However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. ## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **GLOBAL SOCIO- ECONOMIC OVERVIEW**

After a tumultuous 2020-21, which witnessed unprecedented disruption to human life and economic activity across the globe, the world economy witnessed a sharp recovery on the back of enhanced vaccination coverage and continued fiscal and monetary stimuli across countries.

As per IMF estimates, global growth in 2021 stood at 6.1% (Vs. 3.1% decline in 2020); Advanced Economies grew by 5.2% (Vs. 4.5% decline in 2020) while Emerging Markets & Developing Economies clocked a faster pace of 6.8% (Vs. 2.0% decline in 2020). The recovery momentum was, however, weakened in course of the year by new strains of the virus and an unprecedented spike in commodity prices due to global supply chain disruptions, container shortages and congestion in ports.

Even prior to the ongoing Russia-Ukraine conflict, inflation had started surging in many economies due to soaring commodity prices and pandemic-induced supply-demand imbalances. This led central banks such as the US Federal Reserve, European Central Bank and the Bank of England to bring forward the timing of tightening monetary conditions in their respective countries. The situation was exacerbated with the ongoing Russia-Ukraine conflict that caused sharp escalation and volatility in agri, fuel and crude-linked commodity prices. Persistently elevated and sticky inflation has emerged as a key concern globally. As per IMF, global inflation in 2022 is projected at 7.4% - the highest in 26 years.

According to the latest IMF estimates, aggregate global economic growth is estimated at 3.6% in 2022, representing a downward adjustment of 80 bps to earlier estimates. Advanced Economies are projected to grow by 3.3% with growth in major economies such as the United States and Euro Area estimated at 3.7% and 2.8% respectively.

### **INDIAN ECONOMIC OVERVIEW**

Financial Year 2021-22 turned out to be another challenging year for the Indian economy, marked by heightened uncertainty and volatility due to the COVID pandemic. The year began with the second wave of the pandemic having a devastating socio-economic impact in the country followed by a sharp drop in its intensity, which aided smart recovery in economic activity that reached pre-pandemic levels towards the end of the second quarter. Even as economic prospects started looking up, the country was hit hard by the third wave with new cases rising exponentially across major cities and halting the recovery momentum.

Amidst such a challenging backdrop, the Indian economy rebounded during the year growing by 8.9%, albeit on a low base. The Government of India continued to make concerted efforts, through several path-breaking initiatives across the areas of healthcare, infrastructure, social welfare and digital, to support various sections of the economy during these turbulent times which helped accelerate the pace of resumption of economic activities over the year. These include an effective and focused vaccination programme, targeted localised restrictions during peak caseloads, support to economically weak sections of society and assistance to sectors most impacted by the pandemic.

The external sector was a bright spot in the economy with India's merchandise exports surging 43% to a record high of US\$ 418 billion during the year. Unprecedented rise in commodity and crude oil prices led to persistently sticky and elevated inflation with March 2022 CPI hitting a 17-month high of 6.95%, resetting inflation expectations and the interest rate trajectory going forward. GDP estimates released by the NSO show that the Indian economy grew at 8.7% YoY as the fourth quarter of FY 2021-22 grew at 4.1% as compared to fourth quarter of preceding year. The second advance GDP estimates released in February 2022 reaffirmed a resilient and strong recovery of India's economy with the real GDP for FY 2021-22 estimated to exceed the output of the most recent pre-pandemic year of 2020.

### **India's Economic Performance in 2021-22:**

1. The Indian economy grew 8.7 per cent in 2021-22, with the gross domestic product (GDP) expanding 4.1 per cent in the March quarter from a year ago.
2. The GDP growth for 2021-22 takes the economy above its pre-pandemic level and is an improvement after contracting 6.6 per cent in 2020-21
3. Foreign exchange reserves stood at US \$634 Billion as on 31st December 2021 equivalent to over 13 months of imports and higher than country's external debt

4. The fiscal deficit for 2021-22 settled at Rs 15.87 lakh crore or 6.7 per cent of GDP, compared to the revised target of Rs 15.9 lakh crore, or 6.9 per cent of the GDP.

**PACKAGING INDUSTRY****CONSUMER INDUSTRY**

Packaging is among the high growth industries in India and developing @ 20-25% per annum\* (as per report from the Packaging Industry Association of India) and becoming a preferred hub for packaging industry. Currently, the 5th largest sector of India's economy, the industry has reported steady growth over past several years and shows high potential for continued growth and expansion, both in the domestic and export markets.

Costs of processing and packaging food can be up to 40% lower than parts of Europe which, combined with India's resources of skilled labour, make it an attractive venue for investment. A high degree of potential exists for almost all user segments which are expanding appreciably-processed foods, hard and soft drinks, fruit and marine products.

The Indian packaging industry has made a mark with its exports that comprise flattened cans, printed sheets and components, crown cork, lug caps, plastic film laminates, craft paper, paper board and packaging machinery, while the imports include tinplate, coating and lining compounds and others. In India, the fastest growing packaging segments are laminates and flexible packaging, especially PET and woven sacks.

Over the last few years Packaging Industry is an important sector driving technology and innovation growth in the country and adding value to the various manufacturing sectors including agriculture and FMCG segments. The growth is also driven by factors like growing pharmaceutical, food processing, manufacturing industry, FMCG, healthcare sector and ancillary in the emerging economies like China, India, Brazil, Russia and few other East European countries.

The Packaging Industry in India is expected to register a CAGR of approximately 26.7% during the period (2021-2026) as compared to 5.6% during 2016-2020. The growth will be heavily influenced by changing demographics such as growing urbanization and the rising proportion of middle class consumers. These changes drive the need for new packaging formats, such as different sizes, materials, and strength. India has been witnessing a surge in its e-commerce sector over the last 5-6 years. The Indian e-commerce market is projected to grow to US\$ 200 billion by 2026 from US\$ 38.5 billion in 2017. This growth is likely to be propelled by an increase in internet and smartphone penetration and the ongoing digital transformation in the country.

The growing organized retail sector has been a significant driver of the growth of the Food & Beverage industries, which in turn drives the growth of Indian packaging industry. In addition, innovations in the packaging industry, such as the development of lighter packaging with better barrier properties, add to the growth of packaging industry. In terms of packaging material, Glass and Rigid Plastics packaging market is expected to reach USD18.02 billion by 2027F growing at a CAGR of 8.01% during the forecast period. India rigid plastic packaging market is mainly driven by rising GDP, increasing per capita income, surging sales through e-commerce, changing consumer perception, etc.

The flexible packaging market in India is set to grow by USD12.72 billion, progressing at a CAGR of almost 11% during 2021-2025. The growth of the industry is due to the increased use of flexible packaging at food service outlets, along with higher demand for packaged beverages. Consumers prefer flexible packaging over rigid packaging since they are lighter, easily disposable and their impact on the environment is significantly less. Fast-moving Consumer Goods (FMCG) is the fourth-largest sector in the Indian economy. The food processing industry, part of the food and beverages segment of the sector, accounts for more than 50% of the total demand for flexible packaging.

With the growth of the industry, demand for flexible packaging is expected to increase. India is the fifth-largest preferred retail destination in the world, growth of the retail industry will directly lead to the expansion of the flexible packaging industry in India.

With advancement in technology and general awareness, the packaging sector in India is well poised as most of the raw materials for packaging are abundantly available in the country. Moreover, the per capita spending has increased tremendously, leading to changing rural markets and a growing middle class who demand the best of products. Various upgraded technologies are being used in industry such as aseptic packaging, retort packaging and biodegradable packaging to enhance the life of food product. Moreover, the plastic packaging market is expanding

rapidly registering a growth of 20-25 per cent per annum and is valued at 6.8 million tons while the paper packaging industry stands at 7.6 million tons. The packaging industry is poised to grow rapidly led by the increasing use of innovative packaging equipment and the rising flexible packaging market.

### **OPPORTUNITIES & STRENGTHS**

The growth of packaging industry in India will be majorly impacted by the performance of the End-Use Industries, growing Consumerism and government initiatives. RT Packaging Limited is suitably positioned to take advantage of the growth that is expected in the End-Use Industries and growing Consumerism in the country. This is due to low utilization of the installed capacities that presents an opportunity to capitalize on the growth in the packaging business.

The 'Make in India' Campaign: The 'Make in India' campaign launched by the current Government is expected to give a major impetus to the manufacturing industry which is likely to boost the demand for packaging in India.

### **Established Track Record**

Rollatainers is one of the pioneers of the Indian packaging industry with strong brand equity. With over 40 years of track record of success, the Company is highly regarded amongst both its customers and peers. It is also one of the few publicly listed companies in the packaging industry.

This makes it a one stop shop for the FMCG industry and other users of packaging. This also allows the Company to provide integrated and customized packaging solutions.

Over the years, RT Packaging has won reward and recognition for its focus on innovation.

### **Experienced Management Team**

The core strength of the Company is a strong and experienced senior management team. The management has a successful track record of delivering quality products with a focus on innovation.

### **THREATS AND CONCERNS**

As the key products of Rollatainers are composite materials, involving use of low density polyethylene, polyester, metallized polyethylene, paper, paperboard and Aluminium foil, they are not biodegradable. With increasing awareness on environmental issues, any decision by Government restricting use of such composites is a key risk to our business. However, the sourcing strategy of Rollatainers has been very much conscious of the environments effects,

which is why the company has been sourcing its paper and paperboard materials from certified sustainable sources. The company is also continuously working on developing new flexible packaging solutions which are more sustainable and cause least environmental impacts.

1. **Depreciated Machine and Facilities :** because of past operational losses, company could not generate enough cash for new capex for modernize its facilities, in result company companies capacity and output affected.
2. **Fragmented Structure:** One of the key features of the industry which hinders growth is its highly fragmented nature. The many vendors operating in the market compete aggressively on price with the objective of increasing their market share
3. **Lack of Negotiating Power:** A limited raw material supplier base often weakens negotiating power especially for companies that lack scale.
4. **Unorganised Sector:** Although efforts are being undertaken by the Indian Government and industry associations to bring the unorganised sector under the purview of the regulated industry, it still constitutes a significant portion of the total revenues of the industry. However, it is expected that the growing awareness of the importance of hygiene and health considerations will support the growth of the organised sector. The Company has undertaken various initiatives such as working towards greater efficiency, better quality, and product innovation to mitigate this risk.
5. **Regulatory Changes:** The industry is vulnerable to such changes in laws relating to environment, waste disposal and food & product safety. These changes can lead to an increase in costs, loss of markets, discontinuation of product lines and a need to invest more in technology.
6. In the recent past, some announcements have been made for voluntarily stopping of single use plastics, eventhough; no regulatory changes have yet been made. These announcements are, however, expected to be followed by regulatory changes sooner than later. This will have an adverse impact on some of the products currently manufactured by the company. To counter this impact, the company is already in advanced stages of developing fully biodegradable versions of such products. However, that would make such products marginally costlier in the short term.

**5. Write Off (Loan & Investment in RT Packaging Limited- Subsidiary)**

The consolidated financial statement includes the balance of R T Packaging Limited (subsidiary with 89.9%) shares.

As per the data provided to us for verification M/s Rollatainers Limited, company had lent an interest free Loan to its subsidiary to the tune of Rs. 100 Crore as reported for the financial year ending 31st March, 2021.

Company has received back amount of Rs. 5.7 crores dt. 17 March, 2022 thereby reducing the loan amount to Rs. 94.30 Crore.

The recoverable loan is written down to Rs. 23.30 Crore by writing off Rs. 71 Crore as on 31st March, 2022.

Hence the recoverable loan from the subsidiary M/s R T Packaging Limited stands to Rs. 23.30 Crore as on 31st March 2022.

Besides also,

Rollatainers Limited had value of Investment in Subsidiary companies to the tune of Rs. 10.32 Crore as reported for the financial year ending 31st March, 2021.

The figure got reduced to Rs. 8.32 Crore on 17th January, 2022 post sale of investment in Boutonniere Hospitality Private Limited to Birbal Advisors Private Limited of Rs. 2 Crore.

Thereafter the above value of Rs. 8.32 Crore was again reduced to Rs. 24.33 Lacs by writing off the said amount.

Rs. 71 Crore and impairment of Rs. 8.07 Crore in the name of single subsidiary company and impairment of Rs. 24.33 Lacs in Joint Venture M/s Rollatainers Toyo Machines Private Limited in turn bringing the cumulative figure to Rs. 79.32 Crore. Hence the carrying value of investment in the books of account comes to nil.

Due to the above transaction the loss of the company is reported to Rs. 49.93 crores whereas the company should have been in profit of Rs. 29.39 crores.

The same was discussed with the management in detail and we were not able to corroborate the managements contention of writing off the total amount of Rs. 79.32 Crore.

The effect of the same has been shown under the head Exceptional Items (Income / Expense) in the Stand-Alone Profit & Loss A/c of M/s Rollatainers Limited.

Also, Auditors would like to highlight the fact that the general reserve post above adjustment shows negative balance of Rs. 107.81 Crore.

Accordingly, we are unable to comment on the appropriateness of the carrying value of Loan and investment made in the subsidiary M/s R T Packaging Limited and their consequential impact on the financial statement of our financial ended 31st March, 2022. In our previous report ended 31st March, 2021 the said amount of Loan and investment were reflected at full value. The same amount was previously reported for the period ending 30th September, 2021 and no such situation arose at the time of Limited Review Report for the period ending 31st December, 2021.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the

standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **"Annexure B" to the Independent Auditor's Report**

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of the Independent Auditor's Report of even date to the members of **Rollatainers Limited** on the standalone financial statements as of and for the year ended March 31, 2022)

Independent Auditor's report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Rollatainers Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the Institute of Chartered Accountants of India ("the ICAI") and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

### **Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures

of the company are being made only in accordance with authorizations of Management and Directors of the Company; and

- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal financial control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

**COMPANY OVERVIEW AND NOTES TO THE FINANCIALS STATEMENTS****1. Company Overview**

Rollatainers Limited (The Company) operates as an integrated packaging solution organization with business encompassing research, manufacturing and marketing Lined and mono Cartons and Packaging Machines. The company's equity shares are listed for trading on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited.

**2. Significant Accounting Policies****2.1 Basis of preparation of financial statements**

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied except where a newly issued Indian accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Standalone Financials Statement are presented in Indian Rupees and all values are rounded to the nearest lacs, except when otherwise indicated.

**2.2 Use of estimates**

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

**2.2.1 Useful lives of property, plant and equipment & Capital Work in progress.**

Company reviews the life of property plant and equipment at the end of each reporting period and more frequently. This re-assessment may result in change in depreciation expense in future periods.

**2.2.2 Valuation of deferred tax assets / liabilities/MAT Credit**

The company reviews the carrying amount of deferred tax assets/ Liabilities at the end of each reporting period.

**2.2.3 Provisions and contingent liabilities**

A provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements, however when the realization is virtually certain then the related asset ceases to be a contingent asset and therefore recognized. However, the detail of existing contingencies as on 31st March, 2021 is provided Note no. 3.18.2.

**2.3 Revenue Recognition**

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are exclusive of excise duty/GST and net of returns, trade allowances, rebates, discounts, value added taxes.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

### **Sale of goods**

Sales are recognised when substantial risk and rewards of ownership are transferred to customer as per the terms of the contract, there is no continuing managerial involvement with the goods. The Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods., in case of domestic customer, sales take place when goods are dispatched or delivery is handed over to transporter, in case of export customers, sales takes place when goods are shipped on board based on bill of lading.

### **Revenue from Services**

Revenue from services is recognised in the accounting period in which the services are rendered.

### **Other operating revenue - Export incentives**

Revenue in respect of export incentives is recognised when such incentives accrue upon export of goods.

## **2.4 Employee benefits**

### ● **Short-Term Employee Benefits**

Short - term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services.

## **2.5 Borrowing costs**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the interest costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset.

Processing fee paid for borrowings is amortized over the term of long term loan through statement of profit & loss. All other borrowing costs are expensed in the period in which they occur.

## **2.6 Depreciation & Amortization**

The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation methods, useful lives and residual values are reviewed at each reporting period. Depreciation on additions/deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

Leasehold assets are amortized equally over the period of their lease.

## **2.7 Impairment of Assets**

### **i) Financial assets (other than at fair value)**

The company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The company recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

### **(i) Non-financial assets**

#### **Property, Plant & equipment and Intangible Assets**

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such

indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined to which the asset belongs. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

## **2.8 Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternative Tax [MAT] paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay normal income tax in future periods. Accordingly, MAT is recognized as an asset in the balance sheet when it is probable that future economic benefits associated with it flow to the company and the asset can be measured reliably.

## **2.9 Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located.

## **2.10 Financial instruments**

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets (Except Net Investments) and financial liabilities (Except Borrowings) are recognized at fair value on initial recognition, except for trade receivables and security deposits, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition.

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are approximately at fair value due to the short maturity of these instruments.

### **De-recognition of financial instruments**

The company de-recognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109. A financial liability (or a part of a financial liability) is de-recognized from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

## **2.11 Borrowings**

Borrowings are initially measured at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method.

Preference shares are separated into liability and equity components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and is measured at amortized cost (net of transaction costs) until it is extinguished on conversion or redemption. The remainder of the proceeds is recognized and included in equity.

Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the equity component is not re-measured in subsequent years.

## **2.12 Investments**

### **a) Investment in subsidiaries**

Investments in subsidiaries are valued at Cost less impairment (In conformity with IND AS 110).

### **b) Investment in associates / Joint Ventures**

Investment held by the company in associates/joint ventures have been valued at Cost less impairment (In conformity with IND AS 110).

### **c) Investment - Others**

#### **Current Investments**

#### **Non-Current Investments**

## **2.13 Inventories**

- Waste and Scrap is valued at Net Realizable Value.
- Cost of inventories also included all other costs incurred in bringing the inventories to their present location and condition.
- Cost of goods under process comprise of cost of materials and proportionate production overhead. Cost of material for this purpose is ascertained on FIFO basis.
- Provision for obsolescence in inventories is made, whenever required.

\*Net Realizable Value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

## **2.14 Earnings per equity share**

Basic earnings per equity share are computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the

outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

### **2.15 Dividends**

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

Furthermore, unpaid/ unclaimed dividend are transferred to unpaid dividend account and on expiration of 7 years period, same are deposited in Investor Education and Protection Fund.

### **2.16 Leases**

Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower.

Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.

### **2.17 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

### **2.18 Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the Consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing

categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- \* Disclosures for valuation methods, significant estimates and assumptions
- \* Quantitative disclosures of fair value measurement hierarchy
- \* Investment in unquoted equity shares
- \* Financial instruments

## **2.19 Current versus non-current classification**

**Fair value hierarchy**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The financial instruments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market. The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximate the fair value because there is a range of possible fair value measurements and the cost represents estimate of fair value within that range.

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

**5. Write Off (Loan & Investment in RT Packaging Limited- Subsidiary)**

The consolidated financial statement includes the balance of R T Packaging Limited (subsidiary with 89.9%) shares.

As per the data provided to us for verification M/s Rollatainers Limited, company had lent an interest free Loan to its subsidiary to the tune of Rs. 100 Crore as reported for the financial year ending 31st March, 2021.

Company has received back amount of Rs. 5.7 crores dt. 17 March, 2022 thereby reducing the loan amount to Rs. 94.30 Crore.

The recoverable loan is written down to Rs. 23.30 Crore by writing off Rs. 71 Crore as on 31st March, 2022.

Hence the recoverable loan from the subsidiary M/s R T Packaging Limited stands to Rs. 23.30 Crore as on 31st March 2022.

Besides also,

Rollatainers Limited had value of Investment in Subsidiary companies to the tune of Rs. 10.32 Crore as reported for the financial year ending 31st March, 2021.

The figure got reduced to Rs. 8.32 Crore on 17th January, 2022 post sale of investment in Boutonniere Hospitality Private Limited to Birbal Advisors Private Limited of Rs. 2 Crore.

Thereafter the above value of Rs. 8.32 Crore was again reduced to Rs. 24.33 Lacs by writing off the said amount.

Subsequently, investment in Joint Venture i.e M/s Rollatainers Toyo Machines Private Limited was impaired as on 31st March 2022.

i.e. to say write off. Rs. 71 Crore and impairment of Rs. 8.07 Crore in the name of single subsidiary company and impairment of Rs. 24.33 Lacs in Joint Venture M/s Rollatainers Toyo Machines Private Limited in turn bringing the cumulative figure to Rs. 79.32 Crore. Hence the carrying value of investment in the books of account comes to nil.

Due to the above transaction the loss of the company is reported to Rs. 49.93 crores whereas the company should have been in profit of Rs. 29.39 crores.

The same was discussed with the management in detail and we were not able to corroborate the management's contention of writing off the total amount of 79.32 Crore.

The effect of the same has been shown under the head Exceptional Items (Income / Expense) in the Stand-Alone Profit & Loss A/c of M/s Rollatainers Limited.

**Also, Auditors would like to highlight the fact that the general reserve post above adjustment shows negative balance of Rs. 107.81 Crore.**

Accordingly, we are unable to comment on the appropriateness of the carrying value of Loan and investment made in the subsidiary M/s R T Packaging Limited and their consequential impact on the financial statement

of our financial ended 31st March, 2022. In our previous report ended 31st March, 2021 the said amount of Loan and investment were reflected at full value. The same amount was previously reported for the period ending 30th September, 2021 and no such situation arose at the time of Limited Review Report for the period ending 31st December, 2021.

The respective Board of Directors of the companies included in the Group and of its associates and joint venture are responsible for overseeing the financial reporting process of each company.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statement**

Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Financial Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and joint venture's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group and joint venture to express an opinion on the Statement. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the Statement of which we are the independent auditors. For the other entities included in the Statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

### **Management’s Responsibility for Internal Financial Controls**

The respective Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as “the Act”).

### **Auditors’ Responsibility**

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary, associates and joint venture in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

### **Meaning of Internal Financial Controls with reference to Financial Statements**

A company’s internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that

- i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies, its associates and its joint ventures, have , in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note issued by the ICAI.

A contingent asset is neither recognized nor disclosed in the financial statements. However, the detail of existing contingencies as on 31st March, 2021 is provided Note no. 3.27.2.

## **2.4 Principles of Consolidation and Equity Accounting**

Consolidated financial statements are the financial statements of the group in which assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single economic entity.

### **(i) Subsidiaries**

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls the entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date, the control seizes.

The group combines the financial statements of the parent and its subsidiaries line by line, adding together like items of assets, liabilities, equity, income and expenses. Inter-company transactions, balances and unrealized gains all transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of impairment of the transferred assets. Accounting policies of subsidiaries have been changed wherever considered necessary to ensure consistency with the policies adopted by the group.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the consolidated statement of the profit and loss, consolidated statement of changes in equity and balance sheet respectively.

### **(ii) Associates**

Associates are all entities over which the group has significant influence but does not have control or joint control. This is generally a case where the group holds between 20%-50% of the voting rights. Investments in associates are accounted for using the equity method of accounting after initially being recognized at cost.

### **(iii) Joint Ventures**

Interest in Joint ventures are accounted for using the equity method, after initially being recognized at cost in the consolidated balance sheet.

### **(iv) Equity Method**

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment.

When the Group's share of losses in equity-accounted investments equals or exceeds its interest in the entity, including any other unsecured long term receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The carrying amount of equity accounted investments are tested for impairment.

### **(v) Changes in ownership interests**

The Group treats transactions with non-controlling interests which does not result in loss of control as transaction with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the Group ceases to consolidate or equity account for an investment because of loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognized in profit or loss.

The fair value becomes the initial carrying amount for the purposes of subsequent accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of related assets or liabilities.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to profit or loss where appropriate.

## **2.5 Foreign currency translations**

### **(i) Functional and Presentation Currency**

The Group's consolidated financial statements are presented in INR, which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

### **(ii) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss. A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as part of the entity's net investment in that foreign operation.

Foreign exchange differences regarded as adjustment to borrowing cost are presented within finance cost. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/losses.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

### **(iii) Group Companies**

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations that have a functional currency other than Indian rupees are translated into Indian rupees using exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and held in foreign currency translation reserve (FCTR), a component of equity, except to the extent that the translation difference is allocated to non-controlling interest.

## **2.6 Revenue Recognition**

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are exclusive of excise duty/GST and net of returns, trade allowances, rebates, discounts, and value added taxes.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

### **Sale of goods**

Sales are recognised when substantial risk and rewards of ownership are transferred to customer as per the terms of the contract, there is no continuing managerial involvement with the goods. The Group retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods, in

case of domestic customer, sales take place when goods are dispatched or delivery is handed over to transporter, in case of export customers, sales takes place when goods are shipped on board based on bill of lading.

The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the interest costs. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset.

Processing fee paid for borrowings is amortized over the term of long term loan through statement of profit & loss. All other borrowing costs are expensed in the period in which they occur.

Preference Shares are separated into equity and liability components based on the terms of the issue / contract. Interest on liability component of preference shares is determined using amortized cost method and is charged to the statement of profit & loss.

## **2.9 Depreciation & Amortization**

The group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation methods, useful lives and residual values are reviewed at each reporting period. Depreciation on additions/deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

Leasehold assets are amortized equally over the period of their lease.

## **2.10 Impairment of Assets**

### **i) Financial assets (other than at fair value)**

The group assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The

group recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

**ii) Non-financial assets**

**a) Property, Plant & equipment and Intangible Assets**

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss.

**b) Investment in subsidiaries**

Investments in subsidiaries are valued at Cost less impairment (In conformity with IND AS 110).

**c) Investment in associates / Joint Ventures**

**Non-Current Investments**

Quoted long term investments have been classified as FVTOCI and unquoted long term investments are have been classified as FVTPL.

**2.11 Non-Current Assets held for sale/ Discontinued Operations**

The Group classifies non-current assets and disposal groups as held for sale, if their carrying amounts is likely to be recovered principally through a sale rather than through continuing use and there is a commitment from the management to sale the above assets within one year from the date of classification. The asset is regarded as held for sale only when the assets or disposal group is available for immediate sale in its present condition, subject only to the terms that are usual and customary for sales and its sale is highly probable and also it will genuinely be sold, not abandoned.

Non-current assets held for sale to owners and disposal groups are measured at lower of their carrying amount and the fair value less cost to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet. Property, plant and equipment and intangible assets held for sale, once classified as held for sale are not further depreciated or amortized. Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

**2.12 Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternative Tax [MAT] paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Group will pay normal income tax in future periods. Accordingly, MAT is recognized as an asset in the balance sheet when it is probable that future economic benefits associated with it flow to the Group and the asset can be measured reliably.

### **2.13 Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located.

### **2.14 Financial instruments**

The group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets (Except Net Investments) and financial liabilities (Except Borrowings) are recognized at fair value on initial recognition, except for trade receivables and security deposits, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition.

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are approximately at fair value due to the short maturity of these instruments.

Trade receivables, loans and advances which also includes balances from group entities are subject to confirmation and reconciliation.

Fair value of investments have not been considered in the books of account.

A provision is recognized if, as a result of a past event, the group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

**2.19 Earnings per equity share**

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

**2.20 Dividends**

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's board of directors.

**2.21 Leases**

Leases under which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower.

Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.

## **2.22 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

## **2.23 Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the Consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- \* Disclosures for valuation methods, significant estimates and assumptions
- \* Quantitative disclosures of fair value measurement hierarchy
- \* Investment in unquoted equity shares
- \* Financial instruments

## **2.24 Current versus non-current classification**

All assets and liabilities have been classified as current or non-current as per company's normal operating cycle and other criteria set out in the Schedule III to the Act.

## **2.25 Foreign currency translation**

Foreign currency translations are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

**Fair value hierarchy**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The financial instruments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market. The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximate the fair value because there is a range of possible fair value measurements and the cost represents estimate of fair value within that range.

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The company's financial assets include investment, loans, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The company is exposed to credit risk and liquidity risk. The company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

**(A) Market Risk:**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: Interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings, deposits and payables/ receivables in foreign currencies.

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including loans to related parties, deposits with banks and other financial instruments.

**(C) Liquidity risk**

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure funds are available for use as per requirements. The Company's prime source of liquidity is cash and cash equivalents and the cash generated from operations. The Company has no outstanding bank borrowings. The Company invests its surplus funds in bank, fixed deposit and mutual funds, which carry minimal mark to market risks. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.
