DAY 1 OF GLOBAL INVESTORS' SUMMIT

RIL, Tata, Birla commit over ₹1 trn in UP

FE BUREAU New Delhi, February 10

RELIANCE INDUSTRIES (RIL) CHAIRMAN Mukesh Ambani and Aditya Birla Group chairman Kumar Mangalam Birla on Friday committed investments worth ₹75,000 crore and ₹25,000 crore, respectively, in Uttar Pradesh with plans to expand their businesses in the state in the near future.

(From left) Reliance Industries chairman Mukesh Ambani, Tata Sons chief N Chandrasekaran and Aditya Birla Group chairman Kumar Mangalam Birla attend the UP Global Investors' Summit, in Lucknow on Friday

Chandrasekaran said Air India has plans to connect every part of UP to the rest of India and potentially to important destinations of the world. The three industry leaders said the country is on a strong growth path, emerging as a truly global champion in many sectors and the target of becoming a \$25-trillion economy, when it celebrates 100th year of Independence, is achievable. They credited Prime Minister Narendra Modi for guiding the country with a vision and laser-sharp focus on execution towards a bold new India, and added that the Union Budget 2023-24 has laid the foundation for the country to emerge as a developed nation. Ambani also announced a foray into the bioenergy busi-

ness, converting agriculture waste into gas, which can be used as fuel in industries, run automobiles or light kitchen stoves. He said his group will set up 10 gigawatt of renewable energy capacity and roll out 5G services across the state in the next 10 months. "These new investments will create an additional 100,000 jobs in the state," he said, adding the investment will be in addition to ₹50,000 crore already invested in the state. Birla, in his address, said: "As an early investor in the industrial journey of the state, we feel enthused by the rapid progress

that the state is making." He said that UP can rightly be considered one of the key states, driving India's journey towards a \$5-trillion economy. "Therefore, we are committing further investments to the tune of ₹25,000 crore across our businesses, cement, metals, chemicals, financial services and renewable energy," he added. Birla also said the group's seven businesses have a significant presence in Uttar Pradesh, anchored by over 30,000 employees with an overall investment of ₹40,000 crore. "I am happy to say that we are

going to build an integrated multimodal air cargo through Air India SATS with our partner Zurich Airport in the new Jewar airport," Chandrasekaran said. Air India SATS is the ground handling services arm of Air India. He said the group's hotel business "sees tremendous opportunities in the state because of the tourism that's going to come, both religious as well as wildlife, and other aspects that attract tourists". Chandrasekaran added that the Tata group already has a significant presence in Uttar Pradesh through steel, automotive, retail, financial and power firms along with TCS. "Eighteen companies of Tata group are deeply present (in UP)," he said, adding that 50,000 people are employed.

UP a major destination for FDI in India, says PM

FE BUREAU New Delhi, February 10

PRIME MINISTER Narendra Modi on Friday said India's rapid growth is a critical driver of world prosperity now, and pitched Uttar Pradesh as a major destination for foreign investment in the country.

PM Narendra Modi inaugurates the UP Global Investors' Summit, in Lucknow. (From left) UP governor Anandiben Patel, defence minister Rajnath Singh and CM Yogi Adityanath are also seen

"If India is a bright spot for the world, it is Uttar Pradesh which is driving the growth of India," he said at the inaugural session of the three-day Uttar Pradesh Global Investors Summit in Lucknow.

The Prime Minister said India now is driven by an aspirational society.

"Today, the aspirations of the society of India are giving a push to the governments. And, these aspirations are also bringing speed to developmental work. Today, India is carrying out reforms not out of compulsion but out of conviction."

Modi said Uttar Pradesh was once known as a "BIMARU" state, referring to an acronym for Bihar, Madhya Pradesh, Rajasthan and Uttar Pradesh. "BIMARU" also means sick in Hindi.

But the state now inspires hope. "Within five or six years, UP has established a new identity for itself," he said, indirectly referring to this period under a BJP government in the state.

"Now, UP is being identified by better governance. Now, UP is being identified by better law and order, peace and stability. Now, wealth creators here will get new opportunities," Modi said.

Uttar Pradesh, with its ambitious plan to raise its gross state domestic product

to \$1 trillion, is aggressively seeking private investments to boost aggregate demand in the state.

The state's focus is proping up both consumption and investment demand, and upgrading the physical infrastructure to attract investors — both domestic and foreign.

Defence minister Rajnath Singh, Uttar Pradesh governor Anandiben Patel and chief minister Yogi Adityanath were also present at the launch of the summit.

Techies may soon be able to renew H-1B visas within US

LALIT K JHA Washington, February 10

THE US IS planning to resume the process of domestic visa revalidation in certain categories, like H-1B and L1 visas, on a pilot basis later this year, a move that will benefit tens of thousands of foreign tech workers, particularly from India.

Until 2004, certain categories of non-immigrant visas, particularly the H-1B, could be renewed or stamped inside the US. After that, for the renewal of these visas, in particular, those on H-1B, the foreign tech workers have to go out of the country, mostly to their own country to get the H-1B extension stamped on their passport.

The pilot project when fully implemented will benefit professionals to get the stamping done with the US.

For all the H-1B visa holders, when their visa is renewed, they need to get their passports stamped with renewal dates. This is required if they wish to travel outside of the US and re-enter. As of now, H-1B visa restamping is not allowed within the US. This was a big inconvenience for foreign guest workers and also for their employees, particularly at a time when the visa wait time is more than 800 days or more than two years.

The much-sought-after H-1B visas are issued for three years at a time. The H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality occupations that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China. —PTI
