FY23: Key Performance Highlights (Consolidated)

FINANCIAL UPDATES (CONSOLIDATED)

- **Revenues:** During FY23, the consolidated revenue decreased by 22% to ₹ 5,543 million due to US economy witnessing record high inflation, coupled with higher interest rates leading to multifold increases in mortgage payments & a squeeze on discretionary spending among mid-income segments in the US. Lab grown Diamond & Jewellery sales has been consolidating to 23% in FY23.
- **EBITDA:** Consolidated EBITDA for FY23 fell by 19% YoY owing to destocking by large US retailers and Goldiam partnering with key retailers in inventory realignment exercise by running strategic discount programs. However, EBITDA margins remained healthy at 22.5% due to a good mix of lab grown diamond business and online business.
- **PAT and Cash Profit (PAT + Depreciation):** PAT for FY23 stood at ₹ 853 vis-à-vis ₹ 1060 million in FY22. The Cash profit for FY23 stood at ₹ 926 million vis-à-vis ₹ 1113 million in FY22.
- **Order Book Status:** Goldiam has an order book size of ₹ 1,000 mn. This order book is expected to be executed in next four-six months. E-commerce sales, given their nature of being booked online (on a spot basis), are not part of the order book.
- **Cash & Cash Equivalents (including Investments):** The Company's Cash & Cash Equivalents (including investments) stood at ₹ 2,568 mn as on March 23.
- **Dividend & Share buyback:** The Company has already distributed dividends to the tune of ₹217.95 mn during FY23 and has now proposed a buyback of ₹326.92 mn., up to 2% of the equity of the company to be bought back.
