BRIEF INTRODUCTION

India Needs To Build, Strengthen And Continuously Train To Predict, Pre-Empt, Prevent, Detect, Respond, Mitigate And Remediate Any Cyber threat.

Organizations today cannot function without “Information Technology (IT)” infrastructure, which ensures data availability, integrity and confidentiality. In 2022, India witnessed nearly 13.91 lakh cyber security incidents, as per the data compiled by the Indian Computer Emergency Response Team (CERT-In). India was the most targeted country in 2022 as attacks on government agencies more than doubled. In the modern world, IT risk is one of the major risk that needs to be addressed in the risk management framework of the organization.

The Government is taking various measures to ensure secure environment for cyber space by transforming cyber security policies with the introduction of Digital Data Protection Bill 2022, budgetary allocations, etc. Further, as per Sec 43 A of the Information Technology Act, 2000 as amended, body corporates who handle, store, collect, receive or provide information shall ensure reasonable security practices and procedures are implemented. The above compliance is deemed to be complied with the standards and codes audited by auditor approved by Central Government.

The above section has put onus on private as well as government organizations to make robust cyber security policies which requires at first to have assessment of the same by taking audit and also by having an second audit after implementation of the policy as identified during the first audit to safeguard the public data which is collected by the entity due to various activities undertaken by the entity. As per the data localization norms notified by the Bill, which were also notified by RBI, prescribed the setting up of data centers locally to store information collected by entities whether foreign or domestic from conduct of its business activities in India.

IT auditing improves the reliability, effectiveness and efficiency of IT systems by covering a wide-range of threats by regular identification and assessment of risks in an organization

BRIEF INTRODUCTION

AAA Technologies Limited is an ISO 9001:2015 and ISO 27001:2013 certified company which empowers enterprises, service providers, and government entities to secure all users, applications, data, networks and devices with comprehensive visibility and context continuously across all locations. The Company is a CERT-in empaneled auditor, incorporated in October 2000 with a vision of a world where each day is safer and more secure than the one before.

The Company has kept its focus on Information Security Auditing & Consulting keeping in view the vast scope of work in the existing and the untapped areas. As a result, our Company has been able to build its resources capable of auditing operating systems, networking, IDS, web application, ERP, ATM, core banking, forensic, websites, computer crime investigations etc.

We deliver cyber security audit services covering a broad range of cases, enabling our end-customers to secure their networks, remote workforce, access to the service edge, branch locations, public and private clouds, and to advance their Security Operations Centers (“SOC”).

We believe that our portfolio of services provides improved prevention and security while lowering total cost of ownership for enterprises by enhancing operational efficiency and eliminating the need for segregated point products, which is accomplished through solutions that are focused on delivering value.

CHAIRMAN'S SPEECH

Dear AAA Family Member,

Good morning to all of you!

It gives me immense pleasure to welcome you all at the 23rd AGM of AAA Technologies Limited and the 1st post being migrated to the Main Board of National Stock Exchange Limited and Bombay Stock Exchange Limited.

I would like to thank you all for sparing the time to join us today, we truly appreciate your support. I hope you and your family members are remaining healthy and staying safe.

The past couple of years have been a period of intense action and reflection. We have seen a global pandemic, geopolitical tensions and many other public and private upheavals.

I write this letter with a sense of pride about how well your Company performed this year, not just in financial terms, but also in terms of what we accomplished for customers, employees, stakeholders.

Given that context, I am grateful that on the business front it has been a highly satisfactory year being consistently strong and profitable.

Revenue from Business Operations is Rs. 2,300.04 Lakhs as compared to the previous F.Y of Rs. 1,440.16 Lakhs. There is increase of 59.71% in Revenue from Business Operations as compared to the previous year.

The Profit of the Company recorded an increase of 22.67% at Rs. 286.84 Lakhs as compared to the previous F.Y of Rs. 233.84 Lakhs. The Earnings per Share is Rs. 2.24 as compared to the previous EPS of Rs. 1.82. The Company has shown the consistent performance and growth over the years. Your Company's financial position is sound to take care of future growth through internal accruals.

The Board has recommended a final dividend of Rs. 0.50 per equity share for the financial year ended March 31, 2023.

CHAIRMAN'S SPEECH

Your Company have been empaneled by Indian Computer Emergency Response Team (CERT-In), Ministry of Electronics and Information Technology, Government of India, which is the nodal agency for Cyber Security in India under Information Technology Act as IT Security Auditing Organization with validity from 1st November 2020 to 31st October 2023.

Despite the pandemic reaching new heights and negatively impacting the economy worldwide, the field of cyber security experienced high demand and demonstrated its resilience with another consecutive record year of investment in cyber security firms. AAA Technologies services have seen a growing demand throughout F.Y. 2022-2023 leading to another successful year of operations.

We are pleased to inform you that your Company has migrated and admitted to deal on Mainboard Platform of BSE as well as NSE on November 28, 2022. During the year under review, your Company has got Certificate of excellence in the field of "IS Audit and Cyber Security-2022 from CEO Magazine and also earned ET Change Makers Award in the field of Cyber Security from Economics Times.

I am grateful to all our shareholders and team who have shown immense support and confidence in us throughout our journey. It is your faith that gives us the strength to overcome all the challenges and perform better with each passing year. I want to thank each one from our team members for putting in tireless efforts and showing a strong commitment towards your company. Once again, I would like to thank all of you for being here today.

From the bottom of my heart I thank our board members for their valuable guidance, our customers for their continued business and trust, employees for their immense contribution and hard work and shareholders for your faith in our growth story. I assure all my shareholders and stakeholders who have shown faith in our company that we shall leave no stone unturned and keep producing healthy performance in the medium to long term.

My best wishes to you all!

Thank you!

MANAGEMENT DISCUSSION & ANALYSIS

Global Economic Overview

The global economy appears poised for a gradual recovery from the powerful blows of the pandemic and of Russia’s unprovoked war on Ukraine. China is rebounding strongly following the reopening of its economy. Global growth will bottom out at 2.8 percent this year before rising modestly to 3.0 percent in 2024. Global inflation will decrease, although more slowly than initially anticipated, from 8.7 percent in 2022 to 7.0 percent this year and 4.9 percent in 2024. Emerging market and developing economies are already jumping from 2.8 percent in 2022 to 4.5 percent this year. The slowdown is concentrated in advanced economies, especially the euro area and the United Kingdom, where growth is expected to fall to 0.7 percent and –0.4 percent, respectively.

Global Growth Outlook Projections (in %)

Country/Group	2022	Projected

*For India, data and forecasts are presented on a fiscal year basis with FY 2022/23 starting in April 2022. For the April 2022 WEO, India's growth projections are 6.8% in 2022 and 5.9% in 2023 based on calendar year

Source: IMF, World Economic Outlook, April 2023

Advanced Economies Group

For advanced economies, growth is projected to decline by half in 2023 to 1.3 percent, before rising to 1.4 percent in 2024. Although the forecast for 2023 is modestly higher (by 0.1 percentage point), it is well below the 2.6 percent forecast of January 2022. About 90 percent of advanced economies are projected to see a decline in growth in 2023. With the sharp slowdown, advanced economies are expected to see higher unemployment a rise of 0.5 percentage point on average from 2022 to 2024.

Emerging Market and Developing Economies Group

For emerging market and developing economies, economic prospects are on average stronger than for advanced economies, but these prospects vary more widely across regions. On average, growth is expected to be 3.9 percent in 2023 and to rise to 4.2 percent in 2024. The forecast for 2023 is significantly below the 4.7 percent forecast of January 2022.

Low-income Developing Economies

In low-income developing countries, GDP is expected to grow by 5.1 percent, on average, over 2023–24, but projected per capita income growth averages only 2.8 percent during 2023–24, below the average for middle-income economies (3.2 percent) and so below the path needed for standards of living to converge with those in middle-income economies.

Forces shaping the near term global outlook

Instability of financial institutions: Financial institutions with excess leverage, credit risk or interest rate exposure, too much dependence on short-term funding, or located in jurisdictions with limited fiscal space could become the next target. So could countries with weaker perceived fundamentals. A sharp tightening of global financial conditions—a “risk-off” shock—could have a dramatic impact on credit conditions and public finances especially in emerging market and developing economies, with large capital outflows, a sudden increase in risk premia, a dollar appreciation in a rush toward safety, and major declines in global activity amid lower confidence, household spending, and investment.

Monetary tightening and financial market volatility: The sharp policy tightening of the past 12 months is starting to have serious side effects for the financial sector. Following a prolonged period of muted inflation and extremely low interest rates, last year's rapid tightening of monetary policy has triggered sizable losses on long-term fixed-income assets. The stability of any financial system hinges on its ability to absorb losses without recourse to taxpayers' money.

Rise of indebtedness: Private and public debt have reached levels not seen in decades in most economies and remain high, despite their fall in 2021–22 on the back of the economic rebound from COVID-19 and the rise in inflation. Monetary policy tightening—particularly by major

advanced economies—has led to sharp increases in borrowing costs, raising concerns about the sustainability of some economies’ debts.

Commodity Shocks Unwinding: The shock of Russia’s invasion of Ukraine in February 2022 continues to reverberate around the world. Economic activity in Europe in 2022 was more resilient than expected given the large negative terms-of-trade fallout from the war and associated economic sanctions. Oil and gas prices also began trending downward from their peaks in mid-2022. Together, these actions and channels have dampened the negative effects of the energy crisis in Europe, with better-than-expected levels of consumption and investment in the third quarter of 2022. A broad decline in food and energy prices in the fourth quarter of 2022—although prices are still high—has brought some relief to consumers and commodity importers, contributing to the fall in headline inflation. Sustaining lower prices this year will depend on the absence of further negative supply shocks

China’s economic reopening: The surge in infections compounded the headwinds from property market stresses in China. Declining property sales and real estate investment posed a drag on economic activity last year. There remains a large backlog of presold unfinished housing to be delivered, generating downward pressure on house prices, which price floors have so far limited in some regions. The Chinese authorities have responded with a variety of measures, including additional monetary easing, tax relief for firms, new vaccination targets for the elderly, and measures to encourage the completion and delivery of unfinished real estate projects.

A return of the world economy to the pace of economic growth that prevailed before the bevy of shocks in 2022 and the recent financial sector turmoil is increasingly elusive. More than a year after Russia’s invasion of Ukraine and the outbreak of more contagious COVID-19 variants, many economies are still absorbing the shocks. The recent tightening in global financial conditions is also hampering the recovery. As a result, many economies are likely to experience slower growth in incomes in 2023, amid rising joblessness. Moreover, even with central banks having driven up interest rates to reduce inflation, the road back to price stability could be long. Over the medium term, the prospects for growth now seem dimmer than in decades.

Indian Economic Overview

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Real GDP or Gross Domestic Product (GDP) at Constant (2011-12) Prices in the year 2022-23 is estimated to attain a level of ₹ 159.71 lakh crore. The growth in GDP during 2022-23 is estimated at 7% as compared to that of 9.1% in 2021-22.

Nominal GDP or GDP at Current Prices in the year 2022-23 is estimated to attain a level of ₹ 272.04 lakh crore, as against ₹ 234.71 lakh crore in 2021-22, showing a growth rate of 15.9%.

India’s economy grew by 6.10% year-on-year in Q4 of FY 23. GDP at Constant (2011-12) Prices in Q4 2022-23 is estimated at ₹43.62 lakh crore, as against ₹41.12 lakh crore in Q4 2021-22, showing a growth of 6.1 percent. GDP at Current Prices in Q4 2022-23 is estimated at ₹71.82 lakh crore, as against ₹65.05 lakh crore in Q4 2021-22, showing a growth of 10.4 percent. This surge, primarily driven by improved performance in agriculture, manufacturing, mining, and construction sectors, contributed to an annual growth rate of 7.2%. The robust growth propelled the Indian economy to reach \$3.3 trillion and sets the stage for achieving the ambitious \$5 trillion target in the coming years.

The Indian economy, however, appears to have moved on after its encounter with the pandemic, staging a full recovery in FY22 ahead of many nations and positioning itself to ascend to the pre-pandemic growth path in FY23. Yet in the current year, India has also faced the challenge of reining in inflation that the European strife accentuated. Measures taken by the government and RBI, along with the easing of global commodity prices, have finally managed to bring retail inflation below the RBI upper tolerance target in November 2022.

The uptick in private consumption has also given a boost to production activity resulting in an increase in capacity utilization across sectors. The rebound in consumption was engineered by the Near-universal vaccination coverage overseen by the government that brought people back to the streets to spend on contact-based services, such as restaurants, hotels, shopping malls, and cinemas, among others. The world’s second-largest vaccination drive involving more than 2 billion doses also served to lift consumer sentiments that may prolong the rebound in consumption.

India’s economic growth in FY23 has been principally led by private consumption and capital formation. It has helped generate employment as seen in the declining urban unemployment rate. Global growth has been projected to decline in 2023 and is expected to remain generally subdued in the following years as well. The slowing demand will likely push down global commodity prices and improve India’s CAD in FY24.

Industrial Growth

Industrial production in India (IIP) grew 1.7 percent year-on-year in March of 2023, declining from an upwardly revised 5.8 percent rise in the previous month.

Negative growth in the electricity segment has restricted the growth in overall industrial output. The above negative growth has been offset by growth in IIP in mining and manufacturing sector by 6.8% and 1.2% respectively.

Service Industry

Source: NSO, MOSPI

The Covid-19 pandemic hurt most sectors of the economy, with the effect particularly profound for contact-intensive services sectors like tourism, retail trade, hotel, entertainment, and recreation. On the other hand, non-contact services such as information, communication, financial, professional, and business services remained resilient. However, the services sector witnessed a swift rebound in FY22, growing Year-on-Year (YoY) at 8.4 per cent compared to a contraction of 7.8 per cent in the previous financial year.

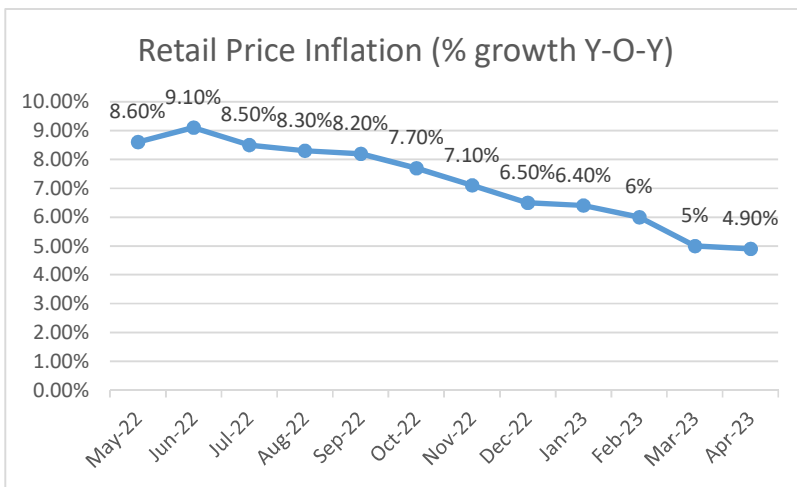

According to NASSCOM’s report, India’s IT-BPM industry has been exceptionally resilient during the pandemic, driven by increased technology spending, accelerated technology adoption, and

digital transformation. This is evident in the swift and wide-scale remote working adoption of one of the world’s largest IT workforces. IT-BPM revenues registered YoY growth of 15.5 per cent during FY22 compared to 2.1 per cent growth in FY21, with all sub-sectors showing double-digit revenue growth. Within the ITBPM sector, IT services constitute the majority share (greater than 51 per cent).

India’s services sector growth which was highly volatile and fragile during the last 2 fiscal years, has shown resilience in FY23 driven by the release of pent-up demand, ease of mobility restriction, near-universal vaccination coverage and pre-emptive government interventions. . This is reflective of an uptick in the performance of various HFIs, reflecting a solid upswing in recent months, hinting at an enhanced presentation of the services sector in the next fiscal. The prospects look bright with improved performance of various sub-sectors like Tourism, Hotel, Real estate, IT-BPM, E-commerce etc. The downside risk, however, lies in the external exogenous factors and bleak economic outlook in Advanced Economies impacting growth prospects of the services sector through trade and other linkages.

Consumer Price Inflation

The Consumer Price Index measures the retail inflation the economy by collecting data on change in prices of most common goods and services used by consumers. Annual inflation rate in India declined to 6% YoY in March 2023, compared with a rate of 6% in previous month. The inflation rate has remained above the Reserve Bank of India (RBI) tolerance band of

2-6 percent. Higher inflation has been a concern for central banks across the world, including India, as the uncertain nature of the Russia-Ukraine war compounded supply-side disruptions in the post-pandemic world that was barely going through a nascent recovery from economic shocks.

Economic Challenges and Policy Priorities

Growth

Implement reforms and privatization, support education and employment, liberalize investment

Inflation

Manage inflation pressures while supporting the recovery

Fiscal

Support the recovery while communicating plans for future fiscal consolidation

Financial

Allow bankruptcies of non-viable firms, build capital buffers, recognize problem loans

Road Ahead

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favour of higher-quality spending.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

CYBERSECURITY INDUSTRY

EXECUTIVE SUMMARY

Talent

India's cybersecurity workforce is estimated to be around 0.3 million in 2023, up from 0.21 million in 2022, and 0.1 million in 2021.

The current workforce needs upskilling in the fields of data privacy, cloud security, AI security and network security.

Revenue Insights

The Indian Cybersecurity Services Industry is expected to grow from USD 10.61 Billion in 2022 to USD ~13.05 Billion in 2023.

Indian Cybersecurity products is expected to grow from USD 1.81 Billion in 2022 to reach USD 2.35 Billion in 2023.

Geographic Revenue

Cybersecurity companies in Asia garnered 24% of Global Market revenue.

Global Cyber Security Industry

The global IoT industry is expected to rise to USD 424.97 billion by 2030 exhibiting a CAGR of 13.56%, creating numerous opportunities for suppliers and businesses wanting to profit from IoT. The cyber security sector is expected to have a sizeable portion in the IoT market, considering the rapid expansion of the IT sector and the need for security.

Due to strict regulations, better awareness levels, more cyber security budgets and quicker decision-making processes, developed countries have been booming markets. Major businesses are concentrating on regions such as the US and Europe because there are more cyber-attacks on such sites. They also have more outdated technology being upgraded, renovated and revamped. This is primarily causing the US, and Europe's banking, manufacturing, energy, travel and transportation sectors to ramp up spending. With a combined 58% revenue contribution, North America and Europe remain the top two regions for services and product revenue. Regions with the fastest growth rates are Asia and MEA.

The rising number of e-commerce platforms and technological technologies such as artificial intelligence, cloud, and block chain have amplified the internet security solutions in a connected network infrastructure. The governments of countries such as India, Germany, France, Israel, and Brazil, and others have been investing in internet security solutions to secure their huge volume of confidential data and information.

On the basis of security type, the market is segmented into network security, end-point security, cloud application security, secure web gateway, application security, and others. Network security held a major part in 2022 due to increasing number of virtual enterprise network environments. Cloud application to have the highest CAGR due to rising adoption of cloud infrastructure in various countries such as the U.S., ASEAN, Germany, and Brazil, among others.

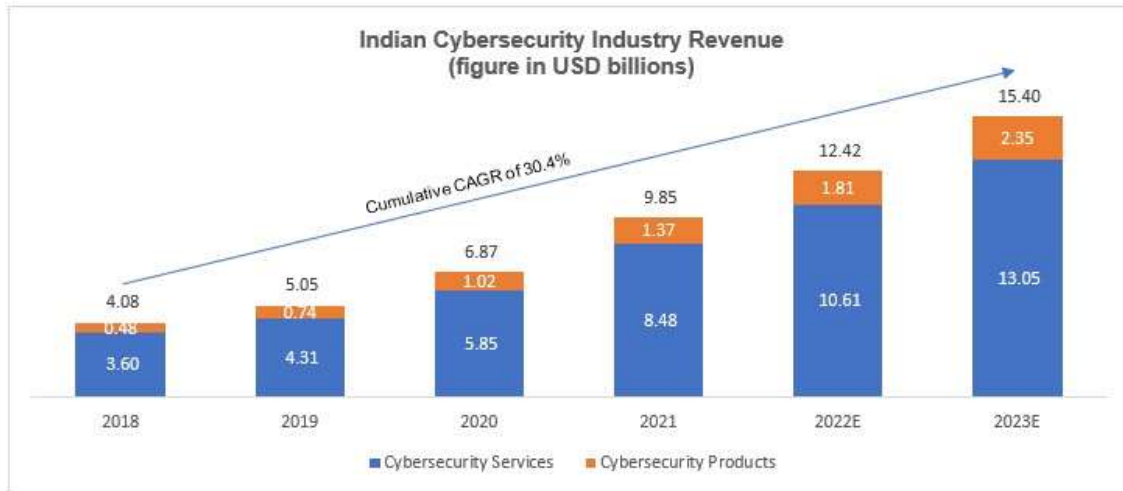

Based on enterprise size, the market is segmented into Small & Medium Enterprises (SMEs) and large enterprises. Small & Medium Enterprises (SMEs) segment to have the highest CAGR due to increasing demand for end-point security solutions across various e-commerce startups, including retail and financial sectors.

Based on industry, the market is segmented into BFSI, IT and telecommunications, retail, government, manufacturing, travel and transportation, healthcare, energy and utilities, and others. BFSI segment to have significant CAGR due to increasing demand for tight and strong security and digital privacy systems across financial, insurance, and banking institutes. Geographically, the market is segmented across five major regions, North America, Europe, Asia Pacific, the Middle East & Africa, and South America.

Indian Cyber Security Landscape

Source: IBEF

The cyber security market in India is expected to grow from \$1.97 billion in 2019 to \$3.05 billion by 2022, at a compound annual growth rate (CAGR) of 15.3%, according to a joint study by PwC India and DSCI. The study also stated that banking, financial services and insurance (BFSI), IT, and government are the top three sectors with the largest market share in cyber security expenditure in the country. The Indian cyber security market provides enormous opportunities due to India’s fast-growing digital economy and the significant role played by IT services and the financial sector.

India is one of the fastest growing digital economies in the world, with a projected \$1 trillion digital economy and a \$5 trillion overall GDP in the near future. The digital-first approach adopted by the Indian government as well as businesses has powered an increase in the amount of customer data being collected and stored. Indian corporations are moving to adopt cloud-based solutions and perceive an escalated the risk of theft of data in the cloud. This concern is supported by the recent increase in data breaches which have proved costly for the affected organizations.

The Indian Computer Emergency Response Team (CERT-In), which is mandated to track and monitor cyber security incidents in India, reported just over 1.4 million cyber security incidents for 2021. Cyber Crimes in India witnessed a 572% increase in the last three years. CERT-In issued 618 security alerts, 52 advisories, and 390 vulnerability notes during the same period. India was among the top 3 Asian countries impacted by cyber threat events. Server access attacks (20%), ransom ware (11%), and data theft (10%) were the top attack types observed in the region in 2021.

One in four Indian organizations suffered a ransom ware attack in 2021. Indian organizations witnessed a 218% increase in ransom ware, higher than the global average of 21%. The most targeted sectors were software and services (26%), capital goods (14%) and the public sector (9%). Leading industry sectors driving cyber security growth are banking, healthcare, insurance, capital markets, and critical information infrastructures such as energy, oil and gas, defense, transportation, and telecommunication.

As per reports, The Ministry of Electronics and Information Technology (MeitY) has been allocated a budget of Rs 625 crores in order to improve digital infrastructure and cyberspace network. Cyber security projects undertaken by the Ministry have been allocated a budget of Rs 400 crores while the rest of the amount Rs 225 crores has been allocated to cyber security response team Indian Computer Emergency Response Team (CERT-In).

Government Initiatives

The Government of India (GoI) has taken several technical, institutional, and legislative steps to tackle issues related to cyber security, including the National Cyber Security Policy (2013) and enactment of the Information Technology (IT) Act, 2000.

The Indian Computer Emergency Response Team (CERT-In) was founded by the Ministry of Electronics and Information Technology (MeitY) as the national bureau for event response, including evaluation, prediction and alerts for cyber security breaches. The main responsibility of CERT-In is to increase security awareness among the Indian online community as well as offer technical support and guidance on how to recover from computer security incidents.

To exercise the authority granted by the Information Technology Act, 2000 (section 79A), the Cyber Forensics Lab at CERT-In has been designated an Examiner of Electronic Evidence. The lab is equipped with the tools to examine digital evidence obtained from data storage and mobile devices.

The Cyber Swachhta Kendra (Botnet Cleaning and Malware Analysis Centre) (CSK), a constituent of the Digital India initiative of the GoI under MeitY, works to create a secure cyberspace by identifying botnet infections in India and alerting, facilitating the cleaning process along with securing systems of end users to avoid future infections. CSK was established in line with the goals of the National Cyber Security Policy, which calls for the development of a safe national cyber ecosystem. Internet service providers, product/antivirus businesses and this centre closely coordinate and collaborate to run its operations. Users can safeguard their systems and devices using the knowledge and resources available on this website. Under the Information Technology Act of 2000 (section 70B), CERT-In oversees the running of this centre.

The Ministry of Home Affairs' (MHA) role is concentrated to establish guidelines to help secure information which might affect internal security as well as national security. Cyber and Information Security (C&IS) division of MHA deals with issues relating to Cyber Crime, Cyber

Security, National Intelligence Grid (NATGRID) and National Information Security Policy & Guidelines (NISPG)

NATGRID is an integrated intelligence master database structure that links databases from several security agencies within the GoI. It collects detailed patterns obtained from numerous organisations and makes them easily accessible to security agencies around the clock.

NISPG encompasses government and public sector associations, related bodies and other third parties to safeguard the information under their ownership and control throughout the information's lifecycle, including creation, storage, processing, accessing, transmission, annihilation, etc.

Cyber Crime Prevention against Women and Children (CCPWC) Scheme is established by MHA to give the states/UTs financial support of USD 11.99 million for the establishment of cyber forensic-cum-training laboratories; employing junior cyber consultants; and development of the capacities of Law Enforcement Agencies (LEAs), public prosecutors and judicial officers.

MHA established the Indian Cyber Crime Coordination Centre (I4C) to deal with all types of cybercrime in the country in a coordinated and comprehensive manner. It has an outlay of USD 49.9 million.

The main duties of I4C are to (i) act as a node in the fight against cybercrime; (ii) recognise research problems/needs of LEAs, and engross in R&D activities to develop new technologies and forensic apparatuses in association with academic and research institutes in India as well as abroad; (iii) prevent the use of cyberspace to further extremist and terrorist groups' cause; (iv) suggest amendments to cyber laws as needed to keep up with rapidly evolving technologies and international cooperation; and (v) coordinate all activities related to the implementation of MLATs with other countries associated to cybercrimes keeping the concerned nodal authority in MHA in a loop.

There are seven components of the I4C Scheme, each having distinct responsibilities: Cybercrime Ecosystem Management Unit, National Cybercrime Training Centre (NCTC), National Cyber Crime Research and Innovation Centre, National Cybercrime Reporting, National Cybercrime Forensic Laboratory (NCFL) Ecosystem, National Cybercrime Threat Analytics Unit (TAU), and Platform for Joint Cybercrime Investigation Team.

Industry Updates

The growing number of cyber-attacks in the recent year have displayed a huge gap between need for cyber security and workforce employed towards it. The second-largest global active internet user base – the country is currently facing a big skill gap in the cyber security domain and represents just six per cent of global cyber security jobs. As of May 2023, the industry had about 40,000 open opportunities, indicating the growing demand for skilled cyber security professionals. However, the demand-supply gap stood at 30 per cent, projecting a major skill challenge in the industry.

The Company plans on growing its revenues and hiring new talent in order to capture new market opportunities. The growing number of attacks have shown that India is a huge market for the cyber security industry to grow and there lies humongous potential for the Company to scale in future.

Outlook

With the recent digitalisation boom, cyber security issues are also rising, especially infrastructure breakdown due to cyber-attacks, identity theft and ransom ware. To combat these issues, India has a strong and expanding cyber security ecosystem within a strong framework set up by the GoI, with private players offering several cyber security services and products. The GoI has taken elaborate steps and designated several organisations with responsibilities to ensure national security and other privacy concerns in cyber security. The outlook for Indian cyber security companies is also bright, as their revenue stream from foreign markets is on the rise.

Company Overview

The company was incorporated in October 2000 as “AAA Technologies Private Limited” under the Companies Act, 1956 in the state of Maharashtra vide Certificate of Incorporation issued by the Registrar of Companies, Maharashtra, Mumbai. Our Company obtained a further Certificate of Incorporation on 3rd August, 2020 issued by Registrar of Companies, Maharashtra, and Mumbai consequent to conversion of the Company to a Public Limited Company.

We are an Information Technology and Information Security Auditing & Consulting Company offering a platform that enables organizations to identify the issues of corporate governance of the information system in computerized environment and execute security controls to safeguard information and information system. Our Company offers services like Information System Audit, Cyber Security, IT Assurance & Compliance, Information Security and IT Governance to BFSI, Government, Regulatory Agencies and Public and Private Sector Organizations. Our Company is promoted by experienced professionals i.e., Mr. Anjay Agarwal who has over 30 years of experience and Mr. Venugopal Dhoot who has more than 37 years of experience.

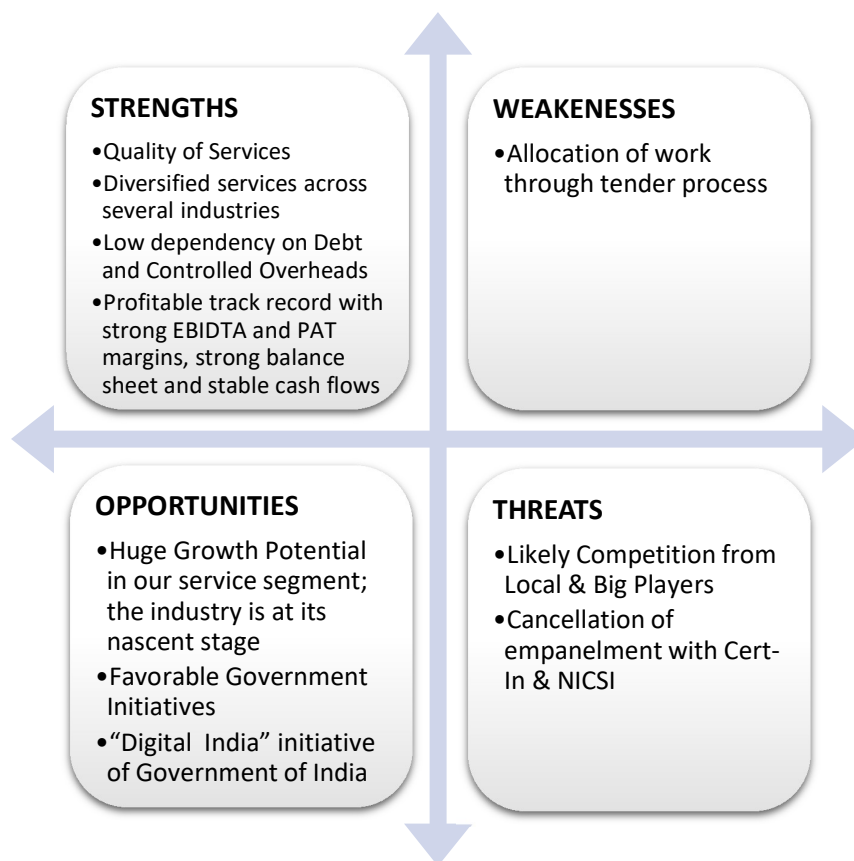

To Procure business from BFSI, Government, Regulatory Agencies and Public Sector Companies, we bid for tenders available for CERT-In empanelled IT Security Organizations; and NICS I a company under Ministry of Electronics and Information Technology, GOI for providing and procuring IT solutions for multiple E-governance projects undertaken by NIC, MeitY, Governments, Government Organization and PSU.

Our Company is also empanelled with government bodies, PSU`s and banks to directly procure business from them. Our Company has kept its focus on Information Security Auditing & Consulting keeping in view the vast scope of work in the existing and the untapped areas. As a result, our Company has been able to build its resources capable of auditing operating systems, networking, IDS, web application, ERP, ATM, core banking, forensic, websites, computer crime investigations etc.

Over the years our Company has successfully completed audits of Companies/ Institutions across various industries like banking, insurance, Financial Institutions, NBFCs, Regulatory Bodies, Government, Municipalities and Panchayats, Payment Gateways, Stock Brokers, Education, Travel and Transport, Hospitality, Manufacturing and Engineering, Infrastructure, Healthcare, Information Technology, IT Enabled Services (ITeS), Ports, Power, Trading Corporations, Entertainment, Tendering, Defense and refineries which has enabled the Company become sector-agnostic and consequently it has no dependency on any single industry for procuring business. Our Company is an ISO 9001:2015 and ISO 27001:2013 accredited Company. Our operations are supported by a competent team who are responsible for timely deliveries, pointing out threats to the clients (if any) and giving pertinent solutions to mitigate the potential risks from security threats.

Revenue from Operation: The Revenue rose by 59.71% from Rs. 1440.16 Lakhs in the financial year 2021-22 to Rs. 2300.04 lakhs in the financial year 2022-23 and the company was able to generate more revenue than its average revenue in last 4 years. In last 3 years company has provided with growth of 18.17% CAGR. The growth in revenue can be attributed to the fact that the Company is engaging in different avenues, public and private to generate earning opportunities.

Other Income: Other income for the financial year 2022-23 increased by 190.21% at Rs. 50.96 lakhs as compared to Rs. 17.56 lakhs in the previous year. Other income has witnessed major growth due to interest income earned on Fixed Deposits which are profits earned by the Company ploughed back as investments.

EBITDA: The EBITDA increased by 23.11% at Rs. 404.74 lakhs for the financial year 2022-23 as compared to Rs. 328.76 lakhs for the financial year 2021-22. This was mainly due to increase in

revenue. The EBITDA Margin was 22.55% for the financial year 2021-22 compared with 17.22% for the financial year 2022-23. Other expenses, majorly due to increase in professional fees paid due to increasing revenues, increased by 130.15% from Rs. 609.38 Lakhs in financial year 2021-22 to Rs. 1402.46 Lakhs in financial year 2022-23.

Debt and Finance cost: The finance cost for the financial year 2022-23 was nil which reflects our company is debt free.

Profit after Tax: Profit after Tax (PAT) at Rs. 286.84 lakhs for the financial year 2022-23 increased by 22.67% as compared to Rs. 233.84 lakhs in the previous year majorly due to growth in the cyber security industry and the Company capitalizing and generating revenue from the market boom.

Growth Ratios: The EBITDA has grown by 23.11% mainly due to huge growth in revenue. The EBIT or operating profit has grown by 20.31% and overall net profit has grown by 22.67% mainly due to the reasons mentioned aforesaid.

Liquidity Ratios: The Current ratio has increased for past 2 years which signifies that the company is fully equipped to meet its short term obligations efficiently. The Company has been more efficient in managing the current assets and paying liabilities within time that has resulted in improvement in the ratio. The Current ratio has increased from 9.05 times in FY 2022 to 11.33 times in FY 2023.

Return Ratios: Return Ratios indicate that the Company has been performing well on the operational front. The ROCE has increased from 13.90% in FY 2022 to 15.09% in FY 2023 due to increase in profit from operations. The ROA has also seen growth due to robust boost in the topline from 9.62% in FY 2022 to 10.76% in FY 2023 while assets stood at Rs. 2,565.47 lakhs in FY 2022 and Rs. 2,767.47 lakhs in FY 2023.

Leverage Ratios: The Company is debt free.

Efficiency Ratios: The asset turnover ratio is increasing for the last 3 years indicating the Company is improving efficiency in generating revenue from its assets. There is an increase in the receivables turnover from 1.50 times in FY 2022 to 2.90 times in FY 2023.

Liquidity: Cash & cash equivalents stood at Rs. 187.92 Lakhs in the financial year 2022-23 as compared to Rs. 569.12 Lakhs in the previous year.

Changes in Operating Cash Flow

In Fiscal 2023, net cash from operating activities was ₹ 489.45 lakh. Profit before tax (after exceptional items) was ₹ 383.37 lakh and adjustments to reconcile profit before tax to operating profit before working capital changes primarily consisted of depreciation and amortization of ₹ 21.37 lakh. This was partially offset by interest income of ₹ 45.63 lakh. The main working capital adjustments in year ended March 31, 2023 included decrease in trade receivables of ₹ 247.65 lakh, decrease in loans given of ₹ 23.64 lakhs, increase in other current assets of ₹ 8.63 lakhs, Decrease in provisions of ₹ 46.70 lakh, increase in other current liabilities of ₹ 0.02 lakhs. This was offset by income tax paid (net) aggregating to ₹ 85.64 lakh. The above growth in operating cash flow is attributed to growth in revenue and also highlights the Company's efficiency in realizing cash flow from its receivables.

Changes in Investing Cash Flow

Net cash used from investing activities was ₹ (827.89) lakh in the year ended March 31, 2023, primarily on account of purchase of property, plant and equipment (including intangible assets and capital advances) aggregating to ₹ 129.69 lakh, increase in investment of fixed deposit in bank of ₹ 743.83 lakh, offset by proceeds from interest received aggregating to ₹ 45.63 lakh.

Changes in Financing Cash Flow

Net cash from financing activities was ₹ (42.76) lakh in the year ended March 31, 2023, on account of dividend paid to the tune of ₹ 42.76 lakh. There are no finance costs incurred by the Company since it is debt free.

Segment wise Performance

The Management reviewed the disclosure requirement of segment wise reporting and is of the view that since the Company's services are covered under single business segment in terms of IND AS 108 and therefore separate disclosure on reporting by business segment (service wise) is not required.

Internal Control System and their adequacy

The Company considers that internal control is one of the key supports of governance which provide freedom to the management within an outline of appropriate checks and balances. Our Company has a strong internal control framework, which was instituted considering the size, nature and risk in the business. The Company's internal control environment provide assurance on efficient conduct of operations, security of Assets, prevention and detection of frauds/errors, accuracy and completeness of accounting records, timely preparation of authentic financial information and compliance with applicable laws and regulation. The Internal Auditor is responsible to conduct regular internal Audit and report to the management the lapses, if any and submit Report on periodic basis to the Board of Directors for their review and comments. Fully professional and experienced boards as mentioned in the corporate overview section in itself ensures efficient internal control. To ensure efficient internal control system, the Company has a well constituted Audit committee who at its periodical meeting, review the competence of internal control system and Procedures thereby suggesting improvement in the system and process as per the changes of Business dynamics. The system and process are continuously improved by adopting best in class processes, automation and implementing latest IT tools.

Risk and Mitigation Strategy

RISK	MITIGATION
<p>Market-specific risk: The IT spends in any market are affected by the domestic as well as global economic conditions. Considerable or a prolonged slowdown in a particular country or region or industry within a region severely affects the IT spends.</p>	<p>Our company provides IT Audit services mainly to Government organizations, Statutory Bodies, PSUs, Municipalities etc., we try to maintain the pre-determined standards as per these organizations requirements, which lead to receiving empanelment of various State level organizations and banks, which have the capacity to generate recurring work in the future as well.</p>
<p>Covid-19 Risk: Impact of pandemic on key segments may continue for an extended period and this could materially affect revenue growth and profitability. Further there would also be certain segments that may face cyclical downturns.</p>	<p>Our Company operates in service industry and is mainly having government entities as client, ensuring less impact on our operations. We have implemented work from home which will help us in reducing the impact of pandemic on our operations.</p>
<p>Cyber Security risks: could lead to data leakage, malware or ransom ware attacks, hacking etc. This risk also comes into focus in the context of large number of employees working from home.</p>	<p>We attempt to limit our contractual liability for consequential damages in rendering our services.</p> <p>We try to implement a Zero Trust Security model, which is a security method that operates around the belief that access should be administered based on each user or device's specific job function. This helps to limit the number of opportunities for insiders to negligently or maliciously take advantage of their access controls.</p>
<p>Procurement of specialized talent and retention risks: Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals.</p>	<p>We ensure that the employees are provided with comfortable and secure work environments. Employees are encouraged to have a proper work life Balance.</p>
<p>Technology/Obsolescence Risk: Rapid technological advances, changing delivery models and evolving standards in computer software development and communications infrastructure, changing</p>	<p>Our existing testing tools or software are enabled with latest technology and we strive to keep our tools and software in line with the latest technological standards. But in future we may require to implement new technology</p>

<p>and increasingly sophisticated customer needs and frequent new product introductions and enhancements characterize the industry. Disruptive technologies such as Cloud, Big data, social and smart devices are changing the way business is done.</p>	<p>or upgrade the software and other equipment employed by us.</p>
<p>Compliance Risk: The risk that we may not be able to obtain, renew or maintain our statutory and regulatory empanelment, registrations and approvals required to operate our business</p>	<p>The company has taken up steps to ensure that all such regulatory requirements are renewed timely as they can directly affect the operations of the company and the failure to comply with these requirements will further make it difficult to get tenders.</p>
<p>Performance Risk: May not be able to secure new contracts if we are unable to issue the requisite performance guarantees.</p>	<p>We arrange for banks to issue performance guarantees to our clients from our available banking facilities. If we do not have available banking facilities to issue the performance guarantees, we approach other banks or financial institutions to issue the performance guarantee which also helps us in securing new contracts.</p>
<p>Exposure Risk: Failure to generate enough revenues due to high dependence on a single client for large part of the revenue.</p>	<p>Our revenues are largely well-diversified across all industry sectors; we do have medium-term contractual arrangements with our clients along with many clients being year-on-year repeat customers. We are constantly striving to increase our client base and reduce dependence on any particular client.</p>
<p>Internal Control Risk: Fail to maintain an effective system of internal controls, which may result in failure to successfully manage risks, or accurately report and avoid fraud.</p>	<p>Effective internal controls help us in delivering reliable audit reports and effectively avoid fraud. Moreover, any internal controls that we implement, or our level of compliance with such controls, deteriorates over time, due to evolving cybercrime and IT related frauds. We have put adequate measures to rectify or mitigate any deficiencies in our internal controls</p>

INDEPENDENT AUDITOR'S REPORT

To the Members of **AAA TECHNOLOGIES LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of AAA Technologies Limited (“the Company”), which comprise the Balance Sheet as at 31st March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the standalone financial statements”)

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these

matters. We have determined the matters described below to be the key audit matters to be communicated in our reports.

1. Revenue Recognition

The Company derives revenue primarily from activities in IS Audit, Information Security Audit, Cyber Security Audit, IT Assurance & Compliance and IT Governance.

Revenue is recognised on the basis of services rendered to clients. Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration they expect to receive in exchange for those services. Arrangement for services is either on a fixed price, fixed-timeframe or on a time basis.

Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

This estimate has a high inherent uncertainty and requires consideration of progress of the contract, efforts or costs incurred to-date and estimates of efforts or costs required to complete the remaining contract performance obligations over the term of the contracts. This required a high degree of auditor judgment in evaluating the audit evidence and a higher extent of audit effort to evaluate the reasonableness of the total estimated amount of revenue recognized on contracts.

Principal Audit Procedures Performed

Our audit procedures related to estimates of total expected costs or efforts to measure the completion of contracts included the following, among others:

- We tested the effectiveness of controls relating to the recording of efforts or costs incurred and estimation of efforts or costs required to complete the remaining contract performance obligations.
- We selected a sample of contracts with customers measured using the percentage-of-completion method and performed the following:
 - Verified the payment terms agreed with the customers based on the degree of completion of the contract, schedule of deliveries and achievement of different milestones.
 - Relied on management's estimate of the progress towards satisfying the performance obligation by comparing actual efforts or costs incurred based on representations submitted by them.
 - Relied on the management's efficacy in maintaining internal control over every contract completion method which as confirmed by them is different for each contract. We have also

relied on estimate for consistency with the status of delivery of milestones and customer acceptances and sign off from customers to identify possible delays in achieving milestones, which require changes in estimated costs or efforts to complete the remaining performance obligations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including Other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor’s Report) Order, 2020 (“the Order”), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure “A” a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

 - d) In our opinion, the standalone financial statement comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of written representations received from the directors as on March 31, 2023, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023, from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure ‘B’,
 - g) In our opinion and to the best of our information and according to the explanations given to us, the managerial remuneration paid or provided by the company to its directors during the year is in accordance with the provisions of Section 197 read with Schedule V of the Act.
 - h) In our opinion and to the best of our information and according to the explanations given to us, we report as under with respect to other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014:
 - i. The impact of pending litigation has been duly disclosed in the standalone financial statements, if any.

- ii. The Company did not have any long term contracts including derivative contracts for which there existed any foreseeable losses

- iii. There has not been any occasion in case of the Company during the year under report to transfer any sums to the Investor Education and Protection Fund; hence the question of delay in transferring such sums does not arise

- iv.
 - a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

 - b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

 - c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v.
 - a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Companies Act, 2013, as applicable.

 - b) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Companies Act, 2013, as applicable.

ANNEXURE “B” TO INDEPENDENT AUDITOR’S REPORT

Report on the internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (“the act”)

We have audited the internal financial controls over financial reporting of AAA TECHNOLOGIES LIMITED (“the Company”) as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s responsibility for internal financial controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment,

including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- 1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 2- Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. The accounting policies have been consistently applied by the Company unless otherwise stated or where a newly issued accounting standard is initially adopted.

A. Basis of preparation

i. Statement of compliance

These financial statements are prepared in accordance with Indian Accounting Standards (hereinafter referred to as “Ind AS”) under the provisions of the Companies Act, 2013 (hereinafter referred to as ‘the Act’) (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

ii. Basis of preparation

The financial statements have been prepared on historical cost basis except the following assets and liabilities which have been measured at fair value amount:

- certain financial assets and liabilities (including derivative instruments)
- defined benefit plans- plan assets; and
- Equity-settled Share Based Payments

The Financial statements of the Company are presented in Indian Rupees, which is also its functional currency.

B. Summary of significant accounting policies

i. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current /non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting date, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle.
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as noncurrent.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services offered by the Company, operating cycle determined is 12 months for the purpose of current and non-current classification of assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents,

ii. Segment Reporting

The company identifies operating segments based on the internal reporting provided to the chief operating decision-maker.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company.

iii. Foreign Currencies

Transaction and balances

Transactions in foreign currencies are initially recorded by the company in their functional currency at the exchange rate prevailing on the date of transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency using rate of exchange prevailing on the balance sheet date.

Exchange differences arising on the settlement or translation of monetary items are recognized in the statement of profit or loss except where:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.
- exchange differences on transactions entered into in order to hedge certain foreign currency risks.
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates on the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or

loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

iv. Revenue recognition

The Company derives revenue primarily from activities in IS Audit, Information Security Audit, Cyber Security Audit, IT Assurance & Compliance and IT Governance.

Revenue is recognised on the basis of services rendered to clients. Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those services. Arrangement for services is either on a fixed price, fixed-timeframe or on a time basis.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet. Professional Fees includes work contracts, if any. Revenue from sale of services is shown as including goods and services tax.

Interest Income

Interest income from financial assets is recognized when it is probable that economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividend Income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Insurance claims

Insurance claims are accounted for based on claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

v. Property, Plant and Equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

All items of property, plant and equipment are initially recorded at cost. Such cost includes the cost of replaced part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment. The cost of an item of property, plant and equipment is recognized as an asset if, and only if, it is probable that future economic benefits associated with the item

will flow to the company and the cost of the item can be measured reliably. The property, plant and equipment are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised to write off the cost of assets (other than freehold land) less their residual values over the useful lives, using the written down value method (“WDV”). The useful lives are taken as per schedule II of Companies Act, 2013.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sale proceeds and the carrying amount of the asset and is recognised in profit or loss.

vi. Intangible Asset

Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

vii. Taxation

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognized statement of profit and loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in other comprehensive income or equity respectively.

Current taxes

Current income tax is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. The Company offsets, on a year to year basis, the current tax assets and liabilities, where it has legally enforceable right to do so and where it intends to settle such assets and liabilities on a net basis.

Deferred taxes

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and are accounted for using the balance sheet liability method.

Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for all deductible temporary differences to the

extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax relating to items recognised outside the profit and loss is recognised either in other comprehensive income or in equity.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

viii. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique

ix. Impairment of Non-Financial Assets

At the end of each reporting period, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any).

When it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-

generating unit) is reduced to its recoverable amount. An impairment loss is recognized in the profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

x. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily takes a substantial period to get ready for their intended use or sale are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred.

xi. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

xii. Dividends

Provision is made for any dividend declared, being appropriately authorized and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

xiii. Provisions

Provisions are recognised when the Company has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

xiv. Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

The Company does not recognize a contingent liability but discloses its existence in the financial statements.

xv. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equities shares outstanding during the year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to consider

- The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- Weighted average number of equity shares that would have been outstanding assuming the conversion of all the dilutive potential equity.

xvi. Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), and highly liquid time deposits that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

xvii. Employee Benefits

Liabilities for wages and salaries, including nonmonetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the undiscounted amounts of the benefits expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Note 3- Critical Accounting Judgements and Estimates

The preparation of financial statements in conformity with Ind AS requires judgements, estimates and assumptions to be made by the management of the Company that affect the reported amount of assets, liabilities, revenue, expenses, accompanying disclosures and the disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

The estimates and associate's assumptions are based on historical experience and other factors that are considered to be relevant. Actual results could differ from those estimates. These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the

revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future period.

Note 4- First time adoption of Ind AS

These financial statements, for the year ended March 31, 2023, are the first financial statements prepared in accordance with Ind AS.

The accounting policies set out in Note 2 have been applied in preparing the financial statements for the year ended on March 31, 2023, the comparative information presented in these financial statements for the year ended March 31, 2022 and in the preparation of an opening Ind AS balance sheet at April 1, 2021.

In preparing its opening Ind AS balance sheet and in presenting the comparative information for the year ended March 31, 2022, the Company has adjusted the amounts reported previously in the financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). For the purpose of transition from the Indian GAAP to Ind AS, the Company has applied Ind AS 101 - First Time Adoption of Indian Accounting Standards.

An explanation of how the transition from previous GAAP to Ind AS has affected the Company financial position is set out in the following tables and notes.

Exemptions on first time adoption of Ind AS availed in accordance with Ind AS 101 have been described in below.

I. Exemptions and exceptions availed on first time adoption of Ind AS 101

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS

Ind AS optional exemptions

a) Deemed Cost

Ind AS 101 permits, a first time adopter to elect to continue with the carrying values for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

Ind AS mandatory exceptions

a) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 1, 2021 are consistent with the estimates as at the same date made in conformity with previous GAAP.

b) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Accordingly, the Company has determined the classification of financial assets based on the facts and circumstances that exist on the date of transition.

II. Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity and total comprehensive income. The following tables represent the reconciliations from previous GAAP to Ind AS.
