Limitless growth: Nurturing a sustainable future

At Dharmaj Crop Guard, we believe in cultivating more than just crops - we are growing a vision of limitless possibilities for farmers, stakeholders, and the agricultural industry as a whole.

Our innovative crop protection solutions are the seeds of change, designed to help farmers achieve exceptional yields and maximise their potential. But our mission extends far beyond our own success. We are committed to fostering responsible, limitless growth for all those we touch - from the fields to the boardroom.

As we expand our horizons with new production facilities and venture into active ingredients, we are not just growing our business - we are strengthening the entire agricultural value chain. Our capital-efficient business model and robust financial structure provide the fertile ground from which sustainable growth can flourish.

Trust is the sunlight that nourishes our relationships - with our global clientele, our dedicated workforce, and our community.

This unwavering commitment to ethical practices and transparency yields a harvest of value for all our stakeholders.

Sustainability is the water that sustains our growth. From solar panels to wastewater treatment plants, we're cultivating a greener future for agriculture. Our deep-rooted commitment to Corporate Social Responsibility ensures that as we grow, our communities thrive alongside us.

As we look to the future, we see a landscape of endless opportunity. By expanding our presence, enhancing our formulations business, and improving our competitiveness, we're planting the seeds for exponential growth across all fronts.

Join us as we nurture innovation, responsibility, and prosperity - together, we'll grow a future without limits.

LETTER TO SHAREHOLDERS

Breaking new ground

Dear Shareholders,

I am pleased to once again address you through our annual report and reflect on Dharmaj's performance in FY24. As many of you are aware, the past year presented significant challenges for the agrochemical industry. While the domestic business experienced a delayed start to the sowing season in April and subdued rainfalls in August, the overall season ultimately proved satisfactory.

The first half of FY24 witnessed continued challenges in exports and the active ingredients value chain, which commenced in FY23. The industry faced ongoing issues related to falling prices, which impacted formulation realisations, as well as continued effects of international destocking. Although demand-related concerns subsided in the second half, coupled with price stabilisation, we encountered a new challenge in the form of intense pricing competition from the Chinese industry.

25%

Top line growth in a challenging year

Despite these external headwinds, I am delighted to report that Dharmaj's performance has shone through. Our Company achieved record results in terms of both top-line and bottom-line figures, demonstrating our resilience and adaptability in a turbulent market environment.

Achievement of Strategic Objectives

While our record performance in a challenging year is noteworthy, it is not the most significant achievement of the past financial year. That distinction undoubtedly belongs to the commissioning of our Saykha active ingredients facility in January 2024. This pivotal project marks our entry into the entire agrochemicals value chain, representing a transformative step for our Company.

In the months following commissioning, the plant has successfully transitioned from trial batches to commercial-scale orders and is well on its way to achieving its first year's capacity utilisation targets. We are currently targeting a monthly production run rate of 200 MT from the Saykha site – a remarkable feat for a greenfield facility, especially given that it represents our first foray into this domain.

On the product portfolio front, we have commercialised a total of 8 products, including some beyond our synthetic pyrethroids portfolio. We have achieved the desired purity levels in almost all products, and while yields are being optimised for recently launched products, initial products have stabilised on the yield front as well. This will continue to be an ongoing process of refinement and improvement.

In the months following commissioning, the plant has successfully transitioned from trial batches to commercial scale orders and is well on its way to achieving its first year's capacity utilisation targets.

We are not only consuming technicals & intermediates captively but also witnessing good traction in export sales, with several export orders already dispatched to markets where we have registrations in place. For other markets, registration applications have been submitted for many larger export destinations last year, including Brazil, the US, and Europe. While these are medium to long-term initiatives with a considerable gestation period, they position us well for future growth.

Overall, we are confident in our ability to scale up operations at this facility. As we progress, we won't limit ourselves to standard molecules but are also focusing on higher-value and better-margin molecules, some of which have already been commercialised in Phase-I. While these won't be high-volume products initially, they will help us optimise our overall realisations as we scale up. We plan to build on this further in Phase-2 of product additions.

Strengthening Our Mainstay

While we are advancing on new strategic initiatives such as our entry into the Active Ingredients business, we are simultaneously strengthening our core business: Formulations. Within our branded formulations business vertical, we have expanded our geographical presence by adding 4 new states in South India: Odisha, Andhra Pradesh, Karnataka, and Telangana. This expansion not only marks our entry into South Indian markets, where we previously had no presence, but it has also transformed us into a pan-India national player with a presence across 24 states.

Having achieved an almost pan-India presence, with the addition of 10 markets in the last 3 years, our focus for the coming years will be channelled into scaling up in these new and existing markets. New stock depots have been established, and the majority of team hiring has been completed for the new markets, with some additional hiring expected during the season.

In the Institutional Formulations vertical, we continue to perform well, with the strengthening of our product portfolio and clientele serving as key drivers of growth.

Apart from the small formulators category where we continue to see good traction, we have also had some breakthroughs with large agrochemical majors. With operations now underway at our Active Ingredients site, we will be witnessing the benefits of cost-competitiveness in our Formulations business as well.

What's in Store for the Future?

As we move into FY25, we are positive and excited about the prospects for our Company. The upcoming year looks promising for domestic agrochemical markets, with a favourable rainfall forecast and expectations of a good sowing season, which bodes well for our formulations business.

All our efforts are being channelled towards operations ramp-up at Saykha, which will be a key determinant of performance in the coming years. While such a large-scale investment is bound to have some teething issues and a gestation period to realise its true potential, we are fully geared to deliver on its promise.

I would like to express my heartfelt gratitude to all our stakeholders for being part of our growth story. I extend my thanks to our dedicated employees for their immense commitment in building our brand. I am grateful to our customers, farmers, and distribution network for their trust in us. And once again, I thank all our shareholders and investors for their faith in our business model.

As we embark on a journey that promises to add more value, we seek your continued support in building a better organisation and a better world. Our growth potential, coupled with our expanded product portfolio and geographical presence, provides a solid foundation for Dharmaj's future success. As we continue to innovate and adapt to market demands, including the shift towards bio-pesticides and organic farming, we are confident in our ability to create lasting value for our shareholders and contribute positively to the agricultural sector.

Thank you for your unwavering support and trust in Dharmaj. Together, we look forward to a future of sustainable growth and shared success.

Sincerely,

Ramesh Talavia

Chairman and Managing Director

CORPORATE PROFILE

Pioneering crop solutions

Founded in 2015 by first-generation entrepreneurs with extensive experience in agrochemicals and farming, our Company is deeply committed to providing innovative products that empower farmers to maximise their yields. Our core business spans the entire agrochemical value chain, encompassing the manufacturing and marketing of a comprehensive range of agrochemical active ingredients and formulations. We strategically organise our business operations into three verticals: Branded Formulations (B2C), Institutional Formulations (B2B), and Active Ingredients (B2B).

This year, we strengthened our integrated business model by commissioning a multi-purpose active ingredients manufacturing facility in Saykha. This expansion further solidifies our presence across the entire agricultural value chain, from production of active ingredients to distribution of finished formulations.

Recently, CRISIL Ratings upgraded our credit rating to **BBB+/Stable** from BBB/Stable earlier.

Seeding Innovation

Our focus on innovation is evident in our wide product portfolio, ranging from insecticides, fungicides, and herbicides to plant growth regulators, micro-fertilisers, and antibiotics. We are continually expanding this repertoire, holding 535 product registrations, with a resolute focus on meeting the diverse needs of our customers. We also engage in the business of general insect and pest control chemicals for public and animal health protection.

Core Purpose

To provide radical solutions to human beings in such a way that they can grow with full potential and improve their prosperity.

Vision

We are a market-focused, process-centred organisation that develops and delivers innovative solutions to our customers. Our main aim is to be the most trusted and ethical source of our products across the globe.

The organisational goal set by our founding team during incorporation - to become a **₹ 2,000 Crore** Company by 2030.

Global Field-Print

Headquartered in Ahmedabad, Dharmaj Crop Guard stands as a catalyst of growth not just in India, but across borders. With a footprint in 29 countries spanning Latin America, East African countries, the Middle East, and Far East Asia, our products have become synonymous with top-tier quality, contributing to healthier societies.

Guided by our expertise in crafting innovative formulations, a proactive approach to generating demand, and robust manufacturing capabilities, we are reshaping the crop protection segment. The consistent excellence of our products, coupled with our capacity to consistently update and broaden our portfolio, as well as our reliable supply, positions us as a trusted ally to lakhs of farmers and over 700 institutional customers across India.

Imbibing Our Motto

Dharmaj truly imbibes its motto "Limitless Growth", as evidenced by its performance as one of the fastest growing players in the agrochemical industry.

OUR JOURNEY

Foundation.
Formation.
Flight.

Dharmaj's journey, spanning just nine years, has been marked by transformative growth and strategic milestones. We have rapidly established ourselves as a significant player in the agrochemical industry, with a strong commitment to value creation.

Our evolution can be traced through the following key developments:

Foundation

2015-17

In this foundational phase, we forged our identity and established the groundwork for success by implementing robust processes and procedures. We developed capabilities to manufacture various formulations and market them effectively through both B2B and B2C channels. Our focus on building an extensive customer network paid particular attention to an underserved segment: small formulators and regional players. Simultaneously, we launched our proprietary branded vertical, supported by a dedicated distribution network.

2015

- Incorporated with a vision to become one of the fastest growing AgChem companies

2016

- Commissioning of formulation facility in Kerala GIDC, Ahmedabad & beginning commercial operations

2016

- Started Branded formulations business vertical with Gujarat, Madhya Pradesh, Bihar and Chhattisgarh
- Simultaneously, commenced with Institutional formulations vertical & began international product registrations

Formation

2018-21

During this period, we focused on consolidating operations, expanding capacities, and taking a significant step towards diversification. We successfully established a strong export presence while simultaneously entering the public and animal health segments. This phase also marked the beginning of our journey to establish a comprehensive end-to-end value chain presence.

2019

- Achieved ₹ 1,000 mn in Revenue
- Acquired additional land in Kerala GIDC for expansion of formulation facility
- Acquired Saykha land parcel on 99-year lease to setup Active Ingredients facility
- Commenced planning & made EC filings for Active Ingredients expansion

2021

- Achieved ₹ 3,000 mn in revenue
- Doubled formulation capacity from 11,400 MT to 25,500 MT
- Started Public Health vertical
- Received NABL certification for QC laboratory

Flight

2022 and beyond

The current phase signifies a nationwide operational scale-up and an intensified focus on exports. We are making notable inroads with institutional clients, including renowned multinational corporations and significant Indian agrochemical companies. Additionally, we are experiencing growth within the small formulators customer segment.

A key development in our strategic evolution is the establishment of an active ingredients facility, which is poised to drive our upcoming phase of growth.

2022

- First external equity capital raise via IPO (₹ 2,014 mn fresh issue)
- Entered 6 new states in the Branded Formulations vertical

2023

- Surpassed ₹ 5,000 mn revenue benchmark despite industry headwinds

2024

- Commissioned Active Ingredients facility at Saykha
- Entered 4 new states in southern India markets for Branded Formulations vertical

As we continue to evolve, Dharmaj's story exemplifies **growth, strategic foresight, and innovation**. Through **collaboration, adaptation, and expansion**, we are redefining excellence in the agrochemical sector, promising an inspiring future for our stakeholders.

3. Net Block has increased significantly in FY24 due to capitalization of a large greenfield CAPEX in January 2024, thus also reducing Fixed Asset Turns

BUSINESS VERTICALS

Integrated value chain synergy

The recent commissioning of our active ingredients manufacturing facility has transformed Dharmaj from a Company primarily focused on agrochemical formulations into a fully integrated player across the entire agrochemical value chain. In the dynamic landscape of agrochemicals, we now stand as a model of synergy, innovation, and growth.

As we navigate our future path as an integrated Company, our vision extends beyond mere growth. We aim to foster a flourishing ecosystem where each business vertical in our value chain contributes significantly to the prosperity of agriculture and our stakeholders.

Our current manufacturing capabilities include a **formulation production capacity of 25,500 TPA** and a multi-purpose facility for intermediates and **active ingredients with an 8,000 TPA** capacity. We support our production capabilities through diverse sales channels: **Branded Formulations (B2C), Institutional Formulations (B2B), and Active Ingredients (B2B)**, thus creating an integrated business model.

Anticipated Strategic Benefits

- Establishment of an additional business vertical i.e., Active Ingredients, and further diversification in revenue streams
- Improvement in the blended margin profile of the business
- Increased control over input availability for formulation manufacturing through backward integration
- Reinforcement of the existing formulations business (B2B and B2C) with enhanced cost competitiveness, rigorous quality controls, and dependable supply
- Creation of opportunities for expanding formulation & technicals exports with cost efficiency
- Significant support to nascent verticals such as public and animal health

Building and maintaining strong brands is a demanding and ongoing process. Over the past 9 years, we have diligently worked to cultivate a robust portfolio of brands that resonate strongly with our primary consumer base - farmers.

Our brand equity today is the result of numerous factors working in concert. We have invested heavily in extensive on-ground demand generation efforts

and strategic marketing activities. Our commitment to consistently delivering high-quality products at competitive prices has been instrumental in building trust with our customers. Additionally, we've implemented innovative trade policies and continuously introduced new, and better formulations to meet evolving market needs. These elements have collectively fostered aggressive growth for our Company. Our success can be attributed to our unwavering commitment to these key areas, as well as our ability to adapt and innovate in a dynamic market environment.

Leveraging technology

We have embraced technology as a key enabler, investing in and implementing robust ERP systems to streamline workflows and enhance operational efficiency. These systems allow us to automate workflow, operate core processes more effectively while providing real-time information and analytics for improved decision-making. Our digitization efforts are an ongoing process.

In collaboration with a technology vendor, we have developed a mobile application that enables fully digital interactions with our distribution network. This app empowers our dealers and distributors with an efficient order management system, facilitating seamless payment and billing processes. It also generates multiple reports, sales analyses, and other relevant information.

Aggressive demand generation activities

Proactive engagement defines our approach to brand building. We invest heavily in on-ground demand generation, stakeholder engagement, and interactions with dealers, distributors, and farmers. Our brand-building activities include initiatives such as dealer appointments and visits, product demonstrations, farmer meetings, field days, and jeep campaigns.

Our commitment to intensifying marketing efforts is evident in our strengthened sales force of over 200 people, who conduct field visits and product demonstrations in both new and existing markets. These efforts foster the adoption of best practices and highlight the performance of our products.

Additionally, we actively leverage the power of social media to market our products and engage with our community. We regularly interact with over 65 lakh farmers across various social media platforms, further enhancing our brand presence and connection with our audience.

Focus areas going forward

- 1 Penetrate existing markets**
 Having secured a prominent position among the top five players in branded sales in Gujarat over the last 8 years, our focus is on replicating this success across different markets over time.
- 2 Completed pan-India presence**
 We remain committed to exploring opportunities and expanding our presence across India, with the ultimate goal of becoming a pan-India national player. By entering 4 new states in South India and establishing our presence in 24 states overall, we have made significant progress towards realizing this vision.
- 3 Reinforce portfolio**
 We are committed to continuously refreshing our product portfolio. This involves introducing new products and formulation combinations while strategically phasing out certain existing offerings to enhance overall profitability.
- 4 Scale operations**
 Exploring opportunities for collaborations with global innovators and in-licensed marketing partners with agrochemical majors will be instrumental in scaling our business and pursuing the next level of opportunities.

INSTITUTIONAL FORMULATIONS VERTICAL

Institutionalising success

Our Institutional Formulations vertical serves as our primary business segment, catering to a diverse clientele that includes multinational corporations, large Indian enterprises, medium to small Indian formulators, and international customers. A key differentiator of our Institutional Formulations vertical is our dedicated focus on the often underserved segment of small formulators and regional players.

Our strength lies in providing bulk formulations with rapid turnaround times and precision packaging to institutional customers both within India and abroad. This strategic approach and

large clientele not only ensures economies of scale but also allows us to diversify across a broader customer base. By maintaining this stronghold in the market, we can effectively meet the varied needs of our institutional clients while optimising our operational efficiency.

Since our inception, the Institutional Formulations business has been our mainstay and our biggest revenue generator.

Institutional Formulations Business Snapshot

Exporting excellence

In the international markets, our formulations reach over 90 institutional export customers across 29 countries. With a robust portfolio boasting 85 export market product registrations and an additional 202 products in the registration pipeline, we are well-positioned for further expansion.

Domestic engagements

In the domestic market, our institutional business offers over 250 products tailored to meet the diverse needs of more than 700 customers. We actively engage with a broad-ranging customer base including multinational clients, domestic AgChem majors, and small formulators and regional players, particularly those with sales under 10 crore, who represent an underserved category.

Focus areas going forward

Nurturing growth at home

We are leveraging the benefits of backward integration into active ingredients to bolster our cost-competitiveness and improve production reliability. This strategic advantage also enhances our engagement with multinational customers, offering a better value proposition. We continue to see significant growth opportunities by maintaining our strategy of engaging with small formulators within this vertical.

International ramp-up

Our international portfolio includes over 250 products with presence across 29 countries. We have secured 85 export market product registrations, with an additional 202 currently in the registration process. Our focus remains on expanding export product registrations, with several new approvals expected soon in existing markets such as Africa, Latin America, and select developed markets. We are also exploring opportunities to enter new markets while strengthening our presence in existing ones. As more product registrations are finalised, our export business is set to grow significantly, aligning with our aspirations for diversified, long-term growth.

ACTIVE INGREDIENTS VERTICAL

*Backward integration.
Forward movement.*

Dharmaj has sown the seeds of progress with the establishment of a state-of-art greenfield facility dedicated to the manufacturing of agrochemical active ingredients and intermediates. This strategic leap is a testament to our commitment to self-sufficiency and the pursuit of growth in the agrochemicals industry.

As we chart our course towards the future, our focus on backward integration and presence across the agrochemical value chain takes centre stage. The commissioned facility is a crucial milestone in this journey. With a meticulously designed plant consisting of 4 separate production blocks, this facility has been designated for captive consumption of technicals as well as external sales to establish Active Ingredients as a dedicated business vertical.

Spread across ~37,000 Sq. Mt. in the Saykha Industrial Estate, Bharuch, Gujarat, our active ingredients facility was commissioned on Jan 22, 2024.

OPERATIONAL EXCELLENCE IN FORMULATIONS

*Sowing efficiency,
reaping excellence*

Dharmaj's state-of-the-art formulations manufacturing facility stands as a testament to our commitment to quality, efficiency, and sustainability in the agrochemical industry. Located in Kerala GIDC, Ahmedabad, this integrated plant forms the bedrock of our success in the formulations business.

Advanced Manufacturing Capabilities

Our facility boasts modern equipment and automation, implementing best industry practices to achieve high-quality production with optimal productivity. The substantial capacity of this plant drives our competitive edge, offering cost-effectiveness and the ability to rapidly scale production to meet business requirements. This agility is particularly crucial during peak seasonal months when demand surges significantly.

The facility's versatility is evident in its capability to manufacture all categories of formulation products, including EC, SC, SL, SG, WDG, WP, DP, GR, CS, and ZC. This wide-ranging production capability ensures we can meet diverse market needs efficiently.

OPERATIONAL EXCELLENCE IN FORMULATIONS

Operational Excellence

The facility's design prioritises operational flexibility and efficiency. Equipment is capable of being used interchangeably across segments with minimal modifications, reducing the need for additional capital expenditure when scaling up production. Our ability to plan production efficiently based on market understanding, coupled with quick ramp-up capabilities, allows us to maintain lean operations by minimising inventories.

All in all, Dharmaj's formulations manufacturing facility represents a significant competitive advantage in the agrochemical industry. Its advanced capabilities, integrated operations, commitment to sustainability, and operational excellence position us to meet market demands efficiently while maintaining the highest standards of quality and environmental responsibility.

Manufacturing Capacity

(In MT)

Integrated Operations and Quality Assurance

Our manufacturing process is fully integrated, encompassing everything from raw material procurement to final dispatch. This integration minimises waste and ensures consistent high quality throughout the production cycle. A NABL-accredited quality control laboratory on-site enables rigorous quality checks at every stage, from raw material intake to finished product dispatch.

Certifications

Certified with ISO 9001:2015, ISO 14001:2015, ISO 17025:2017, and ISO 45001:2018, it stands as a symbol of quality and effectiveness across agrochemical formulations.

Sustainability Conscious

Demonstrating our commitment to sustainable operations and reducing our carbon footprint, we have installed solar panels at the facility. This renewable energy source helps reduce our emissions, power our manufacturing operations while minimising electricity costs. Additionally, we have implemented a wastewater and sewage treatment plant (STP) to remove pollutants from operational wastewater, further enhancing our environmental responsibility. The plant is also equipped with a bioreactor to treat waste & sewage water to remove pollutants.

Quality

Our quality control lab and R&D centre play pivotal roles. Our quality assurance department rigorously monitors raw materials and end products, conducting robust audits and quality checks with cutting-edge testing facilities. As we invest in laboratories and R&D facilities, our pursuit of quality excellence and innovation is relentless.

The facility's design prioritises operational flexibility and efficiency. Equipment is capable of being used interchangeably across segments with minimal modifications.

GEOGRAPHICAL FOOTPRINT

From local roots to global shoots

Our roots run deep across the fertile landscapes of 24 states in India, nurturing a robust distribution network and ensuring demand generation of our branded products. This expansive network ensures that our branded products reach the farthest corners, delivering quality crop protection solutions to farmers, aligning seamlessly with their seasonal cropping needs.

With 20 strategically positioned stock depots, and our expertise in supply chain management, we maintain optimal inventory levels and ensure swift deliveries. This network not only fortifies our presence but also exemplifies our commitment to meeting the diverse demands of Indian agriculture.

Clustered growth approach

Following a strategic clustered growth approach, we consistently target entry into new states, implementing an assertive go-to-market strategy and demand generation activities, which is then trailed by scaling up in these markets exponentially. On an average, we have entered two new states every year since incorporation, following this approach.

In the past three years, we have expanded our field-print to encompass 10 new states. Concurrently, we have significantly augmented our on-ground sales and marketing team in the last 3 years, amplifying our marketing force of over 200 people, strategically poised to harness the potential of these states.

500+ dealers & distributors added during FY24, taking the total to **5,000+**

Broadening our reach

As we sow the seeds of expansion, our vision extends beyond horizons. We've developed a strong strategy to extend our footprint both domestically and internationally, encompassing:

- Devoting resources to multiply registrations in untapped, new markets
- Optimising existing resources for enhanced operational efficiency
- Bridging new frontiers by leveraging established relationships
- Stepping onto global stages through international agrochemical exhibitions and industry conferences, where our products take the spotlight

STRATEGIC PRIORITIES

Roadmap for the future

In the ever-evolving agrochemical and crop protection industry, we have crafted a strategic roadmap to capitalise on emerging opportunities both in India and abroad, propelling our long-term growth. We aim to maintain the momentum of our historical growth while actively pursuing expansion across all business verticals. Our roadmap for success is anchored in a comprehensive five-pronged approach.

1 Create a forward momentum with backward integration

Embarking on a journey into active ingredients and intermediates, our Saykha facility signals a pivotal move. This aligns with our commitment to bolster capabilities, enhance cost competitiveness, and extend our footprint in both domestic and international markets.

Our initial focus will prioritise stabilising plant operations and delivering on first year's capacity utilisation targets. We are meticulously working on production ramp-up to ensure seamless operations, and gradually reaching optimum capacity utilisation. Our goal is to attain optimal capacity utilisation within three years from the commencement of commercial operations. This strategic approach will enable us to maximise the potential of the facility.

The capacity will be used for internal consumption, allowing us to achieve the benefits of backward integration and enhance our cost competitiveness, as well as create Active Ingredients as a dedicated business vertical through external sales in both domestic and international markets.

2 Continued thrust on branded formulations

We are intensifying our efforts to amplify our brand presence and reinforce our commitment to sales promotion and demand generation, particularly in our branded formulation vertical. This strategy involves increased engagement through dealer interactions, farmer training programs, field demonstrations, jeep campaigns, and customer loyalty initiatives like the Bharat Circle. We are also actively participating in national and global exhibitions to elevate our brand visibility and create numerous opportunities for meaningful engagement with our target audience. In line with the digital era, we are leveraging various digital platforms to expand our outreach and enhance interaction with customers. This approach facilitates effective communication of our product offerings and value proposition.

To strengthen our branded business, we are implementing a multifaceted approach. This includes continuously launching innovative products, initiating proactive on-ground demand generation activities, engaging with stakeholders, and implementing creative trade policies aimed at fostering business growth. Through these strategies, we aim to solidify our market position and address the evolving needs of our customers.

Simultaneously, we are poised to capitalise on the potential of the ten states we have entered over the past 3 years in branded formulations, while reinforcing our position in existing markets.

3 Empowering institutional business in India and abroad

Our strategic focus revolves around bolstering our mainstay institutional formulations business, both within India and outside.

Within the domestic market, we plan to capitalise on our cost competitiveness, strategically attracting new accounts across diverse customer segments. Additionally, we aim to intensify our collaboration with multinational corporations (MNCs) and prominent Indian agrochemical companies to broaden our market presence.

In the export market, our priority is to boost efforts in increasing product registrations, making strategic investments where needed, and strengthen our foothold in existing markets while actively pursuing new markets with favourable conditions for initial product registrations. As we receive product registrations and scale up backward integration through active ingredients facility, there is a potential for promising growth in our export business.

4 Public and animal health segment expansion

While Pyrethroids have been predominantly recognised for enhancing crop yield and providing a safer alternative to organophosphate pesticides, their applications have significantly expanded into public and animal health domains.

In response to this evolving landscape, we are strategically poised to broaden our pyrethroids product line, specifically targeting the public and animal health verticals. Our comprehensive portfolio encompasses insect control, termiticide, larvicide, indoor spray, rodenticide, and cockroach gels, featuring reputable brands such as Dhoofoon, Dharmexo Gel, and Podcast 25WP.

Our strategic goal involves establishing independent sales channels for these product categories. Notably, these products play a crucial role in government welfare initiatives aimed at combating malaria, filaria, dengue, chikungunya, and various parasitic diseases. The recent commissioning of our active ingredients manufacturing facility will play a pivotal role in supporting the growth of this vertical.

5 Pursuing future avenues

As our Company extends its footprint, solidifying a robust presence throughout the value chain via strategic backward integration, it not only gains momentum but also attains a considerable scale of operations, both domestically and globally. This strategic positioning empowers us to explore the next phase of opportunities, including avenues such as marketing licensed formulations for patented molecules and fostering strategic collaborations with international players, among other potential ventures.

ENVIRONMENTAL RESPONSIBILITY

Caring for nature

With the growing importance of sustainability and ESG (Environmental, Social, and Governance) responsibility, Dharmaj stands committed to cultivating growth in a responsible manner. We care for nature, and hence remain focussed on continually improving our environmental performance by implementing global best practices.

Our journey towards a greener and better world is rooted in conscientious practices, marked by investments in sustainable technologies and initiatives. Beyond mere compliance with regulatory norms, we are devoted to setting new benchmarks for environmental stewardship, emphasising continuous improvement and fostering awareness among our dedicated workforce.

Some of the initiatives and investments that we have implemented within our operations include:

Harnessing renewable energy

A significant stride in our commitment to sustainable operations is manifested in our embrace of solar energy.

Our formulations manufacturing facility proudly boasts solar panels that contribute 35% of our energy needs, demonstrating our dedication to clean and renewable power sources. By harnessing solar energy, we not only ensure reduced environmental emissions in our operations but also substantially curtail our electricity costs, paving the way for a more economically and ecologically viable future.

Zeroing in on environmental impact

Dharmaj's pledge to environmental responsibility is further underlined by our Zero Liquid Discharge (ZLD) formulations facility. This innovative approach ensures that our manufacturing processes generate minimal liquid waste, aligning with our mission to leave a minimal environmental footprint.

As stewards of the land, we strive for sustainability not just in our products but in the very processes that bring them to life.

Purifying every drop

Our commitment to responsible environmental practices extends to water conservation and purification. At the heart of our operations lies a state-of-the-art wastewater & sewage treatment plant (STP) with a substantial capacity of 7,800 kilo litres.

This plant acts as a sentinel, diligently removing pollutants from the wastewater generated during our operations. Through meticulous purification, we endeavour to return water to nature in a form that respects the delicate balance of our ecosystems.

In our pursuit of excellence, Dharmaj envisions a future where agricultural prosperity seamlessly coexists with environmental sustainability.

As we tread the path of responsible growth, our initiatives stand as a testimony of our unwavering commitment to environmental responsibility and a promise to nurture a thriving planet for generations to come.

SOCIAL RESPONSIBILITY

Nurturing growth beyond fields

Business and community are interlinked and interdependent. This understanding forms the cornerstone of our commitment to social responsibility. At Dharmaj, we believe in not just cultivating crops but fostering inclusive growth, creating shared value, and contributing to the well-being of the communities we are an integral part of.

In essence, our commitment to social responsibility is not just an obligation; it is a testament to our belief in cultivating a holistic ecosystem, where every stakeholder, from farmers to local communities, thrives in the shade of our inclusive growth. As we nurture fields, we nurture lives, realising that prosperity cultivated with care bears the sweetest fruit.

A commitment beyond obligation

We take pride in our conscientious approach to Corporate Social Responsibility (CSR), transcending mere compliance to embody a deeper commitment. Our CSR initiatives find resonance through the Dharmaj Foundation, and strategic partnerships with esteemed trusts and non-governmental organisations. Our primary focus revolves around elevating healthcare and educational standards within our local communities.

In FY24, our CSR contribution amounted to a commendable ₹ 7.41 million. These funds are not just numbers on a ledger; they are investments in the future, sowing seeds for a healthier, more educated tomorrow.

Community engagements - farmer benefit in our heart

Our responsibility extends beyond the factory gates. We are committed to empowering farmers, the guardians of our agricultural heritage. Through meaningful engagement, product demonstrations, and regular training, we strive to maximise their yields. Our commitment to farmers goes beyond the fields, creating a bond that strengthens over time.

Fieldotsav - a pan-India celebration of agriculture

Recently, we organised 'Fieldotsav', a pan-India celebration of agriculture. Our sales and marketing teams joined hands to conduct field days, fostering direct interaction with farmers across all our markets. This initiative not only amplifies our commitment but also establishes Dharmaj as a brand deeply rooted in farmer welfare.

Seeding knowledge - leveraging social media for farmer education

Harnessing the power of social media, our Facebook community has grown to 47,000 followers. Through posts in various fields, we disseminate best practices and insights, ensuring that farmers reap not only crops but knowledge, amplifying the gains from our products.

Economic Overview

Global economy

Overview

The global economy is navigating a complex landscape as it emerges from the disinflationary period of 2022-2023. Despite the resilience shown in the face of monetary tightening, the coming years present new challenges and opportunities for growth across regions.

The world economy is expected to maintain a growth rate of 3.0% in 2024 and 2.9% in 2025, slightly below the 3.5% recorded in 2022. This moderation reflects the lingering effects of policy tightening, fiscal consolidation efforts, and underlying productivity concerns. While these figures fall short of the 3.8% historical average (2000-2019), they indicate a gradual stabilisation of economic conditions.

Advanced Economies

Advanced economies are projected to experience modest growth, with rates of 1.5% in 2023 and 1.4% in 2024. The United States is forecasted to outperform, with growth of 2.7% in 2024, before moderating to 1.9% in 2025 due to fiscal tightening and labour market softening. The Eurozone is expected to rebound from a sluggish 0.4% in 2023 to 0.8% in 2024 and 1.5% in 2025, driven by recovering household consumption and easing inflation pressures.

Emerging Markets and Developing Economies

Emerging market and developing economies are anticipated to maintain steady growth at 4.0% in both 2023 and 2024. China's growth is expected to moderate from 5.2% in 2023 to 4.6% in 2024 and 4.1% in 2025, reflecting the fading of post-pandemic stimulus effects. India, however, is projected to sustain robust growth at 6.8% in 2024 and 6.5% in 2025, buoyed by strong domestic demand and demographic advantages.

Key Challenges and Opportunities

The global economy faces several headwinds, including the ongoing effects of the geopolitical tensions, and increasing geo-economic fragmentation. However, opportunities exist in the form of technological advancements, green energy transitions, and the potential for enhanced international cooperation.

Monetary policy is expected to remain cautious, with central banks likely to pivot towards easing later than market expectations but earlier than some economic forecasts suggest. Fiscal policies are trending towards consolidation, particularly in Europe, to address high government debt levels.

As the world economy navigates through 2024 and 2025, resilience and adaptability will be key. While growth may be moderate compared to historical averages, opportunities for economic advancement persist, particularly in emerging markets and through strategic policy implementations aimed at fostering sustainable, long-term growth.

Indian economy

Overview

The Indian economy is now better positioned than ever to navigate global macroeconomic challenges, thanks to policies implemented over the past decade. The Union government has significantly accelerated infrastructure development, increasing public sector capital investment from ₹5.6 Lakhs Crores in FY15 to ₹18.6 Lakhs Crores in FY24 (budget estimates) - a 3.3-fold increase. This expansion in highways, freight corridors, airports, metro rail networks, and trans-sea links has been both tangible and transformative.

The financial sector has strengthened, with robust balance sheets and increased lending appetite. Non-food credit growth, excluding personal loans, is experiencing double-digit rates. Inclusive development initiatives have bolstered the financial health of Indian households. The Jan Dhan Yojana has led to the opening of 51 crore bank accounts, now holding deposits exceeding ₹2.1 Lakhs Crores, with over 55% belonging to women. Household financial assets have grown from 86.2% of GDP in December 2019 to 103.1% by March 2023, while liabilities increased from 33.4% to 37.6% of GDP. Consequently, net financial assets of households rose from 52.8% to 65.5% of GDP during this period.

This enhanced economic positioning stems from strategic policies focused on inclusive development and infrastructure expansion. The tangible improvements in physical and digital infrastructure, coupled with a strengthened financial sector, underscore India's readiness to effectively tackle future challenges.

Outlook

The Indian economy is poised to achieve a growth rate of 7% or higher in FY24, with projections suggesting this trend may continue into FY25. If realised, this would mark the fourth consecutive year of post-pandemic growth at or above 7%, highlighting the economy's resilience and potential.

While some economists argue that not all growth is equal, sustaining growth at or above 7% when the global economy struggles to grow at 2% is particularly noteworthy. This performance demonstrates higher marginal utility and qualitative superiority compared to achieving 8-9% growth in a more robust global economic environment.

The global economy continues to face challenges in maintaining its post-COVID recovery amidst successive shocks, including supply chain disruptions, trade flow impacts, increased transportation costs, economic output fluctuations, and inflation. Although India is not immune to these challenges, its experience in navigating the COVID-19 crisis and the energy and commodity price shocks of 2022 instil confidence in its ability to weather emerging disturbances.

India's strategic policies focusing on inclusive development and infrastructure expansion have fortified its economic foundation. This consistent growth trajectory not only demonstrates the country's resilience but also its potential to sustain and enhance economic performance despite global adversities. As the global economy grapples with ongoing challenges, India's ability to maintain strong growth rates underscores its robust economic strategies and positions it well for future opportunities and challenges.

Industry Overview

Indian agriculture sector

In 2024, Indian agriculture continues to be a cornerstone of the nation's economy, with the government implementing several strategic initiatives to boost the sector's productivity and sustainability. The Ministry of Agriculture and Farmers Welfare has announced significant policy measures, including a historic increase in Minimum Support Price (MSP) for 22 crops, ensuring at least 50% more than the cost of production. The Soil Health Card scheme has been instrumental in providing farmers with detailed information about their soil's nutrient status, optimising fertiliser use and improving crop yields. The Pradhan Mantri Annadata Aay Sanrakshan Abhiyan (PM-AASHA) aims to ensure remunerative prices for farmers' produce, while the Agriculture Infrastructure Fund (AIF) focuses on enhancing post-harvest infrastructure. Digital transformation efforts, such as the e-NAM platform and Agristack, are revolutionising agricultural marketing and data management. Production estimates for 2023-24 indicate a total food grain production of 351.37 Millions metric tons, with notable increases in wheat, barley, and pulses. Oilseed production is estimated at 395.93 lakh tonnes, while sugarcane production is expected to reach a record 4425.22 lakh tonnes. The horticulture sector continues to grow, with production estimated at 352.23 million tonnes. Agricultural exports have shown robust growth, reaching \$53.1 billion in the financial year 2022-23. The government has set an ambitious agricultural credit target of ₹ 20 Lakhs Crores, with a focus on animal husbandry, dairy, and fisheries sectors. Technological advancements, including drone

demonstrations and the computerization of Primary Agricultural Credit Societies (PACS), are part of the ongoing efforts to modernise and digitise Indian agriculture. These comprehensive measures aim to enhance farmers' livelihoods, ensure food security, and position India as a major player in global agricultural markets.

Global agrochemical market

Agrochemicals are vital in agriculture for enhancing plant growth, safeguarding crops from pests, and boosting yields. They protect crops from insects, diseases, and weeds, which can negatively impact both the quantity and quality of food crops. These advantages have driven the global expansion of the pesticide industry over the years. Moreover, the necessity for adequate global food production to meet the needs of a growing population has further fueled market growth.

In the global pesticide market, herbicides hold the largest share, followed by fungicides and insecticides. In 2022, the market size was approximately USD 81 billion, with herbicides contributing about USD 29 billion (around 35%). Fungicides and insecticides accounted for roughly USD 18 billion (~22%) and USD 17 billion (~17%), respectively.

Beyond the crop market, the non-crop segment has also significantly influenced the global pesticide market. In 2023, this segment reached a market size of around USD 11 billion. Non-crop pesticides are utilised in various settings, including homes, gardens, turfs, ornamentals, pest control operations, industrial vegetation management, forestry, public health, and aquatic environments. They are employed for weed control, disease management, insect control, and plant growth regulation.

Given the benefits of pesticide application, the crop market is anticipated to grow at a faster compound annual growth rate (CAGR) compared to the non-crop market. The global non-crop market is expected to grow at a CAGR of about 4.1%-5% by 2028, reaching around USD 14 billion.

From 2017 to 2022, the global pesticide market grew at an estimated CAGR of 5.1%, increasing from USD 62 billion in 2017 to USD 81 billion in 2022. However, post-2021, the demand softened due to factors such as geopolitical tensions, supply chain disruptions, and high raw material costs. In 2023, the easing of export restrictions in China led to an increase in supply, resulting in lower prices and subdued demand.

These factors are expected to continue supporting the global pesticide industry. Consequently, the market is projected to grow at a rate of 5.0-6.0% from 2023 to 2028, potentially reaching around USD 109 billion by 2028.

Segments (USD Billion)	2022	2028P	Outlook CAGR

Fungicides	18	~25	4.5%-5.5%
Insecticides	17	~23	4.5%-5.5%

Indian agrochemical market

The Indian agrochemical sector has experienced substantial expansion in recent years, with the pesticide market growing from ₹ 368 billion to ₹ 655 billion between 2013-14 and 2022-23. This represents a Compound Annual Growth Rate (CAGR) of 6.6% in Indian Rupees, or 3.0% in USD terms, reaching USD 7.9 billion by 2022-23. Projections indicate continued growth, with an estimated CAGR of 6.0%-6.5% expected by 2027-28, driven by rising domestic usage and international demand.

The industry is primarily segmented into 3 categories:

India's position as a net exporter of pesticides has strengthened, with exports growing at a CAGR of 8.1% in volume and 22% in value from 2018-19 to 2022-23. Key export destinations include Brazil, the USA, Bangladesh, Vietnam, and Australia. Insecticides are forecasted to lead export growth at 10%-11% CAGR, followed by herbicides (7.5%-8.5%) and fungicides (4%-5%).

Despite being a net exporter, India also imports pesticides, primarily from China (~52% of total imports), the USA, Israel, and Taiwan. Import volumes increased at a CAGR of 3.5% from 2018-19 to 2022-23, while import value grew at 6.0% CAGR.

The industry's production capacity has expanded at a 4.0% CAGR, reaching 380 thousand tonnes in 2021-22. However, production declined by 13.3% in 2022-23 due to subdued global and domestic agricultural demand. Capacity utilisation has averaged around 65% over the past five years.

India's competitive edge in agrochemicals stems from low labour costs and support for chemical clusters. The sector demonstrated resilience during the pandemic, with exports increasing by 22% in volume and 37.7% in value in 2021-22.

To address supply chain vulnerabilities, particularly dependence on China for technical insecticides, the Indian government is considering expanding the Production Linked Incentive (PLI) scheme to include domestic agrochemical manufacturing. This initiative aims to boost competitiveness, increase global market share, and achieve self-sufficiency in technical-grade ingredients.

Challenges persist, such as dependency on China for technical insecticides and the need for backward integration. However, the global adoption of the 'China plus one strategy' could benefit India by reducing reliance on Chinese imports and expanding export potential.

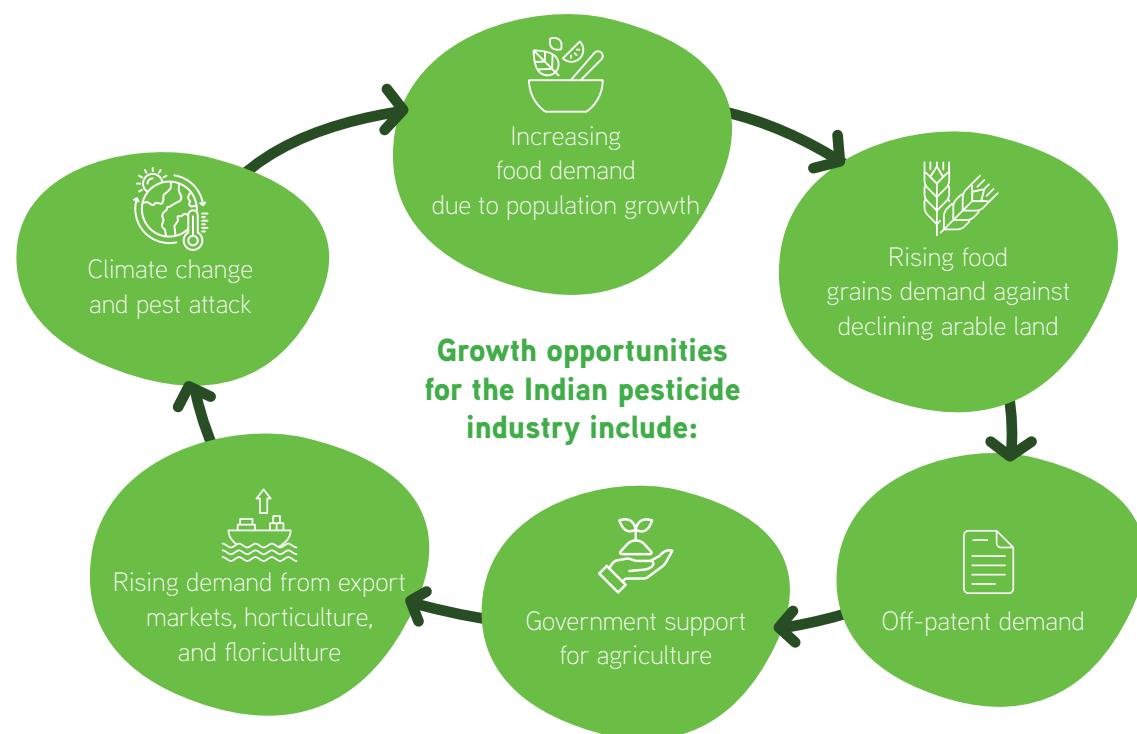

In conclusion, the Indian crop protection industry is well-positioned for sustained growth, propelled by domestic and international demand, government initiatives, and evolving global supply chain dynamics.

The top 10 states that reported pesticide consumption accounted for around 83% of the total domestic pesticide consumption in India during 2022-23. Of the total, Uttar Pradesh and Maharashtra contributed to a significant share of 23% and 13%, respectively. Telangana accounted for around 9% of overall pesticide consumption. Following this, Haryana, West Bengal, Rajasthan, Andhra Pradesh, Karnataka, Tamil Nadu, and Gujarat contributed to the range of around 3%-8%. Others accounted for 6% of the total chemical pesticide consumption during 2022-23.

Company Overview

Dharmaj Crop Guard Limited (referred to as 'Dharmaj', 'DCGL', or 'the Company') is a rapidly growing agrochemicals Company headquartered in Ahmedabad. The Company is involved in the manufacturing, distribution, and marketing of a wide range of agrochemical formulations including insecticides, fungicides, herbicides, plant growth regulators, and micro fertilisers. The Company has recently also commenced agrochemical active ingredients & intermediates manufacturing. Dharmaj's business is broadly categorised into 3 verticals: Branded Formulations (B2C), Institutional Formulations (B2B), and Active Ingredients (B2B).

Sales to B2B customers are conducted in bulk through customer orders, while B2C sales are made under the Company's own brands. Dharmaj also manufactures and sells general insect and pest control chemicals for public health and animal health protection.

With a total of 535 registrations for agrochemical products, including 85 exclusive product registrations for export markets with additional 202 in pipeline, Dharmaj has established a strong presence in the industry. The Company has also obtained 15 Technical registrations, with 28 more currently under registration.

Dharmaj has built robust manufacturing capabilities through its 2 sites. Its formulations manufacturing facility is located in Kerala GIDC, Ahmedabad. This plant has a cumulative production

capacity of 25,500 TPA for formulations manufacturing. Its recently commissioned active ingredients & intermediates manufacturing facility is located in Saykha GIDC, Bharuch. This plant has a cumulative production capacity of 8,000 TPA.

Additionally, the Company has a NABL accredited quality control lab and a dedicated R&D centre on site at Kerala GIDC along with a DSIR approved R&D centre at its Saykha site.

FY24 Performance Review

The Company achieved robust financial performance in FY24 despite headwinds in the agrochemical industry. Revenue from Operations reached a record high of ₹ 6,541 million, representing a 25% year-on-year increase from ₹ 5,243 million in FY23. Profitability margins improved significantly, with Gross Margins rising from 18% in FY23 to 21% in FY24. Consequently, EBITDA margins also increased from 8% to 10% during the same period. The last quarter saw an increase in Finance Cost and Depreciation & Amortisation due to the commissioning of the Saykha plant in Q4; these expenses are expected to fully rebase in the coming financial year. For FY24, Net Profits stood at ₹ 444 million, marking a substantial 65% growth from the previous year's ₹ 269 million.

MD&A

Outlook

As we enter FY25, we are optimistic about our Company's prospects. The upcoming year appears promising for the domestic agrochemical markets, supported by a favourable rainfall forecast and expectations of a good sowing season, which augurs well for our formulations business. Our enhanced pan-India presence across 24 states, along with a network of over 5,000 dealers and distributors, positions us well to drive growth in our branded formulations vertical.

In the Institutional Formulations vertical, we continue to perform strongly, with the expansion of our product portfolio and clientele serving as key growth drivers. We are seeing good traction in the small formulators category and have also achieved some breakthroughs with large agrochemical majors.

Our efforts are focused on ramping up operations at Saykha, which will be a critical determinant of our performance in the coming years. While such a large-scale investment may have some initial challenges and a gestation period to reach its full potential, we are fully prepared to capitalise on its capabilities. We anticipate optimal utilisation of Saykha's capacity within the next three years.

Dharmaj is well-prepared to achieve its growth ambitions in the coming year, driven primarily by the expanding formulations business, complemented by the initial contributions from the newly launched Active Ingredients vertical.

Risk Management

Dharmaj proactively identifies, assesses, monitors, and mitigates risks in its business operations. The Company has identified the following key risks & mitigation strategies:

Demand Risk:

A weak macroeconomic environment and erratic or delayed monsoons can lead to reduced demand for agrochemicals. To mitigate this, the Company constantly monitors industry trends, engages

proactively with clients, and closely follows climate forecasts. Dharmaj's diversified operations across products, customer segments, and geographies help reduce dependence on any single revenue stream.

Quality Risk:

Failure to maintain stringent quality standards could result in customer loss, brand reputation damage, and regulatory fines. The Company mitigates this risk by prioritising quality throughout its operations. Its plants feature NABL-accredited quality control laboratories equipped with advanced instrumentation and testing equipment. Dharmaj monitors every step of the

manufacturing process from procurement to final dispatch, ensuring high quality standards. Additionally, the Company's operations are ISO 9001:2015 certified. The Company has also set up a DSIR certified R&D centre at its Saykha plant to continuously work on product yield & purity improvements.

Competition Risk:

Domestic and international competition can impact the Company's business and market share if it fails to provide high-quality, high-performing products, maintain supply reliability, and launch innovative solutions. To address this, Dharmaj consistently launches quality products, meets evolving customer needs, focuses on cost reduction for competitive pricing, expands its customer base through promotional activities, and strengthens relationships

with farmers and dealers. The Company has established a portfolio of over 121 brands and 350 SKUs, and focuses on innovative annual product launches to drive demand generation and portfolio-level profitability. In the last 5 years, Dharmaj has introduced 79 new products, with 7 debuting in FY24 alone.

Inventory Management Risk:

The Company must maintain optimised inventory levels to rapidly meet demand while avoiding the costs and risks associated with holding excessive inventory, such as write-offs & dead stock. Effective demand forecasting for the right products is also crucial to plan production accordingly. To mitigate inventory management risks, Dharmaj implements a strategic approach that includes maintaining minimal levels of finished goods inventory and adopting lean principles in its formulation operations to ensure efficient resource utilisation. Additionally, Dharmaj carefully manages inventory for volatile and high-value raw materials by maintaining limited quantities

and procuring them as needed. For less volatile and lower-value raw materials, the Company may opt for larger buffer stocks. Periodic production planning allows Dharmaj to adjust schedules and volumes based on actual orders received and industry outlook. At the newly commissioned Saykha plant, the Company will implement the same lean principles, with strategies evolving as operations scale up. These proactive measures help Dharmaj optimise inventory levels, minimise holding costs, and effectively meet customer demands.

Employee Risks:

The agrochemical industry relies heavily on skilled talent, with employees playing a crucial role in maintaining strong relationships within the dealer network. Failure to attract or retain top talent can significantly impact operations and result in business losses. To mitigate these risks, Dharmaj implements comprehensive strategies, including health and safety programs, learning and development initiatives, fair remuneration practices, regular training sessions, and

maintaining a stable key managerial team. DCGL also proactively focuses on skill enhancement programs for its employees. These initiatives have led to increased employee satisfaction and motivation while reducing attrition rates, thereby ensuring the retention of valuable talent crucial for the Company's business operations.

MD&A

Safety, Health and Environment

Dharmaj prioritises the safety of individuals, communities, and the environment through comprehensive measures at its manufacturing facilities. The Company maintains world-class safety standards, implementing stringent health and safety guidelines that include mandatory use of safety equipment, workplace cleanliness, and robust accident reporting protocols.

To enhance safety preparedness, Dharmaj provides regular fire safety training and conducts regular safety drills. The manufacturing facility features a dedicated health centre with an on-site ambulance, offering regular health check-ups for employees to address daily health concerns and minor injuries. The Company also ensures the security of its workers and employees across various locations by providing insurance coverage.

Environmental safety is a key focus for Dharmaj, with strict adherence to all relevant regulations. The Company has implemented a soil bioreactor wastewater treatment plant at its facility, effectively removing pollutants and treating wastewater and sewage before discharge. Furthermore, Dharmaj has made significant investments in renewable energy, installing solar panels with a capacity of 85,320 KW per annum. This commitment to sustainable practices contributes to reducing conventional energy consumption and promotes environmental sustainability.

Human Resources

Dharmaj recognizes employees as a crucial asset and prioritises their growth, development, and well-being. The Company places significant emphasis on learning and development initiatives. In the past year, the Company implemented a comprehensive training program that included:

As of March 31, 2024, Dharmaj Crop Guard's workforce comprised 580 employees. The Company has maintained positive relationships with its employees, and there have been no reported issues with labour unions.

This approach to employee development and engagement demonstrates Dharmaj's commitment to fostering a skilled, motivated, and satisfied workforce, which is essential for the Company's continued growth and success in the agrochemical industry.

Information Technology

Dharmaj has effectively leveraged digitization initiatives and technology to enhance operational efficiency and empower its dealer network. The Company has invested in robust ERP systems to manage critical processes such as sales, finance, human resources, manufacturing, supply chain, and order management. This investment has improved operational visibility, enabled data-driven decision-making, and increased efficiency across various functions. The ERP system provides real-time information across departments, facilitating performance management and corrective actions while promoting transparency and accountability.

To support its dealers, Dharmaj has developed a mobile application. This year, the Company rolled out an updated version of the Dharmaj DMS application, featuring tools for managing overdue bills, payments, previous year sales, credit notes, account ledgers, invoices, real-time data, and dispatch information. These features enable the dealers to operate more efficiently and effectively.

Internal Control Systems and Adequacy

The Company's internal financial control framework is aligned with the regulatory requirements of its industry and is commensurate with the size and nature of its business. However, Dharmaj is in the process of formalizing & implementing well-defined processes, systems and policies to safeguard its assets and ensure business continuity. The Company is also working towards defining & documenting all internal financial controls, which will further improve internal control systems. The Company has already implemented ERP systems towards automating control transactions. The Internal Audit function undertakes the responsibility of determining the efficacy of controls on a regular basis. All reports are submitted to the Audit Committee for further actions.

Cautionary Statement

Statements in the Management Discussion & Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward-looking statements' within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include among others, climatic conditions, economic conditions affecting demand supply and price conditions in the domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and other incidental factors.

B. Technology and Research & Development

Overview of Technological Advancements

This year, our focus on technological innovation and research and development (R&D) in the agrochemical sector was minimal. While we did not undertake significant new R&D initiatives, we have maintained our commitment to monitoring and understanding industry trends and technological advancements. This approach ensures that we remain informed about emerging technologies and best practices that could influence our future strategic decisions.

New Plant for Technicals Backward Integration

In line with our strategic growth objectives, we are pleased to announce the commencement of operations at our new technical plant dedicated to the production of technicals. This facility represents a significant investment in our capabilities and is expected to enhance our production efficiency and product quality.

Key highlights include:

- **Plant Location and Capacity:** Plant is Loacated at the Saykha GIDC with the 8000MT Technical and Intermediates Capacity
- **Technological Integration:** The new plant is equipped with state-of-the-art technology to ensure optimal production processes and product consistency.
- **Strategic Impact:** The establishment of this plant aligns with our long-term growth strategy, positioning us to better meet the needs of our customers and explore new market opportunities.

Future Outlook

Looking ahead, while our R&D activities were limited this year, we recognize the importance of staying at the forefront of technology and innovation. We are committed to revisiting our R&D strategies in the near future to explore new technologies and methodologies that could drive further growth and enhance our competitive edge in the agrochemical industry.

C. Foreign Exchange Earnings and Outgo

The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo during the year in terms of actual out flows:

Corporate Governance Report

Overview of Corporate Governance of Dharmaj Crop Guard Limited at a Glance

At **Dharmaj Crop Guard Limited**, corporate governance has grown since incorporation with its journey of efficient industrial entrepreneurship. Company is in continued compliance with guideline of corporate governance since incorporation as stipulated in Regulation 34(3) read with Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended from time-to-time.

COMPANY PHILOSOPHY ON CORPORATE GOVERNANCE

Our commitment to corporate governance is foundational to our operations and integral to our pursuit of the highest standards of transparency, integrity, accountability, and ethical conduct. These principles guide every aspect of our interactions with stakeholders, including shareholders, employees, creditors, lenders, and the broader community. At Dharmaj Crop Guard Limited we recognize that upholding good corporate governance practices not only meets regulatory requirements but also fosters sustainable growth and enhances long-term value creation.

COMMITMENT TO STAKEHOLDERS

We prioritize prompt and diligent fulfilment of our statutory and social obligations. Our Board of Directors wholeheartedly supports the principles of corporate governance and diligently directs our actions to uphold transparency, accountability, and integrity across the organization.

EMBEDDING GOVERNANCE IN OUR CULTURE

Our governance framework reflects our corporate culture, policies, values, and stakeholder relationships. We are committed to transparency, independence, accountability, and timely disclosures, ensuring these principles are embedded throughout our growth strategy and organizational practices.

DRIVING SUSTAINABLE GROWTH

We firmly believe that robust corporate governance is pivotal to achieving sustainable growth and maximizing value for stakeholders. Our evolving performance goals integrate ethical considerations into our corporate culture, emphasizing social responsibility alongside financial returns.

GOVERNANCE PRACTICES

We have implemented comprehensive governance practices to foster a culture of excellence. These practices include:

- ✓ Ensuring a balanced and qualified Board of Directors, supported by robust performance disclosure.
- ✓ Establishing Board Committees to strengthen internal controls and governance.
- ✓ Maintaining rigorous compliance with regulatory requirements and timely payment of statutory dues.
- ✓ Upholding ownership, governance, and accountability at all organizational levels.
- ✓ Implementing effective management controls and ensuring timely plan execution and disclosures.

EFFECTIVE BOARD OVERSIGHT

Our governance structure places the Board of Directors at the apex, supported by internal governance mechanisms at the operational level. The Chairman, Managing Director, Executive Directors, and CEO provide strategic direction, policy guidance, and oversee the execution of Board decisions, safeguarding stakeholder interests and enhancing organizational value.

CONTINUOUS IMPROVEMENT

We continually enhance our governance effectiveness through adherence to Codes of Conduct, including Insider Trading Prevention, Corporate Disclosure Practices, Anti-Bribery & Anti-Corruption, Anti-Money Laundering Policies, and Business and Human Rights Policy. Additionally, we uphold SEBI Listing Regulations' requirements (Regulations 17 to 27 and Schedule V) to maintain best practices in corporate governance.

ETHICAL FOUNDATION

Above all, we believe in balancing individual interests with corporate objectives within the framework of propriety, equity, fair play, and accountability. This approach fosters improved decision-making and transparency, reinforcing stakeholder confidence and trust in our operations.

STAKEHOLDER ENGAGEMENT

We actively engage with stakeholders to understand their perspectives and integrate their feedback into our decision-making processes. Regular communication channels and feedback mechanisms ensure transparency and responsiveness to stakeholder concerns.

COMPLIANCE AND LEGAL STANDARDS

We adhere strictly to all applicable laws, regulations, and corporate governance guidelines, ensuring full compliance and ethical business practices.

LONG-TERM SUSTAINABILITY GOALS

Our corporate governance framework integrates long-term sustainability goals, aligning with global best practices and environmental stewardship. Sustainability metrics are monitored and reported to stakeholders, demonstrating our commitment to environmental and social responsibility.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

We are committed to CSR initiatives that positively impact communities and stakeholders. These initiatives align with our values and contribute to sustainable development. Transparent reporting on CSR activities and outcomes demonstrates our commitment to social responsibility and accountability.

Board and Director Evaluation and Criteria for Evaluation of individual Directors include aspects such as attendance and contribution at the Board/Committee Meetings. Criteria for evaluation of the Committees of the Board are broadly based on the Guidance Note on Board Evaluation issued by SEBI which inter alia, included a questionnaire on the structure of Board, Meetings of the Board and the functions of Board and Management after considering aspects of the Board's composition, functioning, obligations and governance.

The Company follows a practice of implementing each of the observations from the annual evaluation by calendaring its implementation through the Action Taken Report that is reviewed by the Board of Directors from time-to-time.

The action areas identified in the process are being implemented to ensure a better interface at the Board/Management level.

In terms of the requirement of the Act and the SEBI Listing Regulations, during the year under review, the Board has carried out an annual performance evaluation of its own performance, performance of the Directors as well as the evaluation of the working of its Committees. The exercise was led by the Chairman of the NRC along with the Chairman of the Board.

The overall functioning of the evaluation process reflected a high degree of engagement amongst the Board members and their freedom to express views on matters transacted at the Meetings.

The procedure followed for the performance evaluation of the Board, its Committees and Individual Directors is detailed in the Board's Report.

Board Procedure

To ensure seamless scheduling of meetings, the annual calendar of Board and Committee meetings is established at the beginning of each year. The agenda, accompanied by comprehensive background information, is circulated well in advance to Board and Committee members to facilitate informed decision-making. The Company Secretary meticulously tracks and monitors proceedings to ensure adherence to Terms of Reference/Charters, proper recording of decisions in minutes, and diligent follow-up on actions, thereby enhancing meeting effectiveness. Terms of Reference/Charters are regularly reviewed and updated to align with evolving statutory requirements.

Agendas and related information are distributed via a secure electronic application, reducing paper consumption and reinforcing the Company's sustainability initiatives while maintaining information confidentiality. Video conferencing facilities are also provided to accommodate Directors unable to attend in person.

During Board meetings, the Managing Director & CEO presents comprehensive Company performance updates, enabling the Board to fulfill its responsibilities effectively and make informed decisions. The Board additionally reviews strategic plans, annual business goals, capital expenditure budgets, and adopts quarterly/half-yearly/annual financial results. Compliance reports covering all applicable laws, EHS (Environment, Health, and Safety) performance, people processes, and Committee meeting minutes are also reviewed. Committee Chairs brief the Board on significant Committee meeting discussions. Furthermore, the Board remains informed about major events, including those outlined under Regulation 17(7) of SEBI Listing Regulations

Part A of Schedule II. Senior Leadership members are invited based on business requirements, ensuring accountability and providing developmental insights.

The Company has adopted a comprehensive performance evaluation policy that includes consideration of sustainability, leadership, strategy, and new ideas. As part of this policy, the Board of Directors has carried out an annual performance evaluation of its own performance, as well as that of the directors individually and various committees.

To evaluate the Company's sustainability performance, a structured questionnaire was prepared that took into consideration various aspects of the board's functioning, such as effectiveness in decision making, effectiveness in developing a strong corporate governance structure, and efforts to reduce the Company's environmental impact. The board also considered specific sustainability and emissions-related indicators, such as progress towards reducing the Company's greenhouse gas emissions, improving energy efficiency, conserving water, reducing waste, and increasing transparency through regular reporting and disclosures.

In addition to the board's evaluation, a separate exercise was carried out to evaluate the performance of individual directors, including the chairman and managing director, on parameters such as leadership initiatives, new ideas and planning, compliance with the Company's policies (including environmental policy) and ethics, and timely input on minutes. The performance evaluation of Independent Directors was carried out by the board, while the performance evaluation of executive directors and Non-Independent Directors was carried out by the Independent Directors.

Overall, the directors expressed their satisfaction with the evaluation process, which took into consideration not only financial performance and leadership effectiveness but also the Company's sustainability and climate risk considerations.

INDEPENDENT DIRECTORS MEETING

Independent Directors play a vital role in the governance processes of the Board by creating a conducive environment for insightful deliberations and informed decision-making thus enhancing corporate credibility and governance standards.

The Company currently has three Non-Executive, Independent Directors which comprises 50% of the total strength of the Board of Directors. The maximum tenure of the Independent Directors is in accordance with the Act and the SEBI Listing Regulations. All Independent Directors of the Company have been appointed as per the provisions of the Act and the SEBI Listing Regulations. Formal letters of appointment have been issued to Independent Directors. As required by Regulation 46 of the SEBI Listing Regulations, the terms and conditions of their appointment are disclosed on the Company's website at <https://www.dharmajcrop.com/investors-disclosures-under-regulation-46-and-62-of-sebi-lodr-regulations-2015/>

In the opinion of the Board, the Independent Directors fulfil the conditions of independence specified in the Act and the SEBI Listing Regulations and are independent of the Management. The appointment/re-appointment of Independent Directors is carried out in a structured manner in accordance with the provisions of the Act and the SEBI Listing Regulations. The Charter of the Nomination and Remuneration Committee ('NRC') provides for identification of candidates based on certain laid down criteria and takes into consideration the need for diversity of the Board and accordingly makes its recommendations to the Board. Meeting of Independent Directors of the Company was held on February 05, 2024 as required under Schedule IV to the Act (Code for Independent Directors) and Regulation 25(3) of the SEBI Listing Regulations.

At the Meeting, the Independent Directors:

- » Reviewed the performance of Non-Independent Directors and the Board as a whole;
- » Reviewed the performance of the Chairman of the Company, taking into account the views of the Managing Director & CEO and Non-Executive Directors; and
- » Assessed the quality, quantity and timeliness of flow of information between the Company's Management and the Board that is necessary for the Board to effectively and reasonably perform its duties.

The Meeting was attended by all the Independent Directors as on that date and Mr. Bhaveshkumar Ponkiya chaired the said Meeting.

FAMILIARISATION PROGRAMME FOR INDEPENDENT DIRECTORS

The Company has an orientation programme upon induction of new Directors as well as other initiatives to update the existing Directors on a continuous basis.

Pursuant to Regulation 25(7) of the SEBI Listing Regulations, the Company also has an ongoing familiarisation programme for its Independent Directors with the objective of familiarising them with the Company, its operations, strategies and business model, nature of the industry and environment in which it operates, functions, policies and procedures of the Company, the regulatory environment applicable to it etc.

The Board is provided with all the documents required and/or sought by them to have a good understanding of the Company, its business model and various operations and the industry of which it is a part. The Board is also regularly informed about significant developments in the industry, geopolitical issues, regulatory changes and other developments that impact the Company. Pursuant to Regulation 46 of the SEBI Listing Regulations, details of familiarisation programmes imparted to the Independent Directors are available on the Company's website at <https://www.dharmajcrop.com/investors-disclosures-under-regulation-46-and-62-of-sebi-lodr-regulations-2015/>

During the year under review, an offsite strategy Board Meeting was organised which provided the Board an opportunity to comprehend the Company's footprint in the industry and provide a good perspective of the future opportunities/challenges. The Meeting focused on the Company's future strategy and covered various areas of business functions.

Independent Auditor's Report

To the Members of **Dharmaj Crop Guard Limited**

Report on the Audit of the Financial Statements

OPINION

We have audited the accompanying financial statements of Dharmaj Crop Guard Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, and the Statement of Profit and Loss, including Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTER

We draw attention to Note 39 to the financial statements, which describes the impact assessment of the restatement of material prior period errors whereby the Company has restated the comparative Statement of Profit or Loss for the year ended March 31, 2023 and the comparative Balance Sheet as at that date, and also the opening Balance Sheet as at April 1, 2022, in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.

Our opinion is not modified in respect of the above matter.

KEY AUDIT MATTERS

We have determined that there are no key audit matters to communicate in our report.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report but does not include the financial statements and our auditor's report thereon. The Company's Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information identified above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance under SA 720 (Revised) 'The Auditor's Responsibilities Relating to Other Information'.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We give in **"Annexure A"** a detailed description of Auditor's responsibilities for Audit of the Financial Statements.

OTHER MATTER

The financial statements of the Company for the year ended March 31, 2023, were audited by another auditor whose report dated May 15, 2023 expressed an unmodified opinion on those statements.

Our opinion is not modified in respect of the above matter.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in **"Annexure B"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(h)(vi) below on reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014.
 - (c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the matter described in the Basis for Disclaimer of Opinion given in **"Annexure C"** of our report may have an adverse effect on the functioning of the Company.

- (e) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- (f) On the basis of the written representations received from the directors as on April 1, 2024 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
- (g) The reservation relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 2(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(h)(vi) below on reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014.
- (h) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure C"**.
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 29 to the financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv.
 - a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including

- foreign entities (Funding Parties), with the understanding, whether recorded in writing or otherwise, as on the date of this audit report, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, and according to the information and explanations provided to us by the Management in this regard nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (1) and (2) above, contain any material misstatement.
- v. The Company has neither declared nor paid any dividend during the year.
- vi. Based on our examination, the Company has used an accounting software for maintaining its books of account during the year ended March 31, 2024, which has a feature of recording the audit trail (edit log) facility, the trail feature was not enabled throughout the year for certain relevant transactions recorded in the accounting software at the application level. Further, the audit trail feature was not enabled at the database level within the accounting software to log any direct data changes.
- The audit trail feature, to the extent it was enabled, as reported above, has been operated throughout the year for the relevant transactions in the accounting software. Further, during the course of our examination, we did not come across any instance of the audit trail feature being tampered with.
3. In our opinion, according to information, explanations given to us, the remuneration paid by the Company to its directors is within the limits laid prescribed under Section 197 read with Schedule V of the Act and the rules thereunder.

Annexure A

To the Independent Auditor's Report on even date on the Financial Statements of Dharmaj Crop Guard Limited Auditor's Responsibilities for the Audit of the Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial

statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended March 31, 2024 and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B

To Independent Auditors' Report of even date on the Financial Statements of Dharmaj Crop Guard Limited for the year ended March 31, 2024

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report]

- i. (a) A The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets, except for below property plant and equipment:

Description of Property, Plant and Equipment	Gross Carrying Value (₹ in Millions)	Net Carrying Value (₹ in Millions)
Plant & Machinery	218.70	108.45
Improvements made to Factory Building	54.22	33.81
Furniture and Fixtures	16.01	7.12
Computer	16.85	4.59
Office Equipment	12.44	4.35

- B The Company has maintained proper records showing full particulars of intangible assets, except for intangibles with gross carrying value amounting to ₹ 5.52 million and net carrying value amounting to ₹ 2.05 million.
- (b) Property, Plant and Equipment and right of use assets were physically verified by the management according to a phased programme designed to cover all items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of Property, plant and equipment except as mentioned in (i) (a) (A) above and right of use assets have been physically verified by Management during the year. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the financial statements are held in the name of the Company. The title deeds of immovable properties with carrying value aggregating to ₹ 22.89 millions as at March 31, 2024, are pledged with the banks and original copies are not available with the Company. The same has been verified by us with the copy of the title deeds made available by the Company.
- (d) According to the information and explanations given to us, the Company has not revalued its property, plant and Equipment (including Right of Use assets) and intangible assets during the year. Accordingly, the provisions stated under clause 3(i)(d) of the Order are not applicable to the Company.
- (e) According to the information and explanations given to us, no proceeding has been initiated or pending against the Company for holding benami property under the Benami Transactions (Prohibition) Act, 1988, as amended and rules made thereunder. Accordingly, the provisions stated under clause 3(i)(e) of the Order are not applicable to the Company.
- ii. (a) The inventory (excluding stocks with third parties) has been physically verified by the management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. In our opinion, the frequency, coverage and procedure of such verification is reasonable and appropriate, having regard to the size of the Company and the nature of its operations. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.
- (b) During the year the Company has been sanctioned working capital limits in excess of ₹ 5 crores in aggregate from Banks on the basis of security of current assets and immovable fixed assets. Based on the records examined by us in the normal course of audit of the financial statements, quarterly returns filed with such Banks are not in agreement with the books of accounts of the Company. Details of the same are as below.

Quarter Ended	Name of Bank	Particulars	Amount as per books of accounts	Amount as per quarterly return/statement	Discrepancy

- iii. According to the information and explanation provided to us, the Company has not made any investments in, or provided any guarantee or security, or granted any loans (excluding loans to employees) or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the provisions stated under clause 3(iii) of the Order are not applicable to the Company.
- iv. According to the information and explanations given to us, there are no loans, investments, guarantees, and securities in respect of which provisions of sections 185 and 186 of the Companies Act, 2013, are applicable and accordingly, the provisions stated under clause 3(iv) of the Order is not applicable to the Company.
- v. According to the information and explanations given to us, the Company has neither accepted any deposits from the public nor any amounts which are deemed to be deposits, within the meaning of Sections 73, 74, 75 and 76 of the Companies Act, 2013 and the rules framed there under. Accordingly, the provisions stated under clause 3(v) of the Order is not applicable to the Company. Also, there are no amounts outstanding as on March 31, 2024, which are in the nature of deposits.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Companies Act, 2013 in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, undisputed statutory dues including goods and services tax, provident fund, profession tax, income-tax, duty of customs, cess, and other statutory dues have been regularly deposited by the Company with appropriate authorities in all cases during the year.
- There are no undisputed amounts payable in respect of Goods and Services tax, provident fund, income-tax, sales-tax, service tax, duty of customs, duty of excise, cess, and other statutory dues in arrears as at March 31, 2024, outstanding for a period of more than six months from the date they became payable, except for

Profession Tax, which was outstanding, as at March 31, 2024, for a period of more than six months from the date it became payable, except for Profession Tax amounting to ₹ 0.07 million under Gujarat State Tax on Professions, Trades, Callings and Employments Act, 1976 for F.Y. 2022–23 which is due since April 15, 2023.

- (b) According to the information and explanation given to us and the records of the Company examined by us, there are no dues relating to goods and services tax, provident fund, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess, and other statutory dues which have not been deposited on account of any dispute.
- viii. According to the information and explanations given to us, there are no transactions which are not accounted in the books of account which have been surrendered or disclosed as income during the year in Income-tax Assessment of the Company. Accordingly, the provision stated under clause 3(viii) of the Order is not applicable to the Company.
- ix. (a) In our opinion and according to the information and explanations given to us and the records of the Company examined by us, the Company has not defaulted in repayment of loans or borrowings or in payment of interest thereon to any lender.

Annexure C

To Independent Auditors' Report of even date on the Financial Statements of Dharmaj Crop Guard Limited

[Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of Dharmaj Crop Guard Limited on the Financial Statements for the year ended March 31, 2024]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We were engaged to audit the internal financial controls with reference to financial statements of Dharmaj Crop Guard Limited ("the Company") as of March 31, 2024, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

DISCLAIMER OF OPINION

We do not express an opinion on the internal financial controls with reference to the financial statements of the Company. Because of the significance of the matter described in the Basis for Disclaimer paragraph below, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion on whether the Company had adequate internal financial controls with reference to financial statements and whether such internal financial controls were operating effectively as at March 31, 2024.

We have considered the disclaimer reported above in determining the nature, timing, and extent of audit tests applied in our audit of the financial statements of the Company, and the disclaimer does not affect our opinion on the financial statements of the Company.

BASIS FOR DISCLAIMER OF OPINION

According to the information and explanation given to us, the Company has not formalized and documented its internal financial control with reference to financial statements on criteria based on or considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). Consequently, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion on whether the Company had adequate internal financial controls with reference to financial statements and whether such internal financial controls were operating effectively as at March 31, 2024.

MANAGEMENT AND THE BOARD OF DIRECTOR'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly

and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit conducted in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls.

Because of the matter described in Disclaimer of Opinion paragraph above, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on internal financial controls with reference to financial statements of the Company.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

1) (i) Statement of compliance and basis of preparation and presentation

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) read with Section 133 of the Companies Act, 2013 ("the Act") and presentation requirements of Division II of Schedule III of the Act and other relevant provisions of the Act as applicable. These financial statements have been prepared on accrual basis under the historical cost convention, except the following assets and liabilities, which have been measured at fair value as required by the relevant Ind AS:

- Certain financial assets and liabilities (refer accounting policy regarding financial instruments) and;
- Defined employee benefit plans.

These financial statements were approved by the Company's Board of Directors and authorized for issue on 30 May 2024.

The financial statements have been prepared on the assumption that the Company is a going concern and will continue its operations for the foreseeable future.

(ii) Functional and Presentation Currency

The financial statements are presented in Indian Rupee (₹) which is the functional currency of the Company. All amounts are rounded to two decimal places to the nearest Million, unless otherwise stated.

(iii) Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or

- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(iv) New accounting standards, amendments and interpretations adopted by the Company effective from April 1, 2023:

Amendments to Ind AS 12 – Income Taxes

On March 31, 2023, the Ministry of Corporate Affairs notified the Companies (Indian Accounting Standards) Amendment Rules, 2023 effective from April 1, 2023. The amendments to Ind AS 12 clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. In specified circumstances, companies are exempt from recognizing deferred tax when they recognize assets or liabilities for the first time. The amendments clarify that this exemption does not apply to transactions such as leases and decommissioning obligations and companies are required to recognize deferred tax on such transactions. The adoption of amendments to Ind AS 12 did not have any material impact in the financial statements.

Amendments to Ind AS 1 – Presentation of Financial Statements

On March 31, 2023, the Ministry of Corporate Affairs notified the Companies (Indian Accounting Standards) Amendment Rules, 2023 effective from April 1, 2023. This amendment requires the companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general-purpose financial statements. The adoption of amendments to Ind AS 1 did not have any material impact in the financial statements.

Amendments to Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

On March 31, 2023, the Ministry of Corporate Affairs notified the Companies (Indian Accounting Standards) Amendment Rules, 2023 effective from April 1, 2023. This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help companies distinguish changes in accounting policies from changes in accounting estimates. The adoption of amendments to Ind AS 8 did not have any material impact in the financial statements.

2) Fair value measurements and hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability; or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use, or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances, and for which sufficient data are available to measure the fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy based on its nature, characteristics, and risks:

- Level 1 - inputs are quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3) Use of estimates and judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses at the date of these financial statements and the reported amounts

of revenues and expenses for the year presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

Estimates and judgments involved in applying accounting policies, is in respect of:

- Useful lives of property, plant and equipment and intangible assets
- Useful lives of intangible assets
- Employee benefits

4) Standards issues but not yet effective:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

5) Property, plant and equipment (including Capital Work-in-Progress)

The cost of an item of property, plant and equipment shall be recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets if the recognition criteria is met up to the date the assets are ready for use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advance under non-current assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company, and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is de-recognized when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss, during the reporting period in which they are incurred.

An item of property, plant and equipment is de-recognized upon disposal or when no future economic benefits are expected from the use. Any profit or loss on such de-recognition of the asset is calculated as difference between net disposal proceeds and the carrying amount of property, plant and equipment and recognized in the Statement of Profit and Loss.

Up to March 31, 2023, the Depreciation was provided on written down value (WDV) method. With effect from April 1, 2023, the Company is providing for depreciation on straight-line basis for property, plant and equipment so as to expense the depreciable

amount, i.e., the cost less estimated residual value, over its estimated useful lives. This change in method from WDV to straight-line basis has been accounted for prospectively as a change in accounting estimate.

The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis. The management's estimate of useful lives is in accordance with Schedule II to the Companies Act, 2013.

Capital Work-in-Progress represents Property, plant and equipment that are not ready for their intended use as at the reporting date.

6) Other Intangible assets

Other Intangible assets are initially recognized at cost. Following initial recognition, other intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, if any. Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate.

Other Intangible assets with definite useful lives are amortized on a straight-line basis so as to reflect the pattern in which the asset's economic benefits are consumed.

Other Intangible assets pertaining to product registrations and licenses are amortized over their estimated life on straight-line method over period of 5 years.

Other Intangible assets pertaining to software are amortized over their estimated life on straight-line method over period of 10 years and Trademarks are amortized over their estimated life on straight-line method over period of 5 years.

Gains or losses arising from de-recognition of an other intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is de-recognized.

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized.

7) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its assets to determine whether there is any indication of impairment based on internal/external factors. An impairment loss, if any, is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. An asset's recoverable amount is higher of an asset or cash-generating unit's (CGUs) fair value, less costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate, that reflects current market assessment of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired

and is written down to its recoverable amount. Impairment losses of continuing operations, including impairment on inventories, are recognized in the Statement of Profit and Loss.

Reversal of impairment losses is recorded when there is an indication that the impairment losses recognized for the assets no longer exist or have decreased.

8) Inventories

Inventories consist of raw materials, packing materials, stores and spares, work-in-progress, stock-in-trade and finished goods. Inventories are valued at lower of cost and net realizable value (NRV). Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sales.

Cost is determined on First in First Out (FIFO) basis.

Cost of raw materials and packing materials includes cost of purchases and other costs incurred in bringing the inventories to their present location and condition.

Cost of work-in-progress and finished goods includes direct materials, labor and proportion of manufacturing overheads based on the normal operating capacity, wherever applicable. The cost of finished goods includes other costs incurred in bringing the inventories to their present location and condition.

9) Foreign exchange transactions and translations

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in the Statement of Profit and Loss.

All non-monetary items denominated in foreign currency are carried at historical cost or other similar valuation and are reported using the exchange rate that existed when the values were determined.

10) Financial instruments

A financial instrument is any contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity.

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets:

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through Profit and Loss are expensed in the Statement of Profit and Loss.

Subsequent measurement

After initial recognition, financial assets are measured at:

- fair value (either through other comprehensive income or through Profit and Loss), or
- amortized cost

Derecognition of financial assets:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset

When the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of financial asset, the financial asset is derecognized if the Company has not retained control over the financial asset. Where the Company retains control of the financial asset, the asset continues to be recognized to the extent of continuing involvement in the financial asset.

Write-off:

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

Income recognition

Dividend is accounted when the right to receive payment is established. Interest income from financial assets is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Cash and cash equivalents

Cash and cash equivalents consists of cash on hand, short demand deposits and highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value. Short term means investments with original maturities/holding period of three months or less from the date of investments.

Investments

Investments in mutual funds are primarily held for the Company's temporary cash requirements and can be readily convertible in cash. These investments are initially recorded at fair value and classified as fair value through profit or loss.

Trade receivables

Trade receivables are amounts due from customers for the sale of goods or services performed in the ordinary course of business. Trade receivables are initially recognized at their transaction price, which is considered to be its fair value and are classified as current assets as it is expected to be received within the normal operating cycle of the business.

Financial liabilities:

Initial recognition and measurement

Financial liabilities are initially measured at its fair value plus or minus, in the case of a financial liability not at FVTPL, transaction costs that are directly attributable to the issue/origination of the financial liability.

Subsequent measurement

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the Statement of Profit and Loss. Any gain or loss on derecognition is also recognized in the Statement of Profit and Loss.

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Derecognition of financial liabilities

Financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Trade Payables

Trade payables are amounts due to vendors for purchase of goods or services acquired in the ordinary course of business and are classified as current liabilities to the extent it is expected to be paid within the normal operating cycle of the business.

Derivative financial instruments:

The Company uses derivative financial instruments, such as foreign exchange forward contracts, to manage its exposure to interest rates and foreign exchange risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The Company enters into derivative contracts to hedge risks which are not designated in any hedging relationship i.e., hedge accounting is not followed. Such contracts are accounted for at FVTPL.

Offsetting financial instruments:

Financial assets and liabilities are off-set and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

11) Revenue recognition

Revenue from the sale of products is recognized when the Company satisfies a performance obligation in accordance with the provisions of the contract with the customer. This is achieved when control of the product has been transferred to the customer, which is generally determined when title, ownership, risk of obsolescence and loss pass to the customer and the Company has the present right to payment. Revenue is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discount and volume rebates, and goods and service tax.

In making judgment for liability for sales return, the management considers the detailed criteria for the recognition of revenue from the sale of goods set out in Ind AS 115 and in particular, whether the Company had transferred to the buyer the significant risk and rewards of ownership of the goods. Following the detailed quantification of the Company's liability towards sales return, the management is satisfied that significant risk and rewards have been transferred and that recognition of the revenue in the current year is appropriate, in conjunction with the recognition of an appropriate liability for sales return.

Accruals for estimated product returns, which are based on historical experience of actual sales returns and adjustment on account of current market scenario is considered by Company to be reliable estimate of future sales returns.

A refund liability (included in other current liabilities) and a right to recover the returned goods (included in other current assets) are recognised for the products expected to be returned.

Export incentives:

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same.

Interest income:

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is included in 'Other Income' in the Statement of Profit and Loss.

12) Employee Benefits**Short-term benefits**

Short-term benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

The Company makes defined contributions to the Government Employee Provident Fund, which is recognized in the Statement of Profit and Loss, on an accrual basis. The Company recognizes contribution payable to the provident fund scheme as an expense when an employee renders the related service. The Company has no obligation other than the contribution payable to the provident fund.

Defined benefit plans

The Company's liabilities under The Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method.

The Gratuity obligation is unfunded. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the Balance Sheet date on Government bonds, where the terms of the Government bonds are consistent with the estimated terms of the defined benefit obligation.

The net interest cost is calculated by applying the discount rate to the defined benefit obligation. This cost is included in the 'Employee benefits expense' in the Statement of Profit and Loss. Re-measurement gains or losses arising from changes in actuarial assumptions are recognized in the period in which they occur, directly in OCI. These are presented as re-measurement gains or losses on defined benefit plans under other comprehensive income in other equity. Remeasurement gains or losses are not reclassified subsequently to the Statement of Profit and Loss.

Compensated absences

The employees of the Company are entitled to compensated absences. Accumulated compensated absences, which are expected to be encashed beyond twelve months from the end of the year, are treated as long-term employee benefits. Liability for such benefit is provided on the basis of actual leave balance as at the Balance Sheet date. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the

additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognizes accumulated compensated absences based on actuarial valuation in the Statement of Profit and Loss.

13) Income Taxes

Current tax

The Income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in India.

The management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is recognized on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or a liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor the taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or a liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor the taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

14) GST Input Credit

Goods and service tax (GST) input credit is accounted on an accrual basis on purchase of eligible inputs, capital goods and services.

15) Provisions, Contingent Liabilities and Contingent Assets

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, it carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. The expense relating to a provision is presented in the Statement of Profit and Loss, net of any reimbursements.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognized.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

16) Leases – Company as a Lessee

At inception of a contract, the Company assesses whether a contract is or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset the Company assesses whether contract involves the use of an identified asset, the Company has a right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use and the Company has the right to direct the use of the asset.

At the inception date, right-of-use asset is recognized at cost which includes present value of lease payments adjusted for any payments made on or before the commencement of lease and initial direct cost, if any. It is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. Right-of-use asset is depreciated using the straight-line method from the commencement date over the earlier of useful life of the asset or the lease term. When the Company has purchase option available under lease and cost of right-of-use assets reflects that purchase option will be exercised, right-of-use asset is depreciated over the useful life of underlying asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

At the inception date, lease liability is recognized at present value of lease payments that are not made at the commencement of lease. Lease liability is subsequently measured by adjusting the carrying amount to reflect interest, lease payments and remeasurement, if any.

Lease payments are discounted using the incremental borrowing rate or interest rate implicit in the lease if the rate can be determined.

The Company has elected not to apply the requirements of Ind AS 116 to leases that has a term of 12 months or less and leases for which the underlying asset is of low value.

17) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

18) Segment Information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Chief Operating decision-maker is responsible for allocating resources and assessing the performance of the operating segments and makes strategic decisions.

19) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(All amounts are in ₹ millions unless otherwise stated)

30.2 Other Long-term employee benefits

i) Defined Benefit plan (Privilege Leave):

Entitlements to annual leave, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of leave encashment as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Entitlements to annual leave, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long-term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise. Amount of ₹ 8.47 million (March 31, 2023 ₹ Nil) has been recognised in the Statement of Profit and Loss on account of provision for long-term employment benefit.

ii) Defined Benefit plan (Sick Leave):

Amount of ₹ 3.92 million (March 31, 2023 ₹ Nil) has been recognised in the Statement of Profit and Loss on account of provision for long-term employment benefit.

The management assessed that carrying values of financial assets i.e., cash and cash equivalents, Investments, loans, trade payables, trade receivables, other financial assets and liabilities as at March 31, 2024 and as at March 31, 2023 are reasonable approximations of their fair values largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

(All amounts are in ₹ millions unless otherwise stated)

Fair value hierarchy

The fair value of the Financial Assets and Liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The Company uses the following hierarchy for determining and/or disclosing the fair value of Financial Instruments by valuation techniques:

- (i) Level 1: quoted prices (unadjusted) in active markets for identical Assets or Liabilities.
- (ii) Level 2: inputs other than quoted prices included within Level 1 that are observable for the Assets or Liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- (iii) Level 3: inputs for the Assets or Liabilities that are not based on observable market data (unobservable inputs).

No financial assets/liabilities have been valued using level 1 fair value measurements.

The following table presents fair value hierarchy of assets and liabilities measured at fair value:

Particulars	Fair Value		Fair value hierarchy
	As at March 31, 2024	As at March 31, 2023	
Investments in Equity Instruments measured at fair value through profit & Loss Account (FVTPL) Unquoted Equity Shares (Refer note 3)	-	4.77	Level-3
Mark to market asset on currency forward contracts (refer note 5)	0.34	-	Level-2

Financial instrument measured at amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks and ensures that financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

(A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk include borrowings and derivative financial instruments.

(i) Exposure to interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

Variable-rate instruments	As at March 31, 2024	As at March 31, 2023
Non-current borrowings	755.53	248.95
Current borrowings	346.72	-

Interest rate sensitivity:

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Profit or (loss)	
	100 bp increase	100 bp decrease
As at March 31, 2024		
Non-current borrowings	(7.56)	7.56

As at March 31, 2023		
Non-current borrowings	(2.49)	2.49
Current borrowings	-	-
Total	(2.49)	2.49

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates to the Company's operating activities denominated in United States Dollar (USD), Arab Emirates Dirham (AED).

The following table sets forth information relating to unhedged foreign currency exposure as at March 31, 2024 and March 31, 2023.

(B) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Company's receivables, from deposits with landlords and other security deposits and also arises from cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade Receivables

Trade Receivables of the Company are unsecured. Credit risk is managed through periodic monitoring of the creditworthiness of customers in the normal course of business. The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the past and expected collection pattern of accounts receivables.

Total	1,186.83	727.10

(C) Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing through various short term and long-term loans at an optimized cost.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual payments:

37. CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value, to optimize returns to the shareholders and to ensure the Company's ability to continue as a going concern.

The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

Foot Notes:

The reason for reconciliation between quarterly returns or statements of current assets filed with banks are as follows:

1) Inventories:

- Inter-branch stock in transit,
- Exclusion of stores and spares inventory,
- Adjustments arising from the application of sales cut-off procedures.

2) Trade Receivables:

- Reversal of interest income on overdue trade receivables,

(All amounts are in ₹ millions unless otherwise stated)

- b) Loss allowance made for trade receivables,
- c) Adjustments to trade receivables due to period-end cut-off procedures,
- d) Remeasurement of balances due to foreign exchange rate fluctuations,
- e) Recognition of discounts and rebates applied to revenue within trade receivables.

3) Advances to Suppliers' and Advances from Customers':

- a) Offsetting of these advances against trade payables and trade receivables.

4) Trade Payables:

- a) Only inclusion of payables related to raw material and packing material vendor balances.

STATEMENT ANNEXED TO THE NOTICE SETTING OUT THE MATERIAL FACTS CONCERNING EACH ITEM OF SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 AND SECRETARIAL STANDARD ON GENERAL MEETINGS

The following Statement sets out all material facts relating to the Special Business mentioned in the Notice:

ITEM NO. 3

Re-appointment of Mr. Dipak B Kanparia as an Independent Director

The Members of the Company, at the Annual General Meeting, had approved the appointment of Mr. Dipak Kanparia as an Independent Director of the Company, whose term will expire on September 30, 2024. In accordance with Section 149 (10) and (11) of the Act, an Independent Director can hold office for two consecutive terms of up to five years each on the Board of a Company, subject to shareholders approving the second term by passing a special resolution.

Mr. Dipak B Kanparia, approximately 56 years old, brings over three decades of experience in the agrochemical sector. As the director and promoter of Dharmajivan Greentech Private Limited, a Company he founded ten years ago, he has profound expertise and has been instrumental in delivering extensive benefits to the board, Company, and stakeholders alike.

Brief details of Mr. Kanparia, the nature of his expertise and vast experience, with other details relating to his directorship, are annexed to this Notice. The Company has received notice in writing under the provisions of Section 160 of the Act, from a Member proposing his candidature for the office of Independent Director for a second term. The Company has received from Mr. Kanparia, his consent to act as Director of the Company along with a declaration to the effect that he meets the criteria of independence as provided in Section 149 of the Act and Regulation 16 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and an intimation to the effect that he is not disqualified from being appointed as a Director in terms of Section 164(2) of the Act.

The Nomination and Remuneration Committee (NRC) of the Board of Directors, on the basis of the report of performance evaluation, has recommended re-appointment of Mr. Kanparia, as an Independent Director for a second term. Based on the recommendation of the NRC, and considering the reports of performance evaluation, Mr. Kanparia's skills, vast experience and deep knowledge of the industry and his contribution over the years as an Independent Director of the Company, the Board believes that Mr Kanparia's continued association as an Independent Director on the Board of Directors of the Company would be of immense benefit to the Company. Your Directors recommend the resolution set forth in Item no. 3 for the approval of the Members, by passing the resolution as a Special Resolution. In accordance with the provisions of Section 149 read with Schedule IV to the Act and SEBI Listing Regulations, re-appointment of Independent Directors for their second term requires approval of Members by way of a Special Resolution.

In the opinion of the Board, Mr. Kanparia fulfils the conditions specified in the Act and rules made thereunder for his appointment as an Independent Director of the Company, he is not debarred from holding the office of director by virtue of any SEBI order and he is independent of the management. Copy of the draft letter of appointment of Mr. Dipak Kanparia as Independent Director, setting

out applicable terms and conditions, is available for inspection without any fee by the Members at the Registered Office of the Company, on all working days (except Saturdays, Sundays and public holidays) between 2.00 p.m. to 5.00 p.m. upto the last date of Annual General Meeting.

Except for Mr. Dipak Kanparia to whom the resolution relates and his relatives (to the extent of their shareholding interest in the Company), none of the other Directors, Promoters and Key Managerial Personnel of the Company and their relatives is concerned or interested, financially or otherwise, in the resolution. This explanatory statement along with the additional information as per Regulation 36 of the SEBI Listing Regulations and Secretarial Standard 2 on General Meetings issued by Institute of Company Secretaries of India (ICSI), as annexed herewith may also be regarded as disclosure under the provisions of the Act and SEBI Listing Regulations.

The Board of Directors of the Company recommends the Resolutions as set out in the accompanied Notice for approval of the members.

Statement as required under Section II, Part II of the Schedule V to the Companies Act, 2013 with reference to the Special Resolution at Item No 4 of the Notice.

The relevant documents referred to in the accompanying Notice and in the Explanatory Statements, if any, are open for inspection by the Members at the Company's Registered Office on all working days (except Saturdays, Sundays and public holidays) between 11:00 a.m. to 5.00 p.m. upto the last date of Annual General Meeting.

ITEM NO. 5: RATIFICATION OF REMUNERATION PAYABLE TO COST AUDITORS OF THE COMPANY FOR FY 2024-25

In pursuance of Section 148 of the Companies Act, 2013 and Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the Company is required to appoint a cost auditor to audit the cost records of the applicable products of the Company and as per the applicable Rules, remuneration payable to the cost auditor is required to be ratified by the members of the Company in the general meeting. Accordingly, the Board of Directors has considered and approved the appointment of M/s. Dalwadi & Associates, Cost Accountants, Ahmedabad (having Firm's Registration No. 000338), as the cost auditor of the Company for the financial year 2024-25 at a remuneration of ₹ 55,000/- (Indian Rupees Fifty Five Thousand Only) plus applicable Goods & Services Tax and out of pocket expenses that may be incurred.

The approval of the Members is sought by way of Ordinary Resolution for ratification of the remuneration payable to the cost auditor for the financial year 2024-25.

None of the Directors, Key Managerial Personnel of the Company or their relatives are, in any way, financially or otherwise, concerned or interested in the resolution.

ITEM NO. 6: APPROVAL FOR ALTERATION OF ARTICLES OF ASSOCIATION OF THE COMPANY

Pursuant to the Companies (Amendment) Act, 2015 dated May 25, 2015 in the Companies Act, 2013 read with the Rules framed thereunder, the requirement of Common seal has now become optional for all companies. In order to facilitate operational convenience, it is proposed to alter the AOA by deleting and amending the clauses related to Common Seal in the AOA of the Company.

A copy of the existing AoA and altered AOA will be available for inspection of the Members at the registered office of the Company during the Business hours, up to the date of the Annual General Meeting.

In terms of Section 14 of the Companies Act, 2013, the consent of the Members by way of a Special Resolution is required to approve alteration of Articles of Association of the Company.

The Board recommends passing of the Special resolution proposed at item no. 6 of this Notice.

None of the Directors, Key Managerial Personnel of Company or their relatives are, concerned or interested (financial or otherwise) in the resolutions as set out in Item Nos. 6 of the accompanying notice for the approval of the Members of the Company as Special Resolutions.
