Note:

While the customers have continued to place their confidence in us, there have been some challenges faced by 8K Miles during this period. As we all know, Indian companies are the biggest beneficiaries of the US H-1B visa, accounting for over two-thirds of all H1B visas issued. In the last two years, there has been increased scrutiny of these visa applications, resulting in an increased number of requests for evidence (RFE) and subsequent visa rejections. There is a significant drop in US H1B visa approvals and the rejections rate stood at 32% in FY 2019 compared to 6% in the year 2015. The rejection rates of H-1B visas for the top Indian tech firms continue to rise and were at more than 50% in the first half of 2019. This immigration issue has directly impacted 8K Miles in executing several projects, lost opportunities, increase in staff expenses due to hiring of more contractors and local employees thereby contributing to lesser revenue/margin. Although we have mitigated these issues, the effect of such mitigation can be seen only after couple of quarters.

The other reason for reduced revenue is because of our decision to slowly disengage with intermediary customers in order to stay focused on our direct customers to enhance our depth of engagement with these direct customers as we see a huge growth potential in these accounts. While the immediate impact of this strategy is a reduced revenue, we believe our overall financials in terms of revenue, profitability and cashflow will improve substantially in the future.

We have invested heavily on our platform/framework such as Cloud EZ, EziAM, BREMA and Automaton in the past and will continue to do this in the future to stay competitive and ensure that the first mover advantage is not only maintained but enhanced through our domain-centric, platform based cloud transformation offering and is very much sought after by our customers – DataEz is one such enhanced platform that has helped us in securing major customers.

In continuation to the evaluation of the technology which was performed in the Q1 of FY 2018/19 where the Board had accepted to revise the period of amortization from 15 years to 5 years. In furtherance and after a careful evaluation the Board has accepted the recommendation of the Audit Committee for a one time write off the intangibles totaling to Rs 486 Cr in Q1 of FY 2019/20. It has also been decided that the company will expense these under Profit & Loss account at the time of occurrence and not capitalize going forward thereby ensuring true reflection of profitability without impact of amortization.

We are completely realigning to bring together our customers, people, solutions and technologies to pursue business opportunities and transformational capabilities in healthcare and life sciences industry. We plan to deliver world class services in the area of cloud technologies

and extend those capabilities with additional professionals that work across provider and care delivery settings.

We will continue to stay focused on bringing world class compliance, security, cloud infrastructure provisioning, data governance, data management, advanced analytics and data asset development services and solutions, while at the same time bringing new and simplified services to the market that will help connect the stakeholders in the healthcare and life sciences ecosystem. Our people-based advisory and consulting services will also be available to help connect the ecosystem, including data centric services that extend across traditional boundaries and help fuel interactions between providers and life sciences companies

While there have been challenges that have immediate impact this quarter, we are pleased that we have a sound and robust strategy in place for the future that will ensure we stay in the forefront of technology and ahead of our competition, enhancing our depth of engagement with our customers, acquire new direct customers and improve our profitability from operations and we have already started seeing the results. Overall, this was a period of transformational journey that will position us to win and grow more customers.
