## HCL Technologies Launches Dedicated AWS Business Unit to Accelerate Enterprise Cloud Transformation

**NOIDA, INDIA, Nov 3, 2021** – HCL Technologies (HCL), a leading global technology company, has launched its Amazon Web Services (AWS) Business Unit (AWS BU) to help enterprises worldwide accelerate their cloud transformation journey.

This dedicated business unit within HCL will be supported by AWS engineering, solutions and business teams. HCL currently holds five AWS competencies, has more than 10,000 professionals trained on AWS and plans to boost this capacity to more than 20,000 specialists in the future.

The new business unit will help businesses modernize their legacy systems and mainframe applications and reliably adopt cloud technologies that boost efficiency, achieve objectives and meet regulatory compliance, all the while migrating and managing SAP workloads on AWS.

“HCL is an AWS Premier Consulting Partner capable of providing end-to-end road map for adopting AWS to best serve our mutual customers, with a firm heritage in modernizing infrastructure, applications and data,” said Doug Yeum, Head of WW Channels and Alliances, AWS. “With the launch of the HCL AWS Business Unit, HCL will leverage its vertical-first focus on FSI, telco, and energy and utilities plus deep technical expertise on SAP, contact centers, hybrid cloud and mainframe modernization to transform businesses and consumer behavior using technology when they need it the most.”

“The AWS BU is an important part of our larger #HCLCloudSmart strategy in servicing every aspect of cloud delivery to build effective ecosystems that help our customers stay ahead of their competitors,” said Kalyan Kumar, Chief Technology Officer and Head, Ecosystems, HCL Technologies. “Leveraging our extensive relationship with AWS, the AWS BU synergizes the best of what both companies have to offer, driving digital, cultural and customer-centric transformations.”

The unit will help enterprise clients modernize and migrate at scale, sustain cost advantages and focus on experimentation by combining HCL’s experience and expertise in building adaptive cloud smart portfolios, and AWS’s depth and breadth of services and rapid innovation. HCL is uniquely positioned to help enterprises, both as a global systems integrator (GSI) and an independent software vendor (ISV), with a cloud-focused ecosystem and product innovation strategy.

Ultimately, the unit hopes to facilitate exponential revenue growth and enhanced user experience by developing customized industry solutions, built with AWS services and investment. A recent example is 1PLM, a solution that helps manufacturing companies transform their computer-aided design (CAD) and product lifecycle management (PLM) infrastructure into an on-demand, scalable and agile environment helping drive business innovation in the new normal.

For more information on HCL’s AWS Business Unit, visit <https://www.hcltech.com/cloud/aws>

### About HCL Technologies

HCL Technologies (HCL) empowers global enterprises with technology for the next decade, today. HCL’s Mode 1-2-3 strategy, based on its deep-domain industry expertise, client-centricity and entrepreneurial culture of Ideapreneurship™, enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three business units: IT and Business Services (ITBS), Engineering and R&D Services (ERS) and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in the areas of applications, infrastructure, digital process operations and next-generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering. P&P provides modernized software products to global clients for their technology and industry-specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities and broad global network, HCL delivers holistic services in various industry verticals, including Financial Services, Manufacturing, Technology and Services, Telecom and Media, Retail and CPG, Life Sciences and Healthcare, and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. For the 12 months ended September 30, 2021, HCL had consolidated revenue of \$10.82 billion. Its more than 187,000 ideapreneurs operate out of 50 countries.
