Corp Q1 Standalone Net is Pandemic Hits Sales

HOPE OF RECOVERY
Seeing green shoots... expect them to sustain and get stronger as we move towards the festive season

RANJAN GUPTA
Hero MotoCorp

Q1 2020, which is a decline of over ₹7,122.8 crore reported in the quarter of the last financial year. Financial results are not comparable with the corresponding quarter as a reflection of the underlying performance, as the quarter was impacted by lockdown for most parts of the manufacturing period. The reported EBITDA margins were at 3.6%, ex-

cluding the fixed cost for the first quarter, would have been 22%, however, it added, following a positive turn of events, reflects the resilience of the portfolio and ability to optimise costs and improve productivity. The company's sales last quarter fell 60% to ₹50 lakh two-wheelers. However, sequential monthly sales of the company improved during the quarter as markets in several parts of the country gradually reopened, thereby leading to the revival of the domestic two-wheeler sector.

Niranjan Gupta, chief financial officer (CFO), Hero MotoCorp, said, "We are seeing green shoots, and expect them to sustain and get stronger as we move towards the festive season. Our July month sales were more than 65% of pre-covid sales and we do see positive trend moving forward."

Tata Steel Consolidated Loss at ₹4,609 cr in Jun Qtr

Our Bureau

Mumbai: India's largest steelmaker Tata Steel reported a consolidated net loss of ₹4,609 crore for the first quarter as operations were hit by the Covid-19 pandemic and lockdown, and its European units continued to be in the red.

It had a year-over profit of ₹1,000 crore in the previous quarter. Consolidated turnover fell to ₹24,200 crore in the June quarter from ₹26,970 crore a year earlier.

"Tata Steel Europe's performance was affected by lower deliveries and a sharp decline in European spreads to an unsustainably low level. As a result, our consolidated adjusted EBITDA dropped to ₹,800 crore," Tata Steel executive director Roushik Chatterjee said.

"In Europe, spreads are at unsustainably low levels but are expected to improve going forward. We are also engaged with respective governments for their support," Roushik Chatterjee said. "Our operations in India are also impacted by the Covid-19 pandemic. This is a global challenge for the Indian steel industry, comprising 80% of the country's steel production. In the previous quarter, we had posted a ₹520 crore loss from operations, which improved to ₹2,000 crore in the current quarter.

"During the quarter, we re-located our operations line with access to geographical market trends, including and import tariff value, and our overall margin. However, the lack of domestic demand, limited free cash flows and adverse market conditions, he added.

Went down to ₹1,520 crore in the current quarter. In the previous quarter, it had posted a ₹520 crore loss from operations, which improved to ₹2,000 crore in the current quarter.

"During the quarter, we re-located our operations line with access to geographical market trends, including and import tariff value, and our overall margin. However, the lack of domestic demand, limited free cash flows and adverse market conditions, he added.
