Kedaara set to raise \$1.7 bn for India's biggest PE fund

Reuters
feedback@livemint.com
MUMBAI

Kedaara Capital is set to raise \$1.7 billion for what would be India's biggest-ever private equity fund, two people with direct knowledge of the matter said, highlighting huge interest in the country's fast-growing economy amid a shift away from China.

The latest fund will be Kedaara's fourth and will be 54% larger than its previous one in 2021.

The plans come as India's stock markets are trading at record highs. While there have only been a handful of significant India-specific PE funds to date, they are growing in size. Kedaara, founded in 2011 by former Temasek and General Atlantic executives, is one of India's best-known buyout funds.

About 80% of the fund will come from backers of Kedaara's previous funds and 20% will come from new ones that include US-based Cleveland Clinic and the University of Minnesota, the persons said. They declined to be identified as the discussions were private.

Kedaara declined to comment. Cleveland Clinic and the University of Minnesota did not respond to queries seeking comment.

The fund will likely invest in sectors such as banking, healthcare, consumer and software and it will seek both minority stakes and buyout deals, the persons said.

Kedaara plans to announce the fund by the end of March and is currently finalizing doc-

The fund will be Kedaara's fourth and 54% larger than its previous one in 2021. ISTOCKPHOTO

umentation with its investors, they added.

According to one of the persons, investors were interested in committing more than \$2 billion to the new fund, but Kedaara decided to cap it at about \$1.7 billion so as not to strain their ability to deploy.

Investors in Kedaara's previous funds include Canada's Ontario Teachers Pension Plan and German insurer Allianz,

The fund will likely invest in sectors such as banking, healthcare, consumer and software

Pitchbook data shows.

India has been benefiting from increased interest as Western firms look to diversify away from China amid heightened trade and economic tensions

between Washington and Beijing.

Last year, India's share of Asia-Pacific private equity deals grew to 23% while China's fell to a nine-year low of 31%, consultancy firm Bain said in a report.

Kedaara's three previous funds raised a combined \$2.4 billion between 2011 and 2021 which was invested in 27 Indian companies.

Delays drop at Mumbai airport

Just 4% of arrivals were delayed over 30 minutes during 16-24 Feb compared with 26% plus during 11 Nov-10 Dec

Anu Sharma
anu.sharma@livemint.com
NEW DELHI

The Mumbai airport saw fewer delays in flight arrivals following recent measures to resolve congestion and delays, bringing relief to thousands of travellers transiting India's second-busiest airport daily.

Just 4% of arrivals were delayed over 30 minutes in the 16-24 February period compared with more than 26% during 11 November-10 December, the aviation ministry said. Similarly, 57% flights arrived with a delay of 0-15 minutes and 26% with a delay of 15-30 minutes in the February stretch, against 25% and 14% in November-December.

Earlier this month, the ministry curbed the number of flights at the Adani group operated airport and criticized it for not taking proactive measures to ease congestion.

"The combination of aircraft grounding and restriction of flights at Mumbai will have an impact on air-

Flight curbs at Mumbai airport could impact airfares, mainly in the summer. MINT

fares, particularly in summer when demand peaks as people travel with families because of school holidays. Airfares are definitely going to rise. All in all, it will lead to increase in cost of travel," Ajay Prakash, board member, Federation of Associations in Indian Tourism and Hospitality and president of Travel Agents Federa-

tion of India said.

The data, which covered 14,476 aircraft arrivals between 11 November and 10 December, and 4,337 arrivals in the February period, also showed that before-schedule arrivals have also been reduced to 13% of flights as compared to 34.4% earlier.

"Aircraft operating earlier than the

approved slot (marked as before-schedule in the data) lead to congestion and delay other aircraft adhering to the schedule, which, in turn, will have a cascading effect on other schedule movements. These movements were also targeted for improvements and airlines asked to adhere to the allotted slots," the ministry said.

As per an analysis by the Airports Authority of India (AAI), air traffic allowed per hour in Mumbai during the six hours of high intensity runway operations (Hiro), from 8 am to 11 am and 5 pm to 8 pm) was nearly the same as during the other 18 hours of the day, with unrestricted operations for general aviation and military aircraft. This, coupled with the operation of non-scheduled flights, worsens congestion during peak hours.

The ministry capped air traffic movements during Hiro from 46 to 44 flights per hour, and outside Hiro

from 44 to 42 flights per hour, apart from curbs on general aviation during Hiro. The ministry said it is closely monitoring the air traffic situation at Mumbai.

However, fares continue to remain elevated due to curtailed capacity. According to Gaurav Patwari, vice president, air category, Cleartrip, fares have gone up 7% since the curbs were introduced.

The congestion at the Mumbai airport was forcing flights to hover for 40-60 minutes, significantly wasting fuel—costing about ₹1.8 lakh for a 40-minute circling time to ₹2.6 lakh for 60 minutes. This not only raised airfares but also affected airport operations, resulting in delays. The ministry had also observed that the snarl was due to excessive slot allocation by the airport operator for landing and departure with short intervals, airlines not adhering to their slots, and unscheduled flights during peak hours.

Two in five fliers face delays or lose baggage: LocalCircles survey

Anu Sharma
anu.sharma@livemint.com
NEW DELHI

A recent survey by LocalCircles has found that two out of five fliers have been delayed or lost luggage in the last two years. The study received over 41,000 responses from fliers in 303 districts.

This included 41% respondents from tier-I locations, 30% from tier-II locations and 29% from tier-III, tier-IV, and rural locations.

The percentage of fliers who

The percentage of fliers who had an airline damage their bags rose from 35% to 50% in the last 12 months, the survey found. ISTOCKPHOTO

had an airline damage their bags rose from 35% to 50% in the last 12 months, according to the survey.

In the case of those who have had their luggage damaged four or more times, the percentage has increased

from 5% to 7%; while those who have faced this situation at least once has jumped from 5% in 2022 to 24% in 2024.

However, the survey has also noted improved response from airlines to customer complaints.

Airline customer service and responsiveness to baggage complaints improved in the last two years with only 24% rating it as poor or worse as opposed to 50% in 2022, according to the survey.

Recently, the Bureau of Civil Aviation Security (BCAS)

had also directed all major Indian airlines to increase their manpower to streamline and improve baggage delivery at airports before 26 February, or they could face regulatory action. The move followed several complaints from unhappy passengers on social media and other platforms.

The annual *Baggage IT Insights* report by airport technology company SITA states

that globally baggage systems and baggage teams handle more than 4.8 billion bags every year. In 2022, the global rate for mishandled baggage jumped to 7.6 bags per thousand passengers, up 75% from the much quieter 2021.

These numbers are expected to double by 2036, according to the International Air Transport Association.

The survey has also noted an improvement in response from airlines to customer complaints
