Press Release

NATCO launches Chlorantraniliprole (CTPR) combination Agro Products in India

Hyderabad, India, October 4th, 2022

Natco Pharma Limited (NSE: NATCOPHARM; BSE: 524816) is pleased to announce launch of two *Chlorantraniliprole (CTPR)* pesticide formulated combination products under the brand names:

- a. NATVOL: Chlorantraniliprole 8.8% + Thiamethoxam 17.5% SC; and
- b. NATLIGO: Chlorantraniliprole 9.3% + Lambda-cyhalothrin 4.6% ZC

Both products are broad-spectrum, foliar insecticides used across wide range of crops. Syngenta markets these combination products under brand names Voliam Flexi® and Ampligo®. We estimate the market size of the CTPR combination products to be around ₹800 crore in India.

NATCO is the 1st company, after Syngenta, to launch above mentioned CTPR combination products in India. It follows on the heels of indigenously manufactured CTPR formulation 18.5% SC launched by NATCO recently under brand name NATGEN. NATCO has challenged FMC for revocation of their patents for these combination products that are marketed by Syngenta, and the case is pending before the Hon'ble High Court of Delhi. NATCO is committed to bringing high quality agrochemical products at affordable prices to farmers across India.
