## Modi's green new deal might actually work

New Delhi, 27 August

After making great strides in promoting renewable energy, India is once again being singled out as a global climate laggard. Its negotiators blocked agreement on tackling emissions at the G-20 meeting in Naples earlier this year, publishing an eye-catching dissent calling for the group to focus on bringing down high percapita emissions in rich countries. India later skipped a ministerial meeting meant to prepare for the next global climate-change summit — the only one of 51 invitees to do so. Its leaders clearly resent pressure to set a date for reducing net carbon emissions to zero, as rival China has.

The West's focus on India's lack of a net-zero target, however, may be misplaced. It risks missing a potentially major shift underway in the country.

While Prime Minister Narendra Modi has always taken climate change seriously, he hasn't typically highlighted it as part of his domestic policy agenda. His recent Independence Day speech was different. Modi uses the speech, delivered from the ramparts of Delhi's Mughal-era Red Fort, about the electrifi- economic record to outline his government's major upcoming policy initiatives. Previous speeches launched his "Make in India" manufacturing push and his programme to improve India's sanitation and hygiene.

This year, Modi focused on climate change. He tailored the appeal to suit his hyper-

nationalist image, pitching the energy transition as a matter of "environmental and Pakistan. He appealed for greater self-

reliance, warning If Modi's government of India's dependence on petroleum imports.

Modi talked about a new "National Hydrogen Mission" to develop green hydrogen and fuel cells, and cation of India's

massive rail system. He could also have mentioned the government's new subsidy for electric vehicles, which might make electric two-wheelers, in particular, attractive to India's vast scooter- and motorcycle-

riding population.

has shifted so strongly to greener rhetoric because of pressure from foreign diplomats and clisecurity", as crucial as defen- mate activists. It's more likely ding against the likes of China that Modi appreciates India's need for a compelling new growth narrative.

> India's can reduce investment growth engines had cooled even risk in these greener sectors and activities. the before Covid-19 panmaking them attractive investment demic hit. propositions for global Modi's big manand domestic capital, ufacturing push it might well turn hadn't really paid off; private around its dismal investment was

> > at historic lows. Early-2000s confidence that India would be the next China, the new factory of the world, has crumbled over two decades of disappointment.

In effect, there's no growth story left in India's economy that can enthuse both voters I doubt India's government and investors. That's what

Modi hopes to recover with his new narrative about green growth.

Fortunately, a focus on greener growth might also work. In past decades, unsustainably low domestic prices for raw materials such as iron ore and coal helped drive high growth rates. That boom collapsed amid accusations of corruption and cronvism, as well as objections from many who lived in heavily polluted mining industrial hotspots. Politically, Modi needs to find a less extractive growth model.

Focusing on green opportunities also offers a possible solution to India's private investment problem. Nobody expects India's cash-strapped government to create new networks for urban mobility, new housing stock and energy-efficient factories on its own. It's going to need help from the private sector. If Modi's government can reduce investment risk in these greener sectors and activities, making them attractive investment propositions for global and domestic capital, it might well turn around its dismal eco-

nomic record. The rest of the world should perhaps stop expecting India to fit within its own parameters of climate action and focus instead on whether it follows through on these new ambitions. While one should always take pledges about green new deals with considerable scepticism, on this occasion I'm a little bit more optimistic. In other countries, "green growth" is usually an unwieldy attempt to reconcile the divergent priorities of jobs-first politicians and climate-first activists. In India, it is the only game left in town, because we may

have lost in all the others. BLOOMBERG

## As Covid 2nd wave wanes, credit card spending rises in India

Mumbai, 27 August

As restrictions on public movement and businesses ease, Indians are spending on their credit cards the way they used to before the coronavirus pandemic hit the country late 2020, shows Reserve Bank of India data.

Credit card spending dipped to ₹52,131 crore in May this year. It increased to ₹62,746 crore in June — a number higher than in February but marginally below levels seen in January.

Spending in June 2021 was slightly more than February 2020 - a time before the pandemic — but lower than the January 2020 figure of ₹67,000 crore. March recorded the highest credit card spending, of over ₹72.000 crore, in 2021.

All major credit card companies saw a sharp improvement in spending in June 2021 after a decline in April and May, a period when India was battling a second wave of Covid-19.

The January-March and April-June quarters of 2021 saw growth compared to the same period last year. Spending in April-June of 2021 was, however, lower compared to the preceding quarter.

"Total CC (credit card) spends rose 20 per cent MoM in Jun'21 after declining 18 per cent/12 per cent MoM in Apr'21/May'21. The improvement in spends can be attributed to lower lockdown restrictions owing to falling Covid cases. Jun'21 CC spends came in at ₹62,700 crore, largely in line with average spend of ₹650

billion seen during H2FY21," witnessed sequential dip.

said ICICI Securities in a report. India's SBI Card saw a 30 bps Growth in credit card spending slowed down in the previous 2021, said the ICICI Securities financial year, largely due to the note. Among other Indian lend-

platforms. HDFC Bank's total card base fell from ble at 8.3 per cent. 15.38 million in December to 14.82 million in June after the states ease curbs, spending is ban, which the central bank partially lifted earlier this month.

As on June 30, the total credit card base of the entire system was 62.8 million. The market share, in terms of credit card spending, shows that domestic players are leading and foreign banks are losing out.

As festivals near and more expected to spike significantly.

"Spending is likely to increase from the current levels because we are still in the recovery stage," said Nitin Aggarwal, analyst with Motilal Oswal Securities. "Travel-related spending is improving, hotels are seeing higher occupancy rates, there is some pick-up expected in restaurants also. As of now, mostly

is yet to pick up. Malls, multi-plexes also will be opening."

"Credit card spends dipped due to the lockdowns. The numbers for June suggest spending is inching up," added Sunil Rongala, who works with Worldline, a transaction facilitator in digital payments, "There is definitely going to be a sustained increase in credit card spends, partially because if you see the pattern, most of the large purchases are made on cards. Given that there are a lot of incentives to spend on credit cards, you are going to see spending increase.'

According to ICICI Securities, the second quarter of FY22 could see 35 per cent higher spends than the first, and 59 per cent higher than O2FY21.

"The entire chain of recovery is likely to happen in the coming months, which will drive further pick-up in spending. New card acquisition rate will also improve, particularly for these card companies like SBI Card, which are aggressive in going out to source cards. This activity will not result in a higher acquisition," Aggarwal said.

HDFC Bank, India's largest private sector lender, aims to get back to its pre-ban run rate of issuing 300.000 cards a month in the next two or three months. which would be increased to 500,000 credit cards every month starting February 2022.

"It (500,000) is a huge number. It's more than the monthly average of new card acquisition of the last financial year" said Aggarwal. On an average, FY21 saw little more than 350,000 cards added every month.

# प्रदाता इकाई नहीं '

मुंबई, 27 अगस्त

इंडियन प्राइवेट इक्विटी ऐंड वेंचर एसोसिएशन (आईवीसीए) ने सरकार को लिखे पत्र में कहा है कि उद्यम पुंजी फंडों से संबंधित बेंगलरु टिब्यनल द्वारा ताजा अप्रत्यक्ष कर निर्णय ने घरेल फंड उद्योग और लिमिटेड पार्टनरों (एलपी) के बीच अनिश्चितता पैदा की है।

पिछले महीने आबकारी और सेवा कर अपीलीय पंचाट-बेंगलुरु ने कहा था कि चंकि टस्टों को बाजार नियामक सेबी नियमन के उद्देश्य के लिए न्यायिक व्यक्ति के तौर पर समझा गया था, लेकिन इसकी कोई वजह नहीं थी कि उन्हें कराधान के मकसद के लिए इस तरह नहीं जाना चाहिए।

निर्णय के तहत, ट्रस्टों को वितरकों या यूनिटधारकों को फंड प्रबंधन सेवाएं मुहैया कराने वाली इकाइयों के तौर पर देखा जा सकेगा. जिसका मतलब यह है कि

 बेंगलूरु ट्रिब्यूनल ने ट्रस्टों को वितरकों या यूनिटधारकों को फंड प्रबंधन सेवाएं मुहैया कराने वाली इकाइयों के तौर पर माना है

**■** इससे वे रीट, इनविट, एआईएफ और एमएफ प्रभावित हो सकते हैं, जो ट्रस्ट ढांचे के तहत परिचालन करते हैं

 आईवीसीए का कहना है कि एआईएफ महज पूलिंग योजनाएं हैं और सेवा प्रदाता डकार्ड नहीं

उनके द्वारा किया जाने वाला खर्च वस्तु एवं सेवा कर (जीएसटी) के दायरे में आएगा। जानकारों का कहना है कि इससे निवेशकों के साथ साथ फंडों के लिए लागत काफी बढ़ जाएगी, और कई तरह की कर मुकदमेबाजियों की आशंका बढ़ जाएगी।

खासकर एआईएफ के संदर्भ में आईवीसीए ने कहा है कि ये फंड महज पलिंग योजनाएं हैं और सेवा प्रदाता इकाई नहीं। फंड प्रबंधक उन एआईएफ के लिए सेवा प्रदाता है, जो प्रबंधन शुल्क पर बकाया जीएसटी वसूलते हैं।

ट्रिब्यूनल ने यह भी निर्णय दिया था कि प्रदर्शन शुल्क जीएसटी के तौर पर 18 प्रतिशत का सेवा शुल्क लगना चाहिए। टीवीएस कैपिटल फंड्स के

चेयरमैन और नैशनल स्टार्टअप एडवायजरी काउंसिल के गैर-आधिकारिक सदस्य गोपाल श्रीनिवासन के अनुसार, एआईएफ के लिए मौजूदा नीतियों से इस समस्या को बढावा मिला था, जिससे स्टार्टअप निवेशकों के लिए ऐंजल टैक्स जैसी चुनौती पैदा हुई है।

## धैर्यवान निवेशकों को पिछले साल मिला बेहतर प्रतिफल

हो गया है।

चिराग मडिया मुंबई, 27 अगस्त

आईडीएफसी म्युचुअल फंड (एमएफ) की एक ताजा रिपोर्ट के अनुसार, पिछले साल के दौरान इक्विटी बाजारों में उतार-चढाव की अवधि में धैर्य बनाए रखने वाले भारतीय निवेशकों को अच्छा प्रतिफल हासिल करने में मदद **4**मिली। इसमें कहा गया है कि जिन निवेशकों ने अपने एसआईपी निवेश को बरकरार रखा, उन्हें दो अंक का प्रतिफल हासिल हुआ।

मान लीजिए कि यदि किसी निवेशक ने अगस्त 2019 में एसऐंडबी बीएसई 100 टीआरआई में एसआईपी शुरू की और जुलाई, 2020 में बंद कर दी जो उसे 8.2 प्रतिशत का प्रतिफल मिला होगा। हालांकि यदि एसआईपी जुलाई 2021 तक बरकरार रहती. तो निवेशक को दो वर्ष की अवधि के दौरान 34.2 प्रतिशत का प्रतिफल मिलता

इक्विटी सूचकांकों में, स्मॉल-कैप सूचकांक (एसऐंडपी बीएसई स्मॉलकैप टीआरआई) ने दो वर्ष की अवधि के दौरान सर्वाधिक एसआईपी प्रतिफल दर्ज किया है और इस सचकांक में करीब 75 प्रतिशत की तेजी दर्ज की गई। आईडीएफसी एमएफ में उत्पाद प्रमुख सिशेंदु बासु ने कहा, 'आंकड़ों से संकेत मिलता है कि जिन निवेशकों ने चुनौतीपूर्ण समय के दौरान संयम बनाए रखा. इक्विटी बाजारों से अपना निवेश नहीं निकाला और एसआईपी के जरिये निवेश बरकरार रखा, उन्हें ज्यादा लाभ हासिल हुआ, क्योंकि

बाजार में उतार-चढाव के बावजूद एसआईपी बरकरार रखने वाले प्रतिफल दर्ज किया

लार्जमिडकैप बाद मिड-कैप सूचकांक ने 31.6 प्रतिशत प्रतिफल दिया।

भारत में कोविड-19 के मामलों में तेजी के साथ साथ कमजोर वैश्विक परिदृश्य की वजह से मार्च, 2020 में, भारतीय इक्विटी बाजारों में गिरावट आई। हालांकि बाजार तेजी से सुधरने में सफल रहे और बाद के महीनों में अच्छा प्रतिफल

दर्ज किया गया था। इक्विटी बाजारों में लगातार तेजी के साथ, कई निवेशकों ने इक्विटी फंडों से पैसा निकाला। जुलाई 2020 और फरवरी 2021 के बीच की अवधि में इक्विटी फंडों से 46,700 करोड़ रुपये से ज्यादा की

आईसीआईसीआई डायरेक्ट रिसर्च का कहना है, 'चूंकि मार्च 2020 में महामारी आधारित गिरावट के बाद कैलेंडर वर्ष 2020 में इक्विटी बाजारों में तेजी आने लगी थी. लेकिन निवेशक सतर्कता बरत रहे थे और इक्विटी फंडों से बिकवाली कर रहे थे। चूंकि तेजी की रफ्तार मजबूत थी, लेकिन बाजार धारणा कमजोर बनी हुई थी। इसलिए निवेशकों ने दूरी बनाए रखना सही समझा।'

बाजार कारोबारियों का कहना है कि निवेशकों को इक्विटी में निवेश करते वक्त हमेशा दीर्घावधि नजरिया अपनाना चाहिए, क्योंकि अल्पाविध के मुकाबले इसमें प्रतिफल बेहतर रहता है। पिछले साल में, लार्ज-कैप फंडों ने 44.85 प्रतिशत का औसत प्रतिफल दिया. जबिक 10 वर्षों के लिए यह प्रतिफल करीब 14 प्रतिशत था। इसी तरह, मिड-कैप और स्मॉल-कैप फंडों ने 10 वर्षीय अवधि के दौरान 18.35 प्रतिशत और 19 प्रतिशत का औसत प्रतिफल दिया।
