TCS Recognized as a Leader in Gartner® Magic Quadrant™ for Global Data Center Outsourcing & Hybrid Infrastructure Managed Services

Tata Consultancy Services Leverages its Investments in Intelligent Automation, Hybrid Cloud Technologies, and Ecosystem Partnerships to Help Customers Build a Scalable, Autonomous and Resilient Digital Core

NEW YORK | MUMBAI, August 10, 2022: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), has been positioned as a Leader in the Gartner Magic Quadrant for Data Center Outsourcing (DCO) and Hybrid Infrastructure Managed Services, Global[1]. TCS is positioned highest for its Ability to Execute, in an assessment of 19 global DCO and hybrid infrastructure service providers.

"The modernization of the digital core creates immense opportunities for an enterprise's innovation-led growth and transformation. TCS' cognitive-powered hybrid IT infrastructure approach helps customers envision a future-ready IT foundation that enables a multi-horizon business transformation," said **Krishnan Ramanujam, President, Enterprise Growth Group, TCS**. *"We believe our position as a Leader in this assessment over the years is a reflection of our vision, strategy, market success and investments in innovative and future-ready hybrid infrastructure offerings."*

TCS provides a comprehensive hybrid infrastructure model using its investments in data center modernization, private cloud infrastructure and partnerships with all major public cloud providers.

For clients looking to transform their IT operating model while modernizing their infrastructure, **TCS Cognix™ for Agile Infrastructure,** an AI-driven human-machine collaboration suite, helps manage existing data centers autonomously. With the innovative use of AI/ML, automation, and containerization, Cognix modernizes the data centers making them intelligent, agile, resilient, and scalable. It provides a suite of pre-built, configurable, and reusable digital solutions such as a container maturity analyzer, Edge orchestrator, infrastructure stack deployer and system security qualifier.

TCS Enterprise Cloud provides end-to-end full stack dynamic hybrid cloud services that enable enterprises to build and synergize their cloud strategies, accelerating business value aligned to their business framework. Available across 21 availability zones, it is integrated with software-defined and platform-as-a-service capabilities, enabling automation and resilience at all levels. TCS Enterprise Cloud offers SAP HANA on Cloud, workspace-as-a-service, database-as-a-service, big data platform-as-a-service, container-as-a-service, and application modernization as part of platform services. TCS' industry-specific solutions like TCS BaNCS™, TCS iON™, the TCS ADD suite and TCS Optumera™ are also offered on TCS Enterprise Cloud.

In addition, TCS has full-stack, multidisciplinary business units dedicated to each of the hyperscaler clouds and offers clients a full suite of services and solutions around cloud migration, application and data modernization, managed services, and industry-specific innovation. The respective units are:

AWS Business unit: TCS' large pool of over 10,000 AWS certified cloud-ready professionals leverage their domain knowledge and AWS technology building blocks to create transformational solutions contextualized to specific industry sub-verticals. TCS is an AWS Premier Consulting Partner, AWS Public Sector Partner, AWS Solution Provider Partner, AWS Public Sector Solution Provider, and AWS Managed Service Partner. It has 9 competencies, 9 service validations on AWS and is enrolled in 8 partner programs. TCS is a launch partner for 7 products on AWS and has 9 industry solutions listed on APN.

---

Microsoft Business unit: TCS' team of 30,000 dedicated Microsoft-certified associates work with hundreds of customers worldwide, from every industry, to accelerate their multi-horizon cloud transformation journeys. TCS is one of the most recognized partners in the Microsoft ecosystem, having earned all 18 Microsoft Gold Competencies and 17 Microsoft Advanced Specializations.

Google Cloud Business unit: TCS offers a full complement of services and solutions leveraging its domain-focused innovation and Google Cloud's suite of technologies. It has a rich suite of cloud accelerators rendered on the Google Garage, a digital lab that allows sprinting for experimentation with an experiential and immersive experience. TCS has achieved 11 specializations as well as 83 Expertise Badges and has over 4,600 Google Cloud certifications.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 606,000 of the world's best-trained consultants in 55 countries. The company generated consolidated revenues of US $25.7 billion in the fiscal year ended March 31, 2022, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
