IIFL Home Fin targets VIX sees worst ₹5,000-cr green book drop in 5 years

AJAY RAMANATHAN Mumbai, April 23

IIFL HOME FINANCE is looking to increase its green housing portfolio to ₹5,000 crore in the next three years, from around ₹2,000 crore now.

"We have set up a technical systems arm where we educate developers to make green projects. We are helping developers to build green projects and we then fund them," CEO Monu Ratra said while acknowledging that not many projects in India are green certified.

Currently, the company's sustainable housing portfolio constitutes less than 10% of the overall loan book. Around 70% of the portfolio comprises green mortgage, which are individual loans in green-certified projects. The remaining 30% comprises construction finance.

In August 2023, the International Finance Corporation (IFC) invested up to \$100 million into IIFLHome Finance, and a part of this will be used to finance green housing for buyers in this underserved segment."We have just started the self-construction portfolio in partnership with IFC.We will see it growing this year," Ratra said.

Currently, IIFL Finance holds an 80% stake in the housing finance company

while the remaining 20% is held by Abu Dhabi Investment Authority (ADIA).

The housing financier's asset under management stands at around ₹35,000 crore, with home loans constituting nearly 80% of the overall portfolio. It specifically focuses on the affordable category, where the ticket size is less than ₹20 lakh. The branch count stands at 390.

"We have got all the products that we need to cater to affordable housing depending on the geography and target segment. We do not wish to add anymore products," he said.

Going ahead, the home finance company expects its AUM to grow by around 20-22% on an annual basis. It is planning to add 30-40 branches each year. The company's plans to maintain its return on assets at over 4% and increase return on equity to over 20% from 17%.

The company plans to borrow around ₹12,000 crore in 2024-25(April-March) to meet its loan growth target. These borrowings will be a mix of non-convertible debentures, refinance and term loans.

As per the NSE, it takes the best bid-ask quotes of near and next-month Nifty options contracts which are traded in the F&O segment.

While data showed that Nifty 50 has mostly given positive returns in a month following such sharp decline in India VIX in the past, market participants were divided about the trend this time. "Looking at the overall

structure of the market, we believe the market might enter a phase of consolidation/correction. Mainly, US bond yields have gone up significantly amid probability of rate cuts this year dimming gradually," said Sahaj Agrawal, head of research, derivatives at Kotak Securities. Agrawal said a deeper correction is unlikely unless there is increased geopolitical unrest going ahead or a major unfavourable change by the Fed on the path of interest rates cuts

Other analysts said the prospects of the ruling party receiving a strong mandate could be a reason for the sharp fall in VIX on Tuesday. Rajesh Palviya, head techni-

cal and derivatives at Axis Securities, said the overall market structure looks bullish. However, he acknowledged that low Implied Volatility (IV)

generally indicates that the market may remain in narrow range in the near-term.

Amid the announcement of 2019 general election results in May 2019, India VIX had declined nearly 30% in a single day. In the following month, the Nifty 50 rose 0.4%. Similarly, post 2014 elections, India VIX had tanked 34%. This followed nearly 5% gains in Nifty 50 in the month ahead.

Nandish Shah, senior derivative analyst at HDFC Securities, said rather than making conclusions on a one-day move, investors should watch if India VIX sustains at lower levels in the next 3-4 sessions. That, he said, could be seen as an indication of lower volatility going ahead.

weak as the 5.5% y-o-y rise reported in Q2FY24 and slower than the 10% y-o-y reported in Q3FY23. The household sector accounted for almost 70% of the growth in non-government, non-financial debt in Q3, the analysis by Motilal Oswal shows.

FE was the first to report on September 19, 2023, that net financial savings of households had fallen to a near five-decade low of 5.1% of GDP in FY23, down from 7.2% in FY22 as per RBI data. Economists had attributed the sharp dip to a severe income crunch and likely transience of the post-pandemic rise in consumption.

Centre likely to again spike Hindustan Zinc split plan

This, as reported by FE earlier, was rejected by the Centre. The revised proposal was to create two companies — zinc & lead and silver — the main business lines of the company. "Hindustan Zinc today has a market cap of \$20 billion. Perhaps had we done the demerger today the market cap of silver company and zinc together would have reached somewhere around \$24 billion where both the government and Vedanta would have stood to gain," Misra said.

sail through last year. To push through the HZL demerger plan, the support of the Centre (the mines ministry) is crucial as the demerger would require approval by

three-fourths of shareholders.

The company's share price closed at ₹403.95 on the BSE on Tuesday, an appreciation of 32% in the first 23 days of FY25. Analysts expect domestic zinc demand is likely to remain strong, driven by the Centre's focus on infrastructure development and manufacturing output. HZL is one of the world's top zinc producers. The company reported a 21% on-year fall in its net profit to ₹2,038 crore for O4FY24.

As the promoter Vedanta needed cash to tide over its tight liquidity, HZL paid a strong dividend yield with a record payout of around ₹32,000 crore in FY23 (including around ₹9,000 crore accrued to the Centre).
