Mumbai, July 01, 2021: GlobalSpace Technologies Limited (BSE Code: 540654), one of the leading HealthTech and EduTech digital platform provider, today announced results for the fourth quarter ended on March 31, 2021 & FY 2020-21

Commenting on the Company's performance for FY21, Mr. Krishna Singh, Founder & CMD, 'We at Globalspace Technologies are happy updating our stakeholders about satisfactory performance during the FY2021. FY2021 has been a great learning year as well for the company. Company has witnesses huge uptake in health tech business with much better margins. Other enterprise business has not done so well due to covid, resulting in muted topline growth. Makebot, our edutech subsidiary has got decent traction with positive topline and bottomline growth. Merging of Mediapp platform with DocExa is expected to take around 6 months which would result into creating a unique online-offline healthcare ecosystem which would give us a major topline boost in next 6 to 9 months. As a long term strategy our company has realigned all its resource to focus on health tech and eduTech domains only. In next couple of quarters the topline growth is expected to come from both Mediapp & Makebot.
