## Boeing and Rossell Techsys - A Partnership of 100,000 Deliveries and Going Strong

A PRESS RELEASE BY THE COMPANY

- 50,000 deliveries for Apache, the world's most advanced multi-role combat helicopter

We are pleased to announce that our Rossell Techsys Division has completed 100,000 deliveries to Boeing for its various platforms, including 50,000 deliveries for the Apache platform alone. The strategic partnership continues to strengthen with Rossell Techsys manufacturing wire harnesses and electrical panels for the AH-64 Apache, in addition to wire harnesses for several other Boeing platforms including V-22 Osprey, CH-47 Chinook, F-15 and F/A-18 Super Hornet, T-7 Red Hawk, KC 46A and MQ-25.

Rossell Techsys has manufactured these parts at their state-of-the-art Centre of Excellence (COE) facility in Devanahalli, Bangalore. Mr. Torbjorn (Turbo) Sjogren, Vice President, International Government &

Defense, Boeing Global Services; Mr. Ashwani Bhargava, Senior Director, India Supplier Management; Mr. Rishab Mohan Gupta, Whole Time Director, Rossell India Ltd., and other Boeing and Rossell Techsys executives were present to mark the delivery milestone.

*"This is a major step forward in Boeing and Rossell Techsys' continued commitment to make advanced, high-quality components in India," said Torbjorn (Turbo) Sjogren, Vice President, International Government and Defense, Boeing Global Services. "Our collaboration with suppliers in India is helping further strengthen Boeing's global supply chain, and helping develop India's aerospace and defense ecosystem," he added.*

Rossell Techsys, a long-standing partner of Boeing, achieved another landmark milestone, having taken a giant leap from being a start-up Company in 2011 to becoming a key supplier in India's 'Aatmanirbhar Bharat' vision, promoting indigenization and self-reliance in defense manufacturing. The Company has also partnered with Boeing for its CSR initiatives under "Skill India" and provides opportunities for the differently-abled, all of whom have significantly contributed to this milestone.

*"Our objective is to deliver benchmark quality products manufactured in India, for the world. This achievement is an example of our commitment to the cause of an 'Aatmanirbhar Bharat' and to attract more aerospace and defense opportunities to India. We value our partnership with Boeing and the encouragement given to us to work on many prestigious Boeing platforms," said Mr. Rishab Mohan Gupta, Whole Time Director the Company, who leads the team at Rossell Techsys.*

*"Indian suppliers are an integral part of Boeing's global supply chain, and Rossell Techsys has been manufacturing and delivering critical*

*components for Boeing's key defense platforms with quality and precision," said Ashwani Bhargava, Senior Director, Supply Chain Management, Boeing India. "We are working closely with our suppliers in India to support supply-chain health, identify new ways to drive innovation, and deliver greater value to our customers," he added.*
