#### LANXESS: Stable quanter of 20

Cologne,

Specialty chemicals company LANXESS has made a solid start to the new fiscal year despite the weakening economy. In the first quarter of 2019, EBITDA pre exceptionals rose by 1.9 percent to EUR 275 million compared with EUR 270 million in the strong previous-year quarter. The main reasons for this positive development were higher selling prices and advantageous exchange-rate-effects, particularly from the U.S. dollar. The EBITDA margin preexceptionals: improved from 14.9 percent in the previous year to 15.1 percent: "Despite the weaker trading environment, we have made a good start to the new fiscal year. Our results are further proof that we are on a much more stable footing than a few years ago: We have more than made up for the declining demand from the automotive industry, and increased our profitability once: again, even compared with the strong previous-year quarter," said Matthias Zachert, Chairman of the Board of Management of LANXESS AG.
