List of banks authorised to import gold, silver updated

New Delhi: The government on Thursday updated the list of banks authorised to import gold and silver during 2024-25. As per the list, 11 banks, including HDFC Bank and ICICI Bank, have been authorised by the Reserve Bank of India to import gold and silver for 2024-25 with effect from April 1. The authorisation will be valid up to March 31 next year. Three banks – Indian Overseas Bank, Punjab National Bank, and Union Bank of India – have authorised by the RBI to import only gold for 2024-25 with effect from April 1 this year.

HDFC Life gets ₹27-crore GST demand order

New Delhi: HDFC Life Insurance Company has received GST demand orders of over ₹27 crore for alleged short payment of taxes. In two separate regulatory filings, the insurer said it has received tax demand orders of over ₹16.5 crore and ₹10.5 crore from authorities for alleged short payment of GST and input tax credit claim mismatch.

FTSE Russell defers India's inclusion in govt bond Index

KR Srivats
New Delhi

FTSE Russell, a global index provider, has deferred the inclusion of India in its Emerging Markets Government Bond Index (EMGBI), noting that the country would stay on its watchlist as certain criteria for inclusion were still not met.

"India will remain on the FTSE (Fixed Income Country Classification Watch List) for the potential reclassification of its Market Accessibility Level from 0 to 1, and consideration for inclusion in the FTSE EMGBI," said FTSE Russell in its latest FTSE Fixed Income Country Classification Review published on Wednesday.

This is part of the semi-annual review where objective index inclusion criteria for market size and credit rating are assessed to ensure a consistent approach to market inclusion in FTSE global government bond indices.

In March 2021, India was added to the FTSE Watchlist for reclassification of its Market Accessibility Level from 0 to 1, and consideration for inclusion in the FTSE EMGBI. This followed India's move to introduce the Fully Accessible Route (FAR), paving the way for enhanced FPI flows into the Indian debt market.

Govt's gross liabilities rise to ₹160.69-lakh cr at Dec-end

Press Trust of India
New Delhi

Total gross liabilities of the government increased marginally to ₹160.69-lakh crore at the end of December 2023 from ₹157.84-lakh crore at September-end, the Finance Ministry said on Thursday. This represented a quarter-on-quarter increase of 1.8 per cent in the September quarter of 2023-24, said the public debt management quarterly report (October-December 2024).

PUBLIC DEBT

Public debt accounted for 90 per cent of total gross liabilities during the third quarter of the current fiscal year.

"During the quarter, the yield on Indian domestic bond initially rose but softened thereafter on account of decline in crude oil prices, lower than expected domestic CPI prints for October and November and news about possible inclusion of Indian Government Bonds (IGBs) in a major global emerging market index," the

Ahead of poll, Centre notifies 3-10% wage hike for MGNREGA workers

REVISED RATE. Goa sees highest increase at 10.56 per cent, UP and Uttarakhand lowest at 3 per cent

KR Srivats
New Delhi

Ahead of the general elections, the Centre has notified a 3-10 per cent increase in the wage rates for MGNREGA workers for the financial year 2024-25. The new wage rates will come into effect from April 1.

While Goa (10.56 per cent) and Karnataka (10.4 per cent) have seen the highest percentage increase, wage rates in Uttar Pradesh and Uttarakhand are set to see the lowest increase at 3 per cent for FY25.

Andhra Pradesh (10.29 per cent), Telangana (10.29 per cent) and Chhattisgarh (9.95 per cent) saw robust percentage increases.

AVERAGE WAGE RISE

The average MGNREGA wage increase across India is ₹28 per day. The average wage for 2024-25 will be ₹289 as against ₹261 for FY23-24.

Currently, wages under the Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGA) are decided based on changes in

the CPI-AL (Consumer Price Index-Agriculture Labour), which reflects inflation in rural areas.

The Rural Development Ministry, which administers the MGNREGA scheme, had recently obtained the Election Commission's permission to notify the revised wage rates as the model code of conduct is already in force across the country for the upcoming general elections.

In absolute terms, Haryana will get the maximum wage of ₹374 per day. The lowest has been fixed for Arunachal Pra-

desh and Nagaland at ₹234 per day. Last year, the Rural Development Ministry announced the MGNREGA wage increase for 2023-24 on March 24. The wage increase ranged from 2-10 per cent.

VARIATION FLAGGED

Earlier this year, the Parliamentary Standing Committee on Rural Development highlighted that the wages were inadequate and not in consonance with the rising cost of living.

It also flagged the high range of variation in

MGNREGA wages across States. It had asked the Rural Development Ministry to explore the feasibility of revising the base year and base rate of the MGNREGA wage. Currently, the base year for MGNREGA wage calculation is 2009-10, and this was seen as obsolete.

Besides the necessity to increase wages, the Parliamentary Panel had also flagged the

delay in dispensing the wages.

The Centre had, in the Union Budget 2024-25, allocated ₹86,000 crore for MGNREGA. This was at par with the revised estimate for MGNREGA in the ongoing financial year 2023-24.

Besides the Centre's notified wage rates, States can also provide a wage rate over and above such level for the beneficiaries.

Fiscal deficit widens in April-Feb to ₹15.01-lakh cr

KR Srivats
New Delhi

The Centre's fiscal deficit widened in April-February 2024 to ₹15.01-lakh crore, which is about 86.5 per cent of Revised Estimate of ₹17.35-lakh crore, official data released on Thursday showed.

The fiscal deficit in the same period a year ago stood at ₹14.53-lakh crore, which was 82.8 per cent of revised estimate. Till end January this fiscal, fiscal deficit was at about ₹11-lakh crore.

Finance Minister Nirmala Sitharaman had surprised in the recent Interim Union Budget by stepping up pace of fiscal consolidation and pegged the fiscal deficit aim at 5.8 per cent of GDP for current fiscal and 5.1 per cent for next financial year.

TAX DEVOLUTION

The surge in Centre's fiscal deficit in February 2024 (₹4-lakh crore vs ₹2.6-lakh crore in February 2023) can be partly attributed to the higher tax devolution released during the month under review (₹2.1-lakh crore vs ₹1.4-lakh crore in February 2023). This led to a decline in the revenue receipts and net tax revenues in February 2024, said Aditi Nayar, Chief Economist, Head-Research & Outreach, ICRA Ltd.

Meanwhile, total expenditure during April-February FY24 was ₹37.47-lakh crore, or about 83 per cent of the annual target, against ₹34.94-lakh crore seen a year earlier.

On the capital expenditure front, government outlay stood at ₹8.05-lakh crore

between April-February, 84.8 per cent of its target for FY24. This was higher than the ₹5.90-lakh crore incurred in the same period a year ago.

Madan Sabnavis, Chief Economist, Bank of Baroda, said the government accounts show that the Centre is still around ₹7.43-lakh crore short of the expenditure target which means that this amount would be spent in March 2024.

Major shortfalls are in agriculture (₹20,668 crore); rural (₹48,088 crore); chemicals and fertilizers (₹16,150 crore); roads (₹26,000 crore) and consumer affairs (₹35,117 crore). There could be some savings here at about ₹50,000-60,000 crore if these budgets are not exhausted, he added.

TAX REVENUES

The Centre's net tax revenues for April-February stood at ₹18.5-lakh crore, which is 79.6 per cent of the overall target. In April-February 2023, the net tax revenues stood at ₹17.32-lakh crore.

Meanwhile, non-tax revenue for April-February 2024 stood at ₹3.6-lakh crore, or 95.9 per cent of the overall target, official data showed.

Total receipts for the 12-month period stood at ₹22.5-lakh crore, which was 81.5 per cent of the overall target.

At 610.8 mt, CIL tops supply target to power sector

Mithun Dasgupta
Kolkata

State-run coal miner Coal India on Thursday said it has supplied a record 610.8 million tonnes of coal to the country's thermal power plants so far this fiscal, surpassing the annual target of 610 million tonnes to the power sector.

In a stock exchange filing, the coal behemoth said coal supplies to thermal power plants hit 610.8 million tonnes (mt) on Wednesday. This was highest to date and the company achieved the feat four days earlier than the FY24 closure.

Compared to 581.5 mt of last fiscal's same period, the increase in supplies was 29.3 mt or 5 per cent higher year-on-year.

Currently, Coal India's supplies to the coal-fired plants are averaging 1.76 mt per day amidst growing demand from the power sector.

"This is the second consecutive year that CIL's coal supplies to the power sector exceeded the target. In FY23 off-take to power plants was 586.6 mt against the programmed commitment of 565 mt. Bolstered by higher supplies from CIL, coal stock at domestic coal-based power plants shot up to 47.1 mt (as on 26 March) ahead of the onset of the summer," the company said, adding the stock was 13.7 mt more compared to the same period last year.

Coal stock at power plants was 33.4 mt as of March 26, 2023.

Coal and lignite dispatch hits record 1 bt this fiscal

Our Bureau
New Delhi

India has achieved the milestone of dispatching 1 billion tonnes (bt) of coal and lignite in the current financial year, Coal Minister Pralhad Joshi said on Thursday.

"Thanks to the visionary #GatiShakti policy launched by PM @narendramodi ji, India's coal mining sector has achieved a milestone by breaching 1 BT coal & lignite dispatch, for the first time in history. Undertaking massive infrastructure expansion and boosting multi-modal connectivity in the mining sector have helped in improving logistics efficiency, thus resulting in faster evacuation of coal and lignite. #Mission1BT," Joshi tweeted on X.

On February 27, Coal Secretary Amrit Lal Meena told *businessline*, "Our endeavour is to further ramp up production during the remaining 30-35 days. Till February 26, we achieved 861.31 million tonnes (mt) of coal production. Currently, we are producing 34 lakh tonnes daily and it will further ramp up in March. I am hopeful that we will touch 1 bt. In terms of dispatch, the cumulative is 865.30 mt. So, we are aiming for 1 bt of both production and dispatch."

DISPATCH UP

Coal dispatch witnessed a significant boost during February 2024, reaching an

Pralhad Joshi, Coal Minister ANI

impressive 84.78 mt (provisional) compared with the 74.61 mt recorded in February 2023, a growth rate of 13.63 per cent.

Coal India Ltd's (CIL) dispatches reached 65.3 mt (provisional) in February 2024, compared with 58.28 mt in February 2023, a growth of 12.05 per cent.

The cumulative coal dispatch (April-February) has witnessed a significant increase to 882.44 mt (provisional) in FY24 compared with 794.41 mt during the corresponding period in FY23, a growth of 11.08 per cent.

On March 22, the world's second largest coal consumer surpassed the milestone of producing one billion tonnes of coal and lignite. The world's second largest producer, after China, has also launched an integrated coal logistics plan to cater to the requirements of the coal sector for peak production up to 2047.

NON-FOOD CREDIT UP 16.5% Bank Loans to Industry and Services Grow, Retail Lags in Feb

Our Bureau
Mumbai: Bank lending rose by 16.5% in February, with loans to industry and services accelerating at a faster pace while retail loan growth moderated as the regulator included data from the Reserve Bank of India show.

Lending rates in February fell from January but were higher last year.

On a year-on-year basis, non-food bank credit rose 16.5% in February compared with 15.9% the same month last year, according to the latest data on sectoral deployment of bank credit released by the central bank.

Retail loan growth moderated to 18.1% (year-on-year) in February compared to 20.4% a year ago due to decelerated growth in vehicle loans and other personal loans.

Credit to the services sector grew by 21.2% YoY compared to 20.5% a year ago. Among major contributors to growth were 'trade' and commercial real estate, while loans to NBFCs decelerated compared to February 2023.

Credit to industry grew by 8.6% YoY compared with 6.8% in February 2023. Credit growth in agriculture and allied activities rose 20.1% YoY against 15% a year ago.

The weighted average lending rate (WALR) on fresh rupee loans stood at 8.1% in February from 8.4% in January but higher than 9.24% in February 2023. The WALR on outstanding rupee loans was at 9.83% in February from 9.85% in January but higher than the 9.8% in February 2023.

The share of External Benchmark-based Lending Rate (EBLR)-linked loans in total outstanding rupee loans to rupee loans was 56.2% at the end of December 2023 up from 53.3% as of end-September, while that of NBFC-linked loans was 39.4% from 41.9% by similar comparison.

The weighted average domestic term deposit rate on fresh rupee term deposits increased sequentially to 6.41% in February from 6.3% in January.

The weighted average domestic term deposit rate (WALTDTR) on outstanding rupee term deposits stood at 6.85% in February as against 6.84% in January.

Public Shareholders Clear ICICI Securities' Delisting

Our Bureau
Mumbai: ICICI Bank's contentious bid to delist ICICI Securities (Sec) has been cleared by the banking arm's public shareholders.

In the voting process that ended on March 27, investors holding 71.26% of the shares favoured the proposal, while those owning 28.11% voted against it, paving the way for ICICI Securities' delisting from the bourses.

Shareholders of the broking firm will receive 97 shares of ICICI Bank for every 100 shares held. According to the stock exchange filings by the company on Thursday, 84% of institutional investors supported the scheme, while 68% of non-institutional investors opposed it. Asaf Durrani, 28,262, ICICI Bank held a 74.7% stake in the company while foreign portfolio investors (FPIs) and domestic investors (DIs) held 10.33% and 6.35% stake, respectively.

On Thursday, ICICI Securities' shareholders by a close of 72% ICICI Bank shares gained 1% to close at ₹186. The delisting bid had been opposed by a section of the minority shareholders, who were unhappy about the share swap ratio offered by ICICI Bank for the merger. Earlier this week, the private lender faced criticism from investors pushing minority shareholders to support the delisting proposal. Shareholders of ICICI Securities claimed on social media that the bank executives contacted them directly, urging them to vote in favour of the resolution.

In response to a query from stock exchanges to ICICI Bank seeking clarification on the matter, the lender said, "ICICI Bank and ICICI Securities have been undertaking efforts to reach out to equity shareholders with a view to

'WITHDRAWAL OF ACCOMMODATION' stance to continue until hikes reflected system-wide: Analysts Rate hikes Not Fully Transmitted, RBI may Hold Repo in April Meet

Mumbai: The Reserve Bank of India (RBI) is likely to stick to the withdrawal of accommodation policy stance, stating that less than half of the 350-basis-point cumulative increase in rates in the current cycle of rate hardening was transmitted to outstanding bank loans. Transmission could be a key monitorable for the central bank before it decides to change its stance, which, in turn, is a precursor to rate reduction.

One basis point is 0.01 percentage point.

Bank of America (BOA) economist Anshu Choudhary said, "Although the pace and extent of monetary transmission to lending and deposit rates have improved after the introduction of the external benchmark-linked rate (EBLR) mechanism, it is still lagging behind the RBI hikes."

Indeed, RBI data show that against the 250bps hike in repo rate between May 2022 and February 2023, banks have only passed on 194 bps (78%) in fresh rupee loans and 188 bps (67%) in the one-year median marginal cost of funds-based lending rate (MCLR) and just 113 basis points (44%) on total outstanding loans in the banking sector.

"There is room for it [transmission] to rise further. RBI reserves to stay put to its current stance and rate can arguably hasten the transmission process. Accordingly, we see the RBI retain their stance as withdrawal of accommodation and stay put on policy rate in the upcoming April 5 policy," Gudwani said.

In the latest review in February, RBI Governor Shikhar Dasa said that the central bank's stance of withdrawal of accommodation should be seen in the context of incomplete transmission together with inflation being above the target of 4%. The Monetary Policy Committee remains focused on the withdrawal of accommodation to ensure fuller transmission, Das said.

India's consumer price inflation was little changed at 5.09% in February.

Partial Pass-Through

Of the RBI's 250 bps repo hike between May 2022 and February 2023:

- 78% passed on to fresh rupee loans
- 67% on one-year MCLR
- 44% on total outstanding loans in banking sector

bruary though still above the RBI target of 4% as food prices remained elevated.

How the liquidity scenario pans out will also be an important factor in determining how soon transmission happens.

"Liquidity is an important tool. We may see liquidity conditions improve in the first quarter due to factors like election spending and also seasonality like lower corporate funding. Generally, transmission is never 100% and it happens with a lag. So how RBI moves will be determined by how controllable they are by the level of transmission," said Madhavi Arora, economist at research firm Financial Research Associates.

Liquidity conditions have improved in the last three months due to higher government spending, the RBI's dollar purchases in the currency market which has infused rupee, and the central bank stepping up lending through the variable repo window.

Any such easing in liquidity conditions could also have an impact on deposit rates as banks compete to match their credit growth.

ROUTE EXPANSION and domestic travel demand improving further along with more planes in its fleet airborne put co in a sweet spot IndiGo Set to Cover More of the Globe Giving Wings to its Yields

Mumbai: IndiGo, the country's largest airline with a market share of 60%, chalked out plans for future growth while allaying concerns over the grounding of aircraft. At present, the airline has grounded 75 aircraft due to issues related to the functioning of engines.

The airline is working on resolving these issues and expects the number of grounded planes to fall over the next year. To improve revenue growth, IndiGo plans to go to a high-altitude, operational routes through code-share agreements and direct connections to global destinations. International routes, which are key elements measured as revenue per kilo-meter per paid passenger than domestic routes. In the December 2023 quarter, the airline's overall yield increased by 2% year-on-year to ₹5. The yield is likely to improve further in the March and June 2024 quarters.

Its total capacity, IndiGo plans to increase its share in international routes from 27% by FY24 from 23% in FY23. Rising demand on metro and non-metro routes is another factor that augurs well for

Lower Govt Borrowing in H1 to Cool Bond Yields

From ET Markets Page 1
The indicative market borrowing calendar released by the Reserve Bank of India shows that in the three-to-five-year maturity band, the Centre will sell bonds worth ₹1.02 lakh crore in April-September, much lower than ₹1.80 lakh crore a year ago.

An easing of banks' cash shortfall also warrants a decline in yields on shorter term government securities, which are generally sensitive to liquidity conditions.

Price action in bond markets Thursday, the last trading day in FY24, reflects the optimism on such securities, with yields on three-year and five-year bonds registering a larger decline than that on the 10-year bond.

Yield on the three-year government bond declined 3 basis points on Thursday, while that on the 10-year bond fell four basis points. Meanwhile, the 10-year bond yield eased one basis point to 7.08%.

Day Trading Guide

Kotak Securities
Technically, on daily and intraday charts, the market is holding higher bottom formation and on weekly charts, it has formed long bull candle which is largely positive. From positional point of view, 20-day SMA (Simple Moving Average) of 27,150/73,100 would be the trend decide line. As long as market is trading above the same, the bullish formation is intact. On the higher side, the index could find the resistance near 22,500/74,200-74,600. However, below 20-day SMA or 22,150/73,100 the texture could change. Below which the index could slip to 50-day SMA or 22,000/72,500-72,400.
