Digital currency can be exchanged for cash: PM

MODERN INDIA SHOULD BE AATMANIRBHAR BHARAT, SAYS PM

'NEW WORLD ORDER POST COVID-19 WANTS A STRONG INDIA'

PRESS TRUST OF INDIA
New Delhi, 2 February

Prime Minister Narendra Modi on Wednesday said the digital rupee, proposed in the Union Budget, could be exchanged for cash and will open new opportunities in the fintech sector.

Addressing the 'Atmanirbhar Arthavyavastha' (self-reliant economy) symposium organised by the BJP, he said the central bank digital currency or the digital rupee will make online payments more secure and risk free and boost digital economy in the years to come.

"IN THE LAST SEVEN YEARS, WE HAVE GIVEN THREE CRORE (30 MN) POOR PEOPLE PUCCA HOUSES, AND MADE THEM LAKHPATIS. OUT OF THIS, MOST HOUSES ARE IN THE NAME OF WOMEN. WE HAVE ALSO MAALKINS (OWNERS)"

NARENDRA MODI, PM

lages and will help them join the armed forces. The Budget, he said, has envisioned a 2,500-km long natural farming corridor along banks of the river Ganga.

Modi asserted that the Budget has given importance to sports and the allocation for it has increased three times over the years.

He said very soon every village will have optical fibre connectivity and 5G technology will usher in a new era. Tax benefits for startups in Budget will motivate youngsters to innovate, he noted. Modi pointed out that the Budget proposes to make a four-fold increase in public investments from the UPAs years.

"The digital rupee will be the digital form of our physical rupee and will regulated by the Reserve Bank of India (RBI). This will be such a system that will enable exchange of physical currency with digital currency," Modi said at the virtual symposium that was attended by chief ministers of BJP-ruled states and party workers across the country.

Finance Minister Nirmala Sitharaman had announced that India will launch a 'digital rupee' in 2022-23 using blockchain and other technologies.

It is very important that India not only becomes self-reliant but also that a modern India is built on the foundation of 'Aatmanirbhar Bharat'.

Leaving aside the political angle, the budget has been welcomed from all quarters, he noted. This Budget focuses on providing basic amenities to the poor, middle class and youth, he said, adding that his government is working on the saturation of basic facilities.

Talking about the agri sector, he said a lot of things were said about the Minimum Support Price (MSP), but farmers are expected to get more than ₹1.5 lakh crore as MSP for paddy this season.

Modi said the houses provided under a PM scheme have in a way turned the poor into 'lakhpaties'.

"Central Bank Digital Currency (CBDC) will strengthen the digital economy... If anyone makes a payment in digital currency, you will be able to change it to cash," he said.

New world order

Meanwhile, while speaking on the Budget, the PM said that the aim was to provide basic amenities to the poor, middle class and youth and asserted that it is imperative that India becomes self-reliant.

The PM said that post-Covid-19, the possibility of a new world order is emerging and the initial indicators of it are already visible.

Modi also said migration from border villages is not good for national security and the Budget has provisions to develop 'vibrant villages' on border. The vibrant village programme will benefit border villages in Uttarakhand, Arunachal Pradesh and Ladakh, he said.

"In the last seven years, we have given three crore poor people 'pucca' houses, and made them 'lakhpaties'. Those who lived in slums, have their own houses. Our government has increased the price and size of these houses so that there is space for education for children. Out of this, most of the houses are in the name of women. We have also made women 'maalkins' (owners)," he said.

He said seven-eight years ago, India's GDP was ₹1.10 lakh crore. Today, our GDP is nearly ₹ 2.3 lakh crore.

Modi said the launch of CBDC will make digital payments and online transfer of funds more secure and risk free. "This will also lead to ease in development of global digital payment systems," he said.

A big change is coming in the way the world is viewing India, he said. "People, globally, want to see an empowered and strong India. It is imperative for us that we take our country forward at a rapid pace and strengthen it across several sectors," Modi said.

The PM said the government plans to impart National Cadet Corps training to youth in border vil-

sector by creating new oppor-

tunities and lessen the burden in handling, printing, logistics management of cash.

ALL IN A DAY

India flight-tests marine version of Rafale for INS Vikrant

The marine version of the French-made Rafale fighter jet has been successfully flight-tested at a shore-based facility in Goa where conditions similar to that on the indigenously-developed aircraft carrier INS Vikrant were simulated, a top diplomat said.

The Rafale-M is pitted against the US-made Super Hornet -- both of which are being evaluated for a possible purchase by the Indian Navy for deployment on the 44,000-tonne INS Vikrant that is undergoing trials in the Arabian Sea and the Bay of Bengal for likely commissioning in August. "Tests were done to check its (Rafale-Marine's) take-off (capability) from the deck of your (India's) carrier and it has done very well," French Ambassador to India Emmanuel Lenain told journalists on Tuesday in Kolkata. The Rafale-M jet was tested for 12 days last month at Goa's INS Hansa facility using a 283 metre mock ski-jump facility, Lenain said. The Navy was looking for an aircraft that is capable of delivering nuclear loads, air-to-air and air-to-ground missiles, and precision-guided bombs, sources said.

ITA wants floor price of tea to cover production costs

Apex planters' body Indian Tea Association (ITA) on Wednesday said a floor price of tea is needed to cover the costs of production, its chairman Vivek Goenka said. Speaking to reporters virtually, Goenka said ITA had engaged Ernst and Young (E&Y) and Khaitan and Company to do a holistic study on the tea industry, adding that idea of a floor price of tea has emanated from there.

According to him, the floor price will be determined by the cost of production and the auction prices will be above the floor price level. He said 50 per cent of the teas are being sold below ₹200 per kilogram, lower than the cost of production. "The tea industry is not sustainable at this price level", he said.

Wednesday. The major items of import from China include telecom instruments, computer hardware and peripherals, fertilisers, electronic components/instruments, project goods, organic chemicals, drug intermediates, consumer electronics, and electrical machinery, Minister of State for Commerce and Industry Anupriya Patel said in a written reply in the Lok Sabha. However, the imports were static between 2019-20 and 2020-21, she said.

Imports from China rise to \$78.88 bn in Jan-Nov '21

Imports from China rise to \$78.88 bn during Jan-Nov 2021 India's exports to China have increased by 24 per cent to \$21.54 billion during January-November 2021, while imports jumped to \$78.88 billion in the same period as against \$52.16 billion in the corresponding period of 2020, Parliament was informed on

Cop kidnaps trader, asks for \$40mn bitcoin as ransom

A police constable accused of kidnapping a local cryptocurrency trader and demanding Bitcoin ransom worth \$40 million has been arrested along with seven accomplices, authorities said Wednesday. Dilip Khandare had learned that a fellow resident of Pune owned a lucrative Bitcoin wallet and hatched a plan to kidnap him. He and his co-conspirators allegedly kidnapped 38-year-old Vinay Naik on January 14 and demanded he transfer his entire digital currency holdings, worth ₹ 300 crore (\$40 million), along with another ₹ 8,00,000 in cash. Naik was let go the next day when the kidnappers realised the police were on their tail.

Repo hike...

"Before that, we expect the corridor to be normalised to 25 bps by April MPC from 65 bps currently. We maintain our view of a 25 bps reverse repo rate hike at next week's MPC meeting," Sahay said in a note.

Suyash Choudhary, head (fixed income), IDFC AMC, said the bond market went into the Budget with two expectations. First was a gross borrowing programme of ₹12 trillion, and the second was some clarification on the path towards global bond index inclusion.

"Our unsolicited advice to RBI is to proceed with the first tranche of reverse repo hike in the February policy to send a signal of business as usual and to clear the decks for further rate action later in the year," ICICI Securities PD said in a report. "We would point out that just holding policy rates constant while both the short and long end of the yield curve shift upwards due to uncertainty would be a pyrrhic victory," the report said.

The central bank's monetary policy committee (MPC) will announce its review on February 9.

spread between the policy rate and the 10-year paper is 292 bps -- the highest in five years.

"There are two arguments here: If the repo rate is 4 per cent but the bond yields are much higher, one can argue whether the market is in sync with reality. The post-Budget yield movement is because of supply concern. However, even if we discount the movement, a sustained 300 bps gap between the policy rate and market rate may give the impression of a disconnection between the central bank and the market." Soumyajit Niyogi, associate director, India Ratings and Research, said.

"Our unsolicited advice to RBI is to proceed with the first tranche of reverse repo hike in the February policy to send a signal of business as usual and to clear the decks for further rate action later in the year," ICICI Securities PD said in a report. "We would point out that just holding policy rates constant while both the short and long end of the yield curve shift upwards due to uncertainty would be a pyrrhic victory," the report said.

The central bank's monetary policy committee (MPC) will announce its review on February 9.
