**Complete report:**

This report shall at all times be read and interpreted in full, no part of it shall be read independently for any reason whatsoever.

**11. VALUATION: PROCEDURES AND FACTORS:**

The valuation exercise is aimed at the assessment of the Fair Value of the company. We are required to arrive at the above valuations based on internationally accepted valuation practices.

As per **RICS appraisal Manual**, the Fair Value (FV) is defined as *'The price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.'*

*Ind AS (113) as well as IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.*

**Approach and Methodology**

Valuation is not an exact science and is dependent on various factors such as specific nature of business, economic life cycle in which the industry and company is operating, past financial performance of the business, future growth potential of the business, business model, management of the company, relevance of technology in the business model, liquidity of equity and much more. The results of the valuation exercise may vary significant depending on the basis used, the specific circumstances and the judgement of the valuer. In respect of going concerns, certain valuation techniques have evolved over time and are commonly in vogue.

In accordance with regulation 164 of the SEBI ICDR Regulations 2018, the shares of the company are frequently traded. Accordingly, we have calculated the price per share in accordance with Regulation 164 that deals with frequently traded shares. We have used the Volume weighted average price for a period of 90 Trading days (i.e., from 4th September, 2023 to 12th January, 2024) and 10 trading days (from 1st January, 2024 to 12th January, 2024) and the base is BSE pricing (Annexure "A")

As our shares are frequently traded so we are not using techniques such as Net Asset Value Method, Price-Earnings Multiple Method, EV/EBITA Multiple Method, Market price method among others to value under Regulation 165.

## **12. VALUATION: CONCLUSION**

These valuation conclusions must be read along with accompanying assumptions, caveats, limits and disclaimers mentioned elsewhere in this report.

Based on the pricing formula prescribed under Regulation 164 (1) of Chapter V of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 has been worked out at Rs. 5.99/- (Rupees Five and ninety-nine paisa Only) per share.

As in the present case the SHYAMKAMAL INVESTMENTS LIMITED (the Issuer) has proposed preferential issue to certain allottees, which may result in allotment of more than five (5) percent of the post issue fully diluted share capital of the Issuer to allottees and accordingly this Valuation Reports is given under Regulation 166A of the SEBI ICDR Regulation, 2018.

Regulation 166A provides that the floor price, in such case, shall be higher of the floor price determined under sub-regulation (1) of regulation 164. Our Valuation Brief is produced hereunder:

<b>Particulars</b>	<b>Price</b>
Value per share via Market Approach (As per Regulation 164(1) of SEBI (ICDR) as on relevant date 03.11.2023 (Annexure- A & B)	5.99
Value per share via Book value Approach (Net asset Value) as on 31.03.2023 (Annexure- C)	2.36
Value per share via Profit earning method- Earning approach (Annexure-D)	1.08
Average of methods (Market + NAV + Profit earning method)	3.14

As the Valuation per equity shares under Regulation 166A has been worked out at Rs. 3.14 therefore to comply with the terms of the Regulation 166A we have decided to Value at Rs. 5.99/- per equity share, which is higher of the floor price determined under Regulation 166A i.e., 3.14 per share.

Fair Value per share INR 5.99 per equity share against the Face value of Rs. 10 but as per Section 53 of the Companies Act, 2013 no company can issue shares at a discount.

Based on the workings (Annexure "A" and "B") the calculation of the fair value of the share of SHYAMKAMAL INVESTMENTS LIMITED is as under:

In accordance with regulation 164 of the SEBI ICDR Regulations 2018, the shares of the company are frequently traded. Accordingly, we have calculated the price per share in accordance with Regulation 164 that deals with frequently traded shares.

*Accordingly, pursuant to Regulation 164, for the purpose of preferential allotment of shares of Face value Rs.10 each, the Independent Fair Value of the Equity shares comes to 5.99 per equity share.*
