Covid wiped out 22% of India Inc's profit: ICRA

RAM PRASAD SAHU
Mumbai, 18 June

Financials of Indian companies saw a sharp decline in the March quarter — both on sequential and year-on-year (YoY) basis — due to the Covid-19 pandemic. An ICRA results analysis of 184 companies, excluding financial sector entities, indicates 22 per cent fall YoY in net profit in the March quarter. The March quarter performance also dented 2019-20 (FY20) bottom line, which fell 12 per cent over the year-ago quarter.

While aggregate revenues were down 2.9 per cent YoY, the impact on margins was higher. While margins contracted 30 basis points (bps) on YoY basis, they fell sharp by 120 bps on sequential basis to 16.8 per cent. Profitability was impacted adversely due to subdued demand, tepid realisations in commodity sectors, and negative operating leverage. Pre-tax profit margins fell to multi-

quarter lows of 7.1 per cent. The impact of the lockdown is expected to be even more pronounced in the June quarter.

Commenting on India Inc's performance, Shamsheer Dewan, vice-president-corporate sector ratings, ICRA, said the fourth quarter (Q4) results were significantly impacted by consumer- and commodity-linked sectors. Despite some uptick in the initial months of the last quarter, major consumer-oriented sectors, such as fast-moving consumer goods, consumer durables, and auto original equipment manufacturers and ancillaries, reported either a decline or marginal growth in sales volumes, weighed down by subdued consumer sentiment and increased wariness.

Tepid realisations, driven by softening commodity prices (in line with global trends), coupled with subdued volumes in light of the pandemic outbreak and macroeconomic slow-

down, resulted in revenue contraction for major commodity sectors, including oil and gas entities, metals and mining, and iron and steel, said Dewan.

The ICRA study indicated the weakening of the interest coverage ratio to 3x in Q4FY20, from 3.5x in the December quarter, and 3.6x in Q4 of 2018-19 due to fall in earnings. Interest costs increased 13 per cent in the year-ago period on account of higher debt levels and IndAS 116 accounting adjustments related to lease rentals.

Sectors such as airline, telecom, and construction saw significant increase in interest costs on YoY basis on account of the same. At the same time, the earnings before interest, tax, depreciation, and amortisation contracted due to negative operating leverage. Interest cover in select stressed sectors, such as power and real estate, slipped below 1x, highlighting serious credit concerns.

India's pandemic fiscal cost lowest among major nations: Report

ARUP ROYCHOUDHURY
New Delhi, 18 June

The actual fiscal cost of the Centre's ₹21-trillion 'Atmanirbhar Bharat' Covid-19 package was lowest among 20 major nations, said a recent research report by Motilal Oswal.

"The true fiscal stimulus in FY21 (fiscal year 2020-21), as per our estimates, amounted to only around ₹2.5 trillion or 1.3 per cent of gross domestic product (GDP). The bulk of the fiscal support constituted loan guarantees and non-budgetary measures," the report said.

Business Standard's own calculations suggest that the Centre's fiscal impact amounts to around ₹2.28 trillion, or around 1.2 per cent of GDP. This includes tax revenue foregone, outlay towards free food distribution and cash handouts, increase in NREGA, interest subvention,

increase in viability gap funding for social infrastructure, and initial support from the centre's coffers to kickstart some of the liquidity and credit measures announced by Finance Minister Nirmala Sitharaman.

Additionally, not all of this amount will necessarily be borne in the fiscal year 2020-21. A portion of the total fiscal burden, especially on the rural sector and agriculture-related announcements, will come out of the centre's budget over the next two-five years.

Motilal Oswal, its report last week, said that this feature was not unique to India.

"Although the support packages in some developing economies, such as Thailand, Brazil, South Africa, and Malaysia cost 12-17 per cent of GDP, the actual fiscal stimulus is under 5 per cent of GDP for all. This is true for some developed economies as well."

Results in 30 mins: Delhi starts rapid antigen tests

PRESS TRUST OF INDIA
New Delhi, 18 June

The Delhi government commenced Covid-19 testing through rapid antigen methodology in and around containment zones of the city on Thursday.

A total of 341 teams were involved in the rapid-antigen testing that makes results available within 30 minutes, an official said. In a tweet, Deputy Chief Minister Manish Sisodia said, "7,040 people underwent rapid-antigen test at 193 centres across Delhi. Of this, 456 people have been found positive." He said those residing in containment zones are being tested in the initial phase. The Delhi Disaster Management Authority (DDMA) said a certificate will be issued to those tested at various centres, subject to clearance from the AIMS and the Indian Council of Medical Research.

According to Union Minister G Kishan Reddy, the Centre plans to conduct six lakh rapid-antigen tests at these facilities.

Chief Minister Arvind Kejriwal tweeted, "Two important things happened today. Covid-19 testing rates in Delhi have been reduced to ₹2,400 and rapid-antigen testing has started. I hope people won't face any problem in getting themselves tested now." At many centres, testing began as early as 9 am. People with mild symptoms or no symptoms at all can get themselves tested, another official said.

Those who came to get themselves tested at a centre in Sunlight Colony in south-east Delhi said the entire process took only about an hour. The centre started operating at 10 am and by around 5 pm as many as 125 swab samples were collected, a healthcare worker said.

'Satyendar Jain's health improving'

Delhi Health Minister Satyendar Jain, who is in hospital for Covid-19 treatment, showed some improvement on Thursday but his fever has not yet subsided, senior officials said. The 55-year-old minister is getting oxygen support on and off as per requirement, they said.

Jain had tested positive for Covid-19 on Wednesday, a day after he was admitted to Rajiv Gandhi Super Speciality Hospital (RGSSH) here after running high-grade fever and suffering sudden drop in oxygen levels. "His fever is down a bit today. He was kept on oxygen supply for long time today. But, his overall condition is improving," a senior official of the hospital said.

Sources in Delhi government on Wednesday said contact tracing of people who interacted with him in the last couple of days has started, and they will be quarantined as per the advice of doctors.

E-governance portal of HSIIDC www.hsiidcesewa.org.in can be visited to get more information related to the procedure of filling online applications for allotment and other terms and conditions & prospective investors can reach us through email id :contactus@hsiidc.org.in.

NMDC News
 In certain sections of media it has been reported that Chhattisgarh Government on Thursday disallowed NMDC to carry out Iron Ore storage, loading in its Bailadila Mines at Dantewada District. Though there is no written communication from the State Government, however, it has been reported that NMDC has not obtained storage licenses for its Loading Plants. To clarify this, NMDC would like to bring the following facts: Loading Plants of NMDC are located on the land acquired by NMDC within its mining complexes. During the year 2013, Chhattisgarh State Govt. had issued a demand notice levying storage fee for the loading plants of the Iron Ore Mines of the NMDC Ltd as per provisions of Chhattisgarh Mineral (Mining, Transportation and Storage) Rules, 2009. Based on the demand notice issued by the State Government, NMDC paid the demand amount and afterwards filed a Writ Petition in the Hon'ble High Court at Bilaspur challenging the demand notice. After hearing both the parties, Hon'ble High Court held that demand notice issued by the Chhattisgarh State Government levying storage fee was without jurisdiction and directed the State Government to refund back the storage license fee collected from the NMDC. In compliance to the above order, State Government had adjusted the amount deposited by the NMDC against the royalty amount payable. Subsequently, State Government has filed a review petition on the order passed by the Hon'ble High Court and presently matter is subjudice. NMDC will place all the relevant facts and legal position before the State Government to resolve the issue amicably. NMDC is having a long association of more than 60 years with the people of Chhattisgarh and is committed to serve the State and its people in years to come. NMDC is carrying out mining operations lawfully and stands committed to follow all the applicable statutory provisions religiously.

HSIIDC invites Expression of Interest (EOI) for development of an Industrial Model Township at village Khudana Distt. Mahendergarh, Haryana
 HSIIDC, the nodal agency of Govt. of Haryana for Industrial & Infrastructure Development invites Expression of Interest (EOI) to assess the demand from the stakeholders such as Real Estate Developers / Industrialists / Entrepreneurs and Consultants / Consulting Firms who are interested in developing an Industrial Park / setting up projects at the proposed Industrial Model Township at Khudana, Distt.
