will impact the business of the Company depends upon future developments that cannot be predicted reliably at this stage. However, based on the preliminary estimates, the Company does not foresee any significant incremental risk to the recoverability of its assets or in meeting its financial obligations over the foreseeable future, given early and required steps taken to contain, protect and mitigate the exposure. Pursuant to the relaxed guidelines, the Company has now resumed its operations, partially. Since the situation is continuously evolving, the impact assessed in future may be different from the estimates made as at the date of approval of these financial results. The Company will continue to closely monitor any material changes arising due to the impact of this pandemic/future economic conditions impacting the financial and operational performance of the Company and take necessary measures to address the situation.

Independent Auditors' Report

To the Members of Federal-Mogul Goetze (India) Limited

Report on the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Federal Mogul Goetze (India) Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), as listed in Annexure 1, which comprise the Consolidated Balance Sheet as at 31 March 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity

with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs of the Group, as at 31 March 2020, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the

audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 50 of the accompanying consolidated financial statements, which describes the uncertainties due to the outbreak of Covid-19 pandemic and the management's evaluation of the impact on the consolidated financial statements of the Group as at the balance sheet date. Our opinion is not modified in respect of this matter.

Key Audit Matter

5. Key audit matters are those matters that, in our professional judgment were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

6. We have determined the matter described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>Provisions and contingent liabilities relating to litigations</p> <p>As disclosed in Note 37 to the consolidated financial statements, the group is involved in various direct taxes, indirect taxes, labour laws and other litigations ('litigations') that are pending with various tax authorities and courts. The group has recognised provisions aggregating to Rs. 1,517.09 lacs and disclosed contingent liabilities of Rs. 6,609.95 Lacs related to these litigations.</p> <p>Whether a liability is recognised as a provision or disclosed as a contingent liability in the financial statements is inherently judgmental dependent on a number of significant assumptions and assessments. These include assumptions relating to the likelihood and/or timing of the cash outflows from the business and the interpretation of local laws and pending assessments at various levels of the statute. We placed specific focus on the judgements in respect to these demands against the group.</p>	<p>Our audit procedures in relation to the provisions and contingent liabilities relating to litigations, included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Obtained an understanding of the management process for: <ul style="list-style-type: none"> - identification of legal and tax matters initiated against the group, - assessment of accounting treatment for each such litigation identified under accounting principles of Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets, and - measurement of amounts involved. • Evaluated the design and tested the operating effectiveness of key controls around above process. <p>Test of details included, but were not limited to, the following-</p> <ul style="list-style-type: none"> • Obtained an understanding of the nature of litigations pending against the group and discussed the key developments during the year for key litigations with the management and respective legal counsels handling such cases on behalf of the group. • Assessed the group's assumptions and estimates in respect of litigations, including the liabilities or provisions recognised or contingent liabilities disclosed in the financial statements. - Obtained and evaluating the responses in the independent confirmations obtained from the consultants representing the group before the various authorities;
- For cases represented by consultants, reviewed each attorney's response obtained as above to ensure that the conclusions reached by the management are supported by sufficient legal rationale and adequate information is included for the management to determine the appropriate accounting treatment of such cases in the financial statements;
- Involved auditor's experts to assess the group's interpretation and application of relevant tax laws to evaluate the appropriateness of key assumptions used and the reasonableness of estimates in relation to uncertain tax positions, taking into account past precedents;
- Evaluated the disclosures made relating to provisions and contingent liabilities for their appropriateness.

We have determined that there are no other key audit matters to communicate in our report.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

7. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

8. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/ management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and

prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

9. In preparing the consolidated financial statements, the respective Board of Directors of the companies are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

10. Those Board of Directors are also responsible for overseeing the financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain

reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates

and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are

therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit and on the consideration of the report, on separate financial statements of the subsidiary, we report that the Holding Company and its subsidiary company covered under the Act paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

17. As required by Section 143 (3) of the Act, based on our audit and on the consideration of the report on separate financial statements and other financial information of the subsidiary, we report, to the extent applicable, that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
- c) the consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

d) in our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act;

e) on the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company and the report of its subsidiary company, covered under the Act, none of the directors of the Group company, covered under the Act, are disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act;

f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and

g) with respect to the other matters to be

included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report on separate financial statement as also the other financial information of the subsidiary:

i. the consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 37 to the consolidated financial statements;

ii. the Holding Company and its subsidiary company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;

iii. there has been no delay in transferring amounts, required to be transferred, to

the Investor Education and Protection Fund by the Holding Company and its subsidiary company, during the year ended 31 March 2021; and

iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these consolidated financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Federal-Mogul Goetze (India) Limited on the consolidated financial statements for the year ended 31 March 2020**Annexure A****Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')**

1. In conjunction with our audit of the consolidated financial statements of Federal Mogul Goetze (India) Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), as at and for the year ended 31 March 2020, we have audited the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary company, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of

internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that

receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion the Holding Company and its subsidiary company which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2020, based on Internal Financial Controls Over Financial Reporting criteria established by the Group considering the essential components of Internal Control stated in the Guidance Note issued by the ICAI.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Corporate information

Federal-Mogul Goetze (India) Limited ('FMGIL' or 'the Company') and its Subsidiary (Group), is inter-alia engaged mainly in the manufacture, supply and distribution of 'automotive components' used in two/three/four wheeler automobiles.

The principal facilities of the Group are located at Patiala (Punjab), Bengaluru (Karnataka) and Bhiwadi (Rajasthan), with its registered office in Delhi. The Company is listed at National Stock Exchange of India Limited and Bombay Stock Exchange.

Federal Mogul Holdings Limited, Mauritius, is the immediate parent Company and ultimate parent Company is Tenneco Inc., USA (from 01 October 2018, erstwhile parent Federal Mogul LLC, USA).

1. Statement of significant accounting policies

1.1 Statement of compliance with Ind AS

These financial statements ('Consolidated financial statements') of the Group have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015, as amended and other relevant provisions of the Act. The Group has uniformly applied the accounting policies during the periods presented.

The financial statements for the year ended 31 March 2020 were authorised and approved for issue by the Board of Directors on 26 June 2020.

1.2 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiary as at March 31, 2020. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and

The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March, 2020.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

1.4 Summary of Significant Accounting Policies

a) Overall consideration

The financial statements have been prepared using the significant accounting policies and measurement bases summarized below. These were used throughout all periods presented in the financial statements.

Basis of preparation

The consolidated financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies.

b) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

c) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the year. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognized in the current and future periods.

d) Property, plant and equipment

Recognition and initial measurement

Property plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

In case an item of property, plant and equipment is acquired on deferred payment basis, interest expenses included in deferred payment is recognised as interest expense and not included in cost of asset.

Subsequent measurement (depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on a straight-line basis, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Companies Act, 2013:

Asset Class	Estimated useful life (in years)
Plant & Machinery	5 to 21 years
Furniture and fixtures	3 to 10 years
Vehicles	8 to 10 years
Computers	3 years
Building	20 to 30 years
Leasehold land	99 years

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020**e) Intangible assets***Recognition and initial measurement*

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (amortisation)

The cost of capitalised software is amortised over a period in the range of 5 years from the date of its acquisition. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

f) Impairment of non-financial assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

g) Financial instruments*Initial recognition and measurement*

Financial assets and financial liabilities are recognised when the group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

Non-derivative financial assets*Subsequent measurement*

i. Financial assets carried at amortised cost – a financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

ii. Financial assets carried at fair value

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Dividends on such investments are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020*De-recognition of financial assets*

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities*Subsequent measurement*

Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h) Impairment of financial assets

In accordance with Ind AS 109, the group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted average difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Group is required to consider –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the group applies the simplified approach as per Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the group uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date

i) Fair Value of financial instrument

The Group measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal Market, in the most advantageous market for the asset or liability.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1: Quoted prices for identical instruments in an active market;
- Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and
- Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

j) Leases**Transition**

Effective 1 April 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on 1 April 2019 using the modified retrospective method and elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition. Comparatives as at and for the year ended 31 March 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended 31 March 2019.

Refer note 39 for details.

The Company as a lessee

The Company's leased asset classes primarily consist of leases for land and Building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on the remaining term of the lease.

Certain lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

**Summary of significant accounting policies and other explanatory information for the year ended
31 March 2020****k) Inventories****Inventories are valued as follows:**

Inventories are valued at cost or net realisable value, whichever is lower. The cost in respect of the various items of inventory is computed as under:

- Raw material cost includes cost of purchases and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- Stores and spares cost includes cost of purchases and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- In case of work in progress-at raw material cost plus conversion costs depending upon the stage of completion.
- In case of finished goods-cost includes cost of direct material, labour, other direct cost and a proportion of fixed manufacturing overheads allocated based on the normal operating capacity but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products. Raw materials and other supplies held for use in the production of finished products are not written down below cost, except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

l) Revenue Recognition

Revenue is recognised at fair value of consideration received or receivable net of related rebates, to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured.

i) Sale of products

Revenue from sale of products is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. It is measured at fair value consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The Group recognises revenue when it transfers control over a product to a customer i.e. when goods are delivered at the delivery point, as per terms of the agreement, which could be either customer premises or carrier premises who will deliver goods to the customer. When payments received from customers exceed revenue recognised to date on a particular contract, any excess (a contract liability) is reported in the Balance Sheet under other current liabilities (refer note).

Satisfaction of performance obligations

The Group's revenue is derived from the single performance obligation to transfer primarily products under arrangements in which the transfer of control of the products and the fulfilment of the Group's performance obligation occur at the same time. Revenue from the sale of goods is recognised when the Group has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Group will collect the consideration to which it is entitled to in exchange for the goods.

Whether the customer has obtained control over the asset depends on when the goods are made available to the carrier or the buyer takes possession of the goods, depending on the delivery terms. For the Group, generally the criteria to recognise revenue has been met when its products are delivered to its customers or to a carrier who will transport the goods to its customers, this is the point in time when the Group has completed its performance obligations. Revenue is measured at the transaction price of the consideration received or receivable, the amount the Group expects to be entitled to.

Payment terms

The sale of goods is typically made under credit payment terms differing from customer to customer and ranges between 30-60 days.

Variable considerations associated with such sales

Periodically, the Group launches various volume or other rebate programs where once a certain volume or other conditions are met, it gives the customer as volume discount some portion of the amounts previously billed or paid. For such arrangements, the Group only recognises revenue for the amounts it ultimately expects to realise from the customer. The Group estimates the variable

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

consideration for these programs using the most likely amount method or the expected value method, whichever approach best predicts the amount of the consideration based on the terms of the contract and available information and updates its estimates each reporting period.

ii) Interest:

Interest income is recorded on accrual basis using the effective interest rate (EIR) method

iii) Commission:

Commission income is accrued when due, as per the agreed terms.

iv) Export Benefits/Incentives:

Export entitlements under the Duty Entitlement Pass Book (DEPB) Scheme/ Duty Drawback scheme and Merchandise Exports from India Scheme are recognized in the profit and loss account when the right to receive credit as per the terms of the scheme is established in respect of exports made.

m) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds

A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary interruption.

n) Foreign Currency Transactions*Functional and presentation currency*

The financial statements are presented in Indian Rupee ('INR') which is also the functional and presentation currency of the Group.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items outstanding at the balance sheet date are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transactions.

Exchange differences arising on such conversion and settlement at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise.

o) Retirement and other employee benefits

(i) Provident fund contributions are charged to profit and loss account, when contributions paid/payable are due to "Goetze India Limited Provident Fund Trust", administered by the trustees and to the Regional Provident Fund Commissioners. The Group accrues for the deficit in the Provident Fund trust as per the books of accounts of the Trust.

(ii) Gratuity liability under the Payment of Gratuity Act is accrued on the basis of an actuarial valuation made at the end of each financial year. The actuarial valuation is done as per projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to other comprehensive income in the year in which such gains or losses are determined.

(iii) Short term compensated absences are provided for based on estimates. Long term compensation liability for leave encashment is determined in accordance with Group policy and is measured on the basis of valuation by an independent actuary at the end of the financial year. The actuarial valuation is done as per projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to statement of profit and loss in the year in which such gains or losses are determined.

**Summary of significant accounting policies and other explanatory information for the year ended
31 March 2020**

(iv) Superannuation Benefit

The Group has superannuation obligation administered with Life Insurance Corporation of India (LIC). Contributions to the defined contribution scheme are charged to profit and loss account when contributions paid/ payable are due to such fund. There are no other obligations other than the contribution payable to the respective trusts.

(v) National Pension Scheme

The Group makes specified monthly contributions towards national pension scheme to government administered scheme which is a defined contribution plan. The Group's contribution is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

p) Income Taxes

Tax expense recognised in the statement of profit and loss comprises of deferred tax and current tax not recognised in Other Comprehensive Income (OCI) or directly in equity.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India.

Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits (including Minimum Alternate Tax ('MAT') credit entitlement) or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Tax expense relating to items recognised in OCI or directly in equity is recognised outside profit or loss (in OCI or equity).

q) Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

r) Provisions, contingent liabilities and contingent assets

Provisions are recognised when present obligations as a result of a past event will probably lead to an outflow of economic resources and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises when there is a presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts. Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no provision is recognised.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

s) Cash and Cash Equivalents

Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

t) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors assess the financial performance and position of the Group, and makes strategic decisions and therefore the board would be the chief operating decision maker. The Group's primary business segment is manufacturing and trading of auto components. Considering the nature of Group's business and operations, there is only one reportable business segment.

u) Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the financial statements management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses.

The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgments, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below:

Significant management judgements

Recognition of deferred tax assets – Recognition of deferred tax assets is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. The recognition of deferred tax assets and reversal thereof is also dependent upon management decision relating to timing of availment of tax holiday benefits available under the Income Tax Act, 1961 which in turn is based on estimates of future taxable profits.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Group enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Impairment of financial assets – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding financial assets.

**Summary of significant accounting policies and other explanatory information for the year ended
31 March 2020**

Contingent Liabilities - The Group is the subject of certain legal proceedings which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Group often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Group accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Provision for warranties – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from this judgement.

Significant estimation uncertainties

Recoverability of advances/receivables - At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

Defined benefit obligation (DBO) – Management’s estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

31 Fair value disclosures

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are classified into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(ii) Group has only one investment carried at fair value through profit and loss account. The fair value of investment in GI Power Corporation Limited is determined to be zero. There are no other financial assets or liabilities carried at fair value.

Notes to the Consolidated Financial Statements for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

(iii) Fair value of instruments measured at amortised cost

Cash and cash equivalents, other bank balances, trade receivables, other current financial assets, trade payables, current borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the long term borrowings are determined by using discounted cash flow method using the appropriate discount rate. The discount rate is determined using other similar instruments incorporating the risk associated.
- The fair values of the unquoted investments in Shares of Vyshali Energy Private Limited is shown at cost as in accordance with agreement with parties.
- Loans are shown at cost as the same are given to government authorities till perpetuity.

** The Group has an investment in GI Power Corporation Limited which is carried at fair value which is equivalent to zero.

ii) Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk. The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Group's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets. - **cash and cash equivalents, - trade receivables, - loans & receivables carried at amortised cost, and- deposits with banks.**

a) Credit risk management

The Group assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the group, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

	Trade receivables	19,693.25	23,901.43
C: High	Trade receivables	184.59	178.14

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks across the country.

Trade receivables

The Group closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Group assesses increase in credit risk on an ongoing basis for amounts receivable that become past due and default is considered to have occurred when amounts receivable become six months past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortized cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

b) Expected credit losses

The Group provides for expected credit losses based on the following:

The Group recognizes lifetime expected credit losses on trade receivables using a simplified approach, wherein Group has defined percentage of provision by 'analysing historical trend of default based on the criteria defined above. And such provision percentage determined have been 'considered to recognise life time expected credit losses on trade receivables.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Group maintains flexibility in funding by maintaining availability under committed facilities. Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entity operates. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Maturities of financial liabilities

The tables below analyses the Group's financial liabilities into relevant maturity companyings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. For balances due within 12 months amounts equal their carrying values as the impact of discounting is not significant.

C) Market Risk

a) Foreign currency risk

The Group is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, Euro and Japanese Yen. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of the Group. Considering the low volume of foreign currency transactions, the Group's exposure to foreign currency risk is limited and the Group hence does not use any derivative instruments to manage its exposure. Also, the Group does not use forward contracts and swaps for speculative purposes.

(i) Foreign currency risk exposure:

b) Interest rate risk

i) Liabilities

The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. As at 31 March 2019, the Group is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Group's investments in fixed deposits pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

Particulars	As at 31 March 2020	As at 31 March 2019
Variable rate borrowing	-	1.45
Fixed rate borrowing	-	2,312.84
Total borrowings	-	2,314.30

Notes to the Consolidated Financial Statements for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

Sensitivity

Below is the sensitivity of profit or loss and equity changes in interest rates.

Particulars	As at 31 March 2020	As at 31 March 2019
Interest sensitivity*		
Interest rates – increase by 50 bp basis points	-	(0.01)
Interest rates – decrease by 50 bp basis points	-	0.01
* Holding all other variables constant		

ii) Assets

The Group's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

The Group does not have any significant investments in equity instruments which create an exposure to price risk.

33 Capital management

The Group's capital management objectives are

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders

The Group monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group's various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

Particulars	As at 31 March 2020	As at 31 March 2019
Total debt	-	2,314.29

The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The following are the amounts recognised in profit or loss:

Particulars	Year ended 31 March 2020
Depreciation expense of right-of-use assets	223.30
Interest expense on lease liabilities	20.87
Expenses relate to short term lease (included in other expenses)	99.28
	343.45

(ii) Lease related disclosures

- A The Company has leases for Land and buildings and Office equipment. With the exception of short-term leases and leases of low-value underlying assets, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets in a consistent manner to its Land and buildings and Office equipment.
- B Total cash outflow for leases for the year ended 31 March 2020 was Rs. 230.98 lacs.
- C The company has short term lease agreements in which there are no lock in periods. The disclosure requirement related to total commitment of short term leases is thus not applicable to the company.

D Information about extension and termination options

Right of use assets	Number of leases	Range of remaining term	Average remaining lease term	Number of leases with extension option	Number of leases with purchase option	Number of leases with termination option
Land	2	75 Years	75 Years	1	-	1

Office Equipment	1	27 months	27 months	1	-	1

Notes to the Consolidated Financial Statements for the year ended 31 March 2020

(All amounts in Rs. lacs, unless otherwise stated)

E There are no leases which are yet to commence as on 31 March 2020.

F Impact on transition

- 1 Effective 1 April 2019, the Company has adopted Ind AS 116 "Leases" and applied modified retrospective approach to all lease contracts existing as at 1 April 2019. On transition, the adoption of new standard resulted in recognition of lease liability of Rs. 357.29 lacs and corresponding right of use asset of Rs. 357.29 lacs.
- 2 The Company has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of Ind AS 116, being 1 April 2019.
- 3 Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Company has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116.
- 4 On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets the Company has applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense over the remaining lease term.
- 5 On transition to Ind AS 116 the weighted average incremental borrowing rate applied to lease liabilities recognised was 8.25%.

40. Employee benefit obligations
Gratuity

The parent and subsidiary Company has a defined benefit gratuity plan. Every employee who has completed five years or more of services, gets a gratuity on departure at 15 days basic salary (last drawn) for each completed year of service on terms not less favourable than the provisions of the payment of Gratuity Act, 1972. The scheme is funded with an insurance company in the form of a qualifying insurance policy. The following tables summaries the components of net benefit expense recognized in the Statement of Profit and Loss and the funded status and amounts recognized in the balance sheet for the plan.

Salary increase rate #	3% - 8% p.a.	7.00% p.a.

* For patiala unit of parent entity its 60 and others its 58 years. The estimates of seniority, future salary increases, considered in actuarial valuation, take account of price inflation, promotions and other relevant factors, such as supply and demand in the employment market.

Rate of employee turnover and salary increase depends upon various factors namely nature of employee, location etc.

(v) A quantitative sensitivity analysis for significant assumptions :

Description	As at 31 March 2020	As at 31 March 2019
Impact of the change in discount rate		
Present value of obligation at the end of the year	10,596.03	9,266.78
- Impact due to increase of 0.50 %	10,290.19	9,030.47
- Impact due to decrease of 0.50 %	10,918.84	9,515.00
Impact of the change in salary increase		
Present value of obligation at the end of the year	10,596.03	9,266.78
- Impact due to increase of 0.50 %	10,887.56	9,488.52
- Impact due to decrease of 0.50 %	10,315.38	9,051.00

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The following payouts are expected in future years:

Description	As at 31 March 2020

41 Revenue related disclosures

(a) Revenue from Contracts with Customers

Indian Accounting Standard 115 Revenue from Contracts with Customers (Ind AS 115), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

The Group has applied Ind AS 115 prospectively from 1 April 2018 and the adoption of this standard did not have a material impact on the financial statements of the Group.

(b) Disaggregation of revenue

Revenue recognised mainly comprises of sale of products which majorly comprises of piston, piston rings and other auto components. Set out below is the disaggregation of the Group's revenue from contracts with customers:

Particulars	As at 31 March 2020	As at 31 March 2019
Revenue from contracts with customers		
Sale of products		
Domestic	96,546.64	120,721.60
Export	10,230.64	10,938.64
Other operating income	1,763.47	2,522.75
Total revenue covered under Ind AS 115	108,540.75	134,182.99

(c) Contract balances

The following table provides information about receivables, contract assets and contract liabilities from contract with customers:

Particulars	As at 31 March 2020	As at 31 March 2019
Contract liabilities		
Advances from consumers	165.39	129.63
Security deposits received from customers	422.48	452.98
Total contract liabilities	587.87	582.61
Receivables		
Trade receivables	19,877.84	24,079.57
Less : Allowances for expected credit loss	(260.76)	(302.00)
Net receivables	19,617.08	23,777.57

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

(d) Significant changes in the contract assets and the contract liabilities balances during the year are as follows:

Particulars	As at 31 March 2020	
	Contract Liabilities	
	Advances from consumers	Security deposits received from customers
Opening balance	129.63	452.98
Addition during the year	5,345.02	44.92
Revenue recognised during the year/ amount refunded during the year	(5,309.26)	(75.42)
Closing balance	165.39	422.48

Particulars	As at 31 March 2019	
	Contract Liabilities	
	Advances from consumers	Security deposits received from customers
Opening balance	287.00	471.19
Addition during the year	5,603.45	72.69
Revenue recognised during the year/ amount refunded during the year	(5,760.82)	(90.90)
Closing balance	129.63	452.98

(e) Satisfaction of performance obligations

The Group's revenue is derived from the single performance obligation to transfer primarily its products under arrangements in which the transfer of control of the products and the fulfilment of the Group's performance obligation occur at the same time. Revenue from the sale of goods is recognized when the Group has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Group will collect the consideration to which it is entitled to in exchange for the goods.

Whether the customer has obtained control over the asset depends on when the goods are made available to the carrier or the buyer takes possession of the goods, depending on the delivery terms. Revenue is measured at the transaction price of the consideration received or receivable, the amount the Group expects to be entitled to.

(f) Payment terms

The sale of goods is typically made under credit payment terms differing from customer to customer and ranges between 30-60 days (excluding transit days).

(g) Variable considerations associated with such sales

Periodically, the Group announces various volume and other rebate programs, where once a certain volume or other conditions are met, it refunds the customer some portion of the amounts previously billed or paid. For such arrangements, the Group only recognizes revenue for the amounts it ultimately expects to realize from the customer. The Group estimates the variable consideration for these programs using the most likely amount method or the expected value method, whichever approach best predicts the amount of the consideration based on the terms of the contract and available information and updates its estimates each reporting period.

43. Provision for regulatory matters

The parent Company is continuously evaluating processes for regulatory matters at its factories based on more accurate evidences available, a provision, towards costs to be incurred to remediate these matters, of **Rs..212.95 lacs** is included under Note no. 14 for provisions which are net of amounts utilized of **Rs.121.83 lacs** during the year towards remediation.

In addition to the above, the provision for regulatory matters includes a provision of **Rs.1,304.13 lacs** towards certain other regulatory matters.

The Group is actively seeking to resolve these actual and potential statutory, taxation, regulatory and contractual obligations. In accordance with requirements of Indian Accounting Standard (Ind AS) 37 on 'Provisions, Contingent liability and Contingent assets' issued by the Institute of Chartered Accountants of India, although difficult to quantify based on the complexity of the issues, the Group has accrued amounts corresponding to its best estimate of the costs associated with such regulatory and contractual obligations on the basis of available information and best professional judgment of experts appointed for this exercise.

Based on consultations obtained from the experts in respect of the said matters, in management's view, no further costs are expected to be incurred for which a provision would be required at this stage and considers the provisions made to be adequate.

44. Management support charges

"During the financial year 2019-20, the group has paid the Management Support charges under Cost Allocation Agreement with Federal Mogul Holding Deutschland GmbH to **Rs. 2,654.11 lacs** (Previous year 2018-19 **Rs.3,211.68 lacs**). These charges are availment of centralised services pertaining to all the products of the parent company and, inter-alia, include Technical Support, Operations Management, Applications Engineering, Global Executive Management Services, Purchasing, Key Accounts Sales Management. This charge is based on actual services received by the parent company on cost basis without any mark up and is at an arm's length basis.

- 45.** Per transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961, the Group is required to use certain specific methods in computing arm's length prices of international transactions with associated enterprises and maintain adequate documentation in this respect. Since law requires existence of such information and documentation to be contemporaneous in nature, the Group has appointed independent consultants for conducting a Transfer Pricing Study (the 'Study') to determine whether the transactions with associate enterprises undertaken during the financial year are on an "arms length basis. Management is of the opinion that the Group's international transactions are at arm's length and that the results of the on-going study will not have any impact on the financial statements and the independent consultants appointed have also preliminarily confirmed that they do not expect any transfer pricing adjustments.

50. COVID-19 continues to spread across the globe including India, which has contributed to a significant decline and volatility in global and Indian financial markets and a significant decrease in global and local economic activities. In view of the highly uncertain economic environment, the extent to which the COVID-19 pandemic will impact the business of the Group depends upon future developments that cannot be predicted reliably at this stage. However, based on the preliminary estimates, the Group does not foresee any significant incremental risk to the recoverability of its assets or in meeting its financial obligations over the foreseeable future, given early and required steps taken to contain, protect and mitigate the exposure. Pursuant to the relaxed guidelines, the Group has now resumed its operations, partially. Since the situation is continuously evolving, the impact assessed in future may be different from the estimates made as at the date of approval of these financial results. The Group will continue to closely monitor any material changes arising due to the impact of this pandemic/future economic conditions impacting the financial and operational performance of the Group and take necessary measures to address the situation.
