## Business Responsibility and Sustainability Report (BRSR)

The SEBI circular SEBI/HO/CFD/CMD-2/P/CIR/2021/562 has stated that with effect from the financial year 2022-2023, filing of BRSR shall be mandatory for the top 1,000 listed companies (by market capitalization) and shall replace the existing BRR.

The BRSR seeks disclosures from listed entities on their performance against the nine principles of the 'National Guidelines on Responsible Business Conduct' (NGBRCs) and reporting under each principle is divided into essential and leadership indicators. The essential indicators are required to be reported on a mandatory basis while the reporting of leadership indicators is on a voluntary basis.

24. Overview of the entity’s material responsible business conduct issues Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change Action	Risk and Opportunity	With the increasing awareness and concern about Climate across our key stakeholder groups like investors, customers, local communities, and employees, it becomes imperative that we treat this global risk as a company risk and turn it into an opportunity.	TiI has adopted a clear road map to reduce its Green House Gas (GHG) footprint in its aim to reduce 40% GHG emission by 2030	Negative
2	Water Management	Risk	We are conscious that fresh water is a scarce resource and that we have a duty to our social and ecological ecosystems to ensure adequate availability of fresh and clean water including its conservation.	Rainwater harvesting mechanisms have been constructed across our business units in order to recharge ground water, while effluent treatment plants (ETPs) at our plants treat waste water and reuse it in the manufacturing processes. In a move to reduce fresh water consumption, we plan to upgrade existing ETPs at all business units to zero liquid discharge and estimate this will result in savings of 150 KL per day. We are also considering introducing processes that will minimize the use of water in and reduce water consumption.	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Waste Management	Risk and Opportunity	Our approach to waste management at TII reflects the principles of a circular economy, namely Reduce, Reuse and Recycle. We operate to zero defect standard in our manufactured products in order to minimize the generation of waste and maximize its reuse and recycling after the completion of manufacturing processes	Waste at all of our units is segregated as hazardous and non-hazardous and disposed in appropriate ways, while adhering to the applicable safety norms and regulations for each type of waste. Going forward, we are committed to reducing landfill wastes from TII operations.	Negative
4	Product Stewardship	Opportunity	TII believes in producing and providing the best to its customers. At TII, we strive to maintain our brand reputation and produce products that ensure customer and end user safety		Positive
5	Responsible Supply Chain	Risk and Opportunity	We understand that a responsible supply chain is paramount to a business' survival. More importantly, in today's world, it extends to protecting our partners in value chain. It is our responsibility to build responsible supply chains, towards which we engage with our supply partners to adopt and implement practices that align with our ESG requirements and policies.	Presently, we are looking into formulating a sustainable supply chain program to assess social and environmental practices of our suppliers. We generate local employment by engaging with local suppliers and service providers and actively develop and manage local supply chains around our manufacturing sites.	Positive
6	Occupational Health and Safety	Risk	Employees are the backbone of our organisation. We emphasize and safeguard the health and safety of our employees. We are constantly working towards ensuring total adherence to the Company's safety, health, and environmental policy.	Our Safety policies (EHS) are instrumental in ensuring our employee performance. We work to promote a 'Zero incident work culture' and provide health and safety training to all our employees on how to maintain safety in the workplace environment.	Negative
7	Employee Wellbeing	Opportunity	We continuously ensure the physical, mental, emotional and financial well-being through various employee welfare initiatives.		Positive
8	Human Rights	Risk	One of the core values that acts as an anchor for TII is respect for individual rights and non-tolerance of discrimination. Our commitment to fair and dignified treatment of those we engage-with draws from the Five Guiding Lights of the Murugappa Group.	Our Company's Code of Conduct covers our respect for Human Rights and encompasses both our internal as well as external stakeholders and extends to subsidiaries as well. The Company also encourages suppliers, contractors and others to follow the values enshrined in our founding philosophy. We also follow 'Zero non-compliance to human rights.	Negative
9	Social Responsibility and Equitability	Opportunity	Social Responsibility is enshrined in our founding philosophy. We recognize the rights of communities around our operations and uphold these in the various social initiatives through which we engage with them.		Positive
10	Customer Centricity	Opportunity	Customer centricity will remain a key driver of our growth initiatives and we will continue to align all our operations with internationally established standards to address dynamic customer needs and deliver zero deficit products		Positive
11	Economic Performance	Opportunity	TII continuously strives to improve its economic performance and create value to its stakeholders		

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
12	Confidentiality	Risk	TII continuously emphasizes the need to protect its stakeholders' privacy and customers' business plans. TII has identified IT/cyber security as a risk associated with their business as these can pose a threat to the confidentiality and integrity of TII's data.	Demonstrating our respect for people's privacy, TII's Mobile Privacy Policy discloses how personal data is collected from customers/stakeholders on our proprietary mobile app ROTOGRO, as well as how it is used, shared and protected. We also make it public that we use data collection devices like cookies on certain pages of the application to help analyse the flow of the app, measure promotional effectiveness and promote trust and safety. The policy covers customer rights, such as the choice to opt out of Google Analytics for Display Advertising and customize Google Display network advertisements using the Ads Preferences Manager.	Negative
13	Compliance	Risk and Opportunity	An uninterrupted adherence to applicable regulations and monitoring of upcoming regulations is crucial in the sustenance of TII.	TII relentlessly strives to ensure zero noncompliance towards regulatory requirements and also uses various digital tools to ensure and track regulatory compliance and changes thereto.	Negative

**7. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.**

- Conversion of Liquid fuel (LPG, FO, Kerosene, C9) to Gaseous fuel (propane & PNG)
- Power purchase agreement enhancement for procurement of more renewable energy
- Solar Capacity of 305KWp and additional 200KWp initiated in TI Cycle, will become operational by next financial year
- Green Belt development up to 1.26 hectares completed. Additionally, Miyawaki Forestation Method Implemented with a coverage of more than 4500 sqft with 450 numbers of trees of native species
- Using CNG fuel Company trucks for BO material receiving from local suppliers
- All lightings changed to LED

8. Provide details related to waste management by the entity, in the following format:

No assessment was carried out by any external agencies, however internal control points are adhered to keep track of data.

9. a. Briefly describe the waste management practices adopted in your establishments.

TII has adopted the 3R principles (Reduce, Reuse & Recycle) to effectively manage and reduce its waste generation. Safe and effective practices are employed across all the business units for handling the wastes generated in the respective areas. We have environmental management system where we have operational control procedures for control, segregation, storage, and safe disposal of waste generation. Training is provided to all employees for identifying and disposal of Bio-degradable, Non-biodegradable and hazardous waste.

All wastes are disposed in identified drums with colour (Blue for plastic waste, Green for bio degradable waste like paper, wood and Red for Hazardous waste like oil / Paint / Thinner / Acid / Chemical / Coolant Soaked cloth waste / Gloves. Segregated waste in the respective bins is safely moved to the concerned storage area without spillage. The waste is disposed to authorised waste handlers for recycling and co processing. Hazardous waste authorisations are obtained from the respective State Pollution control boards for the safe and authorised disposals with the specified quantities.

**b. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

We have environmental management system where we identify the aspect, impact and its significance to the environment, basis the significance, we take objectives to reduce hazardous and toxic chemicals usage in the processes.

Examples:

- Reduction of acid consumption and spent acid generation.
- Surface coating process improvement.

**c. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

Not Applicable

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
-	-	-	-
-	-	-	-

**d. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year: Not Applicable**

**3. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):**

The Avadi plant comes under over exploited category, however TII does not withdraw and discharge any surface or ground water in that area.

For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area: Not Applicable
- (ii) Nature of operations: Not Applicable
- (iii) Water withdrawal, consumption and discharge in the following format: Not Applicable

	FY 2022-23	FY 2021-22
<b>Water discharge by destination and level of treatment (in kilolitres)</b>

<b>Total water discharged (in kilolitres)</b>		NA

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

**4. Please provide details of total Scope 3 emissions & its intensity, in the following format:**

**Not Available**

Parameter	Unit	FY (Current Financial Year)	FY (Previous Financial Year)
<b>Total Scope 3 emissions</b> (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)	<i>Metric tonnes of CO2 equivalent</i>		
<b>Total Scope 3 emissions per rupee of turnover</b>			
<b>Total Scope 3 emission intensity</b> (optional) – the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

**5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.**

None of the operations/offices of TII are located in/around ecologically sensitive areas

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The organization is working towards developing a disaster management plan in the future.

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

The value chain of TII has no significant adverse impact on the environment. However, the Company stays vigilant and promotes awareness on environment sustainability.

9. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

We are, at present, looking into formulating a sustainable supply chain program to assess social and environmental practices of our suppliers.

Principle 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Principle 9: Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators						
<b>1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.</b>						
Customer complaints are monitored and resolved by TII's Quality team with each of its business divisions in order to facilitate faster resolution. Further, the Company also carries out periodical consumer surveys and mapping of customer satisfaction trends. The results of these activities are considered and utilized as effective business strategy tools to better understand the customers and their needs. The Company also keeps track of customer satisfaction with respect to quality on a regular basis. It encourages customer feedback on product improvement and is committed to fulfilling requisites defined by customers on environment (water management, waste management, ISO 14001, etc), social (improved LTIFR, adherence to Human Rights, ISO 26000, etc) and quality (Zero defects, ISO 9001, etc) aspects.						
<b>2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:</b>

<b>4. Details of instances of product recalls on account of safety issues:</b>						
		Number	Reasons for recall			
Voluntary recalls			The company manufactures safety critical products which are supplied directly supplied to automobile and non-automobile sectors as well as to Tier 1 and Tier 2 vendors manufacturing components for OEMs. The Company follows high quality standards which are monitored through productivity and quality metrics like internal and external rejections – Parts Per Million (PPM), On Time in Full (OTIF) through Lean, 5S and 6-Sigma tools.  Any quality issues are addressed through the above methods to reduce the impact of safety concerns for its products.			
Forced recalls						
<b>5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.</b>						
The Company has in place its Mobile Privacy policy that discloses how personal data is collected from customers/ stakeholders on our proprietary mobile app ROTOGRO, as well as how it is used, shared and protected. TII also makes it public that it uses data collection devices like cookies on certain pages of the application to help analyse the flow of the app, measure promotional effectiveness, and promote trust and safety, customer rights, such as the choice to opt out of Google Analytics for Display Advertising and customize Google Display network advertisements using the Ads Preferences Manager.						

**6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.**

There have no instances of issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.
