Our Facilities are ISO 45001 certified and Workplace health and safety policy is implemented across all our plants. Out of 23 sites, 15 sites have been certified for ISO 45001. To maintain Safety management system, regular internal audit and inspection is conducted and gap assessment modules are prepared to record corrective actions and improvement plans are prepared. Safety awareness campaigns are also conducted at regular intervals. Our Learning management system has implemented online courses pertaining to OHS through SAP Litmus online software.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Various assessment frameworks such as Hazard Identification and Risk Assessment (HIRA) and Hazard and Operability study (HAZOP) are conducted on a routine basis for all the activities of the plants. Permits and JSEA system is used for identification of hazards for all high-risk work activities for routine and non-routine activities. We are guided by EHS policy of Wilmar Group' that defines Zero Fatality and Permanent Disability in their plan. This is followed by the Company and monitored on a monthly basis through the EHS report.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N)

Yes, the Company has well defined processes for reporting work related hazards. Workers and staff can report the work-related hazards and risks through online EHS Portal Enablon. All sites have appointed and registered the users on the Enablon platform from each department. The users are responsible for reporting the incidents on the said platform. Once the event or incident is reported in the process, the area owner does the root cause analysis and defines the corrective action for the same with target dates. On attaching the evidence of the action plan, action plan is reviewed and closed by the respective Plant Head.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has adopted various practices to ensure reduced wastage, reuse or recycling of discharged waste as well as responsible disposal of the same in line with the regulatory guidelines.

Following is a brief summary of some of the practices adopted by the Company:

- 1) Wastewater management:** Manufacturing units release waste which is treated at our plants for reuse through effluent treatment plants. Over and above this, the Company has also installed ZLD at major plants. The recycled water is used for multiple purposes at the plant locations.
- 2) Reuse of Lubricant Oil:** All edible oil refineries produce wastage in the form of lubricant oil. This lubricant oil is resold to authorized recycler for further reuse.
- 3) Efforts towards Green Supply Chain:** In a commitment to sustainable and environmentally friendly practices, the Company embarked on hiring compressed natural gas (CNG) vehicles starting in FY23. The Company incentivized its vendors to embrace this eco-friendly alternative.

Besides the above measures of waste management, the Company has also replaced the packaging material used for its FMCG products. Today, approximately 98% of the packaging material used is recyclable.

Going forward, the Company will assess and closely monitor the usage of various chemicals. The endeavor of the Company shall be to find out ways for minimal usage of such chemicals and careful disposal of the same.

3. Describe the mechanisms to receive and redress grievances of the community.

We do not have a no formal mechanism in place for such grievances. However, the Company does have informal connect with the community in and around its manufacturing locations to hear and address any grievances.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2022-23 Current Financial Year	FY 2021-22 Previous Financial Year
Directly sourced from MSMEs/small producers	2.60%	1.82%
Sourced directly from within the district and neighboring districts	The Company has plants across 23 locations throughout the country and it sources directly from within the districts and neighboring districts.	

PRINCIPLE 9:**Businesses should engage with and provide value to their consumers in a responsible manner****Essential Indicators****1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback**

The Company has a system in place to address to consumer complaints. The consumers have an option to raise a complaint through three sources: (a.) Email (b.) Toll-free number (c.) Social Media platforms.

We have an internal application and portal in place for recording all the complaints received through the above three mediums. Any complaint received is regularly updated on the said platform. The platform is used by cross-functional teams across departments. Once a complaint is recorded, the complaint is automatically allocated to the local sales team and the concerned plant. The local sales team is required to contact the customer and pay a visit to the customer's home for investigating the complaint and check the product physically. After resolving the complaint, the sales team will fill the details in the Samaadhaan Application and generate a 'Happy Code' which will go directly to the customer's mobile number. Upon receiving a satisfactory resolution to his/her complaint, the customer shares this Happy Code with the local sales team, which is entered into the system to close the complaint at the customer's level. Simultaneously, the plant team needs to upload the Corrective Action and Preventive Action (CAPA) report of every complaint in the Samaadhaan web portal based on the controlled sample of the same manufacturing date product for which we have received the complaint. The team checks the product as per the specifications and submit the

CAPA details in the Samaadhaan web portal. The plant head then reviews the details in the Samaadhaan web portal and send it to the Corporate QA team for approval in the Samaadhaan web portal.

When the Complaint Investigation Report (CIF) in the Samaadhaan app by the sales team and CAPA in the Web portal by the plant team, the complaint gets closed at both the levels.

Additionally, on receipt of any complaints, depending on the nature of such complaint, plant officials are required to thoroughly reassess the samples of the product as on the manufacturing date suggested by the customer.

Independent Limited Assurance Statement to Adani Wilmar Limited on their Business Responsibility & Sustainability Report FY2022-23

To the Management of Adani Wilmar Ltd., Ahmedabad, India

Introduction

Intertek India Private Limited ("Intertek") was engaged by Adani Wilmar Limited ("AWL") to provide an independent limited assurance on its BRSR (Business Responsibility & Sustainability Report) for FY2022-23 ("the Report"). The scope of the Report comprises the reporting periods of FY2022-23. The Report is prepared by AWL based on SEBI's (Securities and Exchange Board of India) BRSR guidelines. The assurance was performed in accordance with the requirements of International Federation of Accountants (IFAC) International Standard on Assurance Engagement (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information.

Objective

The objectives of this limited assurance exercise were, by review of objective evidence, to confirm whether any evidence existed that the sustainability related disclosures, as declared in the Report, were not accurate, complete, consistent, transparent and free of material error or omission in accordance with the criteria outlined below.

Intended Users

This Assurance Statement is intended to be a part of the Annual Report of Adani Wilmar Limited.

Responsibilities

The management of AWL is solely responsible for the development the Report and its presentation. Management is also responsible for the design, implementation and maintenance of internal controls relevant to the preparation of the Report so that it is free from material misstatement, whether due to fraud or error.

Intertek's responsibility, as agreed with the management of AWL, is to provide assurance and express an opinion on the data and assertions in the Report based on our verification following the assurance scope and criteria given below. Intertek

does not accept or assume any responsibility for any other purpose or to any other person or organization. This document represents Intertek's independent and balanced opinion on the content and accuracy of the information and data held within.

Assurance Scope

The assurance has been provided for selected sustainability performance disclosures presented by AWL in its Report. The assurance boundary included data and information for the operations in Alwar, Kadi, Mundra, and AWL (Corporate Office) in accordance with SEBI's BRSR guidelines. Our scope of assurance included verification of data and information on selected disclosures reported as summarized in the table below:

Section A: General Disclosures

- Total number of permanent employees.
- Total number of other than permanent employees.
- Turnover rate for permanent employees.
- Percentage of women in Board of Directors (%).

Principle 3 (Businesses should respect and promote the well-being of all employees, including those in their value chains)

- Percentage of employees covered under retirement benefits (PF and Gratuity).
- Return to work and Retention rates of permanent employees that took parental leave.
- Number of employees covered under Skill upgradation and H&S trainings.
- Safety related indicators (LTIs and Fatality)

Principle 6 (Businesses should respect and make efforts to protect and restore the environment)

- Total electricity consumption
- Total fuel consumption

- Total volume of water withdrawn
- Total Scope 1 emissions
- Total Scope 2 emission.
- Total hazardous waste generated
- Total non-hazardous waste generated
- Total waste recovered through recycling, re-using or other recovery operations
- Total waste disposed

Assurance Criteria

Intertek conducted the assurance work in accordance with requirements of 'Limited Assurance' procedures as per the following standard:

- International Standard on Assurance Engagements (ISAE) 3000 (revised) for 'Assurance Engagements other than Audits or Reviews of Historical Financial Information'.
- International Standard on Assurance Engagements (ISAE) 3410 for 'Assurance Engagements on Greenhouse Gas Statement'.

A limited assurance engagement comprises of limited depth of evidence gathering including inquiry and analytical procedures and limited sampling as per professional judgement of assurance provider. A materiality threshold level of 10% was applied. Assessment of compliance and materiality was undertaken against the stated calculation methodology and criteria.

Methodology

Intertek performed assurance work using risk-based approach to obtain the information, explanations and evidence that was considered necessary to provide a limited level of assurance. The assurance was conducted by desk review & stakeholder interviews with regard to the reporting and supporting records for the fiscal year 2023. Our assurance task was planned and carried out during June 2023. The assessment included the following:

- Assessment of the Report that it was prepared in accordance with the SEBI's BRSR guidelines.
- Review of processes and systems used to gather and consolidate data.

- Examined and reviewed documents, data and other information made available digitally.
- Conducted virtual interviews with key personnel responsible for data management.
- Assessment of appropriateness of various assumptions, estimations and thresholds used by AWL for data analysis.
- Review of BRSR disclosures on sample basis for the duration from 1st April 2022 to 31st March of 2023 for AWL was carried out remotely.
- Appropriate documentary evidence was obtained to support our conclusions on the information and data reviewed.

Conclusions

Intertek reviewed selected BRSR disclosures provided by AWL in its Report. Based on the data and information provided by AWL, Intertek concludes with limited assurance that there is no evidence that the sustainability data and information presented in the Report is not materially correct. The report provides a fair representation of BRSR disclosures and is in accordance with the SEBI's BRSR guidelines to the best of our knowledge.

Intertek's Competence and Independence
