# Yes Bank transfers \$5.81 billion worth bad loans to JC Flowers

REUTERS Bengaluru, December 19

**PRIVATE LENDER YES** Bank said on Monday that it has completed the transfer of bad loans worth \$5.81 billion (₹48,000 crore) to private equity firm JC Flowers, in a deal aimed at cleaning up its balance sheet.

The deal, the largest sale of bad loans in the country's banking sector yet, comes more than two years after the Reserve Bank stepped in to take control of the lender after a dramatic rise in toxic assets alarmed investors and depositors.

The lender's stock has shown signs of a recovery after being driven down sharply over the last two years, although it remains a fraction of its 2018 peak of ₹404.

It is up about 56% so far this year, last trading at ₹21.4.

"This transaction would further strengthen our balance sheet, allowing the bank to focus fully on growth and profitability as future strategic objectives," Yes Bank chief executive Prashant Kumar said in a statement.

Yes Bank's gross bad loan ratio edged down to 12.89%

at the end of the September quarter from 13.45% at the end of June. The number had risen to 18.87% as of December 2019.

Last week, the lender also concluded allotting shares and share warrants worth \$1.1 billion to private equity firms Carlyle and Advent International, in its bid to boost its capital and fund growth.

Yes Bank CEO said in August the lender was looking to increase its loan book by 15% in the fiscal year ending March 2023 as it sharpens its focus on mortgages, vehicle loans and small and mid-sized business loans.

# Icra upgrades outlook on banks to positive

PRESS TRUST OF INDIA Mumbai, December 19

**DOMESTIC RATING AGENCY** Icra on Monday revised its banking sector outlook to 'positive' on healthy asset growth, improving asset quality and stronger capital buffers.

The agency expects asset quality to improve to a decadal best of 4% from a gross non-performing assets (NPAs) perspective by the end of FY24.

The banking system's credit growth will slow down to 11-11.6% in FY24, after a very healthy growth of 15.2-16.1% expected in FY23, the rating agency said.

A bulk of the credit growth story will be led by state-owned lenders which are in far better shape now having

recognised and provided for loan losses and also after some capital infusions, it said, adding that the market share gains for private sector lenders will slow down.

Public sector lenders will witness a credit growth of

13.4-14.1% in FY23 and 9.5-10.1% in FY24, the agency estimated, adding that the same for private sector banks will be 14.5-15.5% and 12.6-13.5%.

From an asset quality perspective, the system's GNPA (Gross Non-Performing Assets) will come down to 4% and net NPAs will be under 1%, the agency's vice president Aashay Choksey told reporters.

The system's GNPA were at 6% in FY22, while the net NPAs were at 1.7%.

The state-owned banks' net NPAs will come down to 1.3-1.6% by FY24-end, while the same for private sector lenders will be 0.8-0.9%, it said.

The restructured assets will be under 1% by FY24, Choksey said. Even as asset growth is happening at a

faster pace, the agency is also more sanguine about the asset quality prospects

given the granularity in the stressed assets and the dud assets not masked as restructured assets, its executives said. On the capital adequacy front, the agency said, there will not be any significant fund infusion need to attain a 10-12% asset growth in FY24.

# Sebi proposes steps to boost investor grievance redressal mechanism

PRESS TRUST OF INDIA New Delhi, December 19

**CAPITAL MARKETS REGULATOR** Sebi on Monday proposed ways to strengthen the existing complaint redressal process in the securities market by making use of online dispute resolution mechanisms.

In its consultation paper, the regulator has suggested measures to deepen the existing Market Infrastructure Institution or MII-administered mediation and arbitration mechanism by making these processes more accessible and effective.

MIIs are stock and commodities exchanges and depositories.

Further, Sebi said these processes should be conducted online on an end-to-end basis using the capacity, technology, and other assistance of online dispute resolution institutions and proposed to modify the existing processes for the benefit of the investor.

The proposed modifications in the existing MII-administered mediation and arbitration mechanism include re-labelling the IGRC (Investor Grievance Redressal Committee) process, providing for a sole mediator or arbitrator irrespective of the amount of the dispute, and abolishing appellate arbitration system.

One of the suggestions is to extend the MII-administered mediation and arbitration mechanism for resolution of investor grievances against all specified securities market intermediaries.

This will make the grievance redressal processes more simplified, streamlined and efficient for the investors.

The Securities and Exchange Board of India (Sebi)

has sought comments from the public on the proposals till January 9.

Sebi has proposed that the IGRC be re-labelled as a panel of mediators. When matters arise, a sole mediator should be appointed for conducting online mediation or conciliation process. Such a process is expected to be concluded within 21 days or three weeks (currently 15 working days) from the notification of the mediator.

If the consensual resolution is not arrived at within the given period, then the matter should be referred to online arbitration at the request of a disputing party, as per the consultation paper.

To reduce the costs for the parties concerned, it has been proposed that all matters, irrespective of the amount of claim, should be dealt with by a sole arbitrator, and accordingly, the requirement of a panel of arbitrators will be discontinued.

The regulator has also proposed doing away with the appellate arbitration system. This is aimed to provide finality to the award by an arbitrator, end the two-tiered arbitration process, reduce the costs for the parties, eliminate the coordination issues in forming a panel and enable availability of a higher number of arbitrators for resolution of matters.
