AXISCADES announces the appointment of David Walker to the Board

Bengaluru, 28th, June 2020: *AXISCADES Engineering Technologies Ltd., (AXISCADES), India's leading technology solutions company today announced the induction of David Walker, an American aerospace veteran, to its board of directors.*

AXISCADES today announced the appointment of **David Walker**, an American aerospace authority who brings in vast experience in the industry and has led both technical and business development activities for several major aerospace companies.

“It is an interesting time for the Aerospace business currently, but with the illustrious foundation that AXISCADES has built over the last few years, I am confident that the company will fully tap the opportunity that is available in aerospace industry”, said David Walker. “The fragmented nature of the industry allows companies like AXISCADES to offer services and solutions that not just add value to customers, but transform operations that moves the industry ahead. I look forward to working closely with the team and building towards the capabilities that the industry is in dire need of” he said.

David Bradley, Chairman of AXISCADES said, “David brings with him a strong understanding of the aerospace market and has led several successful businesses. We hope to capitalize on his vast experience in the domain and cater to the rapidly evolving needs of the industry.”

About David Walker

David Walker is currently President & CEO of Astra Consulting, an aerospace consulting group with executives from several of the major aerospace companies. They specialize in supporting international clients in Business Development, Technical certification and Customer support.

Previously he was a Senior Vice President/Chief Technology Officer & Business Development for Spirit AeroSystems, responsible for leading the Spirit technical team and working with customers worldwide. In addition to having corporate responsibility for Engineering, Program Management and Business Development, he was also the Managing Director (Chairman) for the Spirit Progresstech Joint Venture in Russia. Prior to this he worked with Vought Aircraft Industries, which is part of Triumph group.

He graduated from Vanderbilt University with an honors fellowship Master's degree in engineering.

About AXISCADES Engineering Technologies

AXISCADES is India's leading technology solutions company catering to the futuristic needs of aerospace, defence, heavy engineering, automotive, energy, medical & healthcare sectors. Its proven technology products and services, coupled with industry best practices, enable global OEMs to create innovative, sustainable, safer and smarter products. The company has more than 2,200 engineers worldwide, offers solutions in mechanical engineering, embedded software and hardware, system integration, manufacturing and aftermarket solutions across domains addressing every stage of product lifecycle development. Headquartered in Bengaluru, AXISCADES has 14 engineering centres worldwide including North America, Europe and Asia.
