BAI protests unethical practices in cement, steel industries

Chennai, Feb 13: Hit badly by the cartelling and unnatural price hike by cement and steel manufacturers, the stakeholders in construction, building industry represented by Builders Association of India (BAI) staged nationwide dharna and one day strike on Friday, February 12, 2021 to attract the attention of the government authorities towards the menace.

The BAI is raising the demand of immediate appointment of a regulatory authority in cement and steel industry to curb the ill and unethical practices which ultimately hamper the common man.

All the stakeholders from construction, real estate sectors participated in the strike and dharna amid huge response across the country. CREDAI and similar local organisations representing real estate

and construction sectors have also been appealed to jointly participate in the protest.

"We have time and again requested the government to appoint a high-level enquiry on the reasons of abnormal cement price hike when there is neither any corresponding demand from the construction industry nor any substantial rise in input cost. It also needs to

probe with a view to have a long-term solution to the unethical practices being followed by cement manufacturers. A quick and prompt action by the Government in the matter will not only save the employment of around 60 million construction workers, but also save the construction sector, which includes affordable housing, from potential shutdown," said Mr. Mu.Moahan, President, Builders Association of India.
