Wanted in 27 cases across India, chain snatcher arrested from Kalyan

EXPRESS NEWS SERVICE
MUMBAI, FEBRUARY 6

THE MHB Colony police on Saturday laid a trap and arrested a 26-year-old chain snatcher from Ambivali area in Kalyan. Police had formed three teams consisting of 26 policemen to locate the accused, who was wanted in more than 27 cases across the country. According to police, the arrested person has been identified as Mohamed Zakir Farzaat Saied. Police officials said they were aware that miscreants from Ambivali often come to know after a police team enters their locality. Some local residents even attack the police teams, said officials.

Accordingly, a plan was prepared by the MHB Colony police, in which personnel from other police stations from Borivali and Malad were also involved.

"We had a tip-off that Saied was going to arrive at a tea stall there, so in the early hours of Saturday, three teams were dispatched to the spot. In order to avoid getting locals' attention, two ambulances and two other private vehicles were used to reach the location," said an officer. Saied was apprehended as soon as he arrived at the tea stall. "We had used an ambulance to pick him up and after he was caught, we left the area..." said an officer, adding, "However, the locals came to know that we were police so they started pelting stones at our vehicles."

Police said there are 27 cases registered against Saied in Mumbai, Delhi, Rajasthan, Gujarat and Uttar Pradesh.

MUMBAI, FEBRUARY 6

THE MUMBAI POLICE on Sunday wrote to the parents of MBBS student Sadichha Sane (22), seeking their blood samples to compare with blood stains found on the float tube found from Mittu Singh's house, who was arrested in connection with the murder.

Police said that chances of retrieving Sane's body were dim, as it was disposed of in Arabian Sea off Bandra bandstand as per their probe.

Therefore, matching blood samples will make it easier for the police to prove the case against Singh.

Alternatively, the absence of a DNA match and Sane's body will make it difficult for police to prove that Singh killed Sane and threw her body into the sea, said an officer.

Sadichha's father Manish Sane told *The Indian Express*, "We received a letter from police on Sunday seeking our blood samples."

Manish, however, has reservations about the blood found

on the tube after more than a year since the alleged crime.

"The tube was kept on the roof of Singh's Bandra tenement. I am surprised the blood has not washed off. However, for the DNA an willing to provide a sample of my hair but not blood," he said.

Police sources said that when they found dried splashes of blood on the tube, they "were doubtful whether DNA could be extracted from the stains. But the Forensic Science Laboratory (FSL) did a commendable job and managed

to do it," a source said.

"If parents' samples match, it will establish that the blood was Sadichha's. It will make our case against Singh very strong, even if we don't find her body," the source added.

The Mumbai crime branch had, based on circumstantial evidence, arrested Singh on

January 13, and made a second arrest in the case a day later. Police have said that during investigation, they found that Sane had died after Singh got into a scuffle with her late night at Bandra bandstand.

She fell on the rocks and died of injuries she sustained on her head, according to the

police.

As per police, Singh, using the tube and life jacket, discarded her body into the sea and fled the spot.

A missing person report was registered last year and the matter was transferred from the Bandra police to the Mumbai crime branch.

Mumbai: The Anti-Narcotics Cell of Mumbai Police seized drugs worth over Rs 40 lakh following a raid in Mazgaon area on Monday. An officer said the ANC found a person moving in a suspicious manner. On searching him, police found 220 grams of Mephedrone worth Rs 40 lakh.

Decoding the Budget

In conversation with

Neelkanth Mishra
India Strategist and Analyst, Credit Suisse, Part-Time Member - PM's Economic Advisory Council

P Vaidyanathan Iyer
Executive Editor, The Indian Express

The Union Budget for 2023-24 underlined the government's priorities: a push towards capital expenditure and fiscal consolidation. States have been incentivised to increase expenditure on infrastructure and to cut subsidies and spending on the job guarantee scheme. And even in the last full Budget before the Lok Sabha elections next year, the lid has been kept on non-priority spending.

Will the higher outlay for capital expenditure spur real and sustainable growth? And does the government's fiscal math fit the inflation and growth projections made by other agencies?

The big Budget announcement is an increase in rebate limit in the new tax regime — now the default — from Rs 5 lakh to 7 lakh. Does this mark an end to tax-focused saving instruments — especially insurance policies — and a shift towards discretionary spending or investment in the markets?

To find some answers to these questions, listen to Neelkanth Mishra, Co-head of Asia Pacific Strategy and India Equity Strategist for Credit Suisse, and Part-Time Member of the Prime Minister's Economic Advisory Council, at the next session of The Indian Express Explained Live.

Mishra will point to the ways in which to look at India's growth trajectory, and to better understand the nuances of policy making — both monetary and fiscal — in times of inflation, constraints to growth, and persistent global risks.

He will be in conversation with P Vaidyanathan Iyer.

EXPRESS explained.Live... Decoding the Budget... Neelkanth Mishra... P Vaidyanathan Iyer... In conversation with

The Union Budget for 2023-24 underlined the government's priorities: a push towards capital expenditure and fiscal consolidation. States have been incentivised to increase expenditure on infrastructure and to cut subsidies and spending on the job guarantee scheme. And even in the last Full Budget before the Lok Sabha elections next year, the bid has been kept on non-priority spending. Will the higher outlay for capital expenditure spur real and sustainable growth? And does the government's fiscal math fit the inflation and growth projections made by other agencies? The big Budget announcement is an increase in rebate limit in the new tax regime — now the default — from Rs 5 lakh to 10 lakh. Does this mark an end to tax-focused saving instruments — especially insurance policies — and a shift towards discretionary spending or investment in the markets? To find some answers to these questions, listen to Neelkanth Mishra, Co-head of Asia Pacific Strategy and India Equity Strategist for Credit Suisse, and Part-Time Member of the Prime Minister's Economic Advisory Council, at the next session of The Indian Express Explained Live. Mishra will point to the ways in which — looking at India's growth trajectory, and to better understand the nuances of policy making — both monetary and fiscal — in times of inflation, constraints to growth, and persistent global risks. He will be in conversation with P Vaidyanathan Iyer.
