## Press Release

### **Atul village receives Platinum Green Village certification from the Indian Green Building Council**

**Ahmedabad, June 7, 2024:** Atul village received the prestigious Platinum Green Village certification from the Indian Green Building Council (IGBC), an initiative of the Confederation of Indian Industry. The IGBC evaluates villages based on various sustainability parameters to encourage green practices and infrastructure. This significant achievement recognises Atul village as a green village among six platinum villages.

Situated on the banks of Par river, Atul village is developed by Atul Ltd (Atul) in the Valsad district of Gujarat. Atul Foundation, the corporate social responsibility (CSR) entity of Atul, implements community upliftment and green initiatives, amongst others, in Atul and its surrounding villages.

#### Sustainable practices in Atul village appreciated by IGBC

The certification highlights the initiatives of Atul village, implemented by Atul Foundation in association with National Bank for Agriculture and Rural Development (NABARD):

- Implementing effective health and hygiene practices like solid waste management system, household and community toilets and the availability of healthcare facilities.
- Developing robust and sustainable village infrastructure with model anganwadis, green forest covers and Miyawaki forest.
- Promoting water conservation techniques like sewage treatment plants, rainwater harvesting systems and natural resource management projects.
- Ensuring efficient energy use and availability through the use of LED lights and by harvesting solar energy.
- Utilising eco-friendly materials and resources like bamboos, fly ash bricks and Mangalore tiles in construction activities.
- Encouraging social and community engagement like the formation of self-help groups.
- Fostering green innovations like waste management systems and gas-based crematorium.

#### About Atul Ltd

Founded in 1947, Atul is a leading integrated chemical company in India with an annual revenue of about ₹ 4,700 cr. The Company manufactures about 900 products and 400 formulations. The production facilities of Atul and its associate, joint venture and subsidiary entities are at Ambarnath, Ankleshwar, Jodhpur, Panoli, Tarapur and Valsad in India and

Somerset in the UK. It has established subsidiary companies in Brazil, China, Ireland, UAE, UK and USA to serve its customers better and enhance the breadth and depth of its business. While it has followed the B2B model since inception, it is now also into B2C products and is endeavouring to grow them in and outside India.

#### About Atul Foundation

Much before the concept of CSR evolved into its present form, Atul, since its inception, has been engaged in serving society with diverse initiatives related to education, empowerment, health, relief, infrastructure and conservation. Kasturbhai Lalbhai, the Founder of Atul and an Indian legend, ensured complete commitment to community development and welfare in every company he established. The primary reason for the establishment of Atul was to generate large-scale employment and consequently improve the standard of living in rural India.

Atul Foundation is an embodiment of the Purpose and Values of Atul towards serving society. The Foundation is committed to fostering sustainable socio-economic upliftment, particularly in the lives of the underprivileged through relevant programs and projects in step with national priorities such as education, empowerment, health, relief, infrastructure and conservation.
