'MEP OF \$1,200/TN UNVIAABLE'; KEY MANDIS CLOSED

# Traders stop buying basmati paddy

# Review of MEP on basmati rice under consideration

SANDIP DAS  
New Delhi, October 15

THE MEP CONUNDRUM

■ On Aug 25, govt imposed 'temporary' MEP of \$1,200/tonne  
■ India has exported 2MT basmati rice valued at \$2.2 bn in the April-August  
■ In 2022-23, the country exported 4.56 MT of basmati rice valued at \$4.78 bn  
■ India holds a share of around 75%-80% in the global aromatic rice market.

RICE EXPORTERS AND traders in basmati rice-growing regions in Punjab, Haryana and western Uttar Pradesh have stopped the procurement of grains from the mandis starting Sunday. They are protesting against the central government's decision to continue with the high minimum export price (MEP) of \$1,200/tonne. Several rice exporters, whom FE spoke to, said that at the current level of MEP, it would be unviable to procure basmati paddy. Pakistan, which competes with India in the global market, is currently exporting aromatic rice at around \$900/tonne.

"Farmers will be impacted the most as we have stopped purchasing aromatic rice from the market," a rice exporter said. Mandi prices of short duration pusa 1509 basmati paddy have declined by ₹600/quintal to ₹3,100/quintal since the government announced the MEP on aromatic rice shipment

in August.

All India Rice Exporters Association (AIREA), the apex body of basmati rice exporters following a meeting on Saturday had urged members to discontinue or stop buying paddy in the interest of the trade.

"Members are advised to exercise extreme caution in the procurement and inventory holding of paddy as these are expected to significantly impact business viability and potential of basmati export at remuneration realisation,"

according to the advisory issued by Nathi Ram Gupta, president, AIREA.

"We have stopped procuring basmati paddy from farmers as current MEPs at a highly unrealistic level, exports at this rate is virtually impossible," said Vijay Setia, former president of AIREA and Karnal-based basmati rice exporter.

The government, on August 25, imposed a 'temporary' MEP of \$1,200/tonne till October 15 on basmati rice shipment to restrict 'illegal shipment of

white non-basmati rice in the guise of premium basmati rice.'

A communication by the department of food and public distribution on Saturday stated: "Present arrangement for registration-cum-allocation certificate for basmati rice may continue beyond October 15, 2023 till further orders".

According to AIREA, the average export price of basmati rice in the last five years has been \$975/tonne. Industry sources said that following a recent meeting of exporters with commerce and industry minister Piyush Goyal, the government had agreed to reduce MEP on basmati rice to \$850/tonne.

Exporters stated that about 75% of India's 4.5 million tonnes (MT) of basmati rice exports annually are shipped at an average value in the range of \$700 to \$1,000 per tonne.

The commerce ministry had earlier stated that it received credible field reports regarding misclassification and illegal export of non-basmati white rice whose shipment was

banned from July 20, 2023.

"There has been large variation in the contract price of basmati being exported, with lowest contract price being \$359/tonne in backdrop of average export price of \$1,214/tonne during the current month," the commerce ministry had stated in August.

A committee set up by Agricultural and Processed Food Products Exports Development Authority (APEDA) in collaboration with the agriculture ministry looked into large variations in the contract price of basmati exported in August, with the lowest price being \$359/tonne against the average export price of \$1,214/tonne.

India has exported 2 MT of basmati rice valued at \$2.2 billion in the April-August period of the current fiscal, an increase of 12.3% in terms of value compared to the same period previous year.

In 2022-23, the country exported 4.56 MT of basmati rice valued at \$4.78 billion with an average price of \$1,050/tonne.

FE BUREAU  
New Delhi, October 15

THE GOVERNMENT STATED on Sunday that it is actively reviewing the decision to impose the MEP of \$1,200/tonne on basmati rice shipments.

"The review of free on board value for the issue of registration-cum-allocation certificate (RCAC) for basmati rice by the Agricultural and Processed Food

Products Authority is under active consideration of the government," according to a statement by the food ministry.

The ministry said that measures to make basmati rice exports to be valued at \$1,200/tonne or above for registration of the RCAC were implemented on August 25 to prevent 'misclassification' and 'illegal' export of non-basmati white rice, which had been banned on

July 20. "It had been reported that non-basmati white rice was being exported under the HS code of Basmati rice," the statement said.

The ministry said that based on representations received from rice exporter associations, indicating that the high FOB value is adversely affecting basmati rice exports, Union minister Piyush Goyal attended a meeting with the exporters.

## DoT may fund ₹1K-cr projects under R&D scheme

JATIN GROVER  
New Delhi, October 15

THE DEPARTMENT OF telecommunications (DoT) is evaluating around 440 proposals worth over ₹1,000 crore for funding under the Telecom Technology Development Fund (TTDF) scheme. The TTDF was instituted on October 1, 2022 to support rural-specific communication applications and to promote technology ownership, indigenous manufacturing, and creation of the intellectual property for telecom products and solutions.

The evaluation is being done on parameters such as technical feasibility of the proposed solutions, market size and impact on target segment of consumers, potential for import substitution, originality and national importance, go-to-market plan, and team expertise.

So far, the government has disbursed ₹300 crore to about 400 companies under the scheme, government officials said. These companies are working to develop technologies for 5G, 6G, backhaul radio, consumer premise equipment (CPE) for mobile and satellite communication, telecom network cyber security, routers, among other areas.

In the recent round of applications under TTDF, with a deadline of October 15, the DoT also invited proposals for development of chipset used in telecom equipment.

The government's focus is initially on six types of chipsets for telecom network equipment and end consumer devices. It includes chips for next-generation broadband CPE, 5G modem and radio chip for dongles, chips for internet of things (IoT) products, satellite communication equipments, and digital signal processors for 5G infrastructure, etc.
