ANNEXURE - III TO THE DIRECTORS' REPORT MANAGEMENT DISCUSSION AND ANALYSIS REPORT FOR THE FINANCIAL YEAR 2018-19

Caustic Soda Industry in India

At present, there are about 35 Caustic Soda Units in operation in the Country having a total operational installed capacity of about 39.40 lac M.T. per annum of Caustic Soda. The Caustic Soda and Chlorine are produced as Co-Products in the ratio of 1:0.88.

Chlor-Alkali is the Inorganic Building block and part of basic Heavy Chemical Industry, manufacturing Caustic Soda with Chlorine, Hydrogen, Sodium HypoChlorate and Hydro Chloric Acid as by-products. Caustic Soda is used in Alumina, Paper, Textiles, Detergents, Soaps, Pharmaceuticals Industries etc. and Chlorine is used in PVC, Chloromethane, CPW, Pulp & Paper, Pesticides, Water Purification, etc. The domestic demand for Caustic Soda and Chlorine in 2018-19 is estimated to be about 36 lacs Tons per annum and 29 lacs Tons per annum respectively. The imports of Caustic Soda remained same as earlier year. Capacity Utilisation of the Industry for the year has moved upto 89.50%. Chlorine realization was subdued due to supply demand imbalance.

Performance

During the financial year 2018-19, the Company's production of Caustic Soda Lye was 96835 M.T. as against the installed capacity of 99000 M.T. The capacity utilisation of the Company's plant at 97.8% in the financial year under review is ever higher since inception. In the financial year 2018-19, the combined average realisation at Rs.38633 per M.T. of Caustic Soda, this is also ever highest in the history of PACL. The Company has achieved highest Net Sales Turnover of Rs.375.73 crores i.e. increased by 12.6% as against the preceding financial year. The Company has earned remarkable Net Profit before Tax of Rs. 58.75 crores as against a Net Loss of Rs.4.82 crores in the financial year 2017-18.

Marketing

In the year 2018 -19, Market of Caustic Soda Lye was exceptionally good due to enforcement of BIS Standards on the Sale of Caustic Soda in India which totally dried up Imports since exporting foreign countries manufacturers did not have the BIS Certification. The Company was able to increase the sale of the quantities at an increased price as compared to last five years i.e. sale of 97258 MT at ECU of Rs.38,633/- in 2018-19 as compared to 87163 MT at ECU of Rs.38,277 in 2017-18 because of enforcement of BIS standards.

Opportunities

The Company has locational advantages as its Caustic Soda Plants are situated in its Complex at Naya Nangal, District Ropar, Punjab, which is close to a State Highway and about 12 Kms. from the Bhakra Left Bank Power Generating Station and about 2.5 Kms. from River Sutlej. These include the availability of uninterrupted Power—a crucial input, continuous water source, skilled labour and proximity to rail/road besides the existence of various end-user Units in industries like paper, fertilizers, soaps and detergents, etc. in its natural marketing zone. The demands of both the products i.e. Caustic Soda and Chlorine are linked to the Indian GDP growth because these products are considered as the building blocks of various other industries. As GDP is poised for a higher growth, the demand of these products is also expected to increase.

Threats

The Chlor-Alkali Industry is a power-intensive industry. The Company's power costs account for about 60% of its total cost of production. A hike in power tariff for the power supplied by the Punjab State Power Corporation Limited (PSPCL) and imposition of restriction on purchase of power under Open Access System constitute threats to the Company's operations. The other possible threats are increase in other input costs and expansion of installed capacities in Indian Caustic Soda Industry. On the international front, Chlorine is main product but in India Caustic Soda is the driving product, resulting in heavy competition due to import of Caustic Soda at lower rates. The Competitors are having their own Power Plants with low power cost resulting in low cost of production. Capacity build up in the domestic industry will continue to happen at the rate of 6 -7% p.a. This will have an impact on the capacity utilisation.

Outlook

The average cost of production of the Company is expected to decrease in the years to come due to modernization of its plant by installation of Generation -6 Electrolysers which are more power efficient and replacement of existing Rectifiers with more energy efficient Rectifiers. These measures will decrease cost of production of the Company. Keeping in view the recessionary trends in the economy, the expected realization price of our products might show decline vis-a-vis last year especially for second quarter and third quarter of the current fiscal year 2019-20. However, decrease in cost of production, post completion of Modernisation programme will help in sustainability.

The Company is in the process of expanding its production capacity in phases. The company has already applied for Environment Clearance from Ministry of Environment and Forest for expansion of its production capacity to 800 Tons Per Day in phases from existing capacity of 300 Tons Per Day and installation of 75 MW Coal based power plant. Apart from the above, the Company is also planning for Hydrogen Peroxide Plant to utilize its Hydrogen more effectively and to set up SBP Plant to consume Chlorine in house.

The Company is optimistic about a better performance.

Punjab Alkalies & Chemicals Limited

Risks and Concerns

The major areas of concern for the Company are hike in power tariff, safety as producing hazardous Chemicals, rise in other input costs and to maintain quality, technical competence, distribution channels etc. as working in competitive market. Dumping of Caustic Soda from neighbouring countries and increase in domestic capacities might impact realisations of the Electrochemical Unit (ECU).

Risk Management

Risks are probability or threat of damage, injury, liability, loss or any other negative occurrence that is caused by external or internal vulnerabilities and that may be avoided through preemptive action. Risk management is the identification, assessment, and prioritisation of risks followed by coordinated and economical application of resources to minimise, monitor, and control the probability and/or impact of unfortunate events or to maximise the realisation of opportunities. The Company has in place Risk Assessment and Minimisation Procedures to identify, assess and mitigate business risks. Risk Assessment and Minimisation Procedures of the Company are reviewed periodically to ensure that these reflect the current potential risks to its business. The Company has identified (1) Cost of Power – Being Power Intensive Industry and being dependent for the same on Punjab State Power Corporation Limited, (2) Production of Hazardous Chemicals – Caustic Soda and Chlorine, (3) Risk of Loss of production due to breakdown of Plant & Machinery- Plant being old and (4) Locational Disadvantage – Plant at Naya Nangal being quite far off from source of major Raw Material i.e. Industrial Salt, as Major Internal Risks besides (1) Ongoing Expansion in Caustic Soda Capacity and (2) Advancement in Technology as Major External Risks. The Board of Directors of the Company has constituted a Risk Management Committee to monitor and review the Risk Management Plan of the Company.

Internal Control Systems

The Company has adequate internal control systems commensurate with its size and nature of its business. The internal control is supplemented by internal audits conducted by the Internal Auditors of the Company. The reports of the Internal Auditors are reviewed by the Management and the Audit Committee of the Board of Directors. The adequacy of the internal control systems is also examined by the Statutory Auditors of the Company. Internal Controls over financial reporting were evaluated by Independent Consultants and no reportable material weakness in the design or operation was observed.

Human Resources

The Company lays due emphasis on sound human resource management practices and appraisal systems with focus on cordial employer-employee relations to ensure higher level of productivity and operational efficiency. Adequate Initiatives have been taken to strengthen and develop its human resources as a key strength through continuous training inputs and focused development plans. During the financial year under review, the industrial relations continued to be cordial. As on 31st March, 2019, the Company had 438 employees (including 19 employees on deputation to Punjab Small Industries and Export Corporation Limited).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind As financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind As financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind As Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Ind As financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind As financial statements.

Management's Responsibility for the Financial Statements:

1. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act., read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015, as amended. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

2. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.
3. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

ANNEXURE "B" TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Punjab Alkalies & Chemicals Limited ("the Company") as of 31st March 2019, in conjunction with our audit of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Punjab Alkalies & Chemicals Limited

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(a) Accounting Convention

The financial statements are prepared under the historical cost convention except for certain financial assets and liabilities that are measured at fair value and on the basis of going concern. The financial statements have been prepared on a going concern basis on the strength of profitability, liquidity and continued support of the promoters, financial institutions and banks. All expenses and incomes to the extent considered payable and receivable respectively, unless stated otherwise, have been accounted for on mercantile basis.

The Company has discounted Debentures in accordance with the effective interest method at the rate of 14% p.a. based on IRR and recognize the balances arrived as per the method in Other Reserve account and in long term borrowings.

(b) Property, Plant & Equipment

Tangible Assets are stated at fair values. Machinery Spares have been capitalised as and when issued. Direct costs are capitalised till the assets are ready to be put to use. These costs also include financing cost which has been capitalized on qualifying assets as per IND-AS 23. When an asset is scrapped or otherwise disposed off, the cost and related depreciation are taken out from books of accounts and resultant profit (including capital profit) or loss, if any, is reflected in Profit and Loss Statement.

Punjab Alkalies & Chemicals Limited

equipments and (iv) past operational experience as certified by the technical staff of the plant w.e.f. 1st April, 2018. Accordingly, the Company has provided depreciation on plant & equipments purchased since 2004-05 on the basis of re- estimated life of the assets during the financial year ended 31st March, 2019. (e) Valuation of Inventories

The items of inventories are valued at lower of cost or estimated net realisable value. Cost of raw material, building material and stores & spares is determined (net of input tax credit) at monthly weighted average cost basis. Material in transit is taken at cost price. Stock in process is valued at cost of raw material added. Cost of finished goods includes material cost and appropriate portion of production and administrative overheads and excludes interest and marketing expenses. The value of finished goods stock is exclusive of GST. Scrap, if any, at the year end does not form part of closing inventory.

(f) Revenue Recognition

(g) Foreign Exchange Transactions

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction. Any income or expense on account of exchange difference either on settlement or on translation is recognised in the profit and loss statement.

(h) Employee Benefits

i) Defined Contribution Plan

The Company's Contribution paid/payable during the year towards Provident Fund Scheme and Superannuation Scheme are recognised as expense in the Profit & Loss Statement.

ii) Defined Benefit Plan

The Company's liabilities towards leave encashment and gratuity are determined by an independent actuary and LIC's actuarial valuation respectively, using the Projected Unit Credit Method. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to the market yields at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds is consistent with the currency and estimated terms of the defined benefit obligations. Actuarial valuation has been done in accordance with Ind-AS 19. Actuarial gains and losses due to remeasurement in the present value of defined benefit obligations resulting from experience are recognized in other comprehensive income.
