Heatwave raises bushfire danger in Australia

CANBERRA: The scorching heatwave sweeping Australia's southeastern states continued on Monday, and the hot, dry and windy conditions raised the bushfire danger across the region. The temperature reached 40 degrees Celsius in Riverina area of the state of New South Wales (NSW), where a high fire danger was forecasted by the state's Bureau of Meteorology, reports Xinhua news agency.

CHINA FLOATS LUDICROUS THEORIES ON COVID ORIGINS Claims corona emerged from US military lab

HUIZHONG WU / Taipei

Chinese state media have played up questions about Pfizer's COVID-19 vaccine and whether it could be lethal to the very old. A government spokesperson suggests the coronavirus could have emerged from a U.S. military lab.

State media and officials are sowing doubts

ic's early days to conspiracy by the U.S.," said Fang Shimin, a now-U.S.-based writer known for exposing faked degrees and other fraud in Chinese science.

"The tactic is quite successful because of widespread anti-American sentiment in China." Yuan Zeng, an expert on Chinese media at the University of Leeds in Great Britain, said the government's

searchers in Brazil who found the effectiveness of a Chinese vaccine lower than previously announced. Researchers initially said Sinovac's vaccine is 78 per cent effective, but the scientists revised that to 50.4 per cent after including mildly symptomatic cases.

After the Brazil news, researchers at the Australian Strategic Policy Institute, a governmentsupported think tank, reported seeing an increase in Chinese media disinformation about vaccines. Dozens of online articles on popular health and science blogs and elsewhere have explored questions about the effectiveness of the Pfizer vaccine at length, drawing on an op-ed published this month in the British Medical Journal that raised questions about its clinical trial data.

"It's very embarrassing" for the government, Fang said in an email. As a result, China is trying to raise doubts about the Pfizer vaccine to save face and promote its vaccines, he said.

Senior Chinese government officials have not been shy in voicing concerns about the mRNA vaccines developed by Western drug companies. They use a newer technology than the more traditional approach of the Chinese vaccines currently in use.

In December, the director of the Chinese Centers for Disease Control, Gao Fu, said he can't rule out negative side effects from the mRNA vaccines. Noting this is the first time they are being given to healthy people, he said, "there are safety concerns." The arrival of the WHO mission has brought back persistent criticism that China allowed the virus to spread globally by reacting too slowly in the beginning, even reprimanding doctors who tried to warn the public. The visiting researchers will begin field work this week after being released from a 14-day quarantine.

The Communist Party sees the WHO investigation as a political risk because it focuses attention

Mexican President has corona

CHRISTOPHER SHERMAN Mexico City

Mexican President Andrés Manuel López Obrador has said that he has tested positive for COVID-19 and that the symptoms are mild. Mexico's president, who has been criticised for his handling of his country's pandemic and for not setting an example of prevention in public, said on his official Twitter account that he is under medical treat-

ment. "I regret to inform you that I am infected with COVID-19," he tweeted. "The symptoms are mild but I am already under medical treatment. As always, I am optimistic. We will all move forward." José Luis Alomía Zegarra, Mexico's director of epidemiology, said López Obrador had a "light" case of COVID-19 and was "isolating at home." Mexico's president wrote that while he recovered Interior Secretary Olga

Sánchez Cordero would be taking over for him in his daily news conferences, at which he usually speaks for two hours without breaks each weekday.

López Obrador, 67, has rarely been seen wearing a mask and continued to keep up a busy travel schedule taking commercial flights. He has also resisted locking down the economy, noting the devastating effect it would have on so many Mexicans who live day to day, despite that the country has registered nearly 150,000 COVID-19 deaths and more than 1.7 million infections.

Last week, the country registered its highest levels of infections and deaths to date. Early in the pandemic, asked how he was pro-

tecting Mexico, López Obrador removed two religious amulets from his wallet and proudly showed them off.

"The protective shield is the Get thee behind me, Satan," López Obrador said, reading off the inscription on the amulet, "Stop, enemy, for the Heart of Jesus is with me. In November, Tedros Adhanom Ghebreyesus, head of the World Health Organization, urged Mexico's leaders be serious about the coronavirus and set examples for its citizens, saying that "Mexico is in bad shape" with the pandemic. He didn't name López Obrador,

but said: "We would like to ask Mexico to be very serious." "We have said it in general, wearing a mask is important, hygiene is important and physical distancing is important and we expect leaders to be examples," he added.

At the start of the pandemic López Obrador was criticised for still leaning into crowds and giving hugs.

Biden & Macron's first tête-à-tête

LALIT K JHA / Washington

Joe Biden sought to mend and bolster US' strained ties with France in his first phone call as American President to his French counterpart Emmanuel Macron, as the two leaders pledged to work together on shared foreign policy priorities, including China, and fight the COVID-19 pandemic

and climate change. Biden called Macron on Sunday and expressed his desire to strengthen bilateral ties. He also stressed his commitment to bolstering the transatlantic relationship, including through NATO and the United States' partnership with the European Union, the White House said.

need for close coordination, including through multilateral organisations, in tackling common challenges such as climate change, COVID-19 and the global economic recovery," it said in a statement.

hrough NATO and the United States' partnership with the European Union, the White House said. "The leaders agreed on the

about Western vaccines and the origin of the coronavirus in an apparent bid to deflect the attacks. Both issues are in the spotlight because of the ongoing rollout of vaccines globally and the recent arrival of a WHO team in Wuhan, China, to investigate the origins of the virus.

While fringe theories may raise eyebrows overseas, the efforts also target a more receptive domestic audience. The social media hashtag "American's Ft. Detrick," started by the Communist Youth League, was viewed at least 1.4 billion times last week after a Foreign Ministry spokesperson called for a WHO investigation of the biological weapons lab in Maryland.

"It's purpose is to shift the blame from mishandling by (the) Chinese government in the pandemstories spread so widely that even well-educated Chinese friends have asked her whether they might be true.

In the latest volley, state media called for an investigation into the deaths of 23 elderly people in Norway after they received the Pfizer vaccine. An anchor at CGTN, the English-language station of state broadcaster CCTV, and the Global Times newspaper accused Western media of ignoring the news.

Health experts say deaths unrelated to the vaccine are possible during mass vaccination campaigns, and a WHO panel has concluded that the vaccine did not play a "contributory role" in the Norway deaths.

The state media coverage followed a report by re-

on China's response, said Jacob Wallis, a senior analyst at the Australian Strategic Policy Institute. The party wants to "distract domestic and international audiences by pre-emptively distorting the narrative on where responsibility lies for the emergence of COVID-19," Wallis said.

Foreign Ministry spokeswoman Hua Chunying got the ball rolling last week by calling for the WHO investigation of the U.S. military lab. The site had been mentioned previously by CGTN and other state-controlled outlets.

"If America respects the truth, then please open up Ft. Detrick and make public more information about the 200 or more bio-labs outside of the U.S., and please allow the WHO expert group to go to the U.S. to investigate the origins," Hua said.

O3 net profit up 16% YoY. Bank to push for growth in secured products. SMEs and some corporate businesses Kotak Bank Beats Estimates, Asset Quality Improves

Our Bureau

Mumbai: Kotak Mahindra Bank Monday beat estimates of net profit with a 16% on-year increase in the December quarter even as credit growth, although far from galloping, was off to a circumspect start at India's third-most valued lender that added a bit more lustre to its asset base. Buttressed by higher net interest income, net profit at the bank headed by Asia's richest banker climbed to ₹1,854 crore, from ₹1,595 crorein the corresponding period a year ago. Net interest income, or the difference between the interest earned by the bank and that it pays to depositors, expanded 17% to ₹4,007 crore versus ₹3,430 crore, netting a margin of 4.51%

"At this point, the foot has moved

from the break to the accelerator on secured products, some agri products, SME business and some of the corporate businesses," said Dipak Gupta, joint managing director of the bank. "But on the un-secured retail side, we need to be

more cautious and wait before we start pressing the accelerator." Provisions and contingencies stood at ₹599 crore, compared with ₹444 crore in the same period last year. Covid-related provisions at the bank amount to ₹1.279 crore. Asset quality metrics improved at Kotak Mahindra Bank, with gross

non-performing loan ratio coming at 2.26% at the end of the December quarter versus 2.46% same period a year ago. It reported a GNPA ratio of 2.55% in the September quarter. Net NPAs of the bank also improved to 0.5% against 0.89% a year ago.

Q3 in Numbers NET INTEREST income ex-

The bank also said if it would have classified the assets which were more than 90 days overdue as NPAs, if not for the Supreme Court's interim order of standstill on classification of assets, its gross NPAs would have stood at 3.27% and net NPAs at 1.24%. The bank made additional provisions (including interest accrued) of

₹814 crore on such advances including₹722 crore for this quarter. "Any account overdue more than 90 days, we have considered it as a problem account and made full provision against it," said Jaimin Bhatt, group CFO, Kotak Mahindra Bank. "We are seeing the momentum come back; we will be calibrated in where we grow. We are seeing growth come back in pockets in which we are comfortable. We have continued to go slow on unsecured credit and we will wait for

another six months for growth to come back in that space.

The bank has also granted one-time restructuring requests to borrowers on loans worth ₹600 crore, or 0.28% of net advances

The total advances of the lender de clined marginally year-on-year to ₹2.14 lakh crore, although loans expanded 4% sequentially. The bank's CASA ratio improved to 58.9% and average savings deposits with the bank grew 29% to ₹1.07 trillion at the end of the December quarter.

"We have given a thrust on our home loan business. In this quarter, the mortgage business has grown more than ₹2,000 crore," Bhatt added. "I don't think we are seeing any seg ment that we will stay away from; we just have to closely watch some segments before we start pressing the accelerator.

RE-RATING, EARNINGS UPGRADES TO DEPEND ON REVENUE EXECUTION PACE WHICH TRAILS PRE-COVID LEVELS **Recovery Signs are All There for L&T and** its Investors, Co Needs to Just Do it Now

ANALYSIS

Ashutosh.Shyam @timesgroup.com

ET Intelligence Group: Pundits have virtually exhausted the alphabet trying to explain the shape of the economic recovery underway in India. For the man on the street, however, Larsen & Toubro's (L&T) third-quarter earnings statement would be a more intelligible substitute.

It shows that the jammed wheels of investment have surely begun to turn: L&T's record order inflows demonstrate that with consummate ease, pointing to the robustness in economic activity. The pace of execution — and revenue recognition - will now determine whether shareholders of India's biggest engineering company will reap the benefits of the visible recovery. The order backlog is now worth

₹3.31 lakh crore — more than twice of FY20 revenue. If the pace of execution now picks up, portfolio allocation by institutional investors should increase. It isn't surprising that L&T gained 24% in the past three months, outpacing the Nifty, and FPI holding rose 322 basis points to 21.1%. Order inflows rose 76% to ₹73,233

crore in the December quarter, taking the total tally to ₹1.24 lakh crorefor the first nine months of FY21

- roughly the same as FY20. But until September, they were 40% lower. Historically, Q4 is plentiful; hence, regardless of the disruptions in the first two quarters, L&T would end FY21 with an order book that is both healthy — and

comparable with FY20. With clarity emerging on new orders, re-rating and earnings upgrades will depend on the pace of revenue execution, which still trails pre-Covid levels. Execution at seve-

ral sites has not reached full potential owing to Covid protocols, lower talent pool of required labour and rising raw material costs. Bloomberg consensus estimates show revenue growth for FY21 would decline 5%, rebounding about a fifth in FY22. Also, more domestic orders should buttress margins.

Furthermore, concerns over elevated working capital are gradually easing, with collections from clients improving. Working capital as a percentage of sales still remains relatively high at 26% due to muted revenue. In absolute terms, however, working capital requirement dropped to ₹31,000 crore in December from a peak of ₹33,000-34,000 crore. L&Tistradingat26.4 times one-year forward earnings, a 26% premium to its long-term average. The P/E premium may sustain given the visibility on orders, double-di-

git revenue growth next fiscal, and potential expansion in margins due to reducing competitive intensity.

Like futures. Options are instruments that allow you to buy or sell an underlying asset at a specified price for delivery on a future date. Though most commodity and some equity contracts are compulsorily deliverable, participants normally settle trades in cash before delivery period or expiry kicks in.

WHAT ARE THE **TYPES OF OPTION?**

Call and Put Options. A call option facilitates the purchase of an asset for a buyer as explained above. A put option allows a buyer to sell an underlier at a specific rate in the future. The option seller or writer sells a call or put to an option buyer in exchange for a premium.

ARE THESE INSTRUMENTS RISKY?

Not as risky as futures contracts for an options buyer. An options buyer's maximum loss is restricted to the premium paid to the seller, while the profit is unlimited. In contrast futures buyers or sellers are exposed to unlimited risk and enjoy unlimited profits.

However, an option seller's maximum profit is restricted to the premium received from an option buyer but losses could be unlimited if the market moves against her. She has to put up a margin with an exchange's clearing corporation. This margin is normally equal to that placed for taking a futures position. However, offsetting contracts have significantly lower margin.

HOW DOES A TRADE PAN OUT?

Assume you purchased a call on Commodity X for ₹100. If the value of that call rises to say ₹120 at expiry, the call seller is obliged to sell the underlying commodity to you for ₹100 (locked-in rate). You can sell the underlier in the spot market for ₹120, gaining 20%. Similarly, if you bought a put on Commodity X for ₹100 and it fell to ₹80 at expiry, the put option seller is obliged to buy the underlier from you at ₹100. You gain 20%.

The opposite could also happen in either case, enabling the option seller to retain the premium paid by you. As mentioned above, the options are mostly cash settled.

विदिशा,(निप्र)। 26 जनवरी गणतंत्र दिवस के राष्ट्रीय पर्व के अवसर पर कांग्रेस सेवादल द्वारा गांधी चौंक नीमताल विदिशा पर कार्यक्रम का आयोजन किया गया है। राष्ट्रपिता महात्मागांधी की प्रतिमा पर

असंभव प्रतीत होता है। कोतवाली पुलिस ने कहा कि मामले की जांच की जा रही है। महिला एवं बाल विकास व प्रशासन की टीम ने भी मौके पर पहुंचकर परिजनों व आसपास

गांधी चौक पर किया

समस्त कांग्रेस परिवार द्वारा माल्यार्पण किया जायेगा।

इस्तीफे के बाद बीजेपी के वरिष्ठ विधायक जगदीश देवड़ा प्रोटेम स्पीकर बने थे। लेकिन जुलाई में कैबिनेट में शामिल होने के लिए उन्होंने इस्तीफा दे दिया था। जगदीश देवड़ा के इस्तीफे के बाद 3 जुलाई को बीजेपी नेता व विधायक रामेश्वर शर्मा प्रोटेम स्पीकर बनाए गए थे। तब से लेकर अभी तक वे ही विधानसभा का कामकाज देख रहे हैं। प्रोटेम स्पीकर रहते उन्होंने कांग्रेस के कई विधायकों के इस्तीफे मंजुर किए। रामेश्वर शर्मा के नाम के साथ एक अनोखा रिकॉर्ड जुड़ गया है। किसी भी विधानसभा में सबसे लंबे समय तक प्रोटेम स्पीकर बने रहने का रिकॉर्ड अब शर्मा के नाम पर हो गया है। हालांकि अब सात महीने के बाद परमानेंट विधानसभा अध्यक्ष चुने जाने की संभावना तेज हो गई है। क्योंकि उपचुनाव हो चुके हैं और शिवराज सरकार के मंत्रिमंडल का विस्तार भी दो बार हो चुका है। मध्य प्रदेश में अब बीजेपी 126 विधायकों के साथ सदन में सबसे बड़ी पार्टी है। 22 फरवरी से विधानसभा का बजट सत्र शुरू हो रहा है। माना जा रहा है कि बजट सत्र के पहले ही दिन अध्यक्ष पद का चुनाव होगा। इसीलिए बीजेपी स्थायी विधानसभा अध्यक्ष के चयन करने पर मंथन शुरू कर दिया है। फरवरी के पहले सप्ताह में बीजेपी स्पीकर के लिए नाम तय कर उसका ऐलान कर सकती है। सूत्रों की मानें तो मुख्यमंत्री शिवराज सिंह चैहान प्रदेश अध्यक्ष वीडी शर्मा और संगठन महामंत्री सुहास भगत के बीच नए विधानसभा अध्यक्ष को लेकर बैठक हुई है।

किया, कथन लिए गए। पीएम रिपोर्ट के बाद गया। इस संबंध में सिविल सर्जन डॉ संजय खरे का कहना था कि शव परीक्षण पीएम के ही आगे की स्पष्ट जानकारी मिल सकेगी। मृतक के पिता सुनील चिढ़ार ने बताया बाद वस्तु स्थिति के बाद ही कुछ कहा जा कि वार्ड क्रमांक 5 विदिशा स्थित आंगनवाडी सकता है। कीड़े वाली गोली से मौत होना गणतंत्र दिवस की Arihant Capital Markets Ltd. **Arihant**Capîtal शुभकामनाएं दी
