c. Dividend @ 8% per Unlisted 8% Cumulative Redeemable Preference Shares on paid-up value of shares for the financial year ended March 31, 2022.

In this regard, members may take note of the notes/information provided below:

❖ **Closure of Register of Members/Share Transfer Books:** Pursuant to the provisions of section 91 of the Act and regulation 42 of the Listing Regulations, the register of members and share transfer books of the Company will remain closed from July 30, 2022 to August 10, 2022 (both days inclusive) for the purpose of payment of dividend.

❖ **Record date for dividend:** Record date for determining eligible members for payments of aforesaid dividend (equity and 8% CRPS) is Friday, July 29, 2022 (end of day)

❖ **Credit of Dividend:** Subject to the provisions of section 126 of the Act, dividend on equity shares, if declared at the AGM, will be credited/dispatched on Wednesday, August 17, 2022 and/or Thursday, August 18, 2022 as under:

a) to all those shareholders holding shares in physical form, as per the details provided by share transfer agent of the Company i.e. KFintech to the Company, as of or before the closing hours on July 29, 2022; and

b) to all those beneficial owners holding shares in electronic form, as per the beneficial ownership data made available to the Company by National Securities Depository Ltd. (NSDL) and the Central Depository Services (India) Ltd. (CDSL) as of the close of business hours on July 29, 2022.

- **Tax Deduction at Source ('TDS') : The Finance Act, 2020 has abolished the Dividend Distribution Tax ('DDT') and has introduced the system of dividend taxation in the hands of the shareholders with effect from 1 April 2020. Accordingly, the Company would be required to deduct Tax at Source ('TDS') in respect of approved payment of dividend to its shareholders (resident as well as non-resident).**

Resident Shareholders:

Tax shall be deducted at source under section 194 of the Income Tax Act, 1961 ('IT Act') at the rate of 10% on the amount of dividend declared and paid by the Company during FY 2022-23. However, in the following cases, TDS at the rate of 20% would be applicable as per the IT Act:

a. Section 206AA of IT Act -- In case where, PAN is not available/submitted, or PAN submitted is invalid.

b. Section 206AB of IT Act-- In case of 'specified person'.

  - Specified person means a taxpayer who has not filed income tax return of previous year (i.e. FY 2020-21) where aggregate of TDS and TCS in said previous year is ₹ 50,000 or more;
  - As per Notification No. 01 of 2022 dated June 9, 2022, issued by Central Board of Direct Taxes, in order to check the status of a shareholder as 'specified person', the Company would rely on the details available on the online functionality of the Income tax Department and shall accordingly determine the applicable TDS rate. The Company shall not rely on any declaration in relation to non-applicability of provisions of section 206AB of the IT Act.

Further, no tax shall be deducted at source on the dividend payable to a resident individual if the total dividend to be received by the said resident individual from the Company during the financial year does not exceed ₹ 5,000.

Tax will not be deducted at source in cases where a shareholder provides Form 15G (where applicable)/Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are met.

NIL/lower tax shall be deducted on the dividend payable to resident shareholders on submission of relevant documents. Kindly note that the aforementioned documents should be uploaded with KFintech at https://ris.kfintech.com/form15. No communication on tax determination/deduction shall be entertained after **July 29, 2022.**

The documents submitted by you will be verified by us and we will consider the same while deducting the appropriate taxes, if any, provided that these documents are in accordance with the provisions of IT Act.

Non-resident Shareholders:

Tax is required to be deducted at source in the case of non-resident shareholders in accordance with the provisions of section 195 of the IT Act at the rates in force. As per the relevant provisions of the IT Act, the TDS on dividend shall be lower of 20% or applicable rate under the Double Tax Avoidance Agreement ('DTAA') plus applicable surcharge and health and education cess on the amount of dividend payable to the non-resident shareholders. For FII/FPI shareholders, section 196D provides for TDS lower of 20% or applicable rate under the DTAA plus applicable surcharge and health & education cess.

However, as per section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the DTAA read with applicable Multilateral Instrument ('MLI') provisions, as may be applicable, if they are more beneficial to them.

In order to claim the benefit of the DTAA, non-resident shareholders will have to provide required documents/declarations. Kindly note that the said documents should be uploaded with KFintech at https://ris.kfintech.com/form15.

No communication on the tax determination/deduction shall be entertained after July 29, 2022. The above referred documents submitted by you will be verified by us and we will consider the same while deducting the appropriate taxes, if any, provided that these documents are in accordance with the provisions of the IT Act.

Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review of the documents by the Company which should meet the requirement of the IT Act read with applicable DTAA. In absence of the same, the Company will not be obligated to apply the beneficial DTAA rate at the time of tax deduction on dividend.

In addition to the above, please note the following:

- ❖ In case you hold shares under multiple accounts under different status/category but under a single PAN, the highest rate of tax as applicable to the status in which shares held under the said PAN will be considered on the entire holding in different accounts.
- ❖ In case of joint shareholding, the withholding tax rates shall be considered basis the status of the primary beneficial shareholder.
- ❖ Further, if a resident/non-resident shareholder has obtained a lower or Nil withholding tax certificate from the tax authorities and provides a copy of the same to the Company (TAN - MUMM29367C), tax shall be deducted on the dividend payable to such shareholder at the rate specified in the said certificate.

It may be further noted that in case tax on dividend is deducted at a higher rate (due to absence of receipt of any of the details/valid documents), the shareholders may consider claiming appropriate refund, as may be eligible in their return of income. No claim shall lie against the Company for such taxes deducted.

The Company shall arrange to email the soft copy of the TDS certificate to shareholders at the registered email ID within the prescribed time limit, post payment of the said dividend (if approved in the AGM). The tax credit can also be viewed in Form 26AS by logging in with your credentials (with valid PAN) on the e-filing website of the Income Tax department of India https://www.incometax.gov.in/home

In the event of any income tax demand (including interest, penalty, etc.) arising from any misrepresentation, inaccuracy or omission of information provided by the Shareholder(s), such Shareholder(s) will be responsible to indemnify the Company and also, provide the Company with all information/documents and co-operate in any assessment/appellate proceedings before the Tax/ Government authorities.

The Board recommends the Ordinary Resolution at Item no. 8 of the notice for approval by the members.

Item No. 9

Section 42 of the Companies Act, 2013 deals with private placement of securities by a company. Sub-rule (2) of the Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 states that in case of an offer or invitation to subscribe for Non-Convertible Debentures (NCDs) on private placement, the company shall obtain previous approval of its members by means of a special resolution only once in a year for all the offers or invitations for such debentures during the year. In order to augment long term resources for financing, *inter alia*, the ongoing capital expenditure and for general corporate purposes, the Company may offer or invite subscription for secured / unsecured NCDs in one more series or tranches.

Accordingly, in supersession of earlier resolution passed in this regard by the members at Company's 83rd AGM held on September 18, 2021, general consent of the members is being sought for passing a Special resolution as set out at Item no. 9 of the Notice for issue of secured/unsecured redeemable NCDs on a private placement basis, from time to time, for a year from the date of passing of this resolution, in one more series or tranches. The NCDs would be issued for cash either at par or premium or at a discount to face value depending upon the prevailing market conditions. This Resolution enables the Board of Directors of the Company to offer or invite subscription for non-convertible debentures, as may be required by the Company, from time to time for a year from the conclusion of this Annual General Meeting.

None of the Directors or Key Managerial Personnel of the Company or their relatives is, in any way, concerned or interested, financially or otherwise, in the aforesaid Resolution.

The Board recommends the Special Resolution at Item no. 9 of the notice for approval by the members.

Directors' Report

1. The Directors of the Company place on record the deep sense of grief over the passing away of Company's former Chairman Shri Rahul Bajaj on February 12, 2022. He was on the Board of your Company as a Director from 1976 to 2010. He also acted and functioned in an exemplary way as Chairman of the Committee of the Board constituted for the convenience of transacting the day-to-day business and affairs of the Company at the time of absence of the then Chairman & Managing Director, Shri Viren J. Shah during the years 1976 / 1977. He was elevated on the Board of Directors as 'Vice Chairman' in the year 1994. He was the Chairman of your Company's Board from December 1, 1999 to July 14, 2007. During this period, the steel industry was passing through recession and Company's performance reflected down-turn. It operated under severe financial constraints. However, under his leadership, the Company sailed through these difficult times and improved its performance. It was under his Chairmanship that we commissioned the Hospet plant and received the TPM award for our two divisions, Steel plant and Industrial Machinery, at Dighe, Thane.

   Shri Rahul Bajaj pioneered the Bajaj Group of Companies which manufacture and market a range of products and services in India and abroad including two & three-wheelers, home appliances, lamps, wind energy, special alloy and stainless steel, cranes, material handling equipment, travel, general and life insurance and investment & financial services. He was one of the longest serving Chairman in Corporate India.

   Shri Bajaj has received numerous prestigious awards and recognitions from reputed authorities and bodies, notable ones being the 'Padma Bhushan' in 2001 from the Government of India, Alumni Achievement Award by the Harvard Business School and Lifetime Achievement Awards from the Economic Times and Ernst & Young. He was appointed Chairman (1986-89) of the Government owned domestic carrier, Indian Airlines. He was nominated by the President of India as the Chairman of the Board of Governors of the Indian Institute of Technology, Mumbai during 2003-06.

   Shri Bajaj was the President of: Confederation of Indian Industry (CII–1979-80 / 1999-2000), Society of Indian Automobile Manufacturers (SIAM), Maharashra Chamber of Commerce, Industry and Agriculture (MCCIA), and Chairman of the Development Council for Automobiles and Allied Industries for forcefully articulating and presenting the issues concerning the nation / industry. As an active participant in our democracy, he served as a member of Rajya Sabha from 2006-2010. He was a member of the Executive Board of Indian School of Business and a director on the Board of Commonwealth Business Council.

   On the international front, Shri Bajaj was a member & former Chairman of the International Business Council of the World Economic Forum, Geneva and a Member of Harvard Business School's (India) Research Centre & India Advisory Board and the International Advisory Committee of NYSE Euronext.

   Shri Rahul Bajaj, as head of the Bajaj Group, was a father figure, guide and teacher to Bajaj family members. He is recognized as one of the most successful business leaders of Independent India. He ensured that the legacy of family's forefathers, which was service to the nation through hard work and honesty, continued. Just as he guided us for these many years, his values and legacy will continue to guide us for many more years to come.

2. With effect from October 1, 2021, two of our respected directors, Shri Rajesh Shah and Shri Suketu Shah expressed their desire to retire from their positions in the Company as Co-Chairman and Managing Director and Joint Managing Director respectively.

   You are all very much aware that Mukand has been jointly owned and jointly managed by the Bajaj and Shah families for over 80 years. The business association built on mutual respect and friendship has continued for three generations and we are sure that the friendship will go on for many more generations. This mutual decision of their retirement from the Company is a loss to the Board as the journey together was for nearly four decades sharing the same sorrows and joys, disappointments and accolades.

   The Board puts on record their exemplary contribution to the Company. The Board thanks Shri Rajesh Shah and Shri Suketu Shah for their guidance and leadership over the years.

3. The Directors present the 84th Annual Report along with the Audited Financial Statements of the Company for the year ended March 31, 2022. The amendments to Schedule-III to the Companies Act, 2013 which are effective from April 1, 2021 as to the format of the Financial Statements and enhanced disclosures therein have been complied with. These amendments are in relation to the better Corporate Governance, Financial Discipline / Solvency, Early signals etc.

The Profit After Tax for the year under report stood at Rs. 122.12 crore as against Rs. 46.00 crore in the previous year. The net debt equity ratio of the Company as on March 31, 2022 stood at 1.72.

FY 22 marked an increase of 31% in the total steel production of your Company as against the previous year. The Steel Division revenue increased by 38%. Revenue from the Industrial Machinery division stood at Rs. 100.34 crore as against Rs. 26.52 crore of the previous year.

This achievement is despite the fact that the production in Thane and Hospet facilities were severely affected in the beginning of FY 22, due to lack of oxygen supply during the second wave of Covid-19 when the country was forced to divert oxygen supplies from industries to hospitals to save lives.

The World

April 2021 began on a positive note as demand in global markets recovered to pre-pandemic levels amidst hope that the Covid vaccines would contain the Pandemic. The world however continued to be affected by new variants of Covid 19 and towards the end of FY 2022, plunged into another calamity caused by the war between Russia and Ukraine. The economic, emotional, physical and humanitarian devastation resulting from these events are expected to prolong the healing.

The International Monetary Fund (IMF) predicts inflation, disruption in commodity markets, trade, financial linkages, to be on the rise in the coming years. There is an urgent need for rebalancing of global supply chains, introduction of government incentives and other measures to accelerate growth across the world. According to IMF, the Global growth is expected to moderate from 5.9% in the calendar year 2021 to 4.4% in the calendar year 2022.

The Country

The Asian Development Bank (ADB) forecasts that India's GDP growth will moderate to 7.5% in 2022-23 from an estimated 8.9% in 2021-22, but will pick up to reach 8% in 2023-24. The year ahead is poised for a pickup in private sector investments with the financial system in good position to provide support for economic revival.

Macroeconomic stability indicators suggest that the Indian Economy is well placed to take on the challenges of 2022-23. Combination of high foreign exchange reserves, sustained foreign direct investment, and rising export earnings will provide adequate buffer against possible global liquidity tapering in 2022-23.

Our Markets

World steel forecasts steel demand to grow by 0.4% in the calendar year 2022. Steel production in India stood at 120 million tons in FY 22 and is expected to rise in the year in progress. While domestic consumption of steel is likely to go up by 7-8% in FY 23, it is expected that 20% of the steel produced will be exported from the current 17-18%.

The bulk of the alloy steel produced by your Company continues to feed into the automobile markets which had shown positive signs at the beginning of FY 22. However, continued disruption in the supply of semi conductor chips required for the manufacture of automobiles, increasing fuel prices and the economic distress caused by the pandemic has had a negative effect on the automobile markets towards the middle and later half of year under report.

The global stainless steel market is expected to grow steadily at 5-8% per annum. The stainless steel produced by your Company is mainly exported either directly or indirectly. These markets had shown signs of brisk recovery in the beginning of FY22, but the war in Ukraine has slowed down the recovery.

The early part of FY 22, witnessed a small spurt of activity in the infrastructure business in India. However, the second wave of Covid 19, which affected India severely and for a longer duration, negatively impacted the manufacturing sector more severely than expected. The scarcity of oxygen for industrial usage slowed down most manufacturing process across the country.

The Company

Steel Division

The steel makers of Mukand are perhaps the most experienced in the country. Together with the inhouse R&D team, the Company has developed and produced some of the most difficult grades of steel that were hitherto imported.

The Company recorded a 31% increase in the total production of steel billets and blooms. The Company has successfully shifted more than 80% of its alloy steel rolling to the Hospet plant thereby freeing up capacity in the Thane plant for the manufacture of stainless steel. This has enabled the Company to increase its stainless steel output by 47.06%.

Over the years, your Company has been in the forefront of developing steel grades that are most complicated and difficult to produce and were imported from countries that have access to more advanced steel technologies. 12% of the sales of alloy steel came from such products manufactured by your Company.

In the year under report, your Company developed micro alloyed steel with high vanadium for connecting rod applications and boron micro alloyed steel with specific end quenched hardenability used for crank pins. The Company also developed ASTM A 350 LF 2 and LF 6 alloy steel grades in heavy rounds developed for flanges used in the Oil and Gas industries. The stainless steel division developed martensitic stainless steel grade 410L with low Carbon for ribbed bars used in the construction industry. The division also developed high copper special austenitic stainless steel for the fastener industry. These developments have opened up new markets for the division.

Energy conservation activities have always been a part of the DNA of your Company. The Company constantly adapts technology that is more energy efficient. The steel melt shop in Hospet continues to utilise 100% of the waste gases from the Mini Blast Furnaces to generate energy. The waste heat recovered from the Thane plant is utilized for heating feed water and oil in the boiler furnace.

During the year under report, the Company replaced its Vaccum Oxygen Decarburising vessel that was installed in the year 1988 with a new one. The Company also replaced the 132 kv transmission tower. The Company will continue to invest in new technology to conserve energy and save costs.

The steel division successfully completed the recertification for IATF 16949:2016 and ISO 9001 :20015. Surveillance audits were completed for ISO 14001: 2015, ISO 50001 : 2018, AD 2000 and PED 2014/68/ EU. BIS licenses were also obtained for various steel products under the quality control order of the Ministry of Steel.

The quality circles of the Company continued to win awards in the national and international competitions held in the year under report.

The Research and Development Laboratories of your Company has been recognised by the Ministry of Science and Technology, thereby gaining exemption of customs duty for import of equipment for R&D purposes. This recognition is valid till March 31, 2024 and can be renewed if it meets the Ministry’s criteria.

Since more than 70% of the costs of steel making comes from the cost of raw materials thus volatility of these markets can make a difference in the profitability of your Company. Events such as a cyclone, lock down and war can severely affect the prices of raw materials and create panic buying which pushes the prices up even further.

FY 22 began with the international prices of iron ore lumps touching USD 210 / MT which slumped down to about USD 110 / MT by mid September 2021. However, the prices climbed up again and was at USD 180/ MT at the close for FY 22. Your Company buys iron ore mainly from mines in Karnataka through the e-auction process overseen by the Monitoring Committee appointed by Hon’ble Supreme Court. In April 2021, iron ore lumps from mines in Karnataka were priced at Rs 4,920/ MT but touched Rs 6,988 / MT in the months of May - June 2021. By the end of March 2022 the prices were at Rs 4,200/MT.

The more dramatic price increase was witnessed in the international prices of metallurgical coke which was around USD 390 / MT in April 2021. The cyclone in Australia pushed the prices to around USD 665/MT in the month of November 2021. The war in Ukraine further pushed up the prices to USD 740/ MT in the beginning of March 2022 and later moved down to USD 685/MT at the end of March 2022. Coking coal prices which was around USD 135 / MT in the beginning of the year touched USD 430/ MT in early November because of the cyclone in Australia, touched USD 703/MT as a result of the war in Ukraine. At the close of March 2022 the prices stood at USD 566/MT.

Nickel prices spiralled upwards as war broke out between Ukraine and Russia as Russia produces more than 20% of the nickel in the world. At the beginning of April 2021, Nickel prices that stood at USD 16,190/ MT which touched a high of USD 102,000/ MT in early March 2022 resulting in London Metal Exchange (LME) suspending the trading window for a week. LME re-opened trading with improved controls for trading and nickel prices were at USD 37,230/ MT at the end of March 2022.

Industrial Machinery Division

FY 2022 commenced with a reasonable order back log of Rs. 189 crore for the industrial machinery division which was severely affected in the previous year. During the year under report the division booked orders worth Rs. 179 crore.

However, partial lockdowns in various parts of the country, disruptions in the supply chain and other factors delayed the manufacturing process in your Company and some of the customers requested for delay in delivery of their orders resulting in delay in billing these customers.

The bulk of the orders of this division has been for EOT cranes and Port cranes. The division is currently exploring possibilities of expanding their portfolio and venturing into newer markets.

The Company continues to focus on furthering growth and continuing on the path that creates value for all its stake holders.

Significant changes in Key Financial Ratios as compared to the previous year

Inventory turnover ratio is at 3.47 as compared to 2.38 in the previous year due to improved demand for Company's products during the year. Debtors' Turnover Ratio has improved to 9.27 from 5.72 in the previous year on account of speedy realization. Interest coverage ratio is at 2.29 as compared to 1.56 in the previous year. The improvement in this ratio is on account of improved net profit margin and reduced interest costs. Current ratio is at 1.44 as compared to 3.76 for the previous year on account of long-term loans maturing within a year. Net debt equity ratio is at 1.72 as against 1.44 as compared to the previous year. The improvement in this ratio is on account of reduction of debt from the amounts realized from sale of shares. Operating profit margin is at 4.30% as compared to (10.14%) in the previous year, and net profit margin is at 2.57% as against 1.20% in the previous year on account of improved performance. Return on Net Worth is at 12.85% as against 5.24% in the previous year on account of monetization of assets during the year under review and better operating performance.

For computation of these ratios, the net gains on fair value of equity investments have not been considered being of non-operating nature. The operating profit margin is calculated taking all the expenses except interest costs.

Metamorphosis

Your Company has been in existence for over eight decades and has experienced waves of evolution propelled largely by technology in the fields of manufacturing, services, infrastructure, transportation, communication, etc..

The time has now come for a metamorphosis in strategy, culture and attitude. This transformation, while we continue to preserve and cherish our legacy, will add vigor to our growth and profitability and make Mukand a truly global Company.

The Company has appointed a global Human Resource Consultant to evaluate and recommend human resource related policies that are followed by the best in the world. Over consultations with current employees, the newly formed strategy department and an understanding of market trends, the Company has adopted several progressive, employee friendly policies and incentive schemes. The emphasis has been on a healthy work-life balance and is very well received by all employees. In a year from now, your Company envisages to usher in a fresh culture that appreciates and motivates all employees to take ownership of their responsibilities, be accountable for their actions that will lead to a fruitful partnership that is beneficial to all stakeholders and the community at large.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: ETHICS, TRANSPARENCY AND ACCOUNTABILITY

1. Does the policy relating to ethics, bribery and corruption cover only the company?

   Yes. These policies are reflected in the 'Code of Conduct', 'Code of Ethics' and 'Whistle Blower Policy' adopted by the Company.

2. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/Others?

   Even though these codes and policies are applicable to the directors and employees of the Company and its subsidiaries, the underlying principles are communicated to the vendors, suppliers, distributors and other key business associates of the Company.

3. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

   The details of investor complaints received from shareholders during the year have been disclosed in the Corporate Governance Report annexed to the Board's Report.

Principle 2: PRODUCTS AND SERVICES DESIGNED WITH ENVIRONMENTAL AND SOCIAL OPPORTUNITIES

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

   - First in India to install Fume extraction and dedusting system for Ultra High power furnace and converter which ensures dust and pollution free emissions from the Steel melt shop
   - Minimize the use of process water by having closed circuits throughout the plant, so that only make up water is used.
   - Water recycling plant – reuse of waste water for process (300 Cum /day).
   - Recuperators in all the reheating furnaces of mills – reuse of heat of flue gases to save energy.
   - Capacitor banks to ensure unity power factor (minimize the transmission losses in electrical system).

2. For each such product, provide the following details in respect of resource use(energy, water, raw material etc.) per unit of product (optional):

i) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

- Use of cleaner PNG as fuel in reheating furnaces to eliminate Furnace oil planned.
- Installation of secondary emission control system in Steel Melt Shop planned.
- Planned to Install Energy efficient pump for mills

ii) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

- Specific Water consumption in FY 22 maintained same as FY 21.
- Distribution reduction is not applicable, since the company is only into usage of power generation based on waste gases for self consumption.

iii) Does the company have procedures in place for sustainable sourcing(including transportation)?: Yes

If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so?

The Company depends on local mines and the authorized transport unions around their plant in Hospet for it's sourcing of the major input of iron ore. Another important input of metallurgical coke was purchased from Indian producers or imported partly based on commercial considerations. In the recent past, good quality domestic capacities of merchant cokeries are coming up. For stainless steel manufacture, the Company depends on imports, in view of very low generation of this product in India, but since the Kalwe plant is very near the Nhava Sheva port, this operation is very convenient.

iv) Has the company taken any steps to procure goods and services from local& small producers, including communities surrounding their place of work? Yes

If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company has developed a large vendor base of SMEs to provide small inputs and services located around their factories. Gardens are maintained by Communities from around the factory.

The Company provides to such vendors the necessary technical and commercial expertise, whenever needed for improvement in their capabilities. For most such vendors, the Company supplies the essential raw materials.

v) Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%,5- 10%, >10%). Also, provide details thereof, in about 50 words or so

As a part of its endeavor of contribution towards reducing environmental pollution and carbon footprints and ensuring sustainability across all operations, company focuses on various activity like,

a) 100% Metal waste recycled & reused.

b) 75% Recycled treated effluent used inside the plant and gardening purpose.

c) Water recycled.

d) Storage and Disposal Facility.

i. 100% E-waste and Bio medical waste & Battery waste send to authorized party.

ii. Waste minimization and reduction program undertaken regularly.

Principle 3: HUMAN CAPITAL

Independent Auditor's Report

To the Members of Mukand Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of **Mukand Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone Ind AS financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "standalone Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the state of affairs of the Company as at March 31, 2022, its profit (including other comprehensive income), its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone Ind AS financial statements.

Emphasis of Matter

We draw attention to the following matters in the notes to the standalone Ind AS financial statements:

1. Note 42(II) to the standalone Ind AS financial statements, which explains the management evaluation on the impact of COVID-19 pandemic situation on the operational and financial position of the Company which is further dependent upon the circumstances as they evolve in the subsequent period.
2. Note 12(b) to the standalone Ind AS financial statements, relating to exposures in Bombay Forging Limited ("BFL") aggregating Rs.16.54 crores (net of ECL Provision) as at March 31, 2022. The management, barring any significant uncertainties in future, has considered the value of unencumbered fixed assets and current assets of BFL for the balance portion of exposures in BFL.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current year. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Appropriateness of estimation of cost to complete the project

The Company generates part of its revenue from long term construction / project related activity and contracts for supply / commissioning of plant and equipment which is accounted under the percentage of completion method (POC), which is the proportion of cost of work performed to-date, to the total estimated contract costs.

Determination of revenue requires estimation of total contract costs which is done based on the actual cost incurred till date and the cost required to be incurred to complete the projects. The estimation of cost to complete involves exercise of significant judgment by the management and assessment of project data, estimates related to future costs and assumptions.

This has been considered as a key audit matter given the involvement of management judgment and any variation may have consequential impact on the revenue recognised by the Company as per percentage of completion method.

How our audit addressed the Key Audit Matter:

We have performed the following procedures among others:

a) Understood and evaluated the design and tested the operating effectiveness of controls around estimation of costs to complete the project including the review and approval of estimated project cost.

b) Verified the contracts on test check basis entered by the Company for the consideration and relevant terms and conditions relating to variations to the cost.

c) Obtained computation of estimated costs to complete the project and the percentage of project completion and verified the same against the contractual terms and the work orders placed with vendors.

d) Verified original invoices, purchase orders, receipts, etc. for the actual costs incurred upto the year end date on test check basis.

e) Discussed the status of the projects with the Company's project management team and evaluated the reasonableness of the estimates made by the management of costs to be incurred for completion of the respective projects.

f) Verified the revision in total cost of the contracts by comparing the management estimates revised during the current year with the estimate made in earlier years and obtained reasons for such revision including verification of correspondence with the vendors in case of renegotiation of prices with them and the approvals for the same.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the standalone Ind AS financial statements, consolidated Ind AS financial statements and our auditor's report thereon

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

(1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we report in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(2) As required by section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books

d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Ind AS prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;

e) On the basis of the written representations received from the directors as on March 31, 2022, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of section 164(2) of the Act;

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure 2";

g) With respect to the other matter to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/ provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act;

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 37 on Contingent Liabilities to the standalone Ind AS financial statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;

iv. a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The Management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

c) Based on the audit procedures that are considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. As stated in the standalone Ind AS financial statements:

a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in compliance with section 123 of the Act.

b) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in compliance with section 123 of the Act.

(ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) The Company did not obtain any money by way of term loans during the year. Accordingly, reporting under clause (ix)(c) of paragraph 3 of the Order is not applicable.

(d) On an overall examination of the standalone Ind AS financial statements of the Company, no funds raised on short-term basis have, been used for long-term purposes by the Company.

(e) On an overall examination of the standalone Ind AS financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures as defined under the Act.

(f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies, as defined under the Act.

(x) (a) The Company has not raised money by way of initial public issue offer / further public offer (including debt instruments) during the year. Therefore, reporting under clause (x)(a) of paragraph 3 of the Order is not applicable.

(b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. However the Company has called and received balance call of Rs. 6/- per share on 8% Cumulative Redeemable Preference Shares (CRPS) issued on private placement basis in FY 2019-20 and in our opinion, the amount called have been used for the purposes for which the funds were called.

(xi) (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company nor any fraud on the Company has been noticed or reported during the year, nor have we been informed of any such instance by the management.

(b) No report under section 143(12) of the Act has been filed with the Central Government by the auditors of the Company in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014, during the year or upto the date of this report.

(c) There are no whistle blower complaints received by the Company during the year and upto the date of this report.

(xii) In our opinion, the Company is not a Nidhi Company. Therefore, reporting under clause (xii) of paragraph 3 of the Order is not applicable.

(xiii) All transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable and the details have been disclosed in the standalone Ind AS financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the Internal Audit Reports of the Company issued till date, for the period under audit.

(xv) The Company has not entered into any non-cash transactions with its directors or persons connected with them during the year and hence, provisions of section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Therefore, reporting under clause (xvi)(a) and (b) of paragraph 3 of the Order are not applicable.

(b) The Company is not a Core Investment Company (CIC) as defined in Core Investment Companies (Reserve Bank) Directions, 2016 ("Directions") by the Reserve Bank of India. Accordingly, reporting under clause (xvi)(c) and (d) of paragraph 3 of the Order are not applicable.

(c) As informed by the Company, the Group to which the Company belongs has Seventeen (17) CIC as part of the Group (including the CICs exempt from registration and CICs not registered).

(xvii) The Company has not incurred cash losses in the current and the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year and accordingly, reporting under clause (xviii) of paragraph 3 of the Order is not applicable.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone Ind AS financial statements and our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which cause us to believe that any material uncertainty exists as on the date of this audit report and that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The provisions of section 135 of the Act are not applicable to the Company. Hence, reporting under clause (xx) of paragraph 3 of the Order is not applicable.

(xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements. Accordingly, no comment in respect of the said clause has been included in this report.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section in our Independent Auditor's Report of even date to the members of **Mukand Limited** on the standalone Ind AS financial statements for the year ended March 31, 2022]

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Mukand Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

Notes Forming Part of Standalone Financial Statements

(1) Background of the Company

Mukand Limited ('the Company') is a public limited company, incorporated and domiciled in India which mainly deals in manufacture of special alloy steel / stainless steel, billets, bars, rods, wire rods, EOT cranes, material handling equipment and other industrial machinery and comprehensive engineering services. The registered office of the Company is located at Bajaj Bhawan, Jamnalal Bajaj Marg 226, Nariman Point, Mumbai. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The standalone financial statements for the year ended March 31, 2022 were approved by the Board of Directors and authorised for issue on May 17, 2022.

(2) Significant Accounting Policies followed by the Company

(a) Basis of preparation

(i) These financial statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

i) Certain financial assets and liabilities that are measured at fair value

ii) Assets held for sale-measured at fair value less cost to sell

iii) Measurement of derivative financial instruments

iv) Defined benefit plans-plan assets measured at fair value

The financial statements are presented in Indian Rupees (Rs.) and all values are rounded to nearest crore, except when otherwise indicated.

The financial statements are presented in Indian Rupees (Rs.), which is Company's functional and presentation currency.

(ii) Current versus Non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle i.e. 12 months;
- Held primarily for purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle i.e. 12 months;
- It is held primarily for purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

(b) Property, plant and Equipment (PPE)

Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non refundable taxes and duties after deducting trade discounts/rebates, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Machinery spares, stand-by equipment and servicing equipment are recognised as property, plant and equipment when they meet the definition of property, plant and equipment. Otherwise, such items are classified as inventory.

Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant & equipment has been provided on straight line method based on the useful life specified in Schedule II of the Companies Act, 2013 except for Continuous Process Plant where useful life is considered as 18 years as per technical evaluation. Depreciation commences when the assets are ready for their intended use. Depreciation in respect of assets used for long term engineering contracts is provided on the estimated useful life of the assets.

Assets costing less than Rs. 5,000/- are fully depreciated at the rate of 100% in the year of purchase.

The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(c) Intangible Assets

Intangible assets that are acquired by the Company, which have finite useful lives, are measured at cost less accumulated amortisation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the intangible asset.

Intangible Assets under Implementation includes cost of such assets under installation / under development as at the balance sheet date.

Amortisation

Intangible assets are amortised on straight line basis over the estimated useful life. The method of amortisation and useful life is reviewed at the end of each accounting year with the effect of any changes in the estimate being accounted for on a prospective basis.

Useful life of 3 years is considered for amortisation of intangible assets - Computer Software.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Statement of Profit and Loss.

(d) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company’s lease asset classes primarily consist of leases for land, office premises and machinery. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement date of the lease (i.e. the date the underlying asset is available for use), the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives received. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the lease term. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

At the commencement date of the lease, the Company recognises lease liability measured at the present value of lease payments to be made over the lease term.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease Liability and ROU assets have been separately presented in the balance sheet and lease payments have been classified as financing cash flows.

Company as a lessor

Leases for which the Company is a lessor is classified as finance or operating lease. Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(e) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use. Other borrowing costs are expensed in the period in which they are incurred.

Transaction costs relating to borrowings are considered under effective interest rate method.

(f) Impairment of Non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

(g) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(I) Financial Assets

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. The Company classifies its financial assets in the following measurement categories:

* those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and

* those to be measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and contractual terms of the cash flows.

Initial Recognition & Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- Debt instruments at fair value through profit or loss (FVTPL)
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments at amortised cost
- Equity instruments at fair value (either through profit or loss or through other comprehensive income, if

designated).

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income). For investment in debt instruments, this will depend on the business model in which the investment is held. For investment in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for equity instruments at FVTOCI.

Debt instruments at amortised cost

A Debt instrument is measured at amortised cost if both the following conditions are met:

a) Business Model Test: The objective is to hold the debt instrument to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

b) Cash flow characteristics test: The contractual terms of the debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Debt instruments at fair value through OCI

A Debt instrument is measured at fair value through other comprehensive income if following conditions are met:

a) Business Model Test: The objective of financial instrument is achieved by both collecting contractual cash flows and for selling financial assets.

b) Cash flow characteristics test: The contractual terms of the debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Debt instrument included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI), except for the recognition of interest income, impairment gains or losses and foreign exchange gains or losses which are recognised in statement of profit and loss. On derecognition of asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI financial asset is reported as interest income using the EIR method.

Debt instruments at FVTPL

FVTPL is a residual category for financial instruments. Any financial instrument which does not meet the criteria for amortised cost or FVTOCI is classified as at FVTPL. A gain or loss on a Debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognised in the statement of profit and loss and presented net in the Statement of Profit and Loss within other gains or losses in the period in which it arises. Interest income from these debt instruments is included in other income.

Equity Instruments

For all equity instruments, the Company may make an irrevocable election to present in other comprehensive income all subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Preference Instruments are stated at amortised costs.

Derecognition of financial assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income.

The Company recognises life time expected credit losses for all trade receivables that do not constitute a financing transaction. For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

(II) Equity & Financial Liabilities

Debt and equity instruments issued by an entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(i) Equity Instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

(ii) Financial liabilities:

Initial recognition and measurement:

Financial liabilities are initially recognised at fair value plus any transaction costs that are attributable to the acquisition of the financial liabilities except financial liabilities at FVTPL which are initially measured at fair value.

Subsequent measurement:

The financial liabilities are classified for subsequent measurement into following categories:

- At amortised cost
- At fair value through profit or loss (FVTPL)

Financial liabilities at amortised cost:

The Company classifies the following under amortised cost:

- Borrowings from banks
- Borrowings from others
- Trade payables
- Lease Deposits
- Lease Liability

Amortised cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Financial liabilities at fair value through profit or loss:

Financial liabilities held for trading are measured at FVTPL.

Financial liabilities at FVTPL are stated at fair value with any gains or losses arising on remeasurement, recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item.

Derecognition of financial liabilities:

A financial liability is removed from the balance sheet when the obligation is discharged, or is cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

(III) Financial guarantees contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS109 and the amount recognised less cumulative amortisation.

(IV) Derivative financial instruments

Derivative financial instruments such as forward contracts are taken by the Company to hedge its foreign currency risks, are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise (other than in case of hedge accounting).

(V) Offsetting of financial instruments

Financials assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(h) Fair value measurement:

The Company measures financial instruments, such as, certain investments and derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. The cost formulae used for determination of cost is ‘First in First Out’ for raw materials and ‘Weighted Average Cost’ for stores and spares.

Machinery spares, stand-by equipment and servicing equipment are recognised as inventory when the useful life is less than one year and the same are charged to the Statement of Profit and Loss as and when issued for consumption.

(j) Taxes

The income tax expense or credit for the period is the tax payable on the current period’s taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The Company’s liability for current tax is calculated using the Indian tax rates and laws that have been enacted by the reporting date. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and provisions where appropriate.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(k) Provisions and Contingencies

Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Contingent liabilities & contingent assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognized in the financial statements. If the inflow of economic benefits is probable, then it is disclosed in the financial statements.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(l) Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefit obligations

The liabilities for compensated absences that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have any unconditional right to defer settlement for at least 12 months after the end of the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

(a) defined benefit plans such as gratuity and

(b) defined contribution plans such as superannuation scheme, provident fund.

Gratuity Obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Defined Contribution plans

Defined Contribution Plans such as superannuation scheme, provident fund are charged to the statement of profit and loss as an expense, when an employee renders the related services. If the contribution payable to scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset.

(m) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operational decision maker monitors the operating results of its business Segments separately for the purpose of making decision about the resources allocation and performance assessment. Segment performance is evaluated based on the profit or loss and is measured consistently with profit or loss in the financial statements. The operating segments have been identified on the basis of the nature of products/ services.

(n) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(o) Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(p) Earnings per share

Basic earnings per share

Basic earnings per share are calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(q) Non-current assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Any expected loss is recognised immediately in the Statement of Profit and Loss.

The criteria for “held for sale” classification is regarded as met only when the sale is highly probable i.e. an active program to locate a buyer to complete the plan has been initiated and the asset is available for immediate sale in its present condition and the assets must have actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the sale should indicate that it is unlikely that significant changes to that plan to sale these assets will be made. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised. Assets and liabilities classified as held for sale are presented separately as current items in the balance sheet.

(r) Dividend distribution to equity shareholders

Dividend distributed to Equity shareholders is recognised as distribution to owners of capital in the Statement of Changes in Equity, in the period in which it is paid.

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company’s Board of Directors.

(s) Foreign currencies

The financial statements are presented in Indian rupee (Rs.), which is Company's functional and presentation currency.

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the statement of profit and loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the statement of profit and loss.

(t) Revenue Recognition

The Company mainly deals in manufacture of special alloy steel/ stainless steel, billets, bars, rods, wire rods, EOT cranes, material handling equipment and other industrial machinery and rendering of comprehensive engineering services. Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised goods or services to customers in an amount that reflects the consideration which Company expects to receive in exchange for those products or services.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government.

Revenue from sale of products and services is recognised at a time when the performance obligation is satisfied except Revenue from Engineering Contracts where in revenue is recognized over the time from the financial year in which the agreement to sell (containing salient terms of agreement to sell) is executed. The period over which revenue is recognised is based on entity's right to payment for performance completed.

In determining whether Company has right to payment, the Company shall consider whether it would have an enforceable right to demand or retain payment for performance completed to date if the contract were to be terminated before completion for reasons other than Company's failure to perform as per the terms of the contract.

The revenue recognition of Engineering Contracts under progress requires forecasts to be made of total budgeted costs with the outcomes of underlying contracts, which further require assessments and judgements to be made on changes in scope of work and other payments to the extent they are probable and they are capable of being reliably measured. However, where the total project cost is estimated to exceed total revenues from the project, the loss is recognized immediately in the Statement of Profit and Loss.

Revenue from Engineering Contracts where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage of completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Revenues in excess of invoicing are classified as contract assets (which is referred to as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which is referred to as unearned revenues). The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

Engineering Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event, transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or

2. The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

3. The Company's performance does not create an asset with an alternative use to the Company and Company has an enforceable right to payment for performance completed to date.

In case of performance obligations, where any of the above conditions is not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Export incentives:

Export Incentives under various schemes are accounted in the year of export.

Interest Income:

Interest income accrues on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable.

Dividend Income:

Dividend income from investments is recognised when the shareholder's right to receive the payment has been established.

(u) Exceptional Items:

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the Company. These are material items of income or expense that have to be shown separately due to the significance of their nature or amount.

(v) Events after the reporting period:

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted but disclosed.

(w) Significant accounting estimates, judgements and assumptions:

The preparation of the Company's financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, management has made the following judgements which have significant effect on the amounts recognised in the financial statements:

i. Useful lives of property, plant and equipment:

Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalised. Useful life of tangible assets is based on the life specified in Schedule II of the Act and also as per management estimate for certain category of assets. Assumption also needs to be made, when Company assesses, whether an asset may be capitalised and which components of the cost of the assets may be capitalised.

ii. Use of significant judgements in revenue recognition:

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer.
- Revenue from Engineering Contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

iii. Fair value measurement of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.

iv. Defined benefit plan:

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

v. Allowances for uncollected accounts receivables:

Trade receivables are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not collectable. Impairment is made on the expected credit loss model, which are the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about the risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

vi. Allowance for inventories:

Management reviews the inventory age listing on a periodic basis. This review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. Management satisfies itself that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

vii. Impairment of non-financial assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or Cash Generating Units (CGU’s) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

viii. Contingencies:

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Company as it is not possible to predict the outcome of pending matters with accuracy.

ix. Leases:

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

x. Provision for income tax and deferred tax assets:

The Company’s tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

(x) i. Recent Pronouncement:

The amendments to Schedule III of the Companies Act, 2013 are applicable from 01 April 2021. The Company has given effect of amendment by inclusion of the relevant disclosures under explanatory notes or by way of additional notes, wherever significant in nature.

ii. **Recent Indian Accounting Standards (Ind AS) issued not yet effective:**

Ministry of Corporate Affairs ("MCA") notified new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 01 April, 2022, as below:

a **Ind AS 103 – Reference to Conceptual Framework:**

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

b **Ind AS 16 – Proceeds before intended use:**

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in statement of profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

c **Ind AS 37 – Provisions, Contingent Liabilities and contingent assets:**

The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

d **Ind AS 109 - Financial Instruments:**

The amendment clarifies that while performing the '10 percent test' for derecognition of a financial liability, for computing the discounted present value of the cash flows under the new terms, for determining fees paid net of fees received, a borrower should include only fees paid or received between borrower and lender, including fees paid or received by either the borrower or lender on the other's behalf. This amendment is under Annual Improvements to Ind AS (2021). The Company does not expect the above amendment/ improvement to have any significant impact on its standalone financial statements.

Notes:

(a) (i) The Company has opted to measure its non-current investments in equity shares in Subsidiary Companies at Fair value through Other Comprehensive Income (FVTOCI) while investments held in Joint Ventures are measured at Fair value through Profit or Loss (FVTPL).

(ii) Accordingly, other income and OCI for the year includes Rs.0.04 crore (loss net) and Rs. 0.96 crore (loss net) (2020-21 - Rs. 4.82 crore (gain net) and Rs. 3.36 crore (loss net)) respectively towards change in fair value of non-current investments.

(iii) During the year the Company disposed off the balance 21% of the equity stake of 51% (8,733,006 shares) held in Mukand Sumi Special Steel Ltd, a Joint Venture of the Company to Jamnalal Sons Private Ltd., an entity belonging to the promoter group of the Company on 30th April, 2021 for a consideration of Rs.499.53 crore. As this investment was measured at fair value in earlier years, this disposal does not have any material impact on the statement of profit and loss for the year under report .

(b) The Company has an investment of Rs. 26.25 crore (Previous Year Rs. 26.25 crore) in equity shares of Mukand Global Finance Limited (MGFL), a wholly owned subsidiary. On adoption to measure its non-current investments in equity shares in subsidiaries companies at FVTOCI, the exposure of Rs. 26.25 crores has been accounted through FVTOCI in earlier years.

(c) The Company had an investment of Rs. 61.63 crore in equity shares of Vidyavihar Containers Ltd. (VCL) a wholly owned subsidiary and had provided for diminution in the value of investments upto an amount of Rs. 27.73 crore upto March 31, 2017. On adoption to measure its non-current investments in equity shares in subsidiaries companies at FVTOCI, the balance of Rs. 33.90 crore has been accounted through FVTOCI in earlier years. (36) Capital Management

The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and maximize shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions, annual operating plans and long term and other strategic investment plans. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2022 and March 31, 2021. The Company monitors capital using a ratio of 'adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents & Current Investments. Equity comprises all components of equity including share premium and all other equity reserves attributable to the equity share holders.

The Company's adjusted net debt to equity ratio at March 31, 2022 is as follows:

Particulars	31-Mar-22 Rs. in crore	31-Mar-21 Rs. in crore

(vi) Demand for Annual Bonus for the financial years 1995-96 to 2006-07 by Staff and Officers' Association is pending at different stages in proceedings under The Industrial Disputes Act, 1947. Bulk of these employees are statutorily not covered by The Payment of Bonus Act, 1965 and many of the employees are also not covered by The Industrial Disputes Act, 1947. Liability arising there from cannot therefore be determined at present.

(vii) Government of Maharashtra had served a Demand Notice on the Company for payment of electricity duty for power generated during the period 01.04.2000 to 30.04.2005 and penal interest thereon in Company's Captive Power Plant amounting to Rs.14.27 crore. The Writ Petition filed by the Company was disposed by the Hon'ble Bombay High Court on 7th November, 2009 quashing the said Demand Notice. Government of Maharashtra has however, filed an appeal in the Supreme Court of India against the aforesaid judgment of High Court.

(viii) A claim towards difference in price of calibrated iron ore for the period 1st April, 2006 to 28th February, 2007 amounting to Rs.33.07 crore has been raised by a supplier in March 2007. The Company has been legally advised that the supplier cannot seek this price revision under a concluded agreement and hence no provision is made in the Accounts for the same. The issue along with method of review and re-fixing of price of calibrated iron ore effective on 1st of April each year in terms of agreement is referred to an arbitral tribunal whose award was pronounced on 28th February 2014. In terms of the said award, the supplier is directed to re-compute amount payable by the Company. The supplier has revised the claim amount in December 2020 to Rs. 19.71 Crores. Moreover, the said supplier has also increased the price of calibrated iron ore w.e.f. 1st April, 2007 and thereafter w.e.f. 1st April, every year. This issue too was settled by the aforesaid arbitral tribunal. However, pending such determination of final price, the supplier has raised invoices at an ad-hoc interim mutually agreed price on the marketing contractor who in turn, has billed the Company at the same price and the liability, has been fully accounted for. An appeal preferred for challenging the said arbitration award was rejected by the City Civil Court in January 2019. The marketing contractor has gone in appeal against the decision of the City Civil Court before the High Court of Karnataka. The appeal is pending disposal.

(42) (I) In accordance with Indian Accounting Standard - 108 “Segment Reporting”, segment information has been given in the consolidated financial statements of the Company, and therefore, no separate disclosure on segment information is given in these financial statements.

(II) Impact analysis on account of COVID-19 pandemic - The second COVID-19 wave posed a downside risk to economic activity during the quarter of the year. Its impact was muted compared with that of the first wave a year ago. The Management expects that considering the nature of its business operations, existing customer and supplier relationships, impact on its business operations, if any, arising from COVID-19 pandemic will not be significant in the long run and will be able to recover carrying amount of all its assets as appearing in the financial statements and meet its entire financial obligations in the near future. The impact of COVID 19 pandemic may be different from that estimated as at the date of approval of these financial statements. The Management will continue to monitor any material changes to future economic conditions.

(III) Monetization of assets:

During the year under report the Company has :

i) Disposed off 21% of equity stake held by the Company in Mukand Sumi Special Steel Ltd, a Joint Venture of the Company to Jamnalal Sons Private Ltd., an entity belonging to the promoter group of the Company on 30th April 2021 for a total consideration of Rs.499.53 crore. As this investment was measured at fair value in earlier years, this disposal does not have any material impact on the statement of profit and loss for the year under report.

ii) Received on 30th April 2021 Rs.8.07 crore from MIFZE towards repatriation of capital (4 shares of 1 Million Dhiram each). MIFZE is in the process of closing down its operations and subsequent liquidation.

iii) Executed an Agreement for Sale (AFS) on March 2, 2022, of land of the Company admeasuring approx. 47 acres situated at Kalwe and Dighe, in Thane district for a consideration of Rs. 806.14 crore. Of this, part consideration of Rs.161.23 crore, (being a sum equivalent to 20% of the sale consideration) has been deposited by the purchaser as earnest money deposit, in an escrow account. The aforesaid sale is subject to fulfilment of certain conditions precedent by the parties. Amount realized from above disposal will be mainly utilized to repay debt / other interest-bearing liabilities and this will entail substantial reduction in the yearly interest costs. As at the March 31, 2022 the carrying value of the said land (including capitalized value of improvement) of Rs.106.17 crore is shown as ‘Assets held for Sale’ in accordance with Ind AS-105.

iv) Executed a Conditional Agreement for Sale of a residential flat at Mumbai on December 10, 2021 for a consideration of Rs.15 crore. Of this, part consideration of Rs.1.50 crore (being a sum equivalent to 10% of the sale consideration) has been received by the Company as an Earnest Money Deposit. As at the March 31, 2022 the carrying value of the said flat of Rs.1.68 crore is shown as ‘Assets held for Sale’ in accordance with Ind AS-105.

(IV) Leases

The Company has recognised and measured the Right of Use (ROU) asset and lease liability over the lease period. The Company elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option (short-term leases), and lease contracts for which the underlying asset is of low value (low-value assets).

Gratuity

The Company provides for gratuity for employees as per Company's Scheme/s. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month and as per the Schemes applicable to those employees. The gratuity plan is a funded plan. The scheme is funded with Life Insurance Corporation in the form of a qualifying insurance policy.

The actuarial valuation of the defined benefit obligation was carried out at the balance sheet date. The present value of the defined benefit obligations and the related current service cost and past service cost were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the details of the employee benefit obligation as at balance sheet date:

	(iv) -100 basis points decrease in rate of salary increase	**(3.46)**	(3.45)

2 Sensitivity analysis method

Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously. The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change if any.

VIII	Actuarial Assumptions:	As at March 31, 2022	As at March 31, 2021
1	Discount rate	**7.15%**	6.75%
2	Expected rate of salary increase	**4.00% p.a.**	4.00% p.a.
3	Attrition rate	**2.00%**	2.00%
4	Mortality	**Indian Assured Lives Mortality (2012-14) Ultimate**	Indian Assured Lives Mortality (2012-14) Ultimate

Notes:

a) The rate used to discount post employment benefit obligations is determined by reference to market yields at the end of the reporting period on government bonds.

b) The estimates of future salary increases considered in the actuarial valuation take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

c) The gratuity fund is managed by Life Insurance Corporation and details of fund invested by insurer are not available with Company.

d) The Company expects to make a contribution of Rs. 4.91 Crore to the defined benefit plans (gratuity - funded) during the next financial year.

e) The average duration of the defined benefit plan obligation at the end of the reporting period is 7 years.

Risk exposure

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory frame work which may vary over time. Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumptions.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act,1972 (as amended from time to time) and Company's Schemes for different category of employees. There is a risk of change in regulations requiring higher gratuity payouts.

Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to the market risk for volatilities/fall in interest rate.

Investment Risk: The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

B. Measurement of fair value

The following methods and assumptions were used to estimate the fair values:

a) The carrying amounts of trade receivables, trade payables, deposits, other receivables, cash and cash equivalent including other current bank balances and other liabilities including deposits, creditors for capital expenditure, etc. are considered to be the same as their fair values, due to current and short term nature of such balances.

b) Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances if required, are taken to account for expected losses of these receivables.

c) The fair values for investment in equity shares other than subsidiaries were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs.

C. Fair Value Hierarchy

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

D. Valuation technique used to determine fair value

Type	Valuation technique	Significant unobservable input	Interrelationship between Significant unobservable input and fair valuation
Investments in unquoted instruments accounted for as Fair value through Profit & Loss	Income based approach (Discounted Cash Flow Method)	Discounting Rate/ WACC- 12%	Increase/ (Decrease) in significant unobservable input will (Decrease) / Increase fair value of the instrument

E. Reconciliation of Level 3 fair values: **Rs. in crore**

Particulars	31-Mar-22	31-Mar-21
Opening balance	**695.31**	1,408.65

F. Sensitivity Analysis

A reasonably possible changes at the reporting date to one of the significant observable inputs, holding other inputs constant, would have the following effects in profit or loss:

Significant unobservable input	31-Mar-22		31-Mar-21	
	Increase	Decrease	Increase	Decrease
0.5% Discount rate				
MSMPL	**(10.07)**	**11.19**	(10.66)	11.87

(47) Financial Risk Management

The process of identification and evaluation of various risks inherent in the business environment and the operations of the Company and initiation of appropriate measures for prevention and/or mitigation of the same are dealt with by the concerned operational heads under the overall supervision of the Managing Directors of the Company. The Audit Committee periodically reviews the adequacy and efficacy of the overall risk management system. The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company has in place adequate Internal Financial Controls with reference to financial statements and such internal financial controls are operating effectively. The Company has adopted policies and procedures for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records and timely preparation of reliable financial statements.The Company has exposure to the following risks arising from financial instruments:

• Credit risk

• Liquidity risk and

• Market risk

A Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's trade and other receivables. The carrying amounts of financial assets represent the maximum credit risk exposure.

i Trade and Other receivables

An impairment analysis is performed at each reporting date. The expected credit losses over lifetime of the asset are estimated by adopting the simplified approach using a provision matrix. The loss rates are computed using a 'roll rate' method based on the probability of receivable progressing through successive stages till full provision for the trade receivable is made.

The ageing analysis of trade receivables (net of provision) has been considered from the date the invoice falls due.

B Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company’s approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company’s reputation. Management monitors rolling forecasts of the Company’s liquidity position and cash and cash equivalents on the basis of expected cash flows.

C Market risk

Market risk is the risk that changes in market prices, such as interest rates (interest rate risk), will affect the company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

D Interest rate risk

Interest rate risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligation at floating interest rates. The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

E Interest rate risk exposure

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	**31-Mar-22**	31-Mar-21
Variable rate borrowings	**1,000.00**	1,000.00
Fixed rate borrowings	**764.74**	821.77
Total borrowings	**1,764.74**	1,821.77

F. Sensitivity Analysis

A change of 100 basis points in interest rates would have following impact on profit after tax and equity:

Particulars	**31-Mar-22**	31-Mar-21
Interest rates – increase by 100 basis points *	**7.48**	7.48
Interest rates – decrease by 100 basis points *	**(7.48)**	(7.48)

* Holding all other variables constant

Independent Auditor's Report

To the Members of Mukand Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of **Mukand Limited** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associates and its joint ventures, comprising of the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated Ind AS financial statements including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditor(s) on separate Ind AS financial statements and on the other financial information of the subsidiaries, associates and joint ventures, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the consolidated state of affairs of the Group, its associates and joint ventures as at March 31, 2022, their consolidated profit (including other comprehensive income), their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements section of our report. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated Ind AS financial statements under the provisions of the Act and Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated Ind AS financial statements.

Material Uncertainty Related to Going Concern

We draw attention to Note 53(vi) to the Consolidated Ind AS financial statements, wherein the Statutory Auditor of Mukand Engineers Limited, an associate Company, have drawn reference without modifying their opinion to following note in their audit report:

We draw your attention to Note No. 44 of the financial Statement, which states that the Mukand Engineers Limited ("the Company") has incurred a net loss of Rs. 22.42 crores (loss after tax) during the year ending 31st March, 2022 and has accumulated losses amounting to Rs. 104.33 crores (loss after tax), up to 31st March, 2022 resulting in to erosion of the Net Worth of the Company. During the period under review, fund flow of the Company has been impacted on account of general slow-down in the business, which may also seriously impair Company's financial position. This indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as going concern. The Company had filed petitions with National Company Law Tribunal (NCLT) for Scheme of amalgamation of Mukand Engineers Limited with the Mukand Limited and the petition has been approved by NCLT after close of the year on April 29, 2022. The Scheme shall be effective from the appointed date April 1, 2019 on receipt of certified copy of NCLT order and filing the same with Registrar of Companies. On implementation of the Scheme, the MEL will cease to exist and all the assets and liabilities of the MEL will be transferred to the Mukand Limited w.e.f. the Appointed Date on a going concern basis and in the manner provided in the said Scheme. In view of this, the financial statements of MEL have been prepared on a going concern basis.

Our opinion is not modified in respect of above matter.

Emphasis of Matter

We draw attention to the following matters in the notes to the consolidated Ind AS financial statements:

Note 44 (ii) to the Consolidated Ind AS financial statements, which explains on the impact of COVID-19 pandemic situation on the operational and financial position of the Group, its associates and joint ventures which is further dependent upon the circumstances as they evolve in the subsequent period.

Note 13(b) to the Consolidated Ind AS financial statements, relating to exposures in Bombay Forgings Limited ("BFL") aggregating Rs. 16.54 crores (net of ECL provision) as at March 31, 2022. The management, barring any significant uncertainties in future, has considered the value of unencumbered fixed assets and current assets of BFL for the balance portion of exposure in BFL.

Note 42(B) to the Consolidated Ind AS financial statements, relating to the accounting treatment of goodwill amounting to Rs. 1,834.84 crores in the books of Mukand Sumi Special Steel Limited ("MSSSL"), a Joint Venture, which is amortised over its useful life in accordance with the scheme of Amalgamation as sanctioned by the National Company Law Tribunal ("NCLT"). As a consequence, depreciation and amortisation expenses for the period ended April 30, 2021 in the books of MSSSL includes Rs. 7.54 crores on account of amortisation of goodwill. This accounting treatment is different from that prescribed under Indian Accounting Standard (Ind AS) 103 - "Business Combination" for business combination of entities under common control. Had the accounting treatment prescribed under Ind AS 103 been followed, the depreciation and amortisation expense for the period ended April 30, 2021 would have been lower by Rs. 7.54 crores and profit before tax would have been higher by similar amount.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current year. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Appropriateness of estimation of cost to complete the project

The Holding Company generates part of its revenue from long term construction / project related activity and contracts for supply / commissioning of plant and equipment which is accounted under the percentage of completion method ("POC"), which is the proportion of cost of work performed to-date, to the total estimated contract costs.

Determination of revenue requires estimation of total contract costs which is done based on the actual cost incurred till date and the cost required to be incurred to complete the projects. The estimation of cost to complete involves exercise of significant judgment by the management and assessment of project data, estimates related to future costs and assumptions.

This has been considered as a key audit matter given the involvement of management judgment and any variation have consequential impact on the revenue recognised as per percentage of completion method.

How our audit addressed the Key Audit Matter:

We have performed the following procedures among others:

a) Understood and evaluated the design and tested the operating effectiveness of controls around estimation of costs to complete the project including the review and approval of estimated project cost.

b) Verified the contracts on test check basis entered by the Holding Company for the consideration and relevant terms and conditions relating to variations to the cost.

c) Obtained computation of estimated costs to complete the project and the percentage of project completion and verified the same against the contractual terms and the work orders placed with vendors.

d) Verified original invoices, purchase orders, receipts etc. for the actual costs incurred upto the year end date on test check basis.

e) Discussed the status of the projects with the Holding Company's project management team and evaluated the reasonableness of the estimates made by the management of costs to be incurred for completion of the respective projects.

f) Verified the revision in total cost of the contracts by comparing the Holding Company management estimates revised during the current year with the estimate made in earlier years and obtained reasons for such revision including verification of correspondence with the vendors in case of renegotiation of prices with them and the approvals for the same.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Holding Company's Director's Report, but does not include the standalone Ind AS financial statements, consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed and the reports of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India, including Ind AS prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and of its associates and joint ventures and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the Group and of its associates and joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group including its associates and joint ventures or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company, its subsidiary companies, associate companies and joint venture companies, which are companies incorporated in India, have adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and joint ventures of which we are the independent auditors, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the Ind AS financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

(a) We did not audit the Ind AS financial statements of two (2) subsidiaries and one (1) step down subsidiary, whose Ind AS financial statements reflects total assets of Rs. 46.86 crore and net liability of Rs. 274.92 crore as at March 31, 2022, total revenues of Rs. 14.29 crore and net cash outflow amounting to Rs. 8.81 crore for the year ended on that date, as considered in the consolidated Ind AS financial statements. The consolidated Ind AS financial statements also include Group's share of net loss of Rs. 7.59 crore for the year ended March 31, 2022, as considered in the consolidated Ind AS financial statements, in respect of One (1) associate and three (3) joint ventures, whose Ind AS financial statements have not been audited by us. These Ind AS financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures and associates, is based solely on the reports of the other auditors.

One (1) of the above subsidiary is located outside India whose financial statements have been prepared in accordance with accounting principles generally accepted in that country and which have been audited by its independent auditor under generally accepted auditing standards applicable in that country. The Holding Company's management has converted the financial statements of such subsidiary located outside India from accounting principles generally accepted in that country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiary located outside India is based on the report of its independent auditor and the conversion adjustments prepared by the management of the Holding Company and audited by us.

(b) The unaudited financial statements/ financial informations of two (2) associates has not been furnished to us by the Management. According to the information and explanations given to us by the Management, these financial statements/ financial informations are not material to the Group.

Our opinion on the consolidated Ind AS financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the Ind AS financial statements/financial information certified by the management.

Report on Other Legal and Regulatory Requirements

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to under 'Report on Other Legal and Regulatory Requirements' section in our Independent Auditor's Report of even date to the members of **Mukand Limited** on the consolidated Ind AS financial statements for the year ended March 31, 2022]

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of Mukand Limited ("Holding Company") as of and for the year ended March 31, 2022, we have audited the internal financial controls with reference to financial statements of the Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of Holding Company, its subsidiary companies, its associate companies and joint venture companies.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of reporting of other auditors as mentioned in Other Matters paragraph below, the Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies incorporated in India, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal control with reference to financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates to one (1) subsidiary and One (1) step down subsidiary companies and one (1) associate company and two (2) joint venture companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes forming part of consolidated financial statements.

Group Overview

The consolidated financial statements comprise of Mukand Limited ("the Company", "holding company", "parent"), its subsidiaries, associates and joint ventures (collectively, "the Group") for the year ended 31st March, 2022. The Company is a public limited company, incorporated and domiciled in India which mainly deals in manufacture of special alloy steel / stainless steel, billets, bars, rods, wire rods, EOT cranes, material handling equipment and other industrial machinery and comprehensive engineering services. The registered office of the Company is located at Bajaj Bhawan, Jamnalal Bajaj Marg, 226 Nariman Point, Mumbai 400 021. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The consolidated financial statements for the year ended March 31, 2022 were approved by the Board of Directors of holding company on May 17, 2022.

Note 1: Significant Accounting Policies followed by the Group

(a) Basis of preparation

(i) These consolidated financial statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (‘Act’) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The consolidated financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

1) Certain financial assets and liabilities that are measured at fair value and amortised cost.

2) Assets held for sale - measured at the lower of carrying amount or fair value less costs to sell.

3) Defined benefit plans - plan assets measured at fair value.

The consolidated financial statements are presented in Indian Rupees (‘Rs.’) which is Company’s functional and presentation currency and all values are rounded to nearest crore, except when otherwise indicated.

(ii) Current versus Non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non- current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle i.e. 12 months.
- Held primarily for purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle i.e. 12 months.
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

(b) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses.

Changes in the Group’s equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

C F S

Intra-group balance and transactions and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and the liabilities of the subsidiary and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date on which control is lost. Any resulting gain or loss is recognised in consolidated Statement of Profit and Loss.

(iii) Equity accounted investees

The Group's interests in equity accounted investees comprise interests in associates and joint ventures.

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement, rather than rights of its assets and obligation for its liabilities.

Interests in associates and joint ventures are accounted for using the equity method. They are initially recognised at cost which includes transaction cost. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and OCI of equity – accounted investees until the date on which significant influence or joint control ceases. When the Group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(iv) Business combinations

In accordance with Ind AS 103, Group accounts for the business combinations using the acquisition method when control is transferred to the Group. The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combinations as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities.

If a business combination is achieved in stages, any previously held equity interest in the acquiree is remeasured at fair value on its acquisition date and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the group (referred as common control business combinations) are accounted for using the pooling of interest method except in case the control is transitory. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in financial statements of the Group in the same form in which they appeared in the consolidated financial statements of the transferor entity. The difference, if any, between the consideration and the amount of share capital of the acquired entity is transferred to capital reserve.

(c) Property, Plant and Equipment (PPE)

Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non refundable taxes and duties after deducting trade discounts/rebates, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Consolidated Statement of Profit and Loss during the reporting period in which they are incurred.

Machinery spares, stand-by equipment and servicing equipment are recognised as PPE when they meet the definition of PPE. Otherwise, such items are classified as inventory.

Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant & equipment has been provided on straight line method based on the useful life specified in Schedule II of the Companies Act, except for Continuous Process Plant where useful life is considered as 18 years as per technical evaluation.

Depreciation commences when the assets are ready for their intended use.

Depreciation in respect of assets used for long term engineering contracts is provided on the estimated useful life of the assets.

Assets costing less than Rs. 5,000/- are fully depreciated at the rate of 100% in the year of purchase.

Foreign subsidiaries provides depreciation using methods and at rates applicable under local laws or at such rates so as to write-off the value of assets over its useful life.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Consolidated Statement of Profit and Loss.

(d) Intangible Assets

Intangible assets that are acquired by the Company, which have finite useful lives, are measured at cost less accumulated amortisation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the intangible asset.

Intangible Assets under Implementation includes cost of such assets under installation / under development as at the balance sheet date.

Amortisation

Intangible assets are amortised on straight line basis over the estimated useful life. The method of amortisation and useful life are reviewed at the end of each accounting year with the effect of any changes in the estimate being accounted for on a prospective basis.

Useful life of 3 years is considered for amortisation of intangible assets - Computer Software.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the Consolidated Statement of Profit and Loss.

(e) Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

(f) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group lease asset classes primarily consist of leases for land and buildings and vehicles. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset.

At the date of commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives received. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the lease term. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

At the commencement date of the lease, the Group recognises lease liability measured at the present value of lease payments to be made over the lease term.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Group changes its assessment of whether it will exercise an extension or a termination option.

Lease Liability and ROU assets have been separately presented in the balance sheet and lease payments have been classified as financing cash flows.

Group as a lessor

Leases for which the Group is a lessor is classified as finance or operating lease. Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(g) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use. Other borrowing costs are expensed in the period in which they are incurred.

Transaction costs relating to borrowings are considered under effective interest rate method.

(h) Impairment of Non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs of disposal and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

(i) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(I) Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual provisions of the instrument. The group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the group's business model for managing the financial assets and contractual terms of the cash flows.

Initial Recognition & Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- Debt instruments at fair value through profit or loss (FVTPL)
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments at amortised cost
- Equity instruments at fair value (either through profit or loss or through other comprehensive income, if designated)

Where assets are measured at fair value, gains and losses are either recognised entirely in the Consolidated Statement of Profit and Loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income). For investment in debt instruments, this will depend on the business model in which the investment is held. For investment in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for equity instruments at FVTOCI.

Debt instruments at amortised cost

A Debt instrument is measured at amortised cost if both the following conditions are met:

a) Business Model Test: The objective is to hold the debt instrument to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

b) Cash flow characteristics test: The contractual terms of the debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Debt instruments at fair value through OCI

A Debt instrument is measured at fair value through other comprehensive income if following conditions are met:

a) Business Model Test: The objective of financial instrument is achieved by both collecting contractual cash flows and for selling financial assets.

b) Cash flow characteristics test: The contractual terms of the debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Debt instrument included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI), except for the recognition of interest income, impairment gains or losses and foreign exchange gains or losses which are recognised in the Consolidated Statement of Profit and Loss. On derecognition of asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Consolidated Statement of Profit and Loss. Interest earned whilst holding FVTOCI financial asset is reported as interest income using the EIR method.

Debt instruments at FVTPL

FVTPL is a residual category for financial instruments. Any financial instrument which does not meet the criteria for amortised cost or FVTOCI is classified as at FVTPL. A gain or loss on a Debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognised in the Consolidated Statement of Profit and Loss and presented net in the Consolidated Statement of Profit and Loss within other gains or losses in the period in which it arises. Interest income from these Debt instruments is included in other income.

Equity Instruments

For all equity instruments, the Group may make an irrevocable election to present in other comprehensive income all subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Consolidated Statement of Profit and Loss.

Preference Instruments are stated at amortised costs.

Derecognition of financial assets

The Group de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income.

The Group recognises life time expected credit losses for all trade receivables that do not constitute a financing transaction. For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

(II) Equity & Financial Liabilities

Debt and equity instruments issued by an entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(i) Equity Instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the group are recognised at the proceeds received, net of direct issue costs.

(ii) Financial liabilities:

Initial recognition and measurement:

Financial liabilities are initially recognised at fair value plus any transaction costs that are attributable to the acquisition of the financial liabilities except financial liabilities at FVTPL which are initially measured at fair value.

Subsequent measurement:

The financial liabilities are classified for subsequent measurement into following categories:

- At amortised cost
- At fair value through profit or loss (FVTPL)

Financial liabilities at amortised cost:

The Group classifies the following under amortised cost:

- Borrowings from banks
- Borrowings from others
- Trade payables
- Lease Deposits
- Lease Liability

Amortised cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Financial liabilities at fair value through profit or loss:

Financial liabilities held for trading are measured at FVTPL.

Financial liabilities at FVTPL are stated at fair value with any gains or losses arising on remeasurement, recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item.

Derecognition of financial liabilities:

A financial liability is removed from the Consolidated Balance Sheet when the obligation is discharged, or is cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated Statement of Profit and Loss.

(III) Financial guarantees contracts :

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

(IV) Derivative financial instruments

Derivative financial instruments such as forward contracts are taken by the group to hedge its foreign currency risks, are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value with changes in fair value recognised in the Consolidated Statement of Profit and Loss in the period when they arise (other than in case of hedge accounting).

(V) Offsetting of financial instruments

Financials assets and financial liabilities are offset and the net amount is reported in the Consolidated Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(j) Fair value measurement:

The Group measures financial instruments, such as, certain investments and derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(k) Inventories

Inventories are stated at the lower of cost and net realisable value (NRV). Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Raw Materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost formulae used for determination of cost is 'First in First Out' for Raw Materials and 'Weighted Average Cost' for Stores and Spares.

Machinery spares, stand-by equipment and servicing equipment are recognised as inventory when the useful life is less than one year and the same are charged to the Consolidated Statement of Profit and Loss as and when issued for consumption.

The inventories resulting from intra-group transactions have been stated at cost after deducting unrealised profit on such transactions.

(l) Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The Group's liability for current tax is calculated using the Indian (foreign country tax rate as applicable) tax rates and laws that has been enacted by the reporting date. The Group periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and provisions where appropriate.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax is not recognized for temporary differences related to investments in subsidiaries and joint ventures to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Current and deferred tax is recognised in the Consolidated Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(m) Provisions and Contingencies

Provisions

A provision is recognised when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

Contingent liabilities & Contingent assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the Consolidated Financial Statements.

Contingent assets are not recognized in the Consolidated Financial Statements. If the inflow of economic benefits is probable, then it is disclosed in the Consolidated Financial Statements.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(n) Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefit obligations

The liabilities for compensated absences that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Consolidated Statement of Profit and Loss.

The obligations are presented as current liabilities in the Consolidated Balance Sheet if the entity does not have any unconditional right to defer settlement for at least 12 months after the end of the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Group operates the following post-employment schemes:

(a) defined benefit plans such as gratuity and

(b) defined contribution plans such as provident fund & other funds.

Gratuity Obligations

The liability or asset recognised in the Consolidated Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit cost method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Consolidated Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

Defined Contribution plans

Defined Contribution Plans such as provident and other fund are charged to the Statement of Profit and Loss as an expense, when an employee renders the related services. If the contribution payable to scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset.

(o) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker monitors the operating results of its business Segments separately for the purpose of making decision about the resources allocation and performance assessment. Segment performance is evaluated based on the profit or loss and is measured consistently with profit or loss in the Consolidated Financial Statements. The operating segments have been identified on the basis of the nature of products/ services.

(p) Cash and cash equivalents

For the purpose of presentation in the Consolidated Statement of Cash Flows, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(q) Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

(r) Earnings per share

Basic earnings per share

Basic earnings per share are calculated by dividing:

the profit attributable to owners of the group

by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(s) Non-current assets held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Any expected loss is recognised immediately in the Consolidated Statement of Profit and Loss.

The criteria for “held for sale” classification is regarded as met only when the sale is highly probable i.e. an active program to locate a buyer to complete the plan has been initiated and the asset is available for immediate sale in its present condition and the assets must have actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the sale should indicate that it is unlikely that significant changes to that plan to sale these assets will be made. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised. Assets and liabilities classified as held for sale are presented separately as current items in the Consolidated Balance Sheet.

(t) Dividend distribution to equity shareholders

Dividend distributed to Equity shareholders is recognised as distribution to owners of capital in the Statement of Changes in Equity, in the period in which it is paid.

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

(u) Foreign currencies

Functional and presentation currency

The financial statements are presented in Indian rupee (INR), which is group’s functional and presentation currency.

Transactions and balances

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Consolidated Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Consolidated Statement of Profit and Loss. Non-monetary items denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Group Companies

The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of the balance sheet
- income and expenses are translated at average exchange rates

On Consolidation, Exchange differences are recognized in OCI and accumulated in equity (as exchange differences on translating the financial statements of a foreign operation).

(v) Revenue Recognition

The Group mainly deals in manufacture of special alloy steel/ stainless steel, billets, bars, rods, wire rods, EOT cranes, material handling equipment and other industrial machinery and rendering of comprehensive engineering services. Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised goods or services to customers in an amount that reflects the consideration which Company expects to receive in exchange for those products or services.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government.

Revenue from sale of products and services is recognised at a time when the performance obligation is satisfied except Revenue from Engineering Contracts where in revenue is recognized over the time from the financial year in which the agreement to sell (containing salient terms of agreement to sell) is executed. The period over which revenue is recognised is based on entity’s right to payment for performance completed.

In determining whether Company has right to payment, the Company shall consider whether it would have an enforceable right to demand or retain payment for performance completed to date if the contract were to be terminated before completion for reasons other than Company’s failure to perform as per the terms of the contract. The revenue recognition of Engineering Contracts under progress requires forecasts to be made of total budgeted costs with the outcomes of underlying contracts, which further require assessments and judgements to be made on changes in scope of work and other payments to the extent they are probable and they are capable of being reliably measured. However, where the total project cost is estimated to exceed total revenues from the project, the loss is recognized immediately in the Statement of Profit and Loss.

Revenue from Engineering Contracts where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage of completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Revenues in excess of invoicing are classified as contract assets (which is referred to as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which is referred to as unearned revenues). The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

Engineering Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event, transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Company’s performance as the Company performs; or
2. The Company’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Company’s performance does not create an asset with an alternative use to the Company and Company has an enforceable right to payment for performance completed to date.

In case of performance obligations, where any of the above conditions is not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Export incentives

Export Incentives under various schemes are accounted in the year of export.

Interest income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable.

Dividend income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

(w) **Exceptional Items:**

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the Company. These are material items of income or expense that have to be shown separately due to the significance of their nature or amount.

(x) **Events after the reporting period:**

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted but disclosed.

(y) **Significant accounting estimates, judgements and assumptions:**

The preparation of the group's financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the group's accounting policies, management has made the following judgements which have significant effect on the amounts recognised in the financial statements:

i. **Useful lives of property, plant and equipment:** Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalised. Useful life of tangible assets is based on the life specified in Schedule II of the Act and also as per management estimate for certain category of assets. Assumption also needs to be made, when group assesses, whether as asset may be capitalised and which components of the cost of the assets may be capitalised.

ii. **Use of significant judgements in revenue recognition:** The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables. The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer.

Revenue from Engineering Contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

iii. **Fair value measurement of financial instruments:** When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.

iv. **Defined benefit plan:** The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

v. **Allowances for uncollected accounts receivable and advances:** Trade receivables do not carry interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not collectable. Impairment is made on the expected credit loss model, which are the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about the risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

vi. **Allowances for inventories:** Management reviews the inventory age listing on a periodic basis. This review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

vii. **Impairment of non-financial assets:** The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units ('CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

viii. **Contingencies:** Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Group as it is not possible to predict the outcome of pending matters with accuracy.

ix. **Leases:** The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

x. **Provision for income tax and deferred tax assets:** The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

(z) i Recent Pronouncement:

The amendments to Schedule III of the Companies Act, 2013 are applicable from 01 April 2021. The Company has given effect of amendment by inclusion of the relevant disclosures under explanatory notes or by way of additional notes, wherever significant in nature.

ii. Recent Indian Accounting Standards (Ind AS) issued not yet effective:

Ministry of Corporate Affairs ("MCA") notified new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 01 April 2022, as below:

a. **Ind AS 103 – Reference to Conceptual Framework:**

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

b. **Ind AS 16 – Proceeds before intended use:**

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in statement of profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

c. **Ind AS 37 – Provisions, Contingent Liabilities and contingent assets:**

The amendment specifies that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

d. **Ind AS 109 - Financial Instruments:**

The amendment clarifies that while performing the ‘10 percent test’ for derecognition of a financial liability, for computing the discounted present value of the cash flows under the new terms, for determining fees paid net of fees received, a borrower should include only fees paid or received between borrower and lender, including fees paid or received by either the borrower or lender on the other‘s behalf. This amendment is under Annual Improvements to Ind AS (2021). The Company does not expect the above amendment/ improvement to have any significant impact on its standalone financial statements.

(d) Rights, preferences and restrictions attached to shares

Mukand Ltd (‘the Company’) has only one class of equity share having a par value of Rs. 10/- per share. Each holder of equity share is entitled to one vote per share. The Company declares and pays dividend in Indian rupees in accordance with its dividend distribution policy. The Finance Act 2020 has repealed the Dividend Distribution Tax (DDT). Companies are now required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. The Board of Directors of Mukand Ltd in its meeting held on May 17, 2022 recommended a dividend on equity shares @ Re 1.5 per share for financial year 2021-22.

During the year ended 31 March 2022, the amount of dividend per share recognized as distribution to equity shareholders was Rs. 1/- as recommended by the Board of Directors in its meeting held on May 25, 2021 and approved by the Shareholders at its meeting held on September 18,2021.

The Dividend paid for the previous year and proposed for the current year is in compliance with Section 123 of the Act.

In the event of liquidation of the company, the holders of equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

Note 36: Capital Management

The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and maximize shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions, annual operating plans and long term and other strategic investment plans. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2022 and March 31, 2021.

The Company monitors capital using a ratio of 'adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents & Current Investments. Equity comprises all components of equity including share premium and all other equity reserves attributable to the equity share holders. The Company's adjusted net debt to equity ratio at March 31, 2022 is as follows:

Particulars	As at 31st March, 2022	As at 31st March, 2021
Borrowings

viii. Demand for Annual Bonus for the financial years 1995-96 to 2006-07 by Staff and Officers' Association is pending at different stages in proceedings under The Industrial Disputes Act, 1947. Bulk of these employees are statutorily not covered by The Payment of Bonus Act, 1965 and many of the employees are also not covered by The Industrial Disputes Act, 1947. Liability arising there from cannot therefore be determined at present.

ix. Government of Maharashtra had served a Demand Notice on the Company for payment of electricity duty for power generated during the period 01.04.2000 to 30.04.2005 and penal interest thereon in Company's Captive Power Plant amounting to Rs.14.27 crore. The Writ Petition filed by the Company was disposed by the Hon'ble Bombay High Court on 7th November, 2009 quashing the said Demand Notice. Government of Maharashtra has however, filed an appeal in the Supreme Court of India against the aforesaid judgment of High Court.

x. A claim towards difference in price of calibrated iron ore for the period 1st April, 2006 to 28th February, 2007 amounting to Rs.33.07 crore has been raised by a supplier in March 2007. The Company has been legally advised that the supplier cannot seek this price revision under a concluded agreement and hence no provision is made in the Accounts for the same. The issue along with method of review and re-fixing of price of calibrated iron ore effective on 1st of April each year in terms of agreement is referred to an arbitral tribunal whose award was pronounced on 28th February 2014. In terms of the said award, the supplier is directed to re-compute amount payable by the Company. The supplier has revised the claim amount in December 2020 to Rs. 19.71 Crores. Moreover, the said supplier has also increased the price of calibrated iron ore w.e.f. 1st April, 2007 and thereafter w.e.f. 1st April, every year. This issue too was settled by the aforesaid arbitral tribunal. However, pending such determination of final price, the supplier has raised invoices at an ad-hoc interim mutually agreed price on the marketing contractor who in turn, has billed the Company at the same price and the liability, has been fully accounted for. An appeal preferred for challenging the said arbitration award was rejected by the City Civil Court in January 2019. The marketing contractor has gone in appeal against the decision of the City Civil Court before the High Court of Karnataka. The appeal is pending disposal.

Notes: Figures in bold type relate to the current year and figures in normal type relate to previous year.

The aforesaid amount does not include amount in respect of Gratuity and Leave for KMP who were employed throughout the year as the same is not determinable.

Management has reconciled the balances with the related parties, which have no material impact on the financial statement of the company.

Note 44: Amalgamation and Covid 19

(i) Petitions filed with National Company Law Tribunal (NCLT) for Scheme of amalgamation between Adore Traders and Realtors Private Limited, a wholly owned subsidiary of Mukand Global Finance Limited (MGFL) with the parent company MGFL, followed by the amalgamation of MGFL and Mukand Engineers Limited with the Company has been approved by NCLT after close of the year on April 29, 2022. The Scheme shall be effective from the appointed date April 1, 2019 on receipt of certified copy of NCLT order and filing the same with Registrar of Companies. Therefore, the financial statement do not include effect of amalgamation of these Companies

(ii) **Impact analysis on account of Covid-19 epidemic:**

The second COVID-19 wave poses a downside risk to economic activity in the first quarter of the year in progress. Its impact is expected to be muted compared with that of the first wave a year ago. Management expects that considering the nature of its business operations, existing customer and supplier relationships, impact on its business operations, if any, arising from COVID -19 pandemic may not be significant in the long run and would be able to recover carrying amount of all its assets as appearing in the financial statements and meet its entire financial obligations in the near future. The impact of COVID 19 pandemic may be different from that estimated as at the date of approval of these financial results. The Management will continue to monitor any material changes to future economic conditions.

(iii) **Monetization of assets** :

During the year under report Mukand Ltd (the Company) decided:

2 Sensitivity analysis method

Sensitivity analysis performed by varying a single parameter while keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously. The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change if any.

4	Mortality	**Indian Assured Lives Mortality (2012-14) Ultimate**	Indian Assured Lives Mortality (2012-14) Ultimate

Notes:

a) The rate used to discount post-employment benefit obligations is determined by reference to market yields at the end of the reporting period on government bonds.

b) The estimates of future salary increases considered in the actuarial valuation take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

c) The gratuity fund is managed by life insurance company, details of fund invested by insurer are not available with company.

d) The Group expects to make a contribution of Rs. 4.91 Crore to the defined benefit plans (gratuity - funded) during the next financial year.

e) The average duration of the defined benefit plan obligation at the end of the reporting period is 7 years.

Risk exposure

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory frame work which may vary over time. Thus, the Group is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Group is not able to meet the short-term gratuity payouts. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability

Demographic Risk: The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumptions.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act,1972 (as amended from time to time) and Company's Schemes for different category of employees. There is a risk of change in regulations requiring higher gratuity payouts (e.g. increase in the maximum limit on gratuity of Rs. 20,00,000).

Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to the market risk for volatilities/fall in interest rate.

Investment Risk: The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

B. Measurement of fair value

The following methods and assumptions were used to estimate the fair values:

a) The carrying amounts of trade receivables, trade payables, deposits, other receivables, cash and cash equivalent including other current bank balances and other liabilities including deposits, creditors for capital expenditure, etc. are considered to be the same as their fair values, due to current and short term nature of such balances.

b) Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances if required, are taken to account for expected losses of these receivables.

c) The fair values for investment in unquoted equity shares were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs.

C. Fair Value Hierarchy

The fair value of financial instruments as referred to above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

(48) Financial Risk Management

The process of identification and evaluation of various risks inherent in the business environment and the operations of the Company and initiation of appropriate measures for prevention and/or mitigation of the same are dealt with by the concerned operational heads under the overall supervision of the Managing Directors of the Company. The Audit Committee periodically reviews the adequacy and efficacy of the overall risk management system. The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company has in place adequate Internal Financial Controls with reference to financial statements and such internal financial controls are operating effectively. Your Company has adopted policies and procedures for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records and timely preparation of reliable financial statements. The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk and
- Market risk

A Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade and other receivables. The carrying amounts of financial assets represent the maximum credit risk exposure.

i Trade receivables

An impairment analysis is performed at each reporting date. The expected credit losses over lifetime of the asset are estimated by adopting the simplified approach using a provision matrix. The loss rates are computed using a 'roll rate' method based on the probability of receivable progressing through successive stages till full provision for the trade receivable is made.

The ageing analysis of trade receivables (net of provision) has been considered from the date the invoice falls due -

(iii) Cash and bank balances

The Group held cash and cash equivalent and other bank balance of Rs. 209.47 crore at March 31, 2022 [including Rs 161.46 crores being Short Term Fixed Deposit Escrow Account] (March 31, 2021: Rs. 46.36 crore). The same are held with bank and financial institution counterparties with good credit rating. Also, Group invests its short term surplus funds in bank fixed deposit which carry no market risks for short duration, therefore does not expose the Group to credit risk.

(iv) Others

Other than trade financial assets reported above, the Group has no other financial assets which carries any significant credit risk.

(B) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group’s approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group’s reputation. Management monitors rolling forecasts of the Group’s liquidity position and cash and cash equivalents on the basis of expected cash flows.

C Market risk

Market risk is the risk that changes in market prices, such as interest rates (interest rate risk), will affect the Group's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

D Interest rate risk

Interest rate risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligation at floating interest rates. The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

MGFL has also made provision on Standard Assets as on 31st March, 2022 as prescribed by Reserve Bank of India (RBI) in their Notifications No. DNBS. 222 CGM(US)2011 and No. DNBS. 223 CGM (US) 2011 both dated January 17, 2011. Various Returns required to be filed with RBI have been filed with RBI in time.

(ii) Since the assets size of MGFL is less than Rs. 500 crore, it is exempted from compliance of Credit Concentration Norms of Reserve Bank of India circular No. DNBR (PD) CC.No.002/03.10.001/2014-15 dated 10/11/2014. As a matter of prudent practice, MGFL continued the disclosure in respect of CRAR, Exposure to Real Estate Sector, Leverage Ratio and Maturity Pattern of certain items of Assets and Liabilities.

(iii) SIL's operations have been suspended w.e.f. 27.10.2008. For past several years SIL's net worth has been fully eroded. The accounts have however been prepared under going concern assumption.

(iv) Further to de-allocation of coal block by Ministry of Coal, the Supreme Court of India cancelled allotment of all coal blocks in the Writ Petitions before it including the allotment received by Joint Venture Company, M/s. Mukand Vini Mineral Ltd (MVML). In F.Y. 2018-19 MVML had filed form STK - 2 with Registrar of Companies for striking off its name, and the same has been striked off during the F.Y. 2021-22.

(v) Mukand ltd had, during the Financial Year 1998-99, entered into a strategic alliance with Kalyani Steels Limited to set-up a steel plant to be operated by a company – Hospet Steels Limited. Expenses and liabilities arising out of this alliance to Hospet Steels Limited are shared on the basis stipulated in the relevant Agreements, and its accounting in the books of the Mukand is carried out, accordingly. Wherever, due to the terms of the alliance, estimations are required to be made in respect of expenses, liabilities, production, etc., the same have been relied upon by the auditors, being technical matters.

(vi) The statutory auditor of Mukand Engineers Ltd (MEL), an associate company, vide their report dated 17th May 2022 have observed and states that the Mukand Engineers Limited ("the Company") has incurred a net loss of Rs. 22.42 crores (loss after tax) during the year ending 31st March, 2022 and has accumulated losses amounting to Rs. 104.33 crores (loss after tax), up to 31st March, 2022 resulting in to erosion of the Net Worth of the Company. During the period under review, fund flow of the Company has been impacted on account of general slow-down in the business, which may also seriously impair Company's financial position. This indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as going concern. The Company had filed petitions with National Company Law Tribunal (NCLT) for Scheme of amalgamation of Mukand Engineers Limited with the Mukand Limited and the petition has been approved by NCLT after close of the year on April 29, 2022. The Scheme shall be effective from the appointed date April 1, 2019 on receipt of certified copy of NCLT order and filing the same with Registrar of Companies. On implementation of the Scheme, the MEL will cease to exist and all the assets and liabilities of the MEL will be transferred to the Mukand Limited w.e.f. the Appointed Date on a going concern basis and in the manner provided in the said Scheme. In view of this, the financial statements of MEL have been prepared on a going concern basis.

Note 54 : Previous Year's figures have been regrouped / recast wherever necessary.
