# Core Sector Growth Touches 5-month High of 8.2% in June

### Capex push by Centre and state govts supports growth in cement and steel sectors

#### Our Bureau

New Delhi: India's core sector growth rose 8.2% in June, the highest in five months, as capex push by central and state governments supported growth in cement and steel sectors, and improvements were witnessed in energy-related products.

"Both these (steel and cement) sectors are getting support from front-loaded capex expenditure by both Centre and state governments," said Gaura Sengupta, India economist, IDFC First Bank. She pointed out that Central government's capital expenditure rose 59.1% YoY in Q1FY24, and state government capital expenditure by 57.1% in Q1FY24 (based on 16 state governments).

Index of Eight Core Industries measures the output of key in-

frastructure sectors — coal, crude oil, natural gas, refinery products, fertilisers, steel, cement, and electricity — and has 40% weightage in index of industrial production.

The index had recorded 5% growth in May and 13.1% rise in June, according to data released on Monday.

Economists point out that the higher growth in the core sector will support IIP, which had risen to 5.2% in May compared with 4.2% in the previous month.

"Growth has been broad-based, thus reflecting buoyancy in the infrastructure sector as well," said Madan Sabnavis, chief economist, Bank of Baroda, pointing out that IIP growth can be expected in the 6-7% range for June.

Aditi Nayar, chief economist, Iera expects IIP to print between 4.6% in June, "in spite of the moderation in the YoY performance of several available high frequency indicators."

**BROAD-BASED GROWTH**  
Seven of the eight core industries recorded a rise in June, with steel recording a stellar 21.9% rise in June compared with 10.9% in May. The growth in cement, in comparison, was 9.3%.

# Q1 Fiscal Deficit Hits 25.3% of FY24 Target

### Our Bureau

New Delhi: The Centre's fiscal deficit in the first quarter of FY24 stood at 25.3% of the annual target, higher than 23.2% a year before, as a spike in capital expenditure offset a slight moderation in revenue spending, according to the official data released on Monday.

In absolute terms, the fiscal deficit from April to June stood at Rs 4.51 lakh crore, against Rs 3.52 lakh crore a year earlier.

Capital spending surged 5% in the June quarter to Rs 2.78 lakh crore. In a reflection of the government's sustained push to boost economic growth. However, the government kept a lid on revenue expenditure, which eased marginally to Rs 7.72 lakh crore in the first quarter from Rs 7.73 lakh crore a year earlier.

Meanwhile, net tax revenues for the Centre dropped 1.4% in the first quarter from a year before but its impact was blunted by a 1.9% jump in non-tax revenues, thanks mainly to generous dividends by the Reserve Bank of India.

The front-loading of tax devolution to states in the June quarter (₹2.4 lakh crore vs Rs 1.4 lakh crore a year before), aimed at encouraging them to keep boosting production spending, also aided a decline in the Centre's net tax revenues from a year before.

# Niti: G20 Must Take Lead in Decarbonising Transport Sector

### Our Bureau

New Delhi: Niti Aayog states that G20 member states should take a lead role in decarbonising the transport sector by eliminating fossil-fuel subsidies and adopting policies that increase the funding for green fuels while also providing guarantees for investors.

Citing the example of India which phased out price control for transport fuels in late 2014, the Aayog said the overall subsidy levels are still distorted the market, giving carbon-intensive modes of transport an undue advantage.

"Revenues spent or forfeited to finance fossil-fuel subsidies could be enhanced by availability and cost-competitiveness of public transport and to support both the electrification of vehicles and the market uptake of electricity-based zero carbon fuels for aviation and shipping."

# Read my Lips! Offices Open Door to Inflation in Beauty Products

#### LIPSTICK EFFECT

Prices of beauty products grow at 6.3% in Apr-June

#### Ishana Gera

New Delhi: Return to office and a possible lipstick effect might be contributing to higher inflation in beauty products and services.

Prices of beauty products and services grew at 6.3% on average in the April-June period compared to 5.5% in FY23, according to official data. Average inflation dipped to 4.6% in the first quarter of FY24 compared with 6.7% in FY23, but inflation in beauty products and segments has remained high.

But economists note this may normalise from the current quarter onwards. "We believe that the typical lipstick effect may be at play here for consumer choices," said Yuvika Singhal, economist, QuantEcon Research.

The lipstick effect is defined as a phenomenon where consumers tend to turn to small indulgences when facing a crisis. Thirsting prices of beauty products and services could also be attributed to the "ripple effect of high inflation," said

Paras Jasral, senior analyst, India Ratings and Research. "Strong demand from upper-income strata households may also be a contributing factor." Beauty products, toiletries, along with jewellery are classified in the inflation basket as personal care and effect items and carry a 425% weight.

In June, the category recorded 9.0% inflation, compared with the overall retail inflation reading of 4.81%.

Madan Sabnavis, chief economist, Bank of Baroda, believes that besides the lipstick effect, return to office and producers pushing up costs to consumers may also be a reason for rising prices in this segment.

## आरबीआई ब्याज दर पर यथास्थिति बनाए रख सकता है : विशेषज्ञ

नई दिल्ली/एजेंसी। भारतीय रिजर्व बैंक अपनी आगामी द्विमासिक नीति समीक्षा में लगातार तीसरी बार प्रमुख ब्याज दरों पर यथास्थिति बनाए रख सकता है। विशेषज्ञों ने यह अनुमान जताया। उन्होंने कहा कि अमेरिकी फेडरल रिजर्व और यूरोपीय सेंट्रल बैंक के प्रधान दरों में बढ़ोतरी के बावजूद घरेलू मुद्रास्फीति आरबीआई के सहनशील दायरे में बनी हुई है। आरबीआई ने पिछले साल मई से ब्याज दरों में बढ़ोतरी शुरू की थी, हालांकि इस साल फरवरी के बाद से रेपो दर 6.5 प्रतिशत पर स्थिर है। अप्रैल और जून में पिछली दो द्विमासिक नीति समीक्षाओं में इसमें बदलाव नहीं किया गया।

आरबीआई गवर्नर की अध्यक्षता वाली छह सदस्यीय मौद्रिक नीति समिति (एमपीसी) की बैठक 8-10 अगस्त को होगी। नीतिगत निर्णय की घोषणा 10 अगस्त को गवर्नर शक्तिदास करेगी। बैंक ऑफ इंडिया के मुख्य अर्थशास्त्री मदन सबनवीस ने कहा, हम उम्मीद करते हैं कि आरबीआई दरों पर यथास्थिति बनाए रखेगा। इसका कारण यह है कि मुद्रास्फीति इस समय पांच प्रतिशत से कम चल रही है, लेकिन आने वाले महीनों में महंगाई बढ़ने के साथ इसमें कुछ बढ़ोतरी का जोखिम होगा। कोटक महिंद्रा बैंक की मुख्य अर्थशास्त्री उपासना भारद्वाज ने कहा, चूंकि 2,000 रुपये के नोट को वापस लेने की घोषणा के बाद नकदी की स्थिति अनुकूल हो गई है, इसलिए हम उम्मीद करते हैं कि आरबीआई मौजूदा रुख पर कायम रहेगा। उन्होंने कहा कि सभी की निगाहें इस बात पर होंगी कि घरेलू मुद्रास्फीति का रुख कैसा रहता है। इन्फो की मुख्य अर्थशास्त्री अदिति नायर ने कहा कि सब्सिडियों की कोमतों में उछाल से जुलाई 2023 में सीपीआई या खुदरा मुद्रास्फीति छह प्रतिशत से ऊपर जाने का अनुमान है। ऐसे में रेपो दर पर यथास्थिति बनी रहने के साथ एमपीसी की काफी तीखी टिप्पणी देखने को मिल सकती है।
