Company Secretary and Compliance Officer

MG Hector continues to be the Best-in-Class Value for Money SUV

Ahmedabad, JSW MG Motor India's flagship SUV, MG Hector continues to be the go to option for Indian car buyers looking for style, space, comfort and technology without a hefty price tag along with a maintenance cost of ~INR 500 per month. With a low maintenance cost as compared to the premium hatchback, the MG Hector stands out as a smart investment in the SUV segment in 2024. The MG Hector- India's first Internet

SUV, has carved a niche for itself in India. SUV enthusiasts since its launch. It embodies a perfect blend of luxury, efficiency, and a bold, iconic design. Packed with tech-led features and offering a comfortable ride, the Hector caters to the modern driver. Beyond its impressive features, the Hector stands out for its low Total Cost of Ownership, high resale value, and undeniable quality that sets a benchmark in the industry. The MG Hector, India's first

Internet SUV, was introduced in 2019 and has since set a new bar for SUVs. With some best-in-class offerings like its dual pane panoramic sunroof, the diesel variant of the MG Hector is an exceptional package for SUV enthusiasts who are looking for power and performance, with a touch of technology and top-notch performance.

With an industry-best 35.56 cm³ (14.21) HD infotainment system, 75+ connected car features, advanced safety offerings, a dual-pane panoramic sunroof, and other equally attractive incorporations, the Hector has been designed to provide exceptional and distinctive experiences to SUV enthusiasts. This feature-rich SUV caters to tech-savvy buyers seeking a bold design and a smooth, comfortable ride. Available in 5, 6, and 7-seater configurations, the MG Hector starts at an attractive price of ₹13.99 Lakhs (Ex-Showroom). (1-2)

He is a Civil

Darshan Yewalekar on Crafting Alaudin Khilji's Fierce Avatar

Ahmedabad, Few directors paint a cinematic canvas as vividly as Sanjay Leela Bhansali, and fewer still have the audacity to redefine history with such grandeur. But what makes his magnum opuses even more immersive? The minute details-costumes, sets, and yes, hair. Enter Darshan Yewalekar, the man behind some of Bollywood's most iconic character

transformations. With the theatrical re-release of Padmaavat, Yewalekar takes up the arduous and precision behind Ranveer Singh's menacing look as Alaudin Khilji. "The first thing I heard about Khilji was that he had to be a ruthless, almost animalistic force of nature," Yewalekar recalls. "That's where the idea of his mane-like long hair came from. It had to symbolize power and ferocity-untamed, unpredictable, much like his personality." The process, however, wasn't as simple as just growing it out. "We spent over three months growing Ranveer's beard and hair, while also working with extensions to achieve the exact volume and texture needed." (19-10)

Combat Rising Diabetes Crisis Among Young Asians

Ahmedabad, The "World Congress of Diabetes" organised by Diabetes India and the Diabetes in Asia Study Group (DASG) at Forum Convention & Celebration Centre, Club 07, Ahmedabad, from February 13 to 16, 2025. At a landmark gathering of thousands of doctors, researchers, and healthcare professionals in Ahmedabad, Diabetes India and the Diabetes in Asia Study Group (DASG) jointly released the Ahmedabad Declaration, calling for urgent action to address the alarming rise of Type 2 Diabetes (T2D) among young Asians. The declaration, drafted with the participation of 59 leading experts from around the world, has also been published today in the prestigious journal Diabetes and Metabolism - Research and Reviews. The Chief Guest for the event is Dr. Jitendra Singh, Minister of Science & Technology, Government of

India, with Guests of Honor including Dr. Peter Schwarz, President of the International Diabetes Federation, and Dr. Helena Teede, President of the International Society of Endocrinology, while Special Invitees comprise Dr. Abdul Basit, President of DASG, Dr. A. K. Azad Khan, Chair of IDF SEA, Dr. Anil Nayak, National President (2025-26) of IMA, and Dr. Nadima Shegum, Program Chair of DASG. The conference, scheduled from February 13 to 16, is being organized by Dr. S. R. Aravind (President, Diabetes India), Dr. Banshi Saboo (Secretary, Diabetes India), Dr. Sanjay Reddy (Treasurer, Diabetes India), Dr. Shashank Joshi (Program Chair, Diabetes India 2025), Dr. Manoj Chawla (Organizing Chairman, Diabetes India 2025), Dr. Sanjeev Phatak (Organizing Secretary, Diabetes India 2025), and Dr. Amit Gupta (Scientific Secretary, Diabetes India 2025). Jio-bp's new International Fuel for India Campaign

Ahmedabad, Minister of Petroleum and Natural Gas, Shri. Hardeep Singh Puri today launched the International Fuel for India (IFFI) campaign of Jio-bp (the operating brand of Reliance BP Mobility Limited, a joint venture of Reliance Industries and bp), a leading mobility solution provider, at India Energy Week 2025 in New Delhi. Featuring popular Indian cinema actor, Pankaj Tripathi, IFFI campaign showcases how Jio-bp is taking high performance fuels to every Indian at no extra cost. Leveraging over 100 years of bp's fuel research experience, Jio-bp's high-performance fuels with ACTIVE Technology have been developed by testing India's Original Equipment Manufacturer's engines with Indian Fuel over thousands of kms under the intense

scrutiny of expert technologists at globally acclaimed R&D centers in United Kingdom and Germany. Diesel at Jio-bp with ACTIVE technology offers an incremental mileage benefit of up to 4.3%, and petrol at Jio-bp with ACTIVE technology helps keep critical engine parts up to 10 times cleaner. High-performance fuels at Jio-bp work across all types of commercial and private vehicles alongside non-transport segment, helping to reduce engine wear & tear, improve fuel economy & to lower need for unscheduled maintenance due to dirt congestion in engine parts. Powered by ACTIVE Technology, high-performance fuels at Jio-bp prevent harmful dirt accumulation, ensuring superior engine performance and better fuel efficiency while also extending lifespan of critical engine parts. Lincoln Pharmaceuticals reports Standalone Net Profit of Rs. 20.77 crore

Ahmedabad, Lincoln Pharmaceuticals Limited, one of India's leading healthcare companies has reported a standalone net profit of Rs. 20.77 crore for the Q3 FY25 as against December 2024 of Rs. 28.04 crore in the corresponding period last year. Revenue from operations for the Q3 FY25 was reported at Rs. 146.55 crore over previous fiscal's same period revenue from operations of Rs. 146.45 crore. Company reported EBITDA of Rs. 32.63 crore in Q3 FY25 as compared to Rs. 40.68 crore EBITDA in the corresponding period last year. EPS for Q3FY25 was at Rs. 10.37 per share. The company

reported a profit before tax of Rs. 92.94 crores for the nine months ended December 2024 (9M FY25) to Rs. 100.03 crores in 9M FY24. Foreign Institutional Investors (FIIs) have steadily increased their stake in the company, rising from 3.22% in December 2023 to 5.16% in December 2024. With a clear growth strategy, the company is targeting revenue of Rs. 750 crores by FY26, driven by business expansion into high-value product lines and entry into new markets. Notably, the company is among the select few to achieve consistent profit growth every year from FY13 to FY24. Commenting on the results and performance, Mr. Mahendra Patel, Managing Director, Lincoln Pharmaceuticals Limited, said, "We are pleased to report strong growth across all business verticals in the first nine months of FY25, with a vision to achieve record revenue, EBITDA, and net profit for the full year. Company aims to maintain a steady growth while maintaining a net debt-free status. (18-2)

Tata Motors Unveils 2025 Tiago

Ahmedabad, Tata Motors, India's leading SUV and passenger vehicle manufacturer, today announced the much-anticipated Gujarat launch of the 2025 Tata Tiago, Tiago.ev, and Tiago. Bookings for these newly updated models are now open, with prices starting at an attractive Rs. 4.99 Lakhs for the Tiago, Rs. 7.99 Lakhs for the Tiago.ev, and Rs. 5.99 Lakhs for Tiago. Tata Motors continues to redefine the compact car segment with the latest iterations of the Tiago and Tiago. Both models now feature an enhanced front look with striking LED

headlights, Daytime Running Lights (DRLs), and a redesigned front bumper. The top-end variants come equipped with 15-inch alloy wheels, while the Tiago.ev distinguishes itself with a unique 14-inch hyper-style wheel setup and a refreshed front nose with larger air vents. Inside, all three vehicles boast a dual-tone dashboard design, offering distinct color themes across different variants. The top-end trims come loaded with a new 10.25-inch touchscreen infotainment system supporting wireless Android Auto and Apple CarPlay, automatic headlights, rain-sensing wipers, cruise control, push-button start, automatic climate control, a high-definition rear parking camera, a tyre pressure monitoring system, and a digital instrument cluster. Additionally, the Tiago's top variant is now equipped with a 360-degree parking camera for enhanced safety and convenience. (13-9)

If this robot was there, Kedar would have been found in two hours

Vadodara, Gujarat's leading tech fest Tech Expo 2025 was organized at Parul University near Vadodara, in which more than 1500 people from universities and schools of Gujarat and other states participated. This two-day event showcased around 370 projects designed to address real-world challenges through cutting-edge technology, although three important and

useful projects became the center of attraction in this tech expo. An attempt to boost modern technology through various projects is the main focus of this project exhibition, mainly in the recent incident in Surat where an innocent child fell into a drainage and was found dead after 24 hours after a heavy search. If there was a biomimetic underwater snake boat made by the

students here for this search, then it would have taken minutes or hours to find this child. Along with this, an autonomous electric self-tractor has been made in this exhibition, in which the difficulties faced by farmers and the problems occurring in the body have been removed and this tractor has been made to boost modern agriculture. Along with this, hydro boats and

two-wheeler anti-theft and crash response systems become the center of attraction, along with many different projects, an attempt was made to boost modern technology. If this robot was there, the child would have been found in two hours. Ronit Panchal, who is studying at Parul University, said that I have made a snakeboat that can go up to 10 meters underwater.
