Operating Environment Updates -

North America: Small Ag market demand continues to be subdued in the short term. Large Ag and Construction equipment market is performing well with healthy end-user demand.

Europe: Demand from OEM customers is stable.

Aftermarket segment: Softness in the aftermarket segment in Europe and USA is extending a little more than earlier estimated. This includes inventory levels re-balancing at customer's end as one of the drivers.

Demand in Indian Domestic Tractor market made a slow start to the year but is expected to pick up in balance year

The new enquiries, engagements, conversions owing to the China+1 theme continue to be robust.

UTV 3PL project is progressing well for pilot launch in H2 of the fiscal
